THE LATE HON. SAM'L D. BELL.

BY HON. CHAS. H. BELL.

Concluded.

With his methodical, laborious habits, it may well be supposed that the duties of his position were always promptly discharged. No cause languished in his court by reason of the unreadiness of the judge.

He was a man of very decided opinions. Quick in his impressions, he was ready enough to yield them, for sufficient cause; but when he had deliberately arrived at a conclusion, it was after a careful examination and reasoning, and he did not easily abandon it. It is not surprising that those who were so unfortunate as to disagree with him, sometimes thought him unduly tenacious and hard to move; but it is believed that not even the most vehement opponent ever doubted his sincerity and the honesty of his convictions.

It is somewhat remarkable that Judge Bell, being no little of a "black-letter lawyer," and living, as it were, so much in the past, was not a determined foe to innovations upon *antiquus mos*. But he was, on the contrary, quite ready to recognize the operation of the spirit of the age upon the legal system, and was by no means slow to embody in the statutes, and even in his judicial opinions, the growth of modern sentiment in amelioration of the ruder doctrines of the early law.

The purity of Judge Bell's public and private life deserves to be mentioned, to his honor. The ermine which he wore was unsullied indeed; no shade of wrong, or dishonor, ever fell upon his name. In a long life, so great a part of which was passed in the discharge of official employments, many as were the persons who must have been disappointed by his acts and opinions, no one of them ever ventured to cast a reflection upon his motives or his conduct. He went down to his grave with his fair fame wearing its life-long lustre, and with the sincere respect of even those who most widely differed from him.

His studies were by no means limited to his profession. He was a great, general reader; and his stores of knowledge upon matters unconnected with the law, were remarkable. But he gave more special attention history and the kindred subjects of biography, genealogy and topography; to mechanics and the natural sciences. In these departments he was satisfied with no half-knowledge, and it was his habit to keep himself fully informed of every fresh publication and discovery.

It may not be uninteresting to mention the field of historical investigation in which he was most engaged. Perhaps there was no subject on which he bestowed more labor than that of the early history of his own State, and in connection with it, the first European settlements upon the eastern shores of New England. By long study and diligent research of scattered and neglected sources of information, this had become familiar ground to him, and it is much to be regretted that the exacting nature of his employments did not allow him the leisure to embody his knowledge, on a subject so full of interest and so little understood, in a form to be available to others.

He did, indeed, make some progress in gathering the materials for a work which was to him a labor of love, upon the Judicial History of New Hampshire. Throughout his life he had assiduously collected all that was to be learned from record and tradition, of the courts, the judiciary and the bar, of his State. His own recollection extended over the period of half a century, and to the times of the "giants of the law," and his memory was richly stored with the anecdote and sketches of personal character, so apt to be rejected as trifling by grave historians, but which give a living interest to the bare out-lines which are all that usually survive to us, of the persons and things of the past generations. No one could have performed such an undertaking so well as Judge Bell, had his health permitted him to complete it. But before he had brought his work up to the close of the first century, it was interrupted by the hand of disease, and was never resumed. It is to be hoped that even the fragment of a work of so much interest and value, will not be suffered to pass into oblivion.

Immersed in study as he was, Judge Bell had no want of interest in plans for the public advantage. Manchester, his home, now a thriving city of some thirty thousand souls, was, when he fixed his abode there, a mere village, with its future all undetermined. Upon its few leading inhabitants, depended the question of its subsequent moral, material and social status. Judge Bell entered with interest into every scheme for the prospective welfare of the town. Among the public enterprises which he was greatly instrumental in establishing, was that of the city library, which in spite of all drawbacks, is to-day extensive, valuable, and incalculably useful to the people, and being fixed upon a liberal and permanent basis, will ere long be among the foremost institutions of its kind, and will remain a fitting monument of the wisdom and foresight which laid its foundation.

Judge Bell was an early member of the New Hampshire Historical Society, and for years held its principal offices. He prepared two valuable papers upon historical subjects, which he read before that society, and contributed largely to several of the volumes of its published collections. He was always earnest in his efforts for its maintenance and welfare, and at one time assumed, alone, considerable pecuniary liabilities, which were weighing heavily upon the institution. He retained his interest in it to the last, and was upon its committee of publication up to the time of his decease.

Such is a mere outline of some of the more prominent characteristics of one who was a learned jurist, a ripe scholar, and an upright and earnest man. Yet it cannot but be felt how poorly and unworthily it will indicate to those who never knew him, the high and unselfish aims, the symmetrical character, the useful and exemplary life, and the beneficent influence, which are held in so tender remembrance by the circle of his friends.

CORN FODDER.—A falling off in milk, and the neglect to provide food for soiling, induces many to turn stock into meadows early, and before they have become thickly coated with aftermath. It is bad economy, very injurious to meadows, while the seemingly "fair feed" is swept away in a few days, and a scanty yield of milk is the result for the rest of the season. There is no crop, therefore, that pays the dairyman better, one year with another, than the few acres devoted to corn fodder.

Corn fodder should be fed in the stalls, as there is no waste; besides, the stock thus fed are more quiet and less disposed to hang about, waiting for their feed, as they do when their fodder is given to them in the open field. Each cow in the stall gets its proper share of food, and there is no hooking or soiling of the fodder by master cows. The herd should be fed regularly at stated hours, and they soon become accustomed to the time, coming of their own accord to the stables, and during other portions of the day they will feed more in the pastures.

Corn fodder for soiling should be wilted before feeding. It is a good plan to cut it in the morning and let it lay in the sun till afternoon, and then feed. In this way some of the external moisture will be got rid of, and the food will be preferred by animals and produce better results. Corn fodder is very succulent, and does not need to be further diluted by feeding when the dew or water is adhering to it. Better reduce the water in it by wetting and partially drying.

HOW TO CURE CORNS IN HORSES.—The Turf, Field and Farm, an excellent paper, in a communication on "Squire Bingham," has the following, which seems sensible:" There is one thing more I say in all charity—about his shoeing. (I know not who has done his shoeing.) Finding his shoes off, and having heard of his having corns, inclined me to look at his fore feet: I found that the quarters or heels had been very much pared or cut down, no doubt to get rid of the corns,—a mistaken notion, as it inclines the toe forward—of all things to be avoided.

To cure corns, first remove the cause — the shoe — immediately; start the hoof to growing, get up a healthy action, and nature will rid itself of the defection. Allow the horse's foot to get back to nature, and it will expand and widen in the heel; the frog will do its part, and in a short time all will be right again. I never allow the heels to be pared except to level the shoe, and take none from the inside of the shell of the foot at all, if possible, as the inside wears the soonest. Such at least, has been my practice."

FRENCH METHOD OF RAISING TOMATOES.—As soon as a cluster of flowers is visible, the stem is topped down to the cluster, so that the flowers terminate the stem. The effect is that the sap is immediately impelled into the two buds next below the cluster, which soon push strongly and produce another cluster of flowers each. When these are visible, the branch to which they belong to is also topped down to their level, and this is done successively.

By this means the plants become stout dwarf bushes, not above eighteen inches high. In order to prevent their falling over, sticks or strings are stretched horizontally along the rows, so as to keep the plant erect. In addition to this, all the laterals that have no flowers, and after the fifth topping, all laterals whatsoever, are nipped off. In this way the ripe sap is directed into the fruit, which acquires a beauty, size and excellence unattained by other means.—*Deitz's Farm Journal.*

BRUCE AND BRAVO.—One fine day a fine Newfoundland dog and a mastiff had a sharp discussion over a bone, or some other trifling matter, and warred away as angrily as two boys. They were fighting on a bridge, and being blind with rage, as is often the case, the first thing they knew, over they went into the water. The banks were so high that they were forced to swim some distance before they came to a landing place. It was very easy for the Newfoundlander,—he was at home in the water as a seal. But not so poor Bruce. He struggled and tried his best to swim, but made little headway. Old Bravo (the Newfoundlander) had reached the land, and then turned to look at his old enemy. He saw plainly that his strength was fast failing, and that he was likely to drown. So what should that noble fellow do but plunge in, seize him gently by the collar, and keeping his nose above water, tow him safely into port.

It was funny to see those dogs look at each other as soon as they shook their wet coats.—Their glance said as plainly as words, "We'll never quarrel any more!" And, sure enough, they kept their resolution. I think some boys might learn a good lesson from this old Newfoundland dog.—*Presbyterian.*

NEW ADVERTISEMENTS.

THE ATTENTION OF REFLECTING INVALIDS is invited to the following observations. The questions are such as the sick would be likely to ask; the replies are simple facts clothed in language that everybody can understand.

WHY
is TARRANT'S EFFERVESCENT SELTZER APERIENT adapted to the cure of INDIGESTION and the complaints of
BECAUSE
it tones the membranes of the stomach and promotes the secretion of the gastic juice, thus prevent which converts the food into a life-sustaining agent; and also because it relieves the bowels without weakening them, yet mildly moderately stimulates the bile-producing organ.

WHY
is it recommended for obstructions in the kidneys and other renal diseases, and for dropsy?
BECAUSE
it combines the properties of a mild diuretic nucloride with those of a bland and general invigorant, and by promoting perspiration relieves the blood of a large amount of morbid matter which would otherwise vitiate the secretions.

WHY
is it prescribed for rheumatism, and claimed to be eminently beneficial in all the varieties of that disease?
BECAUSE
rheumatism is caused by the inflammatory action of an acid in the blood upon the fibres, membranes and ligaments; and the salines of the Seltzer Aperient being absorbed into the veinous system tend to neutralize the acid poisoning principle.

WHY
is it given by the faculty in all disorders of a febrile character?
BECAUSE
it opens the pores, reduces the temperature of the body, calms the nervous system, and gently induces evacuant, and has a refreshing effort upon the whole system. Of all liver drinks it is the most cooling and delicious.

In this brief summary of the virtues of Tarrant's Effervescent Seltzer Aperient nothing is set forth which is not justified by testimony of competent medial men.

WHAT ADVERTISERS SAY.
The firm, whose letter we print below, gave us in 1867 what was then the largest contract we had ever received for our "LISTS OF 100 LOCAL NEWSPAPERS." The fact that they this year renew the order and increase the amount is the best argument we can give that these "LISTS" are good advertising mediums.

FALL RIVER LINE
FOR New York, Philadelphia, Baltimore, Washington and all principal points West, South and South-west, VIA TAUNTON FALL RIVER AND NEWPORT.
Cabin, $5.00; Deck, $4.00.
Baggage checked through and transferred in New York free of charge.
New York trains leave the Old Colony and Newport Railway Depot, corner of South and Kneeland Streets, daily, (Sundays excepted,) as follows at 4.30 P. M., arriving in Newport 40 minutes in advance of the regular Steamboat Train, which leaves Boston at 5.30 P. M., connecting at Newport with the new and magnificent steamers PROVIDENCE, Capt. B. M. Simmons, and BRISTOL, Capt. Benj. Brayton. These steamers are the safest and most reliable boats on the Sound, built expressly for speed, safety and comfort. This Line connects with all the Southern Railroads, and the Shortest Route for New York going West and South, and convenient to the California Steamers.
"To Shippers of Freight," this Line, with its new and extensive depot accommodations in Boston, and large pier in New York, (exclusively for the business of this Line,) is supplied with facilities for freight and passenger business which cannot be surpassed. Freight always taken at low rates, and forwarded to any point.
New York Express Freight Train leaves Boston at 1.30 P. M.; goods arrive in New York next morning previous to 9 A. M. Freight leaving New York reaches Boston on the following day, at 9.45 A. M.
For tickets, berths and staterooms, apply at the Company's office at Pier 39, Old State House, corner of Washington and State Streets, and at old Colony and Newport Railroad Depot, corner of South and Kneeland Streets, Boston.
Night Line Sundays excepted.
Cars leave every Sunday evening, at 6.30 P. M., connecting as above.
The Office, 39 State House, Boston, will be open every Sunday afternoon from 2 to 4 o'clock, and at the Depot from 9 to 10 A. M., and from 5 to 6.30 P. M., for sale of tickets and staterooms.
Steamers leave New York every Monday (Sundays included,) from Pier 28 North River, foot of Murray Street, at 5 P. M.

The Chronicle.

☞ Mr. Spurgeon has found it necessary to deny formally the oft-repeated slander that he believes "there are infants in hell a span long." He says: "I have always believed in the salvation of all infants; and I intensely detest the opinions which your opponent dared to attribute to me. I do not believe that on this earth there is a single professing Christian holding the damna ion of infants; or, if there be, he must be insane or utterly ignorant of Christianity."

We presume Mr. Spurgeon has never read what the learned and pious Dr. Watts wrote on this subject; he was a sane man, and not utterly ignorant. Yet he ventured to hope for a *resurrection* of the deceased infants of *believing parents*,—and there he paused!

PEDO-BAPTIST COURTESY.—In the Newark National Sunday School Convention, in which all evangelical denominations joined, Rev. Dr. Tyng, Episcopal, could not forbear a thrust at Baptist sentiments. "It does not make any difference, friends, whether we go down a thousand feet into the water, or have but five drops on the head. It is the Holy Ghost we receive. With this in our hearts the land is ours, and we are conquerers." Why suggest, by implication, the slanderous charge that we put water in the place of the holy spirit?—*Baptist paper.*

When will we learn to expect just this kind of assault? Almost every union meeting we ever attended has been marred by just such sneers at the Baptists from the lips of men of whom we should expect better things. These union efforts are queer things at best. We are getting sick of them.—*Christian Era.*

HEROISM ON THE RAIL.—Among the compensations of disasters is the manner in which they bring out traits of courage and disinterestedness. On Saturday two accidents occurred; the first on a Connecticut River and the second on a Rutland train, as stated elsewhere. In one case a jammed brakeman, hanging by the knob of a car-door, said to the brother brakeman who came to his assistance, "Dick, if any one else is hurt more than I am, help him first." In the other case, the first words of a severely injured engineer were, "Are any of the passengers hurt?" Peace has its heroes as well as war; and great hearts and a brave sense of duty are as often found under the rough garb of the working man as under the decorated breast of the titled leader of armies.—*Bos. Trans.*

The St. Mary's (La.) Planters' Banner exposes the fallacy that white men cannot endure out-door work in the South. At Lower Cypremort, amidst millions of mosquitoes and flies, and in a hot sun, ten white men, on Mr. Kemper's place, have made as clean a crop as there is in the parish, and suffer less from sickness than the same number of negroes under similar circumstances. And more than two hundred white men on and in the vicinity of the Teche are this year doing the same kind of work.

—To prevent the becalming of sailing vessels, a Scotch inventor has contrived an apparatus which is now being applied to a new ship at Dundee. It consists of a four-bladed screw, four feet in diameter, which, when the vessel is overtaken by a calm, is to be fixed to the rudder, and is propelled by a skillful adaptation of pulleys leading over the stern of the vessel to a steam winch which is used in the loading and discharging. The propeller can be shipped and unshipped with great ease. It is calculated that it will give the vessel a speed of two or three knots per hour.

—The dispute on psalm-singing has broken out in an unexpected quarter. Some of the "Scotch-Irish" convicts in an Irish prison have petitioned the chaplain not to use hymns in worship, but the psalms of David, as the former are not inspired. They have finally been induced to yield their preferences. The Pall Mall Gazette says that if the convicts had shown the same reverence for inspired writing before their incarceration that they now show, they would have saved themselves much trouble and the country much expense.

THE QUAKERS.—An exchange says: The common notion that the sect called "The Friends" is dwindling away is incorrect. During the past year the Orthodox branch of the society alone received fifteen hundred new members. There are now twelve yearly meetings; nine in this country, and one each in Canada, Ireland and England. The society is growing quite rapidly at the West. They have three colleges in this country, viz.; Haverford College, in Pennsylvania, Earlham College, Richmond, Ind., and Whittier College, Salem, Iowa.

—A clergyman once travelling in a stage-coach was asked by one of the passengers if he thought that pious heathen would go to heaven. "Sir," answered the clergyman, "I am not appointed judge of the world, and, consequently, cannot tell; but if ever you go to heaven, you shall either find them there, or a good reason why they are not."

☞ PERRY DAVIS' VEGETABLE PAIN-KILLER.—We clip the following from the Providence General Advertiser: At this season of the year, when cholera, cholera morbus, dysentery, and other kindred complaints are sure to prevail, everybody should be liberally supplied with the PAIN-KILLER. Persons leaving home whether it be for a day's excursion or a trip to Europe, should be in a condition to place their hands on it at a moments warning. Many diseases incident to the summer months which will prove fatal if not immediately checked, can be promptly cured by one or two doses of the Pain-Killer. On more than one occasion have we been relieved of intense suffering by the timely use of the above named preparation." Sold by all Druggists, Grocers and Medicine Dealers. jy13 4w

DODD'S NERVINE DID IT.
NEW LONDON, CONN., April 20, 1869.
REMEMBERED FRIEND:
I thought it well to wait another week before writing, to see if I continued to improve, as I have been doing for some time, under the treatment of the new medicine, and I am happy to tell you that I am getting better—even faster than when you were here. I commenced the use of DODD'S NERVINE without anybody advising me to it. When I began with it I could only walk from my bed to the chair. My whole has been extreme pain in the head, and has lasted over three years. All the medicine I have heretofore taken has failed to give any relief. I am now able to go up and down stairs, and daily improving. I consider the NERVINE the best medicine I ever found, and shall continue its use, for I am confident of entire recovery. I have taken only three bottles, and would not be without it on any account. [jel5 8w] Very truly, MRS. I. S. NUTE.

AVERILL CHEMICAL PAINT!
THE RIGHT THING AT LAST!
BENJAMIN NORTON,
Having been appointed Selling Agent for this City and surrounding towns, of the AVERILL CHEMICAL PAINT COMPANY, is now prepared to sell any quantity, from one pound upward, of
THE BEST PAINT!
ever offered in this city.
It is Durable, Beautiful, Water Proof, Elastic and Economical.
This Paint is all Ready for Immediate Application, and requires no oil, thinning or drying.
It is prepared in pure White and one hundred Different Shades, and is unsurpassed in all respects.
It dries with a hard, rich, glossy surface; does not run from seams or nail holes; will not chalk, crack or peel off; covers more surface with the same body, and is cheaper, more lasting, and better in every respect than any other Paint.
Many testimonials from those who have used it in other places of its superiority over other Paints might be given; but I will only invite those of this city and surrounding towns who intend using Paints, to call at the
GROCERY AND PROVISION STORE,
Nos. 16 & 18 Cabot Street,
which is the ONLY PLACE in the City where it has been used, and examine the Paint where it has been applied in ten or twelve different shades, and where they can choose any color they desire for use, outside or in, and buy from one pound upwards.
In using the Chemical Paint, there is no difficulty in matching any color at any time, as all the shades are numbered, and the same number will always match.
These Paints are manufactured in New York, and Newburgh, Ohio. BENJ. NORTON,
Agent for Chemical Paint Company.
Also for sale, at the same place, the Best Quality of
MEATS AND GROCERIES!
AS LOW AS CAN BE BOUGHT IN THE CITY.

AMERICAN & FOREIGN PATENTS.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the United States Patent Office, Washington, under the Act of 1857,
NO. 78 STATE ST., OPPOSITE KENDRICK ST., BOSTON.
After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Research made into American and Foreign works, to determine the validity and utility of Patents or inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.
TESTIMONIALS.
"I regard Mr. Eddy as one of the most *capable and successful* practitioners, with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."
"I have no hesitation in assuring inventors that they cannot employ a man more *competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.
"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

SATURDAY, JULY 31, 1869.

☞ The Secretary of the Navy has ordered a Court of Inquiry to convene at this Navy Yard on the 3rd of August, for the purpose of investigating the charges of maltreatment of Patrick O'Brien, on board the U. S. S. Pawnee. The following officers compose the Court. Captain John Guest, President; Commander William G. Temple, Judge Advocate; Commander Clark H. Wells; Commander E. Y. McCauley.

☞ Brigham Young says it's much better to take good care of ten wives, than to marry one and deceive and abuse her. And by the same style of reasoning, isn't it better for a wife to care for ten men tenderly, than to be married to one and receive abuse? Isn't the one as proper as the other?

☞ Intelligence is received that on the 20th of June the forces of the Mikado in Japan achieved a decided victory over the northern forces under Enomatto, destroying two of their vessels and capturing two forts.

☞ A New York chowder-party of sixty had a fearful accident while returning in procession, with a wagon full of fireworks in advance. The latter exploded and five persons were horribly burned; one has since died.

A woman named McClure was instantly killed by an express train near East Kingston, on the afternoon of the 28th. She was crossing the track at the time, and was made temporarily deaf and blind by a Shaker bonnet. Notwithstanding the outcries of the gatekeeper and the engineer's signal of danger, she was apparently unconscious of the approach of the train, being right in the center of the track when thrown by the cow-catcher, so that she struck and shattered the glass of the head-light, falling upon the platform, where she remained until the train was stopped, when it was discovered that life was extinct.

LOCAL AFFAIRS.

DECIDEDLY RICH—the idea of releasing John Barrett from payment of a fine imposed for an assault and battery committed upon a lame man.—that Barrett's large family may not be thrown upon the town if he is "sent up" in consequence of inability to pay.

As an evidence of modesty on the part of Mr. Barrett, his petition for release from payment is worthy of notice. The way in which he became indebted to the city was: — having a grudge against one lame man, he pitched into another one, who, after vainly endeavoring to escape, concluded that it was easier to fight than to get thrashed, and so gave the assailing hero a good pounding. Not satisfied with this "satisfaction," Barrett brought the *first* lame man to court to answer for an assault,—the second lame man came in and testified, and Mr. Barrett was himself fined for an unprovoked and cowardly attack on a person who might well have been considered helpless to defend himself,—though it seems he wasn't, much. Barrett, disgusted at such a turn of affairs, and thinking the price of thrashings altogether too high in this town, now pleads inability to pay, and asks to be relieved from liability.

Why don't he get a contract from the city, to whack all the cripples that come round? He's used to the business, and possibly likes it. Or let him put a few extra buckets of water in the benzine-cask—that will soon make everything all square. The only reason advanced in support of his petition is, that if he goes to the House of Correction his family will be thrown upon the town for support. (Wonder who believes that?) But, even so; that would ensure the closing of his rum-hole, (the one on Market street, I mean,—not the one in his face,) and if such a nuisance as a drunkery can be abolished at so little expense, people who do not enjoy free fights in the street will be glad to have it done. Barrett's example cannot be of much benefit to his family; that he had been sampling his goods before he broke the peace to pieces is no excuse; and if his wife *is* "dissipated," I cannot see why his fine should be remitted for that reason.

If the city authorities conclude to relieve Barrett, I hope they will consider my case at the same time. I have got a tax bill which I loath and despise, and don't want to pay; I have no money to waste on such things—want it all to buy a new hat. True, I am not a man of business, like the other petitioner, nor have I enterprise enough to get drunk and roam the streets seeking whom I may devour; but my disinclination to pay my taxes should entitle me to sympathy, if nothing more. PAKEHA.

☞ The City Marshal's Report of Arrests for the quarter ending June 30, is as follows:—Assault with intent to kill 4, assault 12, bastardy 1, breaking and entering 2, brawl and tumult 2, drunkenness 84, drunkards common 3, disorderly conduct 4, deserters from House of Correction and U. S. Service 8, desertion from parents 1, false alarm of fire 1, fast driving 2, insane 2, incendiary 3, lodgings 91, larceny from person 2, larceny 12, manslaughter 1, obscene language 4, obstruction on the side-walk 1, persons asisted 3, profane language 1, suspicious persons 7, truancy 1, violating ordinance No. 105 1, violating ordinance No. 10, Sec 9, 3. Total, 225. The fines and costs collected were $371.09; deduct witness fees &c., $39.09; paid over to the City Treasury $332.

Cattle Market at Brighton.

FOR THE WEEK ENDING WEDNESDAY, JULY 28.

[Reported for the Boston Journal.]

At market for the current week—Cattle 2291; Sheep and Lambs 7286; Swine 3660; number of Western Cattle 2211; Eastern Cattle —; Northern Cattle and Working Oxen 80. Cattle left over, —.

Prices Beef Cattle—Extra $12 75 @ $13 25; first quality $12 00 @ $12 50; second quality $11 25 @ $11 75; third quality $10 25 @$11 00; poorest grade of coarse Oxen, Bulls, &c., $9 00 @ $10 00 ₽ cwt.

Cows and Calves sold at $45 and dressed beef.

Brighton Hides 9¼ @ 10c ₽ lb; Country Hides 9 @ 9½c ₽ lb.

Brighton Tallow 8 @ 8½c per lb; Country Tallow 7 @ 7½c ₽ lb.

Lamb Skins 50c; sheared Sheep Skins 25c each Calf Skins 20 @ 23c ₽ lb.

The supply of Cattle in market is not so large as that of last week, but there is more than the demand requires. The trade has not been so active as it was last week. The quality of the Beeves is better and prices are from ½ @ ½c ₽ lb. Cattle can last quotations. There was a few Cattle sold at 13½c ₽ lb at a light shrink, but the quality of them was much better than Cattle which commanded that price at last market. There was not so many Texas Cattle in market as there was last week. Most of the Northern Cattle in market are small; many of the country butchers prefer them to larger Cattle.

Store Cattle—Yearlings $18 @ $28; two year olds $30 @ $43: three year olds $45 @ $65 ₽ head. There has been but few in market of late, most of the small Cattle that are in a fair condition being sold to slaughter.

Working Oxen—There are but a few pairs in market and much call for them. Prices range $175 @ $300 ₽ pair.

Milch Cows—Prices, extra $85 @ $115; ordinary $50 @ $80; Store Cows $35 @ $53 ₽ head. Most of the Cows in market are for an ordinary grade.

Sheep and Lambs—The supply from the West was light. Sheep and Lambs were lower at Albany, but there was not much demand for them to come this way. Most of those that came in were owned by butchers. The trade for good Sheep and Lambs has been fair. We quote prices at $2.25, $2.50, $3, $3.50 @ $4 ₽ head for Sheep; Lambs from $3 @ $5 ₽ head.

Swine—Wholesale 11 @13 ₽ lb; retail 15 @ 18c ₽ lb. Spring Pigs, wholesale 14 ₽ lb; retail, 12 @ 14c ₽ lb. Fat Hogs—3500 at market: price 10 @ 10½c ₽ lb.

"FRESH AS A MAIDEN'S BLUSH"—Is the pure peachy Complexion which follows the use of Hagan's Magnolia Balm. It is the True Secret of Beauty. Fashionable Ladies in society understand this.

The Magnolia Balm changes the rustic Country Girl into a City Belle more rapidly than any other one thing. Redness, Sunburn, Tan, Freckles, Blotches and all effects of the Summer Sun disappear when it is used, and a fresh, delicate, fairy like complexion is obtained which rivals the Bloom of Youth. Beauty is possible to all who will invest 75 cents in any respectable store and insist on getting the Magnolia Balm. je21 1mw

SPECIAL NOTICES.

Dr. Ham's Aromatic Invigorator

removes from the system the ill effects caused by the excessive use of alcoholic liquors, and effectually destroys the appetite for these stimulants. It gives tone to debilitated mucous surfaces. Effete matter is removed from the system, thereby restoring it to its normal healthful condition. As a medicine, it is powerful and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

This elegant preparation has stood the test of years. A wine-glassful before eating will give a good appetite and prevent all suffering from indigestion. Ladies of weak and delicate constitutions should take the Invigorator three times a day. A wine-glassful before retiring will insure sweet and refreshing sleep. All the proprietor asks is a trial, and to induce this he has put up the Invigorator in pint bottles at 50 cents,—quarts $1.00. Principal Depot, 45 CENTRAL WHARF, BOSTON. SPECIAL NOTICES.

The World Grows Wiser.

The human stomach has been a shamefully persecuted organ. There was a time when for every dereliction of duty it was punished with hugs doses of the most disgusting and nauseous drugs. In vain it rejected them, and (literally) returned them upon the hands of those who administered them. They were forced upon it again and again, until its solvent power was thoroughly drenched out of it.

The world is wiser now than it was in that dreadful era, when furious purgation and mercurial salivation were what Artemus Ward would have called the "main holt" of the faculty, in cases of dyspepsia and liver complaint.

The great modern remedy for indigestion and biliousness is HOSTETTER'S STOMACH BITTERS, a preparation which has the merit of combining a palatable flavor with such tonic, aperient and antibilious properties, as were never heretofore united in any medicine.

It has been discovered, at least, that sick people are not like the fabled Titans, who found prostration so refreshing that, when knocked down, they rose from the earth twice as vigorous as before. When an invalid is prostrated by powerful depleting drugs, he is apt to stay prostrated; and the debilitated being aware of the fact, prefer the *building up* to the *knocking down* system of treatment.

HOSTETTER'S BITTERS meet the requirements of the rational medical philosophy which at present prevails. It is a perfectly pure vegetable remedy, embracing the three important properties of a preventive, a tonic, and an alterative. It fortifies the body against disease, invigorates and re-vitalizes the torpid stomach and liver, and effects a most salutary change in the entire system, when in a morbid condition.

In summer, when the enfeebling temperature renders the human organization particularly susceptible to unwholesome atmospheric influences, the Bitters should be taken as a protection against epidemic disease. jy21

Holloway's Ointment.—Dropsical swellings can only be reduced in two ways—by absorption and evaporation. HOLLOWAY'S OINTMENT acts powerfully and beneficially upon the vessels which perform these functions. It invigorates the absorbents, and promotes the expulsory action of the pores. Among all the external complaints for which this Ointment is an acknowledged specific, there is none in which it works greater wonders than in dropsical cases. Sold by all Druggists. jy28

THE LATEST DISCOVERY
In Medication.

The great difficulty which physicians have been labouring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S
LIVER AND STOMACH LOZENGE

is the most important medicinal novelty the modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in the pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the basis, the ground-work. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to the present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the female sex are subject, the Lozenge will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal, either among advertised preparations or the prescriptions of the regular pharmacopoia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

ALLEN'S LUNG BALSAM.

The best remedy for the cure of CONSUMPTION, and ALL DISEASES OF THE LUNGS. It causes the phlegm and matter to rise without irritating those delicate organs (the Lungs,) and without producing constipation of the bowels. It allays pain, gives rest and sound sleep at night, sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless for the most delicate child. It is everywhere in good demand and gives good satisfaction.

The result of its use is proof of its great value.—Its extraordinary healing properties are experienced by all who use it. Their testimony will be found in a pamphlet, which can be had of the agents where the medicine is for sale. d25

Ellis' Iron Bitters

Will enrich the blood and prevent it from becoming watery and weak, give a healthy complexion, restore the appetite, invigorate the system, and are very palatable. These Bitters are recommended to all persons requiring a safe and valuable tonic, to impart tone and strength to the system, not given by Bitters merely stimulant in their effects; which, although they may possess tonic vegetable properties, cannot give the strength to the blood which the *Iron Bitters* will give.

Prepared by Wm. Ellis, Chemist. For sale in Portsmouth by WILLIAM R. PRESTON; by Weeks & Potter, Wholesale Agents, 170 Washington Street, Boston; and by Druggists and Grocers generally. mh28eod6m

IMPORTANT NOTICE.

FARMERS, FAMILIES, AND OTHERS CAN purchase no Remedy equal to Dr. Tobias' Venetian Liniment for the cure of Cholera, Diarrhœa, Dysentery, Croup, Colic, and sea sickness, taken internally—(it is perfectly harmless; see each accompanying each bottle) and externally for Chronic Rheumatism, Headache, Toothache, Sore Throat, Cuts, Burns, Swellings, Bruises, Mosquito Bites, Old Sores, Pains in Limbs, Back and Chest.

The Venetian Liniment was introduced in 1847, and no one who has used it but continues to do so, many stating, if it was Ten Dollars a Bottle they would not be without it. Thousand of Certificates can be seen at the Depot, speaking of its wonderful curative properties. Price, 50 cents and one dollar. Sold by the Druggists and Storekeepers throughout the United States. ASIATIC CHOLERA.

The Strongest proof of Intrinsic Merit.

DEAR SIRS,—I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The Cholera appeared here soon after we received it. We resorted at once to the PAIN KILLER, using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was administered, recovered. It has, too, seen very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout this region. Our missionary preachers are never willing to go out on their excursions without a supply of the PAIN KILLER. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be indifferently received.

Believe me, dear sirs, gratefully and faithfully Yours, J. M. JOHNSON.

Missionary at Sicatow, China.

GRANT & PROSPERITY.

Business revives under the new regime. Other than general causes have, however, given a tremendous impetus to the sale of

Cristadoro's Excelsior Hair Dye.

The chemists have come out in two leading scientific journals against the lead and sulphur *poisons for the head* (for that is their special designation,) with which the country is infested, while Dr. Chilton, the first analytical chemist in America, announces to the world that

CRISTADORO'S DYE IS UTTERLY POISONLESS,

and that he *knows it to be so*, because he has analyzed it.

CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, acts like a charm on the Hair after Dyeing. Try it. 2jy22

BRANDRETH'S PILLS.

They remove all bad accumulations from the bowels, and purify and invigorate the system. All whose health is not perfect, owe it to themselves to take a few doses of Brandreth's Pills, because the seeds of decay are constantly generated by their use, and the principle of life confirmed, thus giving a vigor of body and mind to a period when we have been used to see the faltering step and the enfeebled intellect.

General Pace, the distinguished liberator of Venezuela, says he has used them as his only medicine for thirty years, with the most satisfactory results.

For Costiveness, Dyspepsia, and as a Family medicine they are unrivalled.

Daniel I. Tenney, Esq., Astor House, New York, cured by Brandreth's Pill of Dyspepsia and Costiveness, when all other means had failed.

A gentleman, whose father died of consumption at 36 years, was also attacked, when about 21, by the disease. He had cough, night sweats, and general debility. Doctors recommended cod liver oil, but he wasted away. At last he determined to use Brandreth's Pills. In two months they made him a sound man. jy22

PAIN KILLER.

WE beg leave to call the attention of the public to this long celebrated and unrivalled

FAMILY MEDICINE.

The PAIN KILLER is a purely vegetable compound, and we think it is a most valuable remedy for Pain, it is a perfectly safe medicine even in the most unskilful hands.

For Summer Complaint,

Or any other form of bowel disease in children or adults, it is an almost certain cure, and has without doubt been more successful in curing the various kinds of

CHOLERA,

Than any other known remedy, or even the most skillful physician. In India, Africa, and China, where this dreadful disease is ever more or less prevalent, the PAIN KILLER is considered by the natives, as well as European residents in those climates, je19

A SURE REMEDY.

SCHENCK'S PULMONIC SYRUP,

Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the digestive powers become good; the food digested makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease, gets well.—This is the only way to cure consumption.

To these three medicines Dr. J. H. SCHENCK, of Philadelphia, owes his unrivalled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, the Seaweed Tonic makes the food ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the stubborn and sluggish liver secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are in a state of inflammation and in decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success.

Full directions accompany each, making it not absolutely necessary to personally see Doctor SCHENCK, unless patients wish their lungs sounded, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond St., New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every other Wednesday. Consultation free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half-dozen. Mandrake Pills 25 cents a box. G. C. GOODWIN & CO., 38 Hanover Street, Boston, Wholesale Agents. For sale by all druggists. d1yja4

ASIATIC CHOLERA IN CHINA.
Almost Every Case Cured with Pain Killer.

Dear Sirs: I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send us last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. We resorted at once to the Pain Killer using as directed for Cholera. A list was kept of all to whom the Pain Killer was given and our native assistants assured us that eight out of every ten to whom it was administered, recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of Pain Killer. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be indifferently received. Believe me, dear sirs, gratefully and faithfully yours,

J. M. JOHNSON, Missionary in China.

From Rev. E. Telford, Missionary in China, now visiting his home in Washington, Pa.

Dear Sirs: During a residence of some ten years as a missionary in Siam and China, I found your Pain Killer a most valuable remedy for that fearful scourage, the cholera. In administering the medicine I found it most effectual to give a teaspoonful of Pain Killer in a gill of hot water sweetened with sugar; then after about 15 minutes begin to give a tablespoonful of the same mixture every half hour until relief was obtained. Apply hot applications to the extremities. Bathe the stomach with the Pain Killer clean, and rub the limbs briskly. Of those who had the cholera, and took the medicine faithfully in the way stated above, eight out of ten recovered.

Truly yours, R. TELFORD.

If attacked with diarrhœa, dysentery, or cramp colic, don't delay the use of the Pain Killer.

Beware of all Imitations.

The Pain Killer is sold by all druggists.

LOCAL AFFAIRS.

CITY MATTERS. —In the Board of Aldermen, Thursday evening, the City Clerk was authorized to inform the President of the Concord Railroad, that the Board desire and insist on the immediate building of the floating landing-place at their Railroad Wharf, according to the contract allowing the Road to extend said wharf.

Mr. J. G. Greenleaf, administrator, appeared before the Board in the matter of some pine trees cut in Sagamore Road, to repair Bridge, a year or two since, for which $25 was claimed by the late Hon. Abner Greenleaf,—who stated at the time, that when the road was laid out there, years ago, he agreed with the Town that if the trees were allowed to stand, he would remove them at any time he was desired to do so. Mr. H. S. Hartshorn, present proprietor of the estate, presented a bill for the same timber at the time—and the Aldermen last year hesitated to decide between the two, but told both that they would pay the bill to either claimant who would give bonds to indemnify the city against other claims. This Mr. Greenleaf now announced himself ready to do, or rather to bind himself to refund the money on the proof and decision by the Board, of any better claim. The matter was referred to Com. on Claims, and lies over till the meeting next week.

Ann M. Judkins stated that the recent repairs of Rogers Street now throw all the water on her premises, and asked extension of drain. Referred to Com. on Streets.

A very brief, but musical and smoothly written report, was received from Mr. S. M. DeMeritt of the School Committee, stating the need of repairs on Bartlett Schoolhouse. Referred to Com. on Schoolhouses—as was likewise the personal application of Mr. T. H. Odion, for repairs of Haven School.

Ald. Cotton called attention to the bad condition of Bow Street, near Daniel; and Ald. Miller to Chestnut St. at the Temple and below. Referred to Com. on Sts.

Ald. Slater suggested that the city should have an Assistant Street Commissioner, to attend to the mending and patching of streets. He alluded especially to the case of Middle St., last year and this.

The Mayor thought that one man ought to be able to superintend the spending of $5000 on highways.

Ald. Miller said that the Board had repeatedly directed certain repairs to be made, but they were not done. Middle St. was a special instance—which, though not *very* bad, was yet far from what such a thoroughfare should be, and the abutters on which would gladly fix themselves — yet, notwithstanding the vote to repair both last year and this, it was not touched. If Mr. Haines is set to build a new road, nobody can do it better; but he either needs more men, or an assistant, to attend to needed repairs and patchings.

Ald. Cotton said, as usual, that there are plenty of streets that needed fixing, much more than Middle street—and as he opposed any larger appropriation for streets in the spring, of course this is only the old policy of how not to do anything to improve things, which shall cost any money.

The Com. on Streets with Mayor added, presented the plan of Freeman's Point Road extension, and recommended it be adopted. This was done, and the Com. on Streets were authorized to advertise for bids, to construct same —with power to act in the matter, and order the road built.

Ald. Miller moved to take the report on the extension of Summer Street through land of Rundlett heirs, from the table. Ald. Cotton opposed, and stated that the Board voted at the last meeting, to defer action on the matter until after the decision of Ald. Cotton in the matter of Rundlett's suit for greater land damages; and therefore it could not now be considered.

Ald. Miller held that the Board of course had full power to revise or reconsider their own action; and that the motion to take from the table, necessarily included the reconsideration of the other vote—which point the Mayor sustained. The Com. on Sts. were then authorized to receive and decide on Bids for this road also.

On this point, of allowing the Committee to act on the Bids themselves, without referring them to the Board, Ald. Cotton amused himself by calling the yeas and nays several times,—so that with all the bills and four weeks' business, it was about 11 o'clock when the Board adjourned.

Ald. Miller desired nothing but the usual course of business; and the Mayor replying to his question, that the Committee took full action in the road cases last year—the Board voted, 5 to 2, in both cases, (Nowell absent) that the Com. be so empowered now.

Ald. Cotton now moved, as usual, that the Mayor be added to the Committee—saying that the more of the Board, the better and safer it would be for the city. Ald. Miller said he would as soon have the Mayor build a road for him as any man in the world, but he thought His Honor had had enough to do with the Freeman's Point Road,—to which Mr. Jones replied he thought so too. The Board refused, 5 to 2, to add the Mayor to the Committee.

Ald. Slater called up the North Millpond Bridge petition from the table; but pending its discussion, the motion to adjourn was put, and carried by yeas 3, nays 3, (Pendexter not voting)—the Mayor deciding yes.

AMERICAN INSTITUTE OF INSTRUCTION.—It has been repeatedly asked, and it will naturally be again asked by many who hear the name for the first time, What is the American Institute of Instruction? What has it done? What does it propose to do? Who are they who come here to represent it? What do they wish to effect? Why have they come here? We shall endeavor briefly to answer some of these questions.

In 1830, a few teachers and other friends of education met in Boston to see what could be done to strengthen and advance the cause in which they were interested and engaged. Then invitations were widely circulated, and several hundred persons, most of them teachers, assembled in Boston from at least eleven different States, and formed this Institute.

The leading object of the Institute is to promote the cause of popular education, by diffusing useful knowledge in regard to it; elevate the character of instruction, widen its sphere, ascertain more clearly what should be its object and perfect methods, raise the teacher, make more apparent to our fellow-citizens the absolute importance of education to the existence and continuance of free institutions, and the advancement of our race; and thence the duty of improving our schools, especially 'our Common Schools. They have met, and they continue to meet, to compare observations and opinions, and contribute the experience of each to a common stock for the benefit of all. In short, they meet to quicken to a warm glow the fire in their own breast, and to kindle it as far as possible in the breast of others.

The Institute has continued to meet annually until this day, holding a session of three or four days, and hearing from twelve to seventeen lectures, each year. It has enlisted in its service many of the ablest and most distinguished friends of education; and, at its annual meetings, it has lectures, reports, and discussions upon most of the subjects of interest to the practical teacher, and to the community as acted on by him. Many of these reports and lectures, delivered by men eminent in their respective professions, and by skilful teachers, upon subjects with which they were most familiar, are published, and form a body of science, thought, and practical wisdom, unsurpassed, we think, by any series of works in the language on the subject of education.

☞ During the session of the American Institute of Instruction in this city, the hospitalities of the citizens will be extended to the ladies attending; gentlemen will find accommodations at the hotels, where the rates are, Rockingham House and Kearsarge House, $2.50, Franklin House and National Hotel, $2.00 per day. An error in a circular has stated the Rockingham at $3.50.

☞ We understand that our Representative, Hon. Jacob H. Ela, has recently nominated for an appointment as midshipman at the Naval Academy, William Winder, son of Capt. W. A. Winder, and grandson of ex-Gov. Goodwin of this city—and that he has received notice to report himself for examination in Sept. next.

GEN. TOM THUMB'S MARRIAGE.

BY P. T. BARNUM.

It was by no means an unnatural circumstance that I should be suspected of having instigated and brought about the marriage of Tom Thumb with Lavinia Warren. Had I done this, I should at this day have felt no regrets, for it has proved, in an eminent degree, one of the "happy marriages." I only say what is known to all their immediate friends, that from first to last their engagement was an affair of the heart—a case of "love at first sight"—that the attachment was mutual, and that it only grows with the lapse of time.

But I had neither part nor lot in instigating or in occasioning the marriage. And as I am anxious to be put right before the public, and so to correct whatever of false impression may have gained ground, I have procured the consent of all the parties to a sketch of the wooing, winning and nuptials. Of course I should not lay these details before the public except with the sanction of those most interested. In this they consent to pay the penalty of distinction.

And if the woolngs of kings and queens must be told, why not the courtship and marriage of Gen. and Mrs. Tom Thumb? The story is an interesting one, and shall be told alike to exonerate me from the suspicion named, and to amuse those—and they count by scores of thousands—who are interested in the welfare of the distinguished couple.

In the Autumn of 1862 Lavinia Warren was on exhibition at the Museum. At that period Tom Thumb had no business engagement with me; in fact, he was not on exhibition at the time at all—he was taking a "vacation" at his house in Bridgeport. Whenever he came to New York he naturally called upon me, his old friend, at the Museum. He happened to be in the city at the time referred to, and one day he called, quite unexpectedly to me, while Lavinia was holding one of her levees. Here he now saw her for the first time, and very naturally made her acquaintance.

He had a short interview with her, after which he came directly to my private office and desired to see me alone. Of course I complied with his request, but without the remotest suspicion as to his object. I closed the door, and the General took a seat. His first question let in the light. He inquired about the family of Lavinia Warren. I gave him the facts, which I clearly perceived afforded him satisfaction of a peculiar sort. He then said with great frankness, and with no less earnestness:

"Mr. Barnum, that is the most charming little lady I ever saw, and I believe she was created on purpose to be my wife! Now," he continued, "you have always been a friend of mine, and I want you to say a good word for me to her. I have got plenty of money, and I want to marry and settle down in life, and I really feel as if I must marry that young lady."

The little General was highly excited, and his general manner betrayed the usual anxiety, which I doubt not most of my readers will understand without a description. I could not repress a smile, nor forget my joke, and I said: "Lavinia is engaged already."

"To whom? Commodore Nutt?" asked Tom Thumb, with much earnestness, and some exhibition of the "green eyed monster."

"No, General, to me," I replied.

"Never mind," said the General, laughing, "you can exhibit her for a while and then give up the engagement; but I do hope you will favor my suit with her."

I told the General that this was too sudden an affair; that he must take time to think of it; but he insisted that years of thought would make no difference, for his mind was fully made up.

"Well, General," I replied, I will not oppose you in your suit, but you must do your own courting. I tell you, however, the Commodore will be jealous of you, and more than that, Miss Warren is nobody's fool, and you will have to proceed very cautiously if you succeed in winning her affections."

The General thanked me, and promised to be very discreet. A change now came suddenly over him in several particulars. He had been (much to his credit) very fond of his country home in Bridgeport, where he spent his intervals of rest with his horses, and especially with his yacht, for his fondness for the water was his great passion. But now he was constantly having occasion to visit the city, and horses and yacht were strangely neglected. He had a married sister in New York, and his visits to her multiplied, for, of course, he came to New York "to see his sister!" His mother, who resided in Bridgeport, remarked that Charles had never before shown so much *brotherly* affection, nor so much fondness for city life.

His visits to the Museum were very frequent, and it was noticeable that new relations were being established between him and Commodore Nutt. The Commodore was not exactly jealous, yet he strutted around like a bantam rooster whenever the General approached Lavinia. One day he and the General got into a friendly scuffle in the dressing room, and the Commodore threw the General upon his back in "double quick" time. The Commodore is lithe, wiry and quick in his movements, but the General is naturally slow, and although he was considerably heavier than the Commodore, he soon found that he could not stand before him in a personal encounter. Moreover, the Commodore is naturally quick-tempered, and when excited, he brags about his knowledge of "the manly art of self-defence," and sometimes talks about pistols and bowie knives, &c. Tom Thumb, on the contrary, is by natural disposition decidedly a man of peace; hence, in this, agreeing with Falstaff as to what constituted the "better part of valor," he was strongly inclined to keep his distance if the little Commodore showed any belligerent symptoms.

In the course of several weeks the General found numerous opportunities to talk with Lavinia, while the Commodore was performing on the stage, or was otherwise engaged; and, as a watchful discerner, it was evident he was making encouraging progress in the affair of the heart. He also managed to meet Lavinia on Sunday afternoons and evenings, without the knowledge of the Commodore; but he assured me he had not yet dared to suggest matrimony.

He finally returned to Bridgeport, and privately begged that on the following Saturday I would take Lavinia up to my house, and also invite him.

His immediate object in this was that his mother might get acquainted with Lavinia, for he feared opposition from that source whenever the idea of his marriage should be suggested. I could do no less than accede to his proposal, and on the following Friday, while Lavinia and the Commodore were sitting in the green room, I said:

"Lavinia, you may go up to Bridgeport with me to-morrow morning, and remain until Monday."

"Thank you," she replied; "it will be quite a relief to get into the country for a couple of days."

The Commodore immediately pricked up his ears and said:

"Mr. Barnum, I should like to go to Bridgeport to-morrow."

"What for?" I asked.

"I want to see my little ponies; I have not seen them for several months," he replied.

I whispered in his ear, "you little rogue, *that* is the pony you want to see," pointing to Lavinia.

He insisted I was mistaken. When I remarked that he could not well be spared from the Museum, he said:

"Oh! I can perform at half past seven o'clock, and then jump on the eight o'clock evening train, and go up by myself, reaching Bridgeport before eleven, and return early Monday morning."

Continued to-morrow.

MASTA'S PULMONIC BALSAM

IS A SPEEDY and certain remedy for Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Catarrh, Influenza, Hooping Cough, Asthma and the various Affections of the Lungs.

☞ The attention of those afflicted with COLDS, COUGHS, and with any disease of the lungs, is directed to this valuable remedy. On account of sudden changes in the weather, colds and coughs are easily taken, and if neglected may lead to disease of the lungs. What is needed under such circumstances is a reliable remedy—speedy in affording relief, and effectual in arresting farther progress of the disease.

☞ To arrest the existing irritation of the air-passages and the lungs, speedily and effectually, the seat and cause of cough is an important step gained toward relief and cure in the first stages of the disease. MASTA'S PULMONIC BALSAM possesses this important power, and while it promptly and effectually arrests all existing irritation, and rapidly relieves cough, it renders the lungs further relief by promoting a free discharge of the accumulated mucus in the air-passages, imparting a healthy action and vigor to the chest at the same time.

☞ Those suffering with cough and the first stages of lung disease, will therefore find in this valuable preparation a speedy and decided relief. Even those whose condition is beyond recovery, will derive from its use great benefit as well as comfort. For the class of diseases it is designed to relieve, the general commendation it has received has proved its efficacy beyond question. For the past ten years have been speedily and effectually cured by its timely use while suffering from severe colds, protracted coughs, and from other forms of lung disease. It is prepared from vegetable balsams and the medicinal properties of roots and herbs, with no minerals nor poisonous acids; simple and safe in the material used, it can be taken at any time.

Sold in Portsmouth by J. H. THACHER, and by Druggists and Dealers in medicines throughout the New England States.

NEW ADVERTISEMENTS.

THE ATTENTION OF

REFLECTING INVALIDS is invited to the following observations. The opinions are such as the sick would be likely to ask; the replies are simple facts clothed in language that everybody can understand.

WHY

is TARRANT'S EFFERVESCENT SELTZER APERIENT adapted to the cure of INDIGESTION and its concomitants?

BECAUSE

it tones the membranes of the stomach and promotes the secretion of the gastric juice, the solvent which converts the food into a life-sustaining agent; and also because it relieves the bowels without weakening them, and moderately stimulates the bile-producing organ.

WHY

is it recommended for obstructions in the kidneys and other renal diseases, and for dropsy?

BECAUSE

it combines the properties of a mild diuretic saline with those of a tonic and general invigorant, and by promoting perspiration relieves the blood of a large amount of morbid matter which would otherwise vitiate the secretions.

WHY

is it prescribed for rheumatism, and claimed to be eminently beneficial in all the varieties of that disease?

BECAUSE

rheumatism is caused by the inflammatory action of an acid in the blood upon the fibres, membranes and ligaments; and the saline of the Seltzer Aperient combined with the citrate system tend to neutralize the vitiating principle.

WHY

is it given by the faculty in all disorders of a febrile character?

BECAUSE

it opens the pores, reduces the temperature of the body, quiets the nerves, and acts as a copious evacuant, and has a refreshing effect upon the whole system. Of all fever drinks it is the most cooling and delightful.

In this brief summary of the virtues of Tarrant's Effervescent Seltzer Aperient nothing is set forth which is not justified by testimony of competent medical men.

THIRTY YEARS' Experience in the Treatment of Chronic and Sexual Diseases.—*A Physiological View of Marriage.* The 154th edition just published—containing nearly 300 pages, and 130 fine plates and engravings of the anatomy of the human organs in a state of health and disease, with a treatise on every errors, the deplorable consequences upon the mind and body, with the author's plan of treatment—the only rational and successful mode of cure, as shown by a report of cases treated. A truthful advisor to the married and those contemplating marriage who entertain doubts of their physical condition. Sent free of postage to any address on receipt of 25 cents, in stamps or postal currency, by addressing Dr. LA CROIX, No. 31 Maiden Lane, Albany, N. Y. The author may be consulted upon any of the diseases upon which his books treat, either personally or by mail, and medicines sent to any part of the world.

THIS IS NO HUMBUG.—By sending 35 cents, with age height, color of eyes and hair, you will receive by return mail, a correct picture of your future husband or wife, with name and date of marriage. Address W. FOX, P. O. Drawer No. 8, Fultonville, New York.

KNITTING THE SCARF.

A sly little maiden sits by me to-night,
Softly humming an old tune low;
The bright threads flash through her fingers white,
As she guideth the needle to and fro.
Sweet is the song that the maiden singeth,
Sad to my heart are the thoughts it bringeth;
Dreams that were buried so long ago,
Under the snow—under the snow.

Little the maiden knoweth of this,
Weaving the bright threads in the while;
Her thoughts are weaving a dream of bliss,
And the red lips part in a sweet half smile,
As her happiness in with each stitch she twineth,
And the light in the luminous eyes that shineth
Under the lids grow tender and dim,
Thinking of him—thinking of him!

Thus the needle beareth a double thread,
As daintily in and out it flies,
And the conscious blood in her cheek glows red
'Neath the smile of my steady eyes.
Shake down the cloud of thy brown hair's glory,
Lest thy blushes should tell the story
That was old when the Eden skies were blue,
Yet ever is new—ever is new.

So blushing and shyly the maiden sings,
Knitting the scarf for her absent lover;
And methinks two angels with golden wings
Softly around the maiden hover.
Heaven grant that the hope thou art weaving
Leave no room in thy heart for grieving;
"Angels keep thee," I softly pray,
Turning away—turning away.

ROMANCE OF A CHICAGO DIVORCE COURT.—Among the applicants for divorce in Chicago last week was a lady whose history is decidedly romantic. Her maiden name was Lucie Junod, and she was born within a few miles of Neufchatel, Switzerland, the daughter of a landed proprietor of ancient and wealthy family. At one of the merry-makings in honor of the gathering of the vintage, where all ranks of the people meet on a common footing, M'lle Lucie met with a handsome young watchmaker named Gustave Flotrean. The heiress and the mechanic fell in love with each other, other meetings succeeded, and they were soon engaged.

When the young lady's father discovered the state of affairs he was transported with rage, and forbade his daughter, under the severest penalties, ever to see her lover again. Having a fortune of $75,000 in her own right, she thought she could afford to indulge her fancy, made an elopement, and, to avoid living where all the facts were known, came to this country.

Nine years have elapsed since that event, and she is now dependent on her labor for the support of herself and her little girl of eight years. Her husband is a brutal sot, who has dissipated his wife's fortune in every species of lavish expenditure, selling her plate, jewels, and even wardrobe, to enable him to gratify his appetite. Outraged by every kind of ill-treatment, and fearing personal violence to herself and child, Mrs. Flotrou has finally sought to terminate her matrimonial career where so many others have ended—in a Chicago court.

LANDED ESTATES.—Of all earthly possession which man is enabled to accumulate in life, there is nothing so far removed from the changes of depreciation and incidental loss of any kind as real estate, legitimately acquired and judiciously selected. In all the great revolutions which have swept so often over the world, leaving recorded in history the proud names of patrician families, powerful and wealthy throughout ages, who survived the storm, which like a whirlwind, had carried away others,—the stability of such families is always traceable to the prudence with which they guarded, the tenacity with which they preserved their "landed estates" to the inheritants of their line.

Take your wealth of diamonds and gold, secrete it in the very bowels of the earth, and it is subject to discovery and loss. Lock it up in iron boxes, inaccessible to all else but the exigency of your own surroundings, and periods in your existence may occur when voluntarily the bolts may fall and your golden treasure take wings. The most permanent security is in real estate investments and improvements.—*Real Estate Journal.*

A SLIGHT MISUNDERSTANDING.—A lady employed a young girl about fifteen years old to assist her about her housework, and one day she was making some cake, and wished to put some kind of plums in it; so she set a dish down on the table with the plums, and told the girl to *stone* them, and to show her how, she took up a plum and took out the stone, with the remark, "That is the way;" and then, thinking the girl understood what she meant she put the plum she had into her mouth, instead of into the dish, and went away. What was her surprise, a short time after, to have the girl come into the room where she was, and tell her she had eaten all she could! And when the lady went into the room where she had been at work, she found she had put all the stones into the dish, and eaten all she could of the plums; she thinking that the hard pieces—meaning the stones—would soften up when baked in the cake.

READ THIS.
ASIATIC CHOLERA IN CHINA.
Almost Every Case Cured with Pain Killer.
Dear Sirs: I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send us last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. We resorted at once to the Pain Killer taking as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to the multitudes of poor people throughout all this region. Our native Christians are now willing to count on their excursions without a supply of Pain Killer. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be indifferently received. Believe me, dear sirs, gratefully and faithfully yours,
J. M. JOHNSON, Missionary in China.
From Rev. R. Telford, Missionary in China, now visiting his home in Washington, Pa.
Dear Sirs: During a residence of some ten years as a missionary in Siam and China, I found your Pain Killer a most valuable remedy for that fearful scourge, the cholera. In administering the medicine I found it most efficacious to give a teaspoonful of Pain Killer in a gill of hot water sweetened with sugar; then after about 15 minutes begin to give a tablespoonful of the same teaspoonful of Pain Killer in a gill of hot water every half hour until relief was obtained. Apply hot applications to the extremities. Bathe the stomach with the Pain Killer clear, and rub the limbs briskly. Of those who had the cholera, and took the medicine faithfully in the way stated above, eight out of ten recovered.
Truly yours, R. TELFORD.
If attacked with diarrhœa, dysentery, or cramp colic, don't delay the use of the Pain Killer.
Beware of all Imitations.
The Pain Killer is sold by all druggists.

☞ PERRY DAVIS' VEGETABLE PAIN-KILLER.—We clip the following from the Providence Gazette and Farmer: At this season of the year, when cholera, cholera morbus, dysentery, and other kindred complaints are sure to prevail, everybody should be literally supplied with the PAIN-KILLER. Persons leaving home whether it be for a day's excursion or a trip to Europe, should be in a condition to place their hands on it at a moments warning. Many diseases incident to the summer months which will prove fatal if not immediately checked, can be promptly cured by one or two doses of the Pain-Killer. On more than one occasion we have been relieved of intense suffering by the timely use of the above named preparation." Sold by all Druggists, Grocers and Medicine Dealers. jy13 4w

DODD'S NERVINE DID IT.
NEW LONDON, CONN., April 26, 1869.
REMEMBERED FRIEND:
I thought it well to wait another week before writing, to see if I continued to improve, as I have been doing for some time, under the treatment of the new medicine, and I am happy to tell you that I am getting better—even faster than when you were here. I commenced the use of DODD'S NERVINE without anybody advising me to it. When I began with it I could only turn from my bed to the chair. My trouble has been extreme pain in the head, and has lasted over three years. All the medicine I have heretofore taken has failed to give any relief. I am now able to go up and down stairs, and daily improving. I consider the NERVINE the best medicine I ever found, and shall continue its use, for I am confident of entire recovery. I have taken only three bottles, and would not be without it on any account. [je15 5w] Very truly, MRS. I. S. NUTE.

AVERILL CHEMICAL PAINT!
THE RIGHT THING AT LAST!
BENJAMIN NORTON,
Having been appointed Selling Agent for this City and surrounding towns, of the AVERILL CHEMICAL PAINT COMPANY, is now prepared to sell any quantity, from one pound upward, of
THE BEST PAINT!
ever offered in this city.
It is Durable, Beautiful, Water Proof, Elastic and Economical.
This Paint is all Ready for Immediate Application, and requires no oil, thinning or drying.
It is prepared in pure White and one hundred Different Shades, and is unsurpassed in all respects.
It dries with a hard, rich, glossy surface; does not run from seams or nail holes; will not chalk, crack or peel off; covers more surface with the same body, and is cheaper, more lasting, and better in every respect than any other Paint.
Many testimonials from those who have used it in other places of its superiority over other Paints might be given; but I will only invite those of this city and surrounding towns who intend using Paints, to call at the
GROCERY AND PROVISION STORE,
Nos. 16 & 18 Cabot Street,
which is the ONLY PLACE in the City where it has been used, and examine the Paint where it has been applied in ten or twelve different shades, and where they can see any color they desire for use, outside or in, and buy from one pound upwards.
In using the Chemical Paint, there is no difficulty in matching any color at any time, as all the shades are numbered, and the same number will always match.
These Paints are manufactured in New York, and Newburgh, Ohio. BENJ. NORTON,

GEN. TOM THUMB'S MARRIAGE.

BY P. T. BARNUM.

Continued From Yesterday.

I feared there would be a clashing of interests between the rival pigmies; but wishing to please him, I consented to his request, especially as Lavinia also favored it. I wished I could then fathom that little woman's heart, and see whether she (who must have discovered the secret of the General's frequent visits to the Museum) desired the Commodore's visit in order to stir up the General's ardor, or whether, as seemed to me the more likely, she was seeking in this way to prevent a *Remonstrant* which she was not inclined to favor.

Certain it is, that though I was the General's *confidante*, and knew all his desires upon the subject, no person had discovered the slightest evidence that Lavinia Warren had ever entertained the remotest suspicion of his thought regarding marriage. If she had made the discovery, as I assume, she kept the secret well. In fact, I assured Tom Thumb that every indication, so far as any of us could observe, was to the effect that his suit would be rejected. The little General was fidgety but determined, hence he was anxious to have Lavinia meet his mother, and also see his possessions in Bridgeport, for he owned considerable land and numerous houses there.

The General met us at the depot in Bridgeport on Saturday morning, and drove us to my house in his own carriage—his coachman being tidily dressed, with a broad velvet ribbon and silver buckle placed upon his hat, expressly for the occasion. Lavinia was delighted that this was the General's "turn out;" and, after resting half an hour at Lindencroft, he took her out o ride. He stopped a few moments at his mother's house, where she saw the apartments which his father had built expressly for him, and filled with the most gorgeous furniture—all corresponding to his own diminutive size. Then he took her to East Bridgeport, and undoubtedly took occasion to point out in great detail all the houses which he owned, for he depended much upon having his wealth make some impression upon her. They returned, and the General stayed to lunch. I asked Lavinia how she liked her ride; she replied:

"It was very pleasant, but, "she added, "it seems as if you and Tom Thumb own about all of Bridgeport!"

The General took his leave and returned at five o'clock to dinner, with his mother. Mrs. Stratton remained until seven o'clock. She expressed herself charmed with Lavinia Warren; but not a suspicion passed her mind that little Charlie was endeavoring to give her this accomplished young lady as a daughter-in-law. The General had privately asked me to invite him to stay over night, for, said he, "If I get a chance, I intend to 'pop the question' before the Commodore arrives." So I told his mother I thought the General had better stop with us over night, as the Commodore would be up in the late train, adding that it would be more pleasant for the little folks to be together. She assented, and the General was happy.

After tea Lavinia and the General sat down to play backgammon. As nine o'clock approached I remarked that it was about time to retire, but somebody would have to sit up until nearly eleven o'clock, in order to let in the Commodore. The General replied:

"I will sit up with pleasure—if Miss Warren will remain also."

Lavinia carelessly replied that she was accustomed to late hours, and she would wait and see the Commodore. A little supper was placed upon the table for the Commodore, and the family retired.

Now, it happened that a couple of mischievous young ladies were visiting at my house, one of whom was to sleep with Lavinia. They were suspicious that the General was going to propose to Lavinia that evening, and in a spirit of ungovernable curiosity they determined, notwithstanding its manifest impropriety, to witness the operation, if they could possibly manage to do so on the sly. Of course this was inexcusable, the more so as so few of my readers, had they been placed under the same temptation, would have been guilty of such an impropriety! Perhaps I should hesitate to use the testimony of such witnesses, or even to trust it. But a few weeks after they told the little couple the whole story, were forgiven, and all had a hearty laug'h over it.

So happened that the door of the sitting-room, in which the General and Lavinia were left at the backgammon board, opened into the hall just at the side of the stairs, and these young misses, turning out the lights in the hall, seated themselves upon the stairs in the dark, where they had a full view of the cosy little couple, and were within easy ear-shot of all that was said.

The house was still. The General soon acknowledged himself vanquished at backgammon, and gave it up. After sitting a few moments he evidently thought it was best to put a clincher on the financial part of his abilities; so he drew from his pocket a policy of insurance, and handing it to Lavinia, he asked her if she knew what it was.

Examining it she replied, "It is an insurance policy. I see you keep your property insured."

"But the beauty of it is, it is not my property," replied the General, "and yet I get the benefit of the insurance in case of fire. You will see," he continued, unfolding the policy, "this is the property of Mr. Williams, but here, you will observe, it reads 'loss, if any, payable to Charles S. Stratton, as his interest may appear.' The fact is, I loaned Mr. Williams three thousand dollars, took a mortgage on his house and made him insure it for my benefit. In this way, you perceive, I get my interest, and he has to pay the taxes."

"That is a very wise way, I should think," remarked Lavinia.

"That is the way I do *all* my business," replied the General, complacently, as he returned the huge insurance policy to his pocket. "You see," he continued, "I never lend any of my money without taking bond and mortgage security, then I have no trouble with taxes; my principal is secure, and I receive my interests regularly."

The explanation seemed satisfactory to Lavinia, and the General's courage began to rise. Drawing his chair a little nearer to hers, he said:

"So you are going to Europe soon?"

"Yes," replied Lavinia, "Mr. Barnum intends to take me over in a couple of months."

"You will find it very pleasant," remarked the General, "I have been there twice; in fact, I have spent six years abroad, and I like the old countries very much."

"I hope I shall like the trip, and I expect I shall," responded Lavinia, "for Mr. Barnum says I shall visit all the principal cities, and he has no doubt I will be invited to appear before the Queen of England, the Emperor and Empress of France, the King of Prussia, the Emperor of Austria, and all the courts of any other countries which we may visit. Oh! I shall like that, it will be so new to me."

"Yes, it will be very interesting, indeed. I have visited most of the crowned heads," remarked the General, with an evident feeling of self-congratulation. "But are you not afraid you will be lonesome in a strange country?" asked the General.

"No, I think there is no danger of that, for friends will accompany me," was the reply.

"I wish *I* was going over, for I know all about the different countries, and could explain them all to you," remarked Tom Thumb.

"That would be very nice," said Lavinia.

"Do you think so?" said the General, moving his chair still closer to Lavinia's.

"Of course," replied Lavinia, coolly, "for I, being a stranger to all the habits and customs of the people, as well as to the country, it would be pleasant to have some person along who could answer all my foolish questions."

"I should like it first rate, if Mr. Barnum would engage me," said the General.

"I thought you remarked the other day that you had money enough, and was tired of travelling," said Lavinia, with a slightly mischievous look from one corner of her eye.

"That depends upon my company while travelling," replied the General.

"You might not find my company very agreeable."

"I would be glad to risk it."

"Well, perhaps Mr. Barnum would engage you if you asked him," said Lavinia.

"Would you *really* like to have me go?" asked the General, quietly insinuating his arm around her waist, but hardly close enough to touch her.

"Of course I would," was the reply.

The little General's arm clasped the waist closer as he turned his face nearer to hers, and said:

"Don't you think it would be pleasanter if we went as man and wife?"

Concluded to-morrow.

HEAR REV. DR. BEECHER!—"Has not God connected with all lawful avocation the welfare of the life that now is, and of that which is to come? And can we lawfully amass property by a course of trade which fills the land with beggars, and widows, and orphans, and crimes; which peoples the grave yards with premature mortality, and the world of woe with the victims of despair? Could all the form of evil produced in the land by intemperance come upon us in horrid array, it would appal the nation and put an end to the traffic in ardent spirits."

MASTA'S PULMONIC BALSAM

IS A SPEEDY and certain remedy for Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Catarrh, Influenza, Hooping Cough, Asthma and the various Affections of the Lungs.

☞ The attention of those afflicted with COLDS, COUGHS, and with any disease of the lungs, is directed to this valuable remedy. On account of sudden changes in the weather, colds and coughs are easily taken, and if neglected may lead to disease of the lungs. What is needed under such circumstances is a reliable remedy—speedy in affording relief, and effectual in arresting further progress of the disease.

☞ To arrest the existing irritation of the air-passages and the lungs, speedily and effectually, the seat and cause of cough is an important step gained toward relief and cure in the first stages of the disease. MASTA'S PULMONIC BALSAM possesses this important power, and while it promptly and effectually arrests all existing irritation, and rapidly relieves cough, it renders the lungs further relief by promoting a free discharge of the accumulated mucus in the air-passages, imparting a healthy action and vigor to the chest at the same time.

☞ Those suffering with cough and the first stages of lung disease, will therefore find in this valuable preparation a speedy and decided relief. Even those whose condition is beyond recovery, will derive from its use great benefit as well as comfort. For the class of diseases it is designed to relieve, the general commendation it has received has proved its efficacy beyond question. For the past ten years have been speedily and effectually cured by its timely use while suffering from severe colds, protracted coughs, and from other forms of lung disease. It is prepared from vegetable balsams and the medicinal properties of roots and herbs, with no minerals nor poisonous acids; simple and safe in the material used, it can be taken at any time.

Sold in Portsmouth by J. H. THACHER, and by Druggists and Dealers in medicines throughout the New England States.

NEW ADVERTISEMENTS.

THE ATTENTION OF

REFLECTING INVALIDS is invited to the following observations. The questions are such as the sick would be likely to ask; and they are simple facts clothed in language that everybody can understand.

WHY

is TARRANTS EFFERVESCENT SELTZER APERIENT adapted to the cure of INDIGESTION and its concomitants?

BECAUSE

it tones the membranes of the stomach and promotes the secretion of the gastric juice, the solvent which converts the food into a life-sustaining agent; and also by gentle stimulation the bowels without weakening them, and moderately stimulates the bile-producing organ.

WHY

is it recommended for obstructions in the kidneys and other renal diseases, and for dropsy?

BECAUSE

it combines the properties of a mild diuretic saline with those of a local and general invigorant, and by promoting perspiration relieves the blood of a large amount of morbid matter which would otherwise vitiate the secretions.

WHY

is it prescribed for rheumatism, and claimed to be eminently beneficial in all the varieties of that disease?

BECAUSE

rheumatism is caused by the inflammatory action of an acid in the blood upon the fibres, membranes and ligaments; and the salines of the Seltzer Aperient both absorbent and the nitrous system tend to neutralize the vitiating principle.

WHY

is it given by the faculty in all disorders of a febrile character?

BECAUSE

it opens the pores, reduces the temperature of the body, calms the nerves, and acts as a moderate evacuant, and has a refreshing effort upon the system. In all fever drinks it is the most cooling and delightful.

In this brief summary of the virtues of Tarrant's Effervescent Seltzer Aperient nothing is set forth which is not justified by testimony of competent medial men.

WHAT ADVERTISERS SAY.

The firm, whose letter we print below, gave us in 1867 what was then the largest contract we had ever received for our "LISTS OF 100 LOCAL NEWSPAPERS." The fact that they this year renew the order and increase the amount is the best argument we can give that those "LISTS" are good advertising mediums.

A CHINAMAN'S LEDGER.—A Chinese, named Ah Sam, who kept the Lore Nelson Restaurant in Victoria, Vancouver Island, became bankrupt and was ordered to file a schedule of his assets. Not knowing the name of his customers, he had entered short descriptions of them in his ledger, and when he entered court he had nothing more than the following to show.—It was given me by his solicitor as a legal curiosity.
A butcher owes $18 — captain of a schooner, $50—cook in ship's galley, $8 —red shirt man, $27—man comes late, (a printer?) $10—cap man $8 50c—lean white man, $24—fat Frenchman, $39 62 1-2c.—captain, tall man, $20—French, old man, $8—whiskers man, $18 37 1-2c,—blacksmith, $49—barkeeper, $5—workman, $5—whiskers man's friend, $6 25c.—double blanket man, $6 50c—little short man, $10—double blanket man's friend, $15—lame leg man, $40—fat man, $9 25c.—old man, $8—red whiskers, $7 50c.—steamboat man, $18—Indian Yea, 4 62 1-2c. —Dick make coal shoveler, $28—Yea Yap earnings, $25—flower pantaloon man, $16—shoemaker gone to California, $15 62 1-2c. —a man, butcher's friend, $39—stableman, $16—get tight (drunk) man, $7.
The last entry the commissioner decided was of much too general a character to allow of the slightest hope of fixing the debt upon any one in particular.—*All the Year Round.*

POWER OF A HORSE'S SCENT.—There is one perception which a horse possesses to which little attention has been paid, and that is the power of scent. With some horses it is acute, as with the dog; and for the benefit of those who have to drive at night, such as physicians and others, this knowledge is invaluable. I never knew it to fail, and I have ridden hundreds of miles on dark nights, and in consideration of this power of scent, this is my simple advice.
Never check your horse at night, but give him a free head and you may rest assured that he will never get off the road, and will carry you expeditiously and safe. In regard to the power of scent in a horse, I once knew one of a pair that was stolen, and recovered mainly by the track being made out by its mate, and that after he had been absent six or eight hours.—*Tait.*

—The Exeter News Letter warns its readers against a 'swindler,' who is selling patent rights for an invention to run machinery of any discription, from a sewing machine to a saw mill. He claims that his invention saves half the power, in other words, it is a modification of that long sought perpetual motion. If our readers are inclined to purchase, let them first experiment in lifting themselves over a five-rail fence in a bushel basket; if they succeed it will be safe to invest.

EARTH CLOSETS.—This new method of preventing offensive odors from arising from sinks and retiring apartments, is at present undergoing examination by a commission of the Engineer Bureau of the United States War Department. It is proposed to substitute the earth closets for water closets at barracks, hospitals and other military establishments of the United State.

—A Presbyterian exchange tells a curious story of the Congregational church in Hanover, Mass. It says that the pastor had made himself obnoxious to some of the young people by opposing the use of the town hall for balls and kindred purposes. Whereupon they became members of the society by hiring sittings, and at the parish meeting voted to raise nothing for the pastor's salary the coming year, thus virtually dismissing him from his position.

—The New Orleans Picayune says painful accounts are received from Texas of the devastations of the flood along the valleys of the Colorado, Brazos and Guadaloupe Rivers. The first has suffered most. Whole villages have been swept away, and the farms along its entire breadth have been ruined. The estimated damage on the Colorado alone is put at $3,000,000.

—Soon after the appearance of Madame de Stael's novel "Delphine," in which she is said to have introduced Talleyrand in the character of an old woman, she ventured to ask him what he thought of the book. "Delphine:" he replied; "that is the book, is it not, in which you and I are exhibited in the disguise of females?"

—Early last Saturday morning Mr. William H. Corliss was knocked down in Amesbury and robbed of a small amount of money. Subsequently the parties concerned in the robbery, Richard Pierce and Charles F. Beckman, were arrested in Salisbury and bound over in $1000 each for trial.

—Timothy Ryan, of Black Hawk county, Iowa, went suddenly insane a few days ago, and remained so up to the time of his death. The docter attributes his insanity and death to the intemperate use of tobacco, the man being an inveterate smoker.

READ THIS.
ASIATIC CHOLERA IN CHINA.
Almost Every One Cured with
Pain Killer.
Dear Sirs: I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send us last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. We resorted at once to the Pain Killer using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of Pain Killer. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be indifferently received. Believe me, dear sirs, gratefully and faithfully yours,
J. M. JOHNSON, Missionary in China.
From Rev. R. Telford, Missionary in China, now visiting his home in Washington, Pa.
Dear Sirs: During a residence of some ten years as a missionary in Siam and China, I found your Pain Killer a most valuable remedy for that fearful scourge, the cholera. In administering the medicine I found it most effectual to give a teaspoonful of Pain Killer in a gill of hot water sweetened with sugar; then after about 15 minutes begin to give a tablespoonful of the same mixture every half hour until relief was obtained. Apply hot applications to the extremities. Bathe the stomach with the Pain Killer clear; and rub the limbs briskly. Of those who had the cholera, and took the medicine faithfully in the way stated above, eight out of ten recovered.
Truly yours, R. TELFORD.
If attacked with diarrhœa, dysentery or cramp colic, don't delay the use of the Pain Killer.
Beware of all imitations.
The Pain Killer is sold by all druggists.

☞ PERRY DAVIS' VEGETABLE PAIN-KILLER.—We clip the following from the Providence General Advertiser: At this season of the year, when cholera, cholera morbus, dysentery, and other kindred complaints are sure to prevail, everybody should be literally supplied with the PAIN-KILLER. Persons leaving home whether it be for a day's excursion or a trip to Europe, should be in a condition to place their hands on it at a moments warning. Many diseases incident to the summer months which will prove fatal if not immediately checked, can be promptly cured by one or two doses of the Pain-Killer. On more than one occasion have we been relieved of intense suffering by the timely use of the above named preparation." Sold by all Druggists, Grocers and Medicine Dealers.

DODD'S NERVINE DID IT.
NEW LONDON, CONN., April 26, 1869.
REMEMBERED FRIEND:
R Thought it well to wait another week before writing, to see if I continued to improve, as I have been doing for some time, under the treatment of the new medicine, and I am happy to tell you that I am getting better every day, and when you were here. I commenced the use of DODD'S NERVINE without anybody advising me to it. When I began with it I could only walk from my bed to the chair. My trouble has been extreme pain in the head, and has lasted over three years. All the medicine I have heretofore taken has failed to give any relief. I am now able to go up and down stairs, and daily improving. I consider the NERVINE the best medicine I ever found, and shall continue to use it for I am confident of entire recovery. I have taken only three bottles, and would not be without it on any account. Yours truly, MRS. J. S. NUTE.

AVERILL CHEMICAL PAINT!
THE RIGHT THING AT LAST!
BENJAMIN NORTON,
Having been appointed Selling Agent for this City and surrounding towns, of the AVERILL CHEMICAL PAINT COMPANY, is now prepared to sell any quantity, from one pound upward, of
THE BEST PAINT!
ever offered in this city.
It is Durable, Beautiful, Water Proof, Elastic and Economical.
This Paint is all Ready for Immediate Application, and requires no oil, thinning or drying.
It is prepared in pure White and one hundred Different Shades, and is unsurpassed in all respects.
It dries with a hard, rich, glossy surface; does not run from seams or nail holes; will not chalk, crack or peel off; covers more surface with the same body, and is cheaper, more lasting, and better in every respect than any other Paint.
Many testimonials from those who have used it in other places of its superiority over other Paints might be given; but I will only invite those of this city and surrounding towns who intend using Paint, to call at the
GROCERY AND PROVISION STORE,
Nos. 16 & 18 Cabot Street,
which is the ONLY PLACE in the City where it has been used, and examine the Paint where it has been applied in ten or twelve different shades, and where they can choose any color they desire for use, outside or in, and buy from one pound upwards.
In using the Chemical Paint, there is no difficulty in matching any color at any time, as all the shades are numbered, and the same number will always match.
These Paints are manufactured in New York, and Newburgh, Ohio. BENJ. NORTON,
Agent for Chemical Paint Company.
Also for sale, at the same place, the Best Quality of
MEATS AND GROCERIES!
AS LOW AS CAN BE BOUGHT IN THE CITY.

SOLICITOR OF PATENTS,
Late Agent of the United States Patent Office, Washington, under the Act of 1837,
NO. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,
Attends as extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents or inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.
TESTIMONIALS.
"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents."
"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him in procuring their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

Portsmouth, N. H.

TUESDAY, AUGUST 3, 1869.

FIRE IN CONCORD.—We learn from the Monitor Extra, that a fire broke out soon after 12 o'clock, Sunday morning, in E. C. Eastman & Co's. Bookstore, which destroyed that store with most of its contents, and four other stores, all built of wood after the fire of 1851. Loss of property $35,000; mostly insured. But there was a loss of life, under sad conditions. The fire was first discovered by a night policeman, in a stairway leading into the basement of Eastman's building.

Part of this building, the second story, was occupied by Geo. H. Batchelder, as a boot-manufactory. Mr. B. had in his employ a man named Patrick Mara, an Irish bootmaker of excellent workmanship but drunken habits; and on Sunday morning about 6 o'clock, the burnt remains of this man were found on the bed of a power press, in Eastman's basement.

He had not been seen by his wife after 7 o'clock Saturday night, when as usual he was intoxicated. There is little or no doubt that he went into the boot shop in the evening, meaning to sleep there; and that being thirsty he went down stairs to get water in the basement, lighting his way by matches, and thus unintentionally burnt the building and himself.

LONDONDERRY.—William S. Pillsbury to Joseph Garney and al. Land and buildings for $2600.

NORTHWOOD.—Elizabeth S. Hoyt to Caleb W. Hanson. Land for $6.

FORT CONSTITUTION seems given up wholly to grasshoppers. The fort has the appearance of having passed thro' a heavy siege; the buildings are almost falling down from decay, and the hundreds of thousands of dollars spent there are as good as wasted. We hope Congress will appropriate a sufficient sum at its next session to finish the big job of rebuilding.

A CLEAN SWEEP.—A day or two since Deputy Constable McKay, at North Adams, Mass., prosecuted Thomas Luetenville for keeping a liquor nuisance. The defendant was convicted and paid $50 and cost. After paying he invited Deputy McKay to go with him to his saloon. Luetenville there rolled out his stock of liquors, consisting of fifteen gallons each of whiskey, rum and gin, and twenty-five gallons of ale, and requested the officer to turn it into the gutter, which was done.

☞ We are permitted to make the following extracts, from private letters of Paymaster T. L. Tullock, jr., to his friends at home:—

U. S. Steamer Oneida,

NAGASAKI, JAPAN, June 3.

* * * We leave for Hakodadi tomorrow, *via* the western coast of Japan, where the late trouble between the Mikado and Enimoto's forces occurred. The trip is a new one to us, and one seldom travelled; so we expect to find it interesting. When there, we shall have completely circumnavigated Japan, and have sailed through the inland seas.

HAKODADI, June 20.

We arrived here yesterday, and found the place beseiged by the Mikado's fleet and about 5000 land forces. All the foreign inhabitants had been aboard the two men-of-war lying near the harbor, for a month. The U. S. Gunboat Aroostook had the American consul and about twenty others on board, who had previously been warned by the authorities that their lives would not be safe in the city. They were getting short of provisions, and regarded our arrival, as they expressed it, a perfect godsend. We took on board a portion of the refugees, including the consul and his family. The English had a vessel, the Pearl, anchored among the Mikado's ships, and it was said they had been giving them aid, and instructions as to how they should make the attack and carry on the fight. With our usual good luck we arrived just in time to witness one of the most exciting and bloody fights which has occurred, as yet, during the war. * * *

This morning at half past 3 o'clock the attack was made by the combined army and navy of the Mikado, the vessels shelling the forts and the two ships in the harbor, and the land forces fighting along the coast. The heavy boom of the cannon, the bursting of shells and the rattle of musketry were plainly seen and heard by us, and their maneuvering was distinctly visible. Our sympathies are with the Tycoon's troops, who hold Hakodadi and the fort on the opposite side of the harbor. Enimoto, the chief of the Tycoons, is a very able and plucky fellow, and we could see was, with his troops, fighting nobly. They know that if captured no quarter will be given them, but they will straightway be put to death, as both sides make it a rule to take no prisoners. Enimoto has but 3000 troops and two war vessels. The Mikado's forces have every advantage and will no doubt win. The ironclad "Stonewall" is the secret of their power. * * *

Half past 8 o'clock P. M.— The little "Emperor" came out from behind the fort this afternoon and fought the Mikado's whole fleet, and by good luck one of her shells fired the magazine of one of their largest ships, and she blew up immediately. It was a most magnificent sight. In an instant, "in the twinkling of an eye," she was gone. There was nothing to be seen but a huge column of smoke, and the end of a mast sticking out of the water, to which several men were clinging for dear life. It is said that her crew consisted of 250 men, most of whom were lost. We could not help cheering the desperate bravery of the little Emperor as she continued for some time to fight her remaining adversaries. She finally was compelled to retreat and soon after was blown up, together with the Eagle. About half the city is on fire, and the smoke of burning houses and of burning ships and of gunpowder covers the hills and hides them from our view. The place is probably in the hands of the Mikado; the forts, however, are still held by Enimoto, as his guns plainly indicate.

June 21st, evening.—We have moved our anchorage to a position just ahead of the Pearl, and have some of the Mikado's vessels around us. Our captain and the consul went up to town this afternoon, the fleet ceasing fire so as to give them an opportunity to do so. The consul, Mr. Rice, found his house uninjured, but reports about one third of the town in ruins and some 15,000 of the people houseless. We can see them scattered around on the tops of the hills back of the town, where they have been driven by shot, shell, and fire. * *

June 22d.—We are anxious and impatient to see the end of the conflict, that we may be able to get into the inner harbor and receive fresh supplies. We had a dance on board last evening. Our musicians played admirably, and the ladies say they have not had so good a time since they have been in Hakodadi. While the dance was going on the Iroquois arrived, and the firing of rockets and burning of signal lights illuminated the entire harbor.

—To turn people's heads—go into church late.

—Let us go always beyond the duties marked out, and keep within the pleasures permitted.

From the Journal.

KEARSARGE MILLS.—We understand that about 350 hands (or seven-tenths of the full number) are now employed at Kearsarge mills in this city, and about 65,000 yards of Satin Jean cloth are manufactured per week. The company have just been making a change of boilers for their engine, taking out the eight old ones and putting in their place three Corliss boilers 22 ft long and 7½ feet in diameter. With these boilers they calculate to save about one-half the cost of Coal while they gain about 150 horse power on the engine. The new agent, Mr. John F. Smith, is a man peculiarly fitted for the place by a thorough practical knowledge of the entire work of manufacturing cloth. Beginning at the lowest round he has successively worked his way through the various branches, having been overseer in each department successively of the various processes of manufacture. With this practical knowledge he at first took charge of the Weaving room in Kearsarge Mills, and continued their until the agents, place was vacant. We think that stockholders may be assured that if anything can be made from the mill they have the man whose energy and ability will accomplish it. The Proprietors' Clerk, A. R. H. Fernald, Esq., has held that position nearly if not quite as long as the mill under its several names has been in existence.

MCADAMIZED STREETS.—It seems by the following item from the Newburyport Herald that there is trouble elsewhere than in Portsmouth from bad streets. Something as hard and solid as stone is necessary to construct our highways. We think crushed stone must be preferable even to seaside pebbles, and hope our City Council will soon look upon the subject of street construction in the same light, and take measures to ascertain certainly whether the stone crushing machine is the needed improvement that some of our citizens think it is:

A few days ago, just after a rain, we were on the point of giving our City Government a general blowing up for the condition of the streets; but the great improvement they have made in State street, by the bringing of coarse gravel and pebbles, see washed, from the base of Eagle Hill in Ipswich, makes up for all past delinquences. State street was never in so good condition; it is equal to a macadamized road; and now that we have found a supply of material suited to the streets we hope it will be liberally used. Our streets, especially those in the centre of the town, should be kept hard, neat and clean. It don't pay to have poor and dusty streets.

PATENT RENEWED.—Our old townsman, Mr. John Pepper, now residing at Ipswich Mass., has had his patent for a Knitting machine extended seven years. It is for footing and heeling either ribbed or plain stockings, and is also adapted to making gloves or mittens. The examiner in his report says the following high compliment to Mr. Pepper: "I am satisfied from the evidence, that Mr. Pepper has been as diligent with his machine as was possible under the circumstances, and it appears that his persistent efforts in connection with knitting machinery, has tended greatly towards making the product of knitting goods in this country, what it is, viz: about 23,000,000 dozen of hose annually." Mr. Pepper has procured several patents on machines, but this one seems to be of very great importance. The commissioner says, "that prior to this invention stockings were footed on machines run by hand, which would foot about four dozen a day, at a cost of from 56 to 70 cents a dozen, whereas by this footing machine, worked by power, from 20 to 25 dozen are footed.

Dr. Ham's Aromatic Invigorator

removes from the system the ill effects caused by the excessive use of alcoholic liquors, and effectually destroys the appetite for these stimulants. It gives tone to debilated mucous surfaces. Effete matter is removed from the system, thereby restoring it to its normal healthful condition. As a medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

This elegant preparation has stood the test of years. A wine-glassful before eating will give a good appetite and prevent all suffering from indigestion. Ladies of weak and delicate constitutions should take the Invigorator three times a day. A wine-glassful before retiring will insure sweet and refreshing sleep. All the proprietor asks is a trial, and to induce this he has put up the Invigorator in pint bottles at 50 cents,—quarts $1.00. Principal Depot, 45 CENTRAL WHARF, BOSTON. SPECIAL NOTICES.

The World Grows Wiser.

The human stomach has been a shamefully persecuted organ. There was a time when for every dereliction of duty it was punished with huge doses of the most disgusting and nauseous drugs. In vain it rejected them, and (literally) returned them upon the hands of those who administered them. They were forced upon it again and again, until its solvent power was thoroughly drenched out of it.

The world is wiser now than it was in that drastic era, when furious purgation and mercurial salivation were what Artemus Ward would have called the "main bolt" of the faculty, in cases of dyspepsia and liver complaint.

The great modern remedy for indigestion and biliousness is HOSTETTER'S STOMACH BITTERS, a preparation which has the merit of combining a palatable flavor with such tonic, aperient and antibilious properties, as were never heretofore united in any medicine.

It has been discovered, at least, that sick people are not like the fabled Titans, who found prostration so refreshing that, when knocked down, they rose from the earth twice as vigorous as before. When an invalid is prostrated by powerful depleting drugs, he is apt to stay prostration, and the debilitated being aware of the fact, prefer the *building up* to the *knocking down* system of treatment.

HOSTETTER'S BITTERS meet the requirements of the rational medical philosophy which at present prevails. It is a perfectly pure vegetable remedy, embracing the three important properties of a preventive, a tonic, and an alterative. It fortifies the body against malaria, invigorates and re-vitalizes the torpid stomach and liver, and effects a most salutary change in the entire system, when in a morbid condition.

In summer, when the enfeebling temperature renders the human organization particularly susceptible to the unwholesome atmospheric influences, the Bitters should be taken as a protective against epidemic disease. jy21

Holloway's Ointment.—Dropsical swellings can only be reduced in two ways—by absorption and evaporation. HOLLOWAY'S OINTMENT acts powerfully and beneficially upon the vessels which perform these functions. It invigorates the absorbents, and promotes the expulsory action of the pores. Among all the external complaints for which the Ointment is an acknowledged specific, there is none in which it works greater wonders than in dropsical cases. Sold by all Druggists. jy28

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medical step that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in the planetary form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the fairer sex are subject, this Lozenge will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an adjunct to medical or general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopoeia.

☞ It is guaranteed that no one who has once tried Dr. ERASMUS WINSLOW'S **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

ALLEN'S LUNG BALSAM.

The best remedy for the cure of CONSUMPTION, and ALL DISEASES OF THE LUNGS. It causes the phlegm and matter to rise without irritating those delicate organs (the Lungs,) and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless for the most delicate child. It is everywhere in good demand and gives good satisfaction.

The result of its use is proof of its great value.—Its extraordinary healing properties are experienced by all who use it. Their testimony will be found in a pamphlet, which can be had of the agents where the medicine is for sale. d25

Ellis' Iron Bitters

Will enrich the blood and prevent it from becoming watery and weak, give a healthy complexion, restore the appetite, invigorate the system, and are very palatable. These Bitters are recommended to all persons requiring a safe and valuable tonic, to impart tone and strength to the system, not given by Bitters merely stimulant in their effects; which, although they may possess tonic vegetable properties, cannot give the strength to the blood which the *Iron Bitters* will give.

ASIATIC CHOLERA.

The Strongest proof of Intrinsic Merit.

DEAR SIRS,—I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The Cholera appeared here soon after we received it. We resorted at once to the PAIN KILLER, using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was given, recovered. It has, too, seen very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of the PAIN KILLER. It gives them power in the eyes of the people, and access to families and localities by whom otherwise they would be very indifferently received.

Believe me, dear sirs, gratefully and faithfully Yours, J. M. JOHNSON.

BRANDRETH'S PILLS.

They remove all bad accumulations from the bowels, and purify and invigorate the system. All whose health is not perfect, owe it to themselves to take a few doses of Brandreth's Pills, plainly the seeds of decay are constantly eradicated by their use, and the principle of life confirmed, thus giving a vigor of body and mind to a period when we have been used to see the faltering step and the enfeebled intellect.

General Paez, the distinguished liberator of Venezuela, says he has used them as his only medicine for thirty years, with the most satisfactory results.

For Costiveness, Dyspepsia, and as a Family medicine they are unrivalled.

Daniel J. Tenney, Esq., Astor House, New York, cured by Brandreth's Pill of Dyspepsia and Costiveness, when all other means used had failed.

A gentleman, whose father died of consumption at 36 years, was also attacked, when about 21, by the disease. He had cough, night sweats, and general debility. Doctors recommended cod liver oil, but he wasted away. At last he determined to use Brandreth's Pills. In two months they made him a sound man. jy22

PAIN KILLER.

WE beg leave to call the attention of the public to this long celebrated and unrivalled

FAMILY MEDICINE.

The PAIN KILLER is a purely vegetable compound, and while it is a most efficient remedy for Pain, it is a perfectly safe medicine even in the most unskilful hands.

For Summer Complaint,

Or any other form of bowel disease in children or adults, it is an almost certain cure, and has without doubt been more successful in curing the various kinds of

CHOLERA,

Than any other known remedy, or even the most skillful physician. In India, Africa, and China, where the dreadful disease is ever more or less prevalent, the PAIN KILLER is considered by the natives, as well as European residents in those climates, jel9

A SURE REMEDY.

SCHENCK'S PULMONIC SYRUP,

Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relaxe the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the blood outgrows the disease, and he is well.—This is the only way to cure consumption.

To these three medicines Dr. J. H. SCHENCK, of Philadelphia, owes his unrivalled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it out, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, and the glands of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented (not even calomel is deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, to allay fever, and to stop diarrhea; they damage the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord, and no one can be cured without ripening. Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are the cause of inflammation, or bleeding. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver must be put in order to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach; the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 228 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success.

Full directions accompany each, making it not absolutely necessary to personally see Doctor SCHENCK, unless parties wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond St., New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half-dozen.—Mandrake Pills 25 cents a box. G. G. GOODWIN & CO., 38 Hanover Street, Boston, Wholesale Agents. For sale by all druggists. d1yis4

Are gaining steadily and certainly a reputation unsurpassed. The readily ascertained superiority they possess over the ordinary Spectacles makes them very popular.

IT IS A FACT

That they render impaired sight clear and distinct; strengthen and preserve the eyes; are very easy and pleasant to wear, and **last many years without change** being necessary, so that in the end they are the **cheapest as well as the best.**

LOCAL AFFAIRS.

THE APPLEDORE HOUSE at the Shoals overflowed with company on Sunday. The Messrs. Laighton stowed away 275 guests under its roofs, Saturday night. Among the distinguished visitors there last week were the poet Whittier and Rev. Geo. H. Hepworth of Boston. On Saturday a large whale, 100 feet long, hove in sight and paddled about for a while, but, as there were no rooms with doors large enough to admit him to the house, declined to land. Some lucky fishermen brought in a 250 lb. swordfish, Saturday afternoon, and the gentlemen boarders manned the rope gallantly and dragged it from the landing to the house, cheered and encouraged by the presence and smiles of the ladies, who *would* see what was going on.

An elderly lady of many pounds fell overboard at the landing, Saturday afternoon. She floated easily and came ashore by the assistance of the gentlemen present.

☞ Mr. J. R. Whitehead of Bath, Me., formerly of the Charlestown Navy Yard, takes charge of the trip hammer in the Smith's Department, under direction of Naval Constructor S. M. Pook, at this Navy Yard.

Mr. Jesse N. Wilson, and not Mr. Samuel W. French, has been appointed Quarterman in the Calker's Department. Mr. Chas. N. Osgood, the new Master Calker, served honorably in a Maine Regiment during the rebellion. Messrs. Wilson of Portsmouth and Dinsmore of Kittery, Quartermen, held the same positions four years ago when Mr. French was Master Calker. Both are skilled mechanics and working Republicans.

The Seely Court of Inquiry commences its session at the Navy Yard, to-day.

Mr. H. H. Ham, Jr., has been appointed to a clerkship in the Equipment Department. Glad to hear of it.

Simonds, Turner and Shorter, the colored seamen of the U. S. S. Pawnee, appeared before U. S. Commissioner Hackett on Monday, and were bound over in the sum of $1000 each to appear on the 17th inst., on the charge of robbing the surgeon of the Pawnee.

BRIEF MENTION.—J. C. Bailey's excursion to the Shoals comes off to-day. May it be like unto the first.

The Middle Street Baptist Society and Sabbath School hold a picnic at Dow's Grove on Wednesday, if pleasant.

Mr. and Mrs. Chas. W. Martin, formerly of this city, now of Haverhill, Mass., celebrated their wooden wedding, Monday evening. The occasion was not by any means a wooden one.

A full base ball game of five innings, played at the Plains, Saturday afternoon, resulted in a victory for the younger players, by a score of 31 to 17. A Picked Nine is organizing for a "bat" with the Rye Beachers.

The women at the Beaches this year are said to be ladies.

Communication.

☞ We were glad to see the question in our morning paper, what is the matter with the gas? Coal is high, poor coal cheap, poor coal makes poor gas, bad gas makes people complain. Everybody has a right to ask, what is the matter? We have to light four burners instead of one or two—and the four wane and flicker, shoot up and wane again, until reading and writing are almost impossible—our tempers are ruffled, but our gas bills are the same. We burn half as much gas, but our bills are never the less. We ask the very-gentlemanly collector of the Gas Co., why is this? he tells us there is complaint everywhere—says something about a new gasometer, but really we gainn o answer to the question, why *do* we have to burn, and pay for, poor Gas?

PRO BONO PUBLICO.

☞ The nice Omnibus to the Sagamore House, offers fine opportunity for any, to make a pleasant trip for a very little cost. Ladies or others, can take a ride down in the forenoon, and return in the up-coach at just about the right time in the afternoon. Or the 'bus will run extra, to accommodate parties.

☞ For the Horse Fair on Wednesday and Thursday, at the Rockingham Trotting Park, a special train will run on the Concord Railroad; and the regular trains on both Roads always accommodate passengers by stopping near the grounds. The sport will be good.

☞ The three or four hundred young lady teachers who arrive to-day, will we hope be gallantly looked after by the young men who are so proverbially attentive. We also hope that if the gentlemen aforementioned choose to attend the meetings of the Institute, the lady visitors will not for a moment imagine that they are at all responsible in the matter. Of course the gentlemen desire to learn and have no curiosity to gratify.

THE AMERICAN INSTITUTE OF INSTRUCTION.—The fortieth annual meeting, as has been announced, is to be held on Tuesday, Wednesday and Thursday of this week, at Congress Hall in this city.

TUESDAY, Aug. 3d. The meeting will be organized at 2 1-2 o'clock P. M. After the customary opening exercises, there will be a discussion upon *The Supervision and Inspection of Schools.* In the evening a lecture will be delivered by the Hon. Joseph White, Secretary of the Massachusetts Board of Education.

Correspondence of Chronicle and Gazette.

RYE, Aug. 2.

The Advent Camp Meeting, which has been in operation here for the past two weeks, has not been held in vain, for to-day about half a dozen persons, of both sexes, were baptized in the ocean at Bass' Beach, near the Farragut House. The occasion drew together a great many of the towns-people, and was also witnessed by some of the boarders. Everything was done in order, and it is to be hoped that the example thus shown may be followed by others, who doubtless would be benefitted thereby. As the meeting has been such a success this year, it would seem that the tent might remain awhile longer, and the gospel dispensed another week at least.

An entertainment was given by Mr. James H. Beals of Boston, in honor of his daughter's birthday, at Weld's Hall, on Friday evening, which was attended by a large number of the boarders at the private houses, as well as some from the hotels. It was a fine affair. The music was by Messrs. Knights and Brown of Boston, the former presiding at the piano, and the latter, who is leader of the Boston Brigade Band, performing on the cornet.

A hop at the Atlantic House Saturday evening, was a very lively affair, and seemed to be enjoyed hugely by the young ladies and gentlemen who participated in it.

The band at the Ocean House performs day and evening, both as brass and string. The guests there enjoy more privileges, as far as music is concerned, than those at any other hotel on the beach. The coaches Saturday evening brought full loads, and filled the hotels pretty well up to their capacity. Among the arrivals at the Farragut House, is Hon. A. H. Rice of Boston.

Barnabee heppened along at the Farragut last Wednesday, and favored the guests of that establishment with a couple of his best songs, which were highly relished by them. It is reported that he will repeat the performance at an early day, and if he does, he will meet with a warm and cordial reception.

The weather for the past week has been rather cool for beach business, and on several mornings the fog has been quite dense.

The farmers have got through haying, and report about a two-thirds crop, but the quality is better than the average of last year. R.

A FAIR will be held at Caswell's Hall, on Star Island, (Isles of Shoals,) August 3rd, and will be continued one week; the proceeds of which are to be expended for a Day School. The new Steamer Appledore will leave Pier Wharf, Portsmouth, every day on the arrival of the early train from Boston, on the Eastern Railroad, and will bring passengers across in an hour, where they will find excellent accommodation at the New Atlantic House, Union House, and at the private houses which are open for the season.

While acknowledging the liberal patronage bestowed on the Fair last year by friends in Portsmouth and elsewhere, the Society would hope a continuance of the same at this time.

SOCIAL CIRCLE.

☞ We are requested by Mr. L. B. Caswell, of the Isles of Shoals, to say that there is plenty of good room yet at the Atlantic House, Gosport.

DENTAL NOTICE.

69 Congress Street, Portsmouth.

DR. GOODALL takes pleasure in announcing that he is meeting with great Success in HIS INVENTION of a SPRING PLATE for PARTIAL SETS OF TEETH. The Plate does not COVER THE ROOF OF THE MOUTH, is very small and light, has no clasps, in short, it does not *impede speech* or taste, and is altogether the most satisfactory method of inserting Partial Dentures. Scores of references in this city, and patients from Boston, New York and Philadelphia have given their unqualified approval of this *useful invention.*

He has purchased a patent right for LOADING lower sets of teeth, thereby making them much more serviceable and comfortable, and they will remain in place, even when the ridge of the lower jaw is very flat.

He is using the Pack Ridge in upper sets with the most satisfactory results. He has also a new way of *repairing rubber work, just discovered,* which will require only one hour in the majority of cases, and the work will be warranted strong and neat.

He is also administering ETHER, and preparing the mouth for artificial teeth, nearly every day, and often three times a day, extracting from 1 to 30 teeth at one visit, with entire FREEDOM FROM PAIN, and with happy results. He has made this department of dentistry more particularly a speciality, and is confident his large and continued success will warrant him in promising, (With his present facilities and improvements in mounting artificial dentures,) all work at the shortest notice, and in the **Best and Most Approved Style of the Art.**

All operations in Dentistry performed at the usual rates, and payment is considered due as soon as the operation is completed, all work being warranted.

Refers with pleasure to the leading Physicians of Portsmouth and citizens generally.

GEN. TOM THUMB'S MARRIAGE.

BY P. T. BARNUM.

Concluded from Yesterday.

The little fairy quickly disengaged his arm, and remarked that the General was a funny fellow to joke in that way.

"I am not joking at all," said the General, earnestly, "it is quite too serious a matter for that."

"I wonder why the Commodore don't come?" said Lavinia.

"I hope you are not *anxious* for his arrival, for I am sure *I* am not," responded the General, "and what is more, I do hope you will say 'yes,' before he comes at all!"

"Really, Mr. Stratton," said Lavinia, with dignity, "if you are in earnest in your strange proposal, I must say I am surprised."

"Well, I hope you are not *offended*," replied the General, "for I was never more in earnest in my life, and I hope you will consent. The first moment I saw you I felt that you were created to be my wife."

"But this is so sudden."

"Not so *very* sudden; it is several months since we first met, and you know all about me and my family, and I hope you find nothing to object to in me."

"Not at all; on the contrary, I have found you very agreeable, in fact I like you very much as a friend, but I have not thought of marrying, and—"

"And *what!* my dear," said the General, giving her a kiss. "Now I beg of you, don't have any 'buts' or 'ands' about it. You say you like me as a friend, why will you not like me as a husband? You ought to get married; I love you dearly, and I want you as a wife. Now, deary, the Commodore will be here in a few minutes—I may not have a chance to see you again alone—do say that we will be married, and I will get Mr. Barnum to give up your engagement."

Lavinia hesitated, and finally said:

"I think I love you well enough to consent, but I have always said I would never marry without my mothers' consent."

"Oh! I'll ask your mother. *May* I ask your mother? Come, say yes to that, and I will go and see her next week. May I do that, pet?"

Then there was a sound of something very much like the popping of several corks from as many beer bottles. The young eaves-droppers had no doubt as to the character of these reports, nor did they doubt that they sealed the betrothal, for immediately after they heard Lavinia say:

"Yes, Charles, you may ask my mother." Another volley of reports followed, and then Lavinia said, "Now, Charles, don't whisper this to a living soul; let us keep our own secret for the present."

"All right," said the General, "I will say nothing; but next Tuesday I shall start to see your mother."

"Perhaps you may find it difficult to obtain her consent," said Lavinia.

At that moment a carriage drove up to the door, and immediately the bell was rung, and the little Commodore entered.

The General called on me Monday, however, bringing a very nice letter which he had written to Lavinia's mother. He had concluded to send this letter by his trusty friend, Mr. George A. Wells, instead of going himself, and he had just seen Mr. Wells, who had consented to go to Middleborough with the letter the following day, and to urge the General's suit, if it should be necessary.

The General went to New York on Wednesday, and was there to await Mr. Wells' arrival. On Wednesday morning the General and Lavinia walked into my office, and, after closing the door, the little General said:

"Mr. Barnum, I want somebody to tell the Commodore that Lavinia and I are engaged, for I am afraid there will be 'a row' when he hears of it."

"Do it yourself, General," I replied.

"Oh," said the General, almost shuddering, "I would not dare do it, he might knock me down."

"I will do it," said Lavinia; and it was at once arranged that I should call the Commodore and Lavinia into my office, and either she or myself would tell him. The General, of course, "vamosed."

When the Commodore joined us, and the door was closed, I said:

"Commodore, do you know what this little witch has been doing?"

"No, I don't," he answered.

"Well, she has been cutting up one of the greatest pranks you ever heard of," I replied. "She almost deserves to be shut up for daring to do it. Can't you guess what she has done?"

He mused a moment, and then looking at me said, in a low voice, and with a serious looking face, "Engaged?"

"Yes," said I, "absolutely engaged to be married to Gen. Tom Thumb. Did you ever hear of such a thing?"

"Is that so, Lavinia?" asked the Commodore, looking her earnestly in the face.

"That is so," said Lavinia; "and Mr. Wells has gone to obtain my mother's consent."

The Commodore turned pale, and choked a little, as if he was trying to swallow something. Then turning on his heel, he said, in a broken voice:

"I hope you may be happy."

As he passed out of the door a tear rolled down his cheek.

"That is pretty hard," I said to Lavinia.

"I am very sorry," she replied, "but I could not help it. That dismond ring, which you bade me present in my name, has caused all this trouble."

Half an hour after this incident the Commodore came to my office, and said:

"Mr. Barnum, do you think it would be right for Miss Warren to marry Charley Stratton if her mother should object?"

I saw that the little fellow had still a slight hope to hang on, and I said:

"No, indeed, it would not be right."

"Well, she says she shall marry him any way; that she gives her mother the chance to consent, but if she objects she will have her own way and marry him," said the Commodore.

"On the contrary," I replied, "I will not permit it. She is engaged to go to Europe for me, and I will not release her if her mother does not fully consent to her marrying Tom Thumb."

The Commodore's eyes glistened with pleasure as he replied:

"Between you and me, Mr. Barnum, I don't believe she will give her consent!"

But the next day dissipated his hopes. Mr. Wells returned, saying that Lavinia's mother at first objected, for she feared it was a contrivance to get them married for the promotion of some pecuniary advantage; but, upon reading the letter from the General, and one still more urgent from Lavinia, and also upon hearing from Mr. Wells that, in case of their marriage, I should cancel all claims I had upon Lavinia's services, she consented.

After the Commodore had heard the news, I said to him:

"Never mind, Commodore, Minnie Warren is a better match for you; she is a charming little creature, and two years younger than you, while Lavinia is several years your senior."

"I thank you, sir," replied the Commodore, pompously, "I would not marry the best woman living; I don't believe in women, any way."

I then suggested that he should stand with little Minnie, as groom and bridesmaid, at the approaching wedding:

"No, sir!" replied the Commodore, emphatically, "I won't do it!"

That idea was therefore abandoned. A few weeks subsequently, when time had reconciled the Commodore, he told me that Tom Thumb had asked him to stand as groom with Minnie, at the wedding, and he was going to do so.

"When I asked you, a few weeks ago, you refused," I said.

"It was not your business to ask me," replied the Commodore, pomposly. "When the proper person invited me I accepted."

Of course the approaching wedding was announced. It created an immense excitement. Lavinia's levees at the Museum were crowded to suffocation, and her photographic pictures were in great demand. For several weeks she sold more than three hundred dollars' worth of her *carte de visite* each day; and the daily receipts at the Museum were frequently over three thousand dollars. I engaged the General to exhibit, and to assist her in the sale of pictures, to which his own photograph of course, was added. I could afford to give them a fine wedding, and I did so.

This fact of itself, as well as the opposition that caused it, only added to the notoriety of the approaching wedding, and increased the crowds at the Museum. The financial result to me was a piece of good fortune, which I was, of course, quite willing to accept; though in this instance the "advertisement," so far as the fact of the betrothal of the parties with its preliminaries were concerned, was not of my seeking, as the recital now given shows. But seeing the turn it was taking in crowding the Museum, and pouring money into the treasury, I did not hesitate to seek continued advantage from the notoriety of the prospective marriage. Accordingly, I offered the General and Lavinia fifteen thousand dollars if they would postpone the wedding for a month, and continue their exhibition at the Museum.

"Not for fifty thousand dollars," said the General, excitedly.

"Good for you, Charlie," said Lavinia, "only you ought to have said not for a *hundred thousand*, for I would not!"

They both laughed heartily at what they considered my discomfiture; and such, looked at from a business point of view, it certainly was. The wedding day approached and the public excitement grew. For several days, I might say weeks the approaching marriage of Tom Thumb was the New York "sensation." For proof of this I did not need what, however, was ample, the newspaper paragraphs. A surer index was in the crowds that passed into the Museum, and the dollars that found their way into the ticket office.

It was suggested to me that a small fortune in itself could be easily made out of the excitement. "Let the ceremony take place in the Academy of Music, charge a big price for admission, and the citizens will come in crowds." I have no manner of doubt that in this way twenty-five thousand dollars could easily have been obtained. But I had no such thought. I had promised to give the couple a genteel and graceful wedding, and I kept my word.—*Packard's Monthly.*

MASTA'S PULMONIC BALSAM

IS A SPEEDY and certain remedy for Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Catarrh, Influenza, Hooping Cough, Asthma and the various Affections of the Lungs.

☞ The attention of those afflicted with COLDS, COUGHS, and with any disease of the lungs, is directed to this valuable remedy. On account of sudden changes in the weather, colds and coughs are easily taken, and if neglected may lead to disease of the lungs. What is needed under such circumstances is a reliable remedy—speedy in affording relief, and effectual in arresting further progress of the disease.

☞ To arrest the existing irritation of the air-passages and the lungs, speedily and effectually, the seat and cause of cough is an important step gained toward relief and cure in the first stages of the disease. MASTA'S PULMONIC BALSAM possesses this important power, and while it promptly and effectually arrests all existing irritation, and rapidly relieves cough, it renders the lungs further relief by promoting a free discharge of the accumulated mucus in the air-passages, imparting a healthy action and vigor to the chest at the same time.

☞ Those suffering with cough and the first stages of lung disease, will therefore find in this valuable preparation a speedy and decided relief. Even those whose condition is beyond recovery, will derive from its use great benefit as well as comfort. For the class of diseases it is designed to relieve, the general commendation it has received has proved its efficacy beyond question. For the past ten years have been speedily and effectually cured by its timely use while suffering from severe colds, protracted coughs, and from other forms of lung disease. It is prepared from vegetable balsams and the medicinal properties of roots and herbs, with no minerals nor poisonous acids; simple and safe in the material used, it can be taken at any time.

Sold in Portsmouth by J. H. THACHER, and by Druggists and Dealers in medicines throughout the New England States.

ANTHRACITE COAL

FOR THE NAVY.

NAVY DEPARTMENT,

BUREAU OF EQUIPMENT AND RECRUITING,

JULY 15, 1869.

SEALED PROPOSALS for furnishing Anthracite Coal for the Navy, to be delivered during the fiscal year ending 30th June, 1870, will be received at this Bureau until 10 A. M. 23d August, 1869.

These proposals must be endorsed, "Proposals for Anthracite Coal for Steamers," that they may be distinguished from other business letters.

The offer must be for the delivery of 10,000 tons, of 2,240 pounds each.

The Coal must be of the best Buck Mountain or Black Heath, or of a kind equal to them in all respects, for the purpose intended, which equality will be determined by a Board appointed by the Secretary of the Navy after the reception of the bids.

The name of the coal proposed to be furnished must be stated in the offer.

The price must be for the Coal delivered at the Philadelphia Navy Yard, or on board of vessels at such points within six miles thereof as may be designated by the Bureau, at the Contractor's risk and expense, and without extra charge of any kind. The coal must in all respects be satisfactory to the Inspector or Inspectors to be appointed by the Bureau, who will have the right of peremptory rejection.

SEPARATE SEALED PROPOSALS will also be received until the same date for furnishing the following quantities of coal, in addition to the different Navy Yards during the fiscal year ending June 30, 1870, viz:

PORTSMOUTH, N. H.

The Chronicle.

THE GRAND ECLIPSE of the Sun, total in some parts the United States, and visible here, is announced in the Almanacs and Newspapers, to take place on Saturday afternoon next, August 7, to begin about half past 5 o'clock, and to close a few minutes after 7, that is, at Sunset. The occasion will call out the telescopes of the astronomers, and the smoked glass of the star-gazers generally. The spectacle will be interesting, should the sky be clear; and if cloudy the disappointed will be numerous.

We very well remember the total eclipse of June, 1806, when it was so dark in "Aunt Betsey's" School Room that the children had to be called out loudly by name at the door, as parents or others came to take them home; and remember as well our own ride in the arms of a stout young carpenter, thro' the dark streets. Neither parents nor children expected it to be so dark as it really was.

The darkest time next Saturday afternoon will be about quarter past 6.

DROWNING.—The New Haven Journal records a singular case of drowning which occurred in that harbor a few days since. Several young men were out in a fishing smack, when one of them in a playful manner caught hold of the other, saying, "I've a good notion to throw you overboard." As he grasped hold of him, the feet of both young men slipped on the deck, and both fell overboard. A strong wind was blowing at the time, and it was with the greatest difficulty that those on board succeeded in rescuing one of the young men from the waves, the other being drowned. He was married, about twenty-three years old, and belonged in Hackensack, L. I.

SUMMER PRUNING.—We have long been in favor of the summer pruning of fruit trees of all sizes. Full twenty years ago we were convinced of its good results. It is advantageous in two ways—first, by shortening in the rapidly growing branches it produces spurs for the following year, and brings the trees into any desired form; second, when larger limbs are removed, the wound, instead of leaving a bare, protruding and decaying stump, beautifully heals up, making a sound amputation.

The period when the pruning should be done is one of prime importance. We do not believe that it is advisable to prune before the first growth of the season is completed, because of the immaturity of the wood, which must produce the second growth less vigorous shoots, beside losing to a large extent the yield of fruit the succeeding year, which is sure to follow judicious shortening in at a later period. In our judgment summer pruning should take place between the 15th of July and 10th of August—a period when the sap is quiescent, nature is resting awhile from her labors. We speak from our knowledge of the value of summer pruning of trees, large and or small.—*Field and Farm.*

—They have an Ida Lewis out West. As a gentleman and his wife were going to the ferry, about five miles above Bellevue, Ohio, they got into water fifteen feet deep. Miss Leonora Smith, hearing their cries of distress, hastened to their assistance, and in an old skiff, half full of water, propelled with a stick, succeeded in saving the man, and with his help rescued the woman, two horses and wagon.

☞ Last week in Portland a vicious horse bit a Mr. Batchelder in the arm so badly that the arm had to be taken off at the shoulder socket. The same horse killed a man some time ago, and bit the thumb off another.—*Bid. Jour.*

That horse should have been killed long ago.

—She tripped along with ribbons flying, from a brand new hat she'd just been buying,—held her head up very high and thought, "Well, ain't I just jold ple?" An orange peel lay in the track; she tripped, and flat upon her back, lay Miss Maria Slimkins.

—The Bordentown Register contains this item of a distinguished arrival in that place: "C. Morbus along with B. Complaint have arrived here—and contemplate remaining as long as the Gooseberry and Cucumber families are about."

—Mr. Charles Morse and Mr. George L. Randige of Boston, in seven hours' shooting near the Atlantic House, Wells Beach, on Monday last, bagged one hundred and fifty winter and summer yellow leg and brown back birds.

READ THIS.
ASIATIC CHOLERA IN CHINA.
Almost Every Case Cured with
Pain Killer.
Dear Sirs: I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send us last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. We recorded it once to the Pain Killer using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on tours or excursions without a supply of Pain Killer. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be indifferently received. Believe me, dear sirs, gratefully and faithfully yours,
J. M. JOHNSON, Missionary in China.
From Rev. R. Telford, Missionary in China, now visiting his home in Washington, Pa.
Dear Sirs: During a residence of some ten years as a missionary in Siam and China, I found your Pain Killer a most valuable remedy for that fearful scourge, the cholera. In administering the medicine I found it most efficacious to give a teaspoonful of Pain Killer in a gill of hot water sweetened with sugar; then after about 15 minutes begin to give a tablespoonful of the same mixture every half hour until relief or total collapse. Apply hot applications to the extremities. Bathe the stomach with the Pain Killer clear, and rub the limbs briskly. Of those who had the cholera, and took the medicine faithfully in the way stated above, eight out of ten recovered.
Truly yours, R. TELFORD.
If attacked with diarrhœa, dysentery, or cramp colic, don't delay the use of the Pain Killer.
Beware of all Imitations.
The Pain Killer is sold by all druggists.

☞ PERRY DAVIS' VEGETABLE PAIN-KILLER.—We clip the following from the Providence General Advertiser: At this season of the year, when cholera, cholera morbus, dysentery, and other kindred complaints are sure to prevail, everybody should be liberally supplied with the PAIN-KILLER. Persons leaving home whether it be for a day's excursion or a trip to Europe, should be in a condition to place their hands on it at a moments warning. Many diseases incident to the summer months which will prove fatal if not immediately checked, can be promptly cured by one or two doses of the Pain-Killer. On more than one occasion have we been relieved of intense suffering by the timely use of the above named preparation." Sold by all Druggists, Grocers and Medicine Dealers.

DODD'S NERVINE DID IT.
NEW LONDON, CONN., April 26, 1869.
REMEMBERED FRIENDS:
I thought it well to wait another week before writing, to see if I continued to improve, as I have been doing for some time, under the treatment of the new medicine, and I am happy to tell you that I am getting better—even faster than when you were here. I commenced the use of DODD'S NERVINE without anybody advising me to it. When I began with it I could only walk from my bed to the chair. My trouble has been extreme pain in the head, and has lasted over three years. All the medicine I have heretofore taken has failed to give any relief. I am now able to go up and down stairs, and daily improving. I consider the NERVINE the best medicine I ever found, and shall continue its use, for I am confident of entire recovery. I have taken only three bottles, and would not be without it on any account. [jel5 5w] Very truly, MRS. I. S. NUTE.

It is Durable, Beautiful, Water Proof, Elastic and Economical.
This Paint is all Ready for Immediate Application, and requires no oil, thinning or drying.
It is prepared in pure White and nine hundred Different Shades, and is unsurpassed in all respects.
It dries with a hard, rich, glossy surface; does not run from seams or nail holes; will not chalk, crack or peel off; covers more surface with the same body, and is cheaper, more lasting, and better in every respect than any other Paint.
Many testimonials from those who have used it in other places of its superiority over other Paints might be given; but I will only invite those of this city and surrounding towns who intend using Paint, to call at the
GROCERY AND PROVISION STORE,
Nos. 16 & 18 Cabot Street,
which is the ONLY PLACE in the City where it has been used, and examine the Paint where it has been applied in one or twelve different shades, and where they can choose any color they desire for use, outside or in, and buy from one pound upward.
In using the Chemical Paint, there is no difficulty in matching any color at any time, as all the shades are numbered, and the same number will always match.
These Paints are manufactured in New York, and New Lorgia, Ohio. BEN. J. NORTON,
Agent for Chemical Paint Company.

AMERICAN & FOREIGN PATENTS.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the United States Patent Office, Washington, under the Act of 1837,
NO. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,
After an extensive practice of upwards of twenty years, to determine the validity of claims in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign Patents, to determine the validity of claims, by furnishing one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.
TESTIMONIALS.
"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents."
"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

WEDNESDAY, AUGUST 4, 1869.

The News.

The public debt was reduced $7,435-744.29 in July. It now amounts to $2,489,003,480.58, a reduction of nearly $44,000,000 since March 1.

The Kentucky election on Monday resulted in the success of the Democratic ticket by 50,000 majority.

Water is so low in some of the streams in Peterborough as to interfere with the working of the mills.

The new China mill at Suncook is to be run by natives of the Celestial Empire, who have been sent for.

Some very large egg stories have been published in nearly all the State papers, but the Lebanon Free Press goes a little ahead of anything we have seen yet. Mr. James Worthen has shown the editor of that paper an egg which measures 10 1-4 inches one way, and 7 5-8 inches the other, and which weighs 5 1-4 ounces. It has two shells, the outer one being flexible.

The buildings lately owned and occupied by Calvin Sanborn, at Hill, were entirely consumed by fire last night, with all their contents, including household furniture, 25 tons of hay, and a pair of oxen which Mr. Sanborn had lately refused $300 for. The buildings were nearly new and among the best in town. It is supposed the fire took on the roof of the barn. Loss, about $4,000. Said to be insured for $2,000.

On Sunday morning a stable belonging to N. B. Wadleigh, and a barn of Capt. T. E. Lang, at Meredith Village, were burned, the former losing three horses, a cow, and other property, amounting in value to $2000, and the latter $1000. But little insurance.

The house and barn of Leander Hanson, at Dover, were destroyed by fire on the 28th ult., together with their contents. Insured for $1100.

Omaha has had a rare old race. The contestants each had a washtub in which they sat, and were drawn by six pairs of geese. There were 2000 spectators. One team turned bottom up and the leader of the other dove out of sight and kicked a rear goose in the eye. The match was called a draw.

WITHDRAWAL.—For years our rights and liberties have been going to the Old Harry, and now they have about all reached him. An immense system of oppression, commenced by the central government of the nation, has extended, since its initiation, to unlooked-for places and situations, until nought is left of our boasted liberty but the name. This system of wrong is wholly built on the ridiculous theory that a government has the right to enforce laws as well as to make them. Our national government, acting under the erroneous idea that it had the same right to hold its own property and collect its own revenues by force, in Charleston, that it had to catch fugitive slaves for others by force, in Boston, cruelly coerced a people who only asked to be let alone, to be allowed to keep what they had confiscated and to do what they had a mind to, into obeying the laws.

Had the evil stopped there it could have been borne; but not only is it held that States must submit to national laws, but that cities must submit to state laws,—States arrogating to themselves the right to enforce their own ordinances—and with what result? Massachusetts, dissatisfied that some of her laws were dead letters, created a special organization to see them executed; and the consequence is, that the most respectable keeper of a gambling-house or brothel is looked upon as being little better than a laboring man, and a great many people have to obey laws which they detest and would delight to break, —and always did break with impunity until this act of usurpation destroyed their liberties.

But worse yet, because nearer home, —there are rumors afloat that even the free and barren hills of our old Granite State may yet be desecrated by the myrmidons of tyranny, who are to be empowered to enforce State laws in localities where the people do not want to obey the laws, and do not want to be respectable—and *won't* be respectable, either, for all the laws made since Moses or before him. On this subject my heart is too full to dwell longer.

But oppression does not halt even with States. Mere cities claim to exercise the same power, and presume, after making laws, to coerce individuals into obeying the same. The city of Portsmouth, without my consent, has imposed upon me a tax of $3.60; and through its agent, the tax-collector, has presented me with a bill for that sum. I object to paying this bill on various constitutional grounds, the principal of which is that I do not want to pay it. Yet I am to be coerced, and made to do what is against my will. Is my liberty respected in this matter? Certainly not; no man is free who has to obey distasteful laws.

One course only remains for me to adopt, and that I take, sadly, but with boundless confidence in the justice and integrity of my cause. I withdraw from all connexion with the United States, the State of New Hampshire and the City of Portsmouth, and declare myself to be a free and independent Nation, State and Municipality. This I have a perfect constitutional right to do; being dissatisfied with the government under which I have previously consented to live, I decline to be governed any longer.

As a new nation it is my duty to prepare for all emergencies, and I therefore confiscate all moneys due to citizens of the government from which I have withdrawn, and direct such moneys to be paid in to the Independent Treasury, which will give receipts for the same in due form. The only sums I at present remember are, my board-bill, $168; balance due on my new trowsers, $4.71; cash borrowed, $1.75; washerwoman's bill, $1.18; barber's bill, 10 cts. These debts, being due to foreigners, are declared cancelled. I seek no trouble with the city of Portsmouth; I ask only to be let alone. I shall be willing to receive overtures for the annexation of Portsmouth, or of the United States, when their citizens become educated to my standard of liberty; until then, I cannot admit them under my amended Constitution.

PAKEHA.

☞ The Washington Chronicle is "glad to see that the President has recognized the eminent services and thorough-going ability of Hon. Thomas L. Tullock, by appointing him to the responsible position of collector of internal revenue for the District of Columbia. A more worthy or better fitted gentleman for the appointment named could not well have been selected."

☞ Some one has suggested as the best way to view the eclipse next Saturday—a pail or tub of water, placed so that the wind cannot make ripples. One with a dark colored bottom is the best. In this way it is said the eyes will not be injured.

DESTITUTION AMONG THE PENNSYLVANIA COAL MINERS.—The Scranton Republican of the 24th says a great deal of excitement was created on the 23d by an announcement that the Hyde Park Committee had received funds from the General Council for distribution among the needy. The news spread rapidly, and early in the morning an army of women, most of whom had babies on their arms, made rapid strides for the headquarters of the committee.

The committee had to exercise a great deal of judgment in regard to the immediate necessity of the applicant, as they had received but one thousand dollars, which was the first installment from the General Council. All those who were fortunate enough to establish their claims received an order on any store for three dollars' worth of groceries—a mere pittance to some who are already in want.

Great were the pleadings for more, but the committee were inexorable to all the tales of misery that it fell to their lot to hear. Many were turned away without anything, some of them cursing the committee, others departing sorrowfully. Suspension has brought want to many a family, and everything tends to indicate months of suffering and want in store for them. Further remittances are expected by the committee.

The ignorant portion of the strikers are greatly to be pitied. The *managers* of the strike, however, and the crafty employers who aided and encouraged the folly, are to be blaimed, and deserve to be punished, for contriving to fill their own pockets as they starve the poor.

BUSINESS NOTICES.

WITH DYSPEPTICS everything is wrong. Food does not digest; sleep does not refresh: wine does not cheer; smiles do not gladden; music does not charm, nor can any other joy enter the breast of the miserable dyspeptic. You must get rid of it or it will become seated and confirmed, and life will be a burden and existence a curse. PLANTATION BITTERS will do away with all this. New life, strength and energy will take possession of you. The damask will again bloom upon your cheek, and the lustre in your eye will again be as bright as in your healthiest, happiest and most joyous days.

SPECIAL NOTICES.

The World Grows Wiser.

The human stomach has been a shamefully persecuted organ. There was a time when for every direliction of duty it was punished with huge doses of the most disgusting and nauseous drugs. In vain it rejected them, and (literally) returned them upon the hands of those who administered them. They were forced upon it again and again, until its solvent power was thoroughly drenched out of it.

The world is wiser now than it was in that drastic era, when furious purgation and mercurial salivation were what Artemus Ward would have called the "main holt" of the faculty, in cases of dyspepsia and liver complaint.

The great modern remedy for indigestion and biliousness is HOSTETTER'S STOMACH BITTERS, a preparation which has the merit of combining a palatable flavor with such tonic, aperient and antibilious properties, as were never heretofore united in any medicine.

It has been discovered, at least, that sick people are not like the fabled Titans, who found prostration so refreshing that, when knocked down, they rose from the earth twice as vigorous as before. When an invalid is prostrated by powerful depleting drugs, he is apt to stay prostrated; and the debilitated being aware of the fact, prefer the *building up* to the *knocking down* system of treatment.

HOSTETTER'S BITTERS meet the requirements of the rational medical philosophy which at present prevails. It is a perfectly pure vegetable remedy, embracing the three important properties, namely, a preventive, a tonic, and an aperitive. It fortifies the body against disease, invigorates and re-vitalizes the torpid stomach and liver, and effects a most salutary change in the entire system, when in a morbid condition.

In summer, when the enfeebling temperature renders the human organization particularly susceptible to unwholesome atmospheric influences, the Bitters should be taken as a protection against epidemic disease. jy21

Holloway's Ointment.—Dropsical swellings can only be reduced in two ways—by absorption and evaporation. HOLLOWAY'S OINTMENT acts powerfully and perfectly upon the vessels which perform these functions. It invigorates the absorbents, and promotes the expulsory action of the pores. Among all the external complaints for which the Ointment is an acknowledged specific, there is none in which it works greater wonders than in dropsical cases. Sold by all Druggists. jy28

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient yet than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the medical properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and although the medicinal taste of its curative components has been distinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the fairer sex are subject, the Lozenge will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

ALLEN'S LUNG BALSAM.

The best remedy for the cure of CONSUMPTION, AND ALL DISEASES OF THE LUNGS. It causes the phlegm and matter to rise without irritating those delicate organs (the Lungs,) and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless for the most delicate child. It is everywhere in good demand and gives good satisfaction.

The result of its use is proof of its great value.—Its extraordinary healing properties are experienced by all who use it. Their testimony will be found in a pamphlet, which can be had of the agents where the medicine is for sale. d25

Ellis' Iron Bitters

Will enrich the blood and prevent it from becoming watery and weak, give a healthy complexion, restore the appetite, invigorate the system, and are very palatable. These Bitters are recommended to all persons requiring a safe and valuable tonic, to impart tone and strength to the system, not given by Bitters merely stimulant in their effects; which, although they may possess tonic vegetable properties, cannot give the strength to the blood which the *Iron Bitters* will give.

Prepared by Wm. Ellis, Chemist. For sale in Portsmouth by WILLIAM R. PRESTON; by Weeks & Potter, Wholesale Agents, 170 Washington Street, Boston; and by Druggists and Grocers generally. mh29eódnd

IMPORTANT NOTICE.

FARMERS, FAMILIES, AND OTHERS CAN purchase no Remedy equal to Dr. Tobias' Venetian Liniment for the cure of Cholera, Diarrhœa, Dysentery, Cramp, Colic, and sea sickness, taken internally—(it is perfectly harmless; see each accompanying each bottle) and externally for Chronic Rheumatism, Headache, Toothache, Sore Throat, Quinsy, Burns, Scalds, Bruises, Mosquito Bites, Old Sores, Pains in Limbs, Back and Chest.

The Venetian Liniment was introduced in 1847, and no one who has used it but continues to do so, many stating, it was Ten Dollars a Bottle they would not be without it. Thousands of Certificates can be seen at the Depot, speaking of its wonderful curative properties. Price, 50 cents and one dollar. Sold by the Druggists and Storekeepers throughout the United States. ASIATIC CHOLERA.

The Strongest proof of Intrinsic Merit.

DEAR SIRS,—I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The Cholera appeared here soon after we received it. We resorted at once to the PAIN KILLER, following as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that right out of every one to whom it was prescribed, recovered. It has, too, seen very useful in various other diseases. It has proved a blessing to the suffering in multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of the PAIN KILLER. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be very indifferently received.

Believe me, dear sirs, gratefully and faithfully Yours,

J. M. JOHNSON.

BRANDRETH'S PILLS.

They remove all bad accumulations from the bowels, and purify and invigorate the system. All whose health is not perfect, owe it to themselves to take a few doses of Brandreth's Pills, because the seeds of decay are constantly generated by their use, and the principle of life confirmed, thus giving a vigor of body and mind to a period when we have been used to see the faltering step and the enfeebled intellect.

General Pacz, the distinguished liberator of Venezuela, says he has used them as his only medicine for thirty years, with the most satisfactory results.

For Costiveness, Dyspepsia, and as a Family Medicine they are unrivalled.

Daniel I. Tunney, Esq., Astor House, New York, cured by Brandreth's Pill of Dyspepsia and Costiveness, when all other means used had failed.

A gentleman, whose father died of consumption at 56 years, was also attacked, when about 21, by the disease. He had cough, tight breathing, and general debility. Doctors recommended cod liver oil, but he wasted away. At last he determined to try Brandreth's Pills. In two months they made him a sound man. jy22

PAIN KILLER.

WE beg leave to call the attention of the public to this long celebrated and unrivalled

FAMILY MEDICINE.

The PAIN KILLER is a purely vegetable compound, and while it is a most sufficient remedy for Pain, it is a perfectly safe medicine even in the most unskillful hands.

For Summer Complaint,

Or any other form of bowel disease in children or adults, it is an almost certain cure, and has without doubt been more successful in curing the various kinds of

CHOLERA,

Than any other known remedy, or even the most skillful physician. In India, Africa, and China, where this dreadful disease is ever more or less prevalent, the PAIN KILLER is considered by the natives, as well as European residents in those climates, jel9

A SURE REMEDY.

SCHENCK'S PULMONIC SYRUP,

Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well.—This is the only way to cure consumption.

To these three medicines Dr. J. H. SCHENCK, of Philadelphia, owes his unrivalled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the matter and heals the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive system, taking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Cathedral Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are diseased in some other way, and decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest well and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

No matter how long disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success.

Full directions accompany each, making it not absolutely necessary to personally see Doctor SCHENCK, unless patients wish their lungs examined, and for this purpose he is present at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond St., New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every other Wednesday. His given advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic is each $1.50 per bottle, or $7.50 a half-dozen.—Mandrake Pills 25 cents a box. G. C. GOODWIN & CO., 38 Hanover Street, Boston, Wholesale agents. For sale by all druggists. d1yjs4

LOCAL AFFAIRS.

THE FORTIETH ANNUAL MEETING of the American Institute of Instruction was called to order at 3 P. M. on Tuesday, in Congress Hall, by President Kneeland; who, after prayer by Rev. Mr. Harmon, introduced Mr. Lyman D. Spalding, who made brief remarks, and then introduced Rev. Mr. Kelsey, who had been appointed to welcome the visitors to our city. After a few short addresses, and the appointment of Committees, &c., a most interesting discussion on the Supervision and Inspection of Schools was held, in which many distinguished teachers and friends of Education took part; all agreeing that a more complete system of Supervision is needed. At the close of the discussion Mr. Camp was appointed a Committee to make a report embodying the views of the Institute on Supervision of Public Schools. In the evening Mr. White lectured to a full house, in the North Church, on "The Relation of Common School Education to the Prosperity of the Republic."

The attendance was very large, and the exercises extremely interesting, both day and evening. Many more ladies are to arrive to-day, and accommodation for them is earnestly solicited by the Committee.

☞ Twenty-five entries of fast trotting horses ought to ensure plenty of sport for this and Thursday afternoons, at the beautiful Park called Rockingham—and doubtless will do so; this affording, at a very small outlay, a good opportunity to see the game and gallant struggles of the horses, and the art and science of the drivers. The advertisement gives full particulars, and it would seem the attractions are great enough to fill the grounds.

White men are very uncertain—so are trotting horses, and especially mares. Our readers know that the Dover mare Rosa beat the ungainly New Durham horse Martin Luther at the Rockingham Park, last week. Well, on Saturday, at the Manchester track, Ike Copp bet $500 on Rosa to $300 on Martin; and Copp lost, Luther beating the mare in three straight heats, in 2:42 1-2, 2:40, 2:40, Rosa breaking badly. The big horse ought to have had the race here, too.

STODDARD & BEACHAM keep up their reputation for having on hand nice teams and fast trotters. We had occasion lately to make mention of the slowest horse in their stables, and now learn that they have added to their stock at the Congress Street stable, the prime little mare "White Fawn." The "Fawn" is a willing little animal, paces or trots as best suits her own and the driver's convenience, and needs no urging. Len. Leach, in whose possession she has been until within the last two weeks, has driven her to the Beach in 35 minutes, from Portsmouth, and from a trial of her speed we are confident she can do it again easily.

Such animals are liable to be abused by some who hire teams, but we hope the "White Fawn" will be an exception, and have the good luck to be driven only by those who appreciate the good qualities of such a desirable animal. Besides being a fast goer the "Fawn" has the good sense to remain stationary until told to go — which many horses now-a-days fail to learn or hasten to forget. G.

Communication.

Messrs. Editors:—Would it not be well for the Managers of the Rockingham Trotting Park to station an officer at the seats reserved for visitors, when the next races come off, and thereby prevent the disturbance which frequently occurs there? As soon as the trotting commences there is a lot of vile language indulged in, by those standing in front, which is extremely disgusting, and effectually prevents ladies from sitting where they can best witness the most interesting part of the race; and it is also, I should think, very annoying to the judges on the stand. A word to the wise is sufficient. SARAH.

ONE HUNDRED MORE LADIES will arrive in this city to-day, to attend the Institute of Instruction; and all who are in a position to exercise hospitality towards one or more of these visitors, are earnestly desired to do so, and leave their names with Dr. Wm. R. Preston, Congress Block. *More Room* is absolutely necessary, if we would not have our visitors regard us—and justly—as deficient in a hospitality which previous assurances have given them a right to expect at our hands.

BUSINESS.—We saw ten persons surrounding a boot-black on the sidewalk near H. M. Clark's provision store, Congress Street, Friday afternoon, interestedly watching the little fellow as he put on an extra shine for a man, all for a dime.

THE PATENT WOOD SAW MAN was exhibiting his machine to the public on Market Square, on Tuesday. It works easily, smoothly and with great rapidity. A jealous buck-sawist, who was evidently fearful that the new-fangled machine might rob him of his business, doubted the capacity of the Patent to work easily, but the spectators evidently agreed with the good natured exhibitor, that the possessor of one of these machines can soon save time and money.

STEAMER APPLEDORE took out about 250 passengers to the Shoals on Tuesday, including Gen. J. C. Butler's excursion party. Col. Everett of Dover commanded a large delegation of that city, which joined in the excursion. The Quartermaster of the Dover Regiment was derelict in duty in not getting his box of supplies on board the boat, but found it at the Franklin House on his return.

☞ It is rumored that the Market Street merchants are considering the propriety of purchasing a Street Sprinkler for use there. Mr. Wm. Plaisted has a couple, not in use, which he would be pleased to sell a great deal cheaper than new ones can be bought for.

☞ William Grant of the Reform School, who "came home to see the folks" several weeks since without the consent of the Superintendent, came again on Sunday, but was nabbed by officer Shannon and returned to Manchester, before he could make a call on his parents.

JUDGE A. F. HOWARD, acting in the absence of Judges Odell and Bufford, has been sentencing some of the drunkards who are regular customers at the Police Court to pay liberally. Keep doing so, Judge.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Chronicle office. Price 5 cts. per copy—$2. per year. Contains *all* the Local and other reading from the Daily Chronicle.

QUERY!—Whether time has not fully established who had the best of the argument relative to the City purchasing Fire Extinguishers. C. C. C.

BASE BALL.—The Granite State Club of this city have accepted a challenge to play a game at the Plains on Friday next.

☞ U. S. S. Palos arrived at the Navy Yard on Tuesday, with a cargo of gunpowder.

☞ Rev. T. H. Miller is to preach at Fremont Aug. 8, and at Atkinson Aug. 15.

A FAIR will be held at Caswell's Hall, on Star Island, (Isles of Shoals,) August 3rd, and will be continued one week; the proceeds of which are to be expended for a Day School. The new Steamer Appledore will leave Pier Wharf, Portsmouth, every day on the arrival of the early train from Boston, on the Eastern Railroad, and will bring passengers across in an hour, where they will find excellent accommodation at the New Atlantic House, Union House, and at the private houses which are open for the season.

While acknowledging the liberal patronage bestowed on the Fair last year by friends in Portsmouth and elsewhere, the Society would hope a continuance of the same at this time.

SOCIAL CIRCLE.

—The lightning has killed one-half of the Sea Island cotton crop, and now the caterpillar is about to take the other half—according to certain accounts; but, like the New Jersey peach crop, which is always totally destroyed by the frost, there will be a sufficient harvesting nevertheless.

—Mr. John O. Brown of Hallowell, Maine, whose death took place recently, was confined to his house over twenty years. His sickness was caused by painting window blinds in the winter season, using green paint and keeping them in the room where he worked. He inhaled so much of the poisonous vapor that all efforts to eradicate it from his system were unavailing.

DEATHS.

In this city, Aug. 3rd at the residence of his son-in-law, Wm. P. Burley, DUDLEY FIFE, Esq., aged 67 years, 7 months, formerly of Brookfield, Maine and Massachusetts papers please copy.

DENTAL NOTICE.

69 Congress Street, Portsmouth.

DR. GOODALL takes pleasure in announcing that he is continuing with great Success in HIS INVENTION of a SPRING PLATE for PARTIAL SETS OF TEETH. The Plate does not COVER THE ROOF OF THE MOUTH, is very small and light, has no clasps, in short, it does not *impede speech* or taste, and is altogether the most satisfactory method of inserting Partial Dentures. Scores in this city, and patients from Boston, New York and Philadelphia have given their unqualified approval of this *useful invention.*

He has purchased a patent right for LOADING lower sets of teeth, thereby making them much more serviceable and comfortable, and they will remain in place, even when the ridge of the lower jaw is very flat.

He is using the Pack Ridge in upper sets with the most satisfactory results. He has also a new way of *repairing rubber work, just discovered,* which will require only one hour in the majority of cases, and the work will be warranted strong and neat.

He is also administering ETHER, and preparing the mouth for artificial teeth, nearly every day, and often three times a day, extracting from 1 to 30 teeth at one visit, with entire FREEDOM FROM PAIN, and results. He has made this department of dentistry more particularly a speciality, and is confident his large and continued success will warrant him in promising, (With his present facilities and improvements in mounting artificial dentures,) all work at the shortest notice, and in the **Best and Most Approved Style of the Art.**

All operations in Dentistry performed at the usual rates, and payment is considered due as soon as the operation is completed, all work being warranted.

Refers with pleasure to the leading Physicians of Portsmouth and citizens generally.

Morning Chronicle.

New Hampshire Items.

On the 12th Ezra Streeter of Westmoreland hung himself. He went out to the shed early in the morning, took a piece of rope, fastened it securely to a beam overhead, then drew a wheelbarrow beneath it, mounted the wheelbarrow, placed his neck in a slipnooze he had prepared in the rope, kicked the wheelbarrow away from his feet and swung into eternity. [This, from an exchange, is a droll use of the word *eternity*. Does it mean a place? or a time? We suppose it means that the man killed himself,—but it is a very clumsy way of saying so.]

Berries of all kinds, this year, have been very plentiful, so far. Blueberries are most abundant in Auburn, Candia, Raymond, Epping, &c.

East Enfield had a very unpleasant kind of a thunder shower on the afternoon of July 27th, according to the Free Press. The rain fell in torrents, gullying the roads and washing the dirt and rubbish upon unmown meadows, completely ruining the grass. On the low lands, large quantities of hay, spread to dry, were swept away by the swollen streams. The lightning paid a visit to the dwelling of Deacon Silas Burnham, totally demolished the chimney through which it entered, tore away the partition on one side of a bedroom, tipped over a spinning wheel, removed a bed to the other side of the room, and then left. The family were in the L part of the house at the time, and received but a slight shock.

At the meeting of the family of Dea. Marshall Adams, of New Boston, on Saturday last, there were 36 present. Tables were spread in the orchard, and the Deacon, now 68 years old, his wife, 66, their twelve children, with husbands and wives of those who are married, and fifteen grandchildren, sat around them.

Mr. Eri Poor, of Hooksett, on Friday killed a rattlesnake which measured 4 feet 8 inches, had twelve rattles, and weighed four pounds. It was in the road, a mile from the village, and had evidently come down from the ledge to seek more comfortable quarters. Mr. Poor has had previous experience in killing such sarpints.

Rev. James T. McCollom of Medford, Mass., formerly of Great Falls, who was announced to preach at the Congregational Church at G. F., on Sabbath morning last, met with an accident at Hanover on the 21st inst., being thrown from a carriage by the breaking of the axle. One shoulder was badly dislocated, and the ligaments were ruptured. The accident occured while going down the break-neck hill on the road to the station.

The Dover Choral Union took a picnic excursion to Alton on Tuesday.—The time was pleasantly spent in rambling, singing, playing croquet and various other amusements common to such occasions.

A new mail route agency has been established via railroad and steamboat, between Dover and Centre Harbor. Horace P. Watson of Dover, an experienced agent, is to take charge of the route.

A map of Great Falls and Dover is soon to be published by Messrs. Sanford & Evert. They are also surveying for an atlas of Strafford County. In the course of a few months they will have the map ready for delivery.

John Maxwell, who was injured at West Lebanon on Tuesday last, while assisting in making up a freight train, died Thursday morning. He leaves a wife and two children.

Mrs. Betsey Jackson, 82 years old, recently walked from her home on the Main Road to the collector's office in Rochester, and paid her taxes. This is the 43d year she has paid taxes. Her walking nearly four miles (from and to her house) is evidence that she maintains her vigor to a remarkable degree, and she is still able to do a good day's work.

The "Board" of the Methodist church in Rochester, have voted to dispense with the usual Sabbath afternoon service during the hot weather.

Rev. Mr. Stubbs of Lisbon, his wife and child, were thrown from their carriage in Bethlehem, a short time since, and considerably injured. They were on their way to the Franconia Mountains.

Mrs. Capt. Maguire, who sailed a ship from Calcutta to New York last summer, while her husband and his officers were prostrated by sickness, is now stopping in Lake Village.

—A Parisian editor pestered a prominent official with offers of newspaper assistance. The minister endured it for some time but finally replied:—"My dear friend, you are mistaken; if geese did once save the capitol, it was not with their quills."

LAWS OF NEW HAMPSHIRE.

Passed June Session, 1869.

AN ACT in amendment of Chapter 58 of the General Statutes, in relation to Savings Banks.

Be it enacted by the Senate and House of Representatives in General Court convened:

SECTION 1. The treasurers of savings banks shall annually, on or before the first day of May, transmit to the State Treasurer a statement under oath, of the amount of all deposits and accumulations in their respective savings banks, on the first day of April next preceding with the names of the towns, and aggregate amount of such deposits and accumulations made by persons resident in such towns, and the whole amount of deposits and accumulations owned by persons not resident in the state, or whose place of residence is unknown.

SEC. 2. Every savings bank shall pay annually, on or before the fifteenth day of June, to the State Treasurer, a tax of one per cent. on the whole amount so returned, as aforesaid, to the State Treasurer, and no other tax shall be assessed on said depositors, on account thereof.

SEC. 3. One half of the deposits hereafter received in said savings banks, and one half of the investments hereafter made by any of such savings banks, shall be invested in notes and mortgages of individuals residing or doing business and having a place of business in this state; in the stock of banking associations located in this state; in the first mortgage bonds of any railroad company incorporated under the authority of this state, which is in possession of and operating its own road, and which has earned and paid regular dividends for two years next preceding such investments, or in the bonds of any such railroad company which is unencumbered by mortgage; in bonds or loans of this state, or of any city, county, or town therein; or in notes of individuals or corporations residing or doing business in this state, with sufficient sureties or collateralls.

SEC. 4. No compensation shall directly or indirectly be allowed to any of the officers of the savings banks, except the treasurers and their clerks.

SEC. 5 The trustees of all the savings banks in this state shall annually establish the salary of the treasure and his necessary clerks, which, together with all expenses, shall in no case exceed four thousand dollars.

SEC. 6. The treasures of all savings banks shall give a bond with sufficient sureties for the faithful performance of the duties of their office in the penal sum of twenty-five thousand dollars; and when the deposits in any saving bank shall exceed the sum of one hundred thousand dollars, the penal sum of such bond shall be increased five thousand dollars for each sum of one hundred thousand dollars, or fractional part thereof.

SEC. 7. The bonds of the treasurers of all savings banks shall be recorded at length on the books of said banks and on or before the first day of January next the treasurer thereof shall file with the Secretary of State an are tested copy thereof.

SEC. 8. It shall be the duty of the Bank Commissioners to annually examine the bonds of the treasurers of all savings banks, to require into and certify to the sufficiency thereof, and whenever they shall deem any such bond insufficient, they shall order a new bond to be filed within a reasonable time, to be by them limited.

SEC. 9. The Bank Commissioners, in their report, shall give a detailed statement of all the items of expense of all savings banks, with the names of the treasurers and their clerks, and a statement of the salary of each. It shall also be their duty to report in detail the kind and amount of stocks and bonds held by each of said savings banks, with the par value thereof, the cost to said banks, and the market value thereof at the date of their examination. They shall also report the amount of the treasurer's bond, with all such information as will tend to give the true standing of such banks.

SEC. 10. No savings banks shall pay to its depositors interest at a greater rate than five per cent. annually, but may divide any surplus that may have been accumulated every two years.

SEC. 11. Sections 13 and 13 of chapter 58 of the General Statutes, and all acts and parts of acts inconsistent with this act are hereby repealed.

SEC. 12. This act shall take effect on its passage.

Approved July 9, 1869.

AN ACT to change the name of Upper Gilmanton.

Be it enacted by the Senate and House of Representatives in General Court convened:

SEC. 1. The town of Upper Gilmanton shall be hereafter known and called by the name of Belmont.

SEC. 2. Said town of Belmont shall possess all the rights and be subject to all the liabilities of said Upper Gilmanton, as provided in the Chapter 2229 of the Pamphlet Laws.

SEC. 3. This act shall take effect and be in force on and after July 5, 1869.

Approved June 24, 1869.

AN ACT in addition to Chapter 66 of the General Statutes in relation to the assessment of damages on account of the repair of highways.

Be it enacted by the Senate and House of Representatives in General Court convened:

SEC. 1. In the assessment of damages sustained by reason of any raising, lowering, or other act done for the purpose of repairing any highway, the benefit, if any, which the land-owner may receive by reason of such alteration or repair, shall be allowed by way of set-off against his claim.

Approved July 7, 1869.

AN ACT relating to Respondents testifying in Criminal cases.

Be it enacted by the Senate and House of Representatives in General Court convened:

SEC. 1. In the trial of all indictments, complaints, and other proceedings against persons charged with the commission of crimes and offences, the person so charged shall, at his own request; but not otherwise, be a competent witness.

AN ACT in amendment of an Act passed June Session, 1868, in relation to the Standard Weight of Potatoes.

Be it enacted by the Senate and House of Representatives in General Court convened:

SEC. 1. That the word "two" be stricken out of the second line of Section 32 of the first chapter of the Pamphlet Laws of June session, 1868.

SEC. 2. This act shall take effect from and after its passage.

Approved July 7, 1869.

AN ACT in amendment of Chapter 45 of the General Statutes authorizing towns to build receiving tombs and keep the same in repair.

Be it enacted by the Senate and House of Representatives in General Court convened:

SEC. 1. Every town may build and keep in repair one or more receiving-tombs, which shall be subject to such regulations as the town may establish.

Approved July 7, 1869.

AN ACT in relation to Towns providing Lockups for the detention of offenders.

Be it enacted by the Senate and House of Representatives in General Court convened:

SEC. 1. That any town may provide a suitable lockup for the temporary detention of offenders.

Approved July 7, 1869.

SEC. 2. Nothing herein contained shall be construed as compelling any such person to testify, nor shall any inference of his guilt result if he does not testify, nor shall the counsel for the prosecution comment thereon in case the respondent does not testify.

Approved July 7, 1869.

AN ACT in amendment of Section 3 of Chapter 82 of the General Statutes in relation to High Schools.

Be it enacted by the Senate and House of Representatives in General Court convened:

SEC. 1. That Section 3, of Chapter 82 of the General Statutes be amended by inserting the words "present at a legal meeting" after the word "voters" in the second line of said section.

SEC. 2. This act shall take effect from and after its passage.

Approved July 7, 1869.

ANTHRACITE COAL

FOR THE NAVY.

NAVY DEPARTMENT,
BUREAU OF EQUIPMENT AND RECRUITING,
JULY 16, 1869.

SEALED PROPOSALS for furnishing Anthracite Coal for the Navy, to be delivered during the fiscal year ending 30th June, 1870, will be received at this Bureau until 10 A. M. 13th August, 1869.

These proposals must be endorsed, "Proposals for Anthracite Coal for Steamers," that they may be distinguished from other business letters.

The offer must be for the delivery of 10,000 tons, of 2,240 pounds.

The Coal must be of the best Buck Mountain or Black Heath, or of a kind equal to them in all respects, for the purpose intended, which equality will be determined by a Board appointed by the Secretary of the Navy after the reception of the bids.

The name of the coal proposed to be furnished must be stated in the offer.

The price must be for the Coal delivered at the Philadelphia Navy Yard, or on board of vessels at such points within six miles thereof as may be designated by the Bureau, at the Contractor's risk and expense, and without extra charge of any kind. The coal must in all respects be satisfactory to the inspector or inspectors to be appointed by the Bureau, who will have the right of peremptory rejection.

SEPARATE SEALED PROPOSALS will also be received until the same date for furnishing the following quantities and qualities of Coal at the different Navy Yards during the fiscal year ending June 30, 1870, viz:

PORTSMOUTH, N. H.
150 tons Lehigh, Steamer.
100 " " Lump, (Hand picked.)
100 " " Egg.
200 " Cumberland, run of mines.
16 " Cannel.
BOSTON.
1,100 tons Lehigh, Steamer.
500 " " Lump.
75 " " Egg.
400 " Cumberland, run of mines.
10 " Cannel.
NEW YORK.
150 tons Lehigh, Lump, hand picked.
75 " " Egg.
500 " Semi-Bituminous, Lump.
25 " Cumberland, run of mines.
10 " Cannel.
PHILADELPHIA.
250 tons Lehigh, Lump.
20 " " Egg.
25 " " Stove.
260 " Semi-Bituminous, Lump.
WASHINGTON.
200 tons Lehigh, Egg.
2,200 " Cumberland, run of mines.
NORFOLK.
1,500 tons Cumberland run of mines.

Proposals must be for all the coal required at any one navy-yard, which will constitute a separate class, and the contract will be awarded to the highest bidder for each class.

The Coal to be of the best quality of the kinds named; to be free from dust and foreign substances, and subject to inspection.

The price must be per ton of 2,240 pounds for the coal delivered on the navy-yard wharf at the respective places named, without additional expense or extra charge to the Government; the quantity delivered to be paid for at weight of navy-yard scales.

Blank forms of offer, guarantee, &c., will be furnished on application to the Bureau. jy26td

The Chronicle.

☞ Miss Olive Logan describes, in a letter from Long Branch, "an amusing burlesque trial that was held there not long since for the entertainment of loungers tired of surf bathing, novel reading, croquet and hops. The prisoner was a sweet young man and the charge against him was that he had been discovered at five o'clock in the morning—"time for the mower to whet his scythe," as Madame P. Rosa would lyrically observe—at work with a pick and spade near the piazza of the hotel. The judge was a nameless wit and the jury was composed of twelve women who then and there swore for the first time in their lives.

The first witness testified to having seen the prisoner commit the offence alleged against him, but was unable, on cross-examination, to say whether the pick was or was not a tooth pick, and whether the spade was an ace or a jack. The judge ruled out his testimony altogether because the witness belonged to a temperance society and had been vaccinated. The witnesses for the defence were brought in to prove an alibi, and deposed to having seen the prisoner milking a cow at a point some miles distant from the hotel at the very hour named. When asked to describe the cow they said it was the same which some swells "rode horseback" on the beach. The judge ruled this evidence out as coming from rebels, and there was no other testimony.

Counsel both for the prosecution and for the defence urged the jury to bring the prisoner in guilty, and the judge, while declining to charge the jury, being certain to get nothing if he did, said he did not see how in the name of common sense the jury could bring the prisoner in innocent. There was much other of the same kind of sport, after which the jury retired and returned a verdict of "guilty in a half degree." Miss Logan draws two morals, viz:—that a mock trial is "as much better than a real trial as mock "turtle soup is better than the genuine article," and that as it is harder to conduct such a trial than a real one, women have demonstrated their capacity to sit on real juries.

The North British Review for July, is Number 100.—It has a note rejoicing over the action of the British Parliament, on the subject of the English Church in Ireland. And the leading article is a favorable Review of "The Life of Our Lord; by Rev. Wm. Hanna, D. D., 6 vols.," apparently a valuable work. There is also a review of Geological Time, which shows up the furious controversy now raging between two Schools of Geologists, who differ as widely about the Time of the Earth's Formation, as some other Schools have differed about the Time of the Earth's Destruction.

—Dr. Oliver Dean of Franklin pays $9000 a year toward the support of the Universalist preaching in that place, besides his liberal endowment of Dean Academy, located in the same town.—*Exchange.*

Dr. Dean is undoubtedly a liberal giver:—but if the above item is correct the preacher at Franklin must have a prodigious salary:—but we suspect the compositor added a cypher [0] to the amount.

Three officers in the employ of the Turkish Goverment have been at Manchester, for a few days past, examining the machine manufacturing works of the Amoskeag Company with a view of purchasing machinery for the use of the Turkish Government.

POULTRY MANURE.—The productive power of the dropping of the hennery is very great as compared with ordinary barn-yard manure; yet many farmers, with a score or two of fowls, take little or no pains to preserve and apply it to the purposes of vegetable production. It is an excellent dressing for gardens, and will repay a hundred fold the care and expense of preserving and applying it.—*Farm Journal.*

—The grass on a meadow at Pittsfield that has been mowed thirty years, has never been secured in all that time without being wet, with one exception. Indeed, so sure is it to rain when the meadow is cut, that the circumstance has come to be a barometer for all the neighborhood.

—It is estimated that there are now 170,000 Chinamen in the United States. In 1866, 2300 Chinese and Japanese transferred themselves to California, and in 1868 the number rose to 10,000.

READ THIS.
ASIATIC CHOLERA IN CHINA.
Almost Every Case Cured with
Pain Killer.
Dear Sirs: I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send us last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. We resorted at once to the Pain Killer using as directed for Cholera. As last was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go on their excursions without a supply of Pain Killer. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be indifferently received. Believe me, dear sirs, gratefully and faithfully yours.
J. M. JOHNSON, Missionary in China.
From Rev. R. Telford, Missionary in China, now visiting his home in Washington, Pa.
Dear Sirs: During a residence of some ten years as a missionary in Siam and China, I found your Pain Killer a most valuable remedy for that fearful scourage, the cholera. In administering the medicine I found it most effectual to give a teaspoonful of Pain Killer in a gill of hot water sweetened with sugar; then after about 15 minutes begin to give a tablespoonful of the same mixture every half hour until relief was obtained. Apply hot applications to the extremities. Bathe the stomach with the Pain Killer clear, and rub the limbs briskly. Of those who had the cholera, and took the medicine faithfully in the way stated above, eight out of ten recovered.
Truly yours, R. TELFORD.
If attacked with diarrhœa, dysentery or cramp colic, don't delay the use of the Pain Killer.
Beware of all imitations.
The Pain Killer is sold by all druggists.

☞ PERRY DAVIS' VEGETABLE PAIN-KILLER.—We clip the following from the Providence General Advertiser: At this season of the year, when cholera, cholera morbus, dysentery, and other kindred complaints are sure to prevail, everybody should be liberally supplied with the PAIN-KILLER. Persons leaving home whether it be for a day's excursion or a trip to Europe, should be in a condition to place their hands on it at a moments warning. Many diseases incident to the summer months which will prove fatal if not immediately checked, can be promptly cured by one or two doses of the Pain-Killer. On more than one occasion have we been relieved of intense suffering by the timely use of the above named preparation." Sold by all Druggists, Grocers and Medicine Dealers.

DODD'S NERVINE DID IT.
NEW LONDON, CONN., April 26, 1869.
REMEMBERED FRIEND:
I thought it well to wait another week before writing, to see if I continued to improve, as I have been doing for some time, under the treatment of the new medicine, and I am happy to tell you that I am getting better—even faster than when you were here. I commenced the use of DODD'S NERVINE without anybody advising me to it. When I began with it I could only walk from my bed to the chair. My trouble has been extreme pain in the head, and has lasted over three years. All the medicine I have heretofore taken has failed to give any relief. I am now able to go up and down stairs, and daily improving. I consider the NERVINE the best medicine I ever found, and shall continue its use, for I am confident of entire recovery. I have taken only three bottles, and would not be without it on any account. [jel5 3w] Very truly, MRS. I. S. NUTE.

After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Research made into American and Foreign works, to determine the validity and utility of Patents or Inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.
TESTIMONIALS.
"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."
"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is now *pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. THURSDAY, AUGUST 5, 1869.

A STEP TO THE PACIFIC.—The agents of the Kansas Pacific Railway present, in another column, an enterprise possessing features which seem to merit special comment. Having built their road from Kansas City to Sheridan, and found it a profitable and promising investment, the Managers now propose to continue it to Denver, and thus open up the trade to the Rocky Mountains. That much, it is hoped will be completed by June next: and its agents, Messrs. Dabney, Morgan & Co., and M. K. Jessup & Co., bankers and merchants of high reputation, now tender, through our columns, a loan of $6,500,000 for this purpose.

These gentlemen state with clearness the reasons which have induced them to give this loan their indorsement. The Kansas Pacific Railway now runs through the centre of Kansas, and is in successful and profitable operation for over four hundred miles. We remember the country through which it passes as a wide, open plain, apparently as boundless and rolling as the sea, known only to a few tribes of wild, roving Indians, and occasionally to a venturesome squad of stag-guards and herdsmen, who ministered a primitive hospitality every fifteen or twenty miles. Topeka, Salina, and Manhattan were little more than the geographical designation of towns that hoped to be. Hays, Ellsworth, Sheridan, and the twenty stepping-places now upon its time-table, did not exist, even in the imagination of the pioneers. Denver was a mere cluster of mining cabins and Indian huts. The Cheyennes and Arrapahoes held solemn council or high revelry in its ways. There was no law, but a great deal of rude, summary justice, which grieved sober believers in *habeas corpus* and trial by jury.

Now, Denver is as neat, well built, and comfortable as Hartford, with schools and churches, rows of brick stores, hotels, and tasteful dwellings, which recall the luxury and comfort of the East. Nature has rimmed and fringed it with the noble Rocky Mountains, whose hills glisten in snow, while their sides are clothed with deep and rich midsummer greenery.

It is now proposed to unite this city with the East by an extension of the Kansas Pacific Railway. To do this, it will be necessary to build 220 miles of road. The Managers are wise not to defer it, in the vain hope of being able to induce Congress to vote them large subsidies. The Government has built one road to the Pacific at a great expense. Private citizens are quite ready and willing to build another, especially when those who ask their aid can show as good a balance sheet as the Kansas Managers.

St. Louis is on the natural route from New York to the Rocky Mountains and San Francisco. It is the metropolis of the mighty Valley of the Mississippi; and the extension of this road is a new and important step in the great highway between St. Louis and San Francisco. The Union Pacific (Omaha) Road has as much business as it can manage; and we have grave doubts whether it will be able to keep open a through route amid the midwinter snow and ice of the Sierra Nevadas.

A through road must finally traverse the warm countries of New Mexico and Arizona, along the thirty-fifth parallel or below it. General Palmer has surveyed a route where snow rarely falls—every mile of which opens rich mining deposits. It embraces the oldest towns on the Continent. The country demands such a road, and this extension is a step towards completing it.

It is interesting to note the progress of a railway which draws its business from a country ten years ago conceded to the buffalo and the aborigines. In April the Kansas road earned, in gross income, $217,914 49, of which $95,291-61 were balanced by expenses, leaving a net profit of $124,625 88. In May the earnings were $222,163 46; the expenses $107,987 77, leaving a profit of $114,175 69. Two months' aggregate, $238,798 57. There are few roads in our older and riper States that would not be content with as good a result.

But the truth is, these new countries have much growth in them. We have but to touch our Western prairies and hills with the iron wand, and cities spring up; towns cluster along the streams and highways, and broad plains blossom with wheat, corn, and barley; school-houses and churches take the place of the block-house and the fort, and the great rivers are disturbed by steam and water-wheel. So our civilization has marched over the prairies, is advancing over the plains, and in a few months we shall have the vast treasures of Colorado and the gold countries under contribution.

The President, in his last Inaugural, pointed to those hills as the "strong box," whose treasures would pay the National debt. This railroad is the key to open it. We, therefore, look with pleasure upon this effort of private citizens to carry another road to the Pacific. We must have at least three railways across the Continent. We must enable the Northern and Southern and Middle States respectively to reach the furthest West by the most convenient way.

We look upon the State of Kansas with an interest not far removed from affection. This child of tears, and blood, and agony, now marches to the dignity and grandeur of an empire, and well deserves the proud, fond name of "the Massachusetts of the West." To this road she owes much of her prosperity; and, now that its owners propose to carry it to Denver, and wed the Rocky Mountains to the Mississippi Valley, we hail them as men doing great National service, and earnestly hope they will receive from our people earnest and prompt support.

The loan they offer is certainly a good one. It yields high interest in gold, has many years to run, is secured by large grants of land and a profitable railway, and is indorsed by men whose word gives it the force of an irrefragible guarantee.—*N. Y. Tribune.*

The News.

521 miners were killed by a colliery explosion at Dresden Prussia, on Monday.

Recent encounters between the Government forces and Carlist insurgents in Spain are reported. The latter have uniformly been worsted. In Spain the volunteers are behaving badly and are setting all authority at defiance.

The London Times states that rumors are prevalent that the preliminaries have been arranged for an agreement between Spain and the United States on the Cuban question.

Marshall Barlow of New York seized eight gunboats fitting out at the dockyards of Delamater & Co. They were intended for the Spanish service. Twenty-two others at Greenpoint, L. I., and Mystic, Conn., were indicated as preparing to violate the neutrality laws, and deputies were sent to seize them.

The strike of the shoemakers in Maine has ended in an agreement between the Crispins and employers.

Eighty-two ox-teams are now employed by the Hudson Bay Company to transport as many tons of tea through Minnesota to the Red River settlements.

A man who likes to be called the Canadian Blondin is to cross the Niagara River below the falls upon a velocipede running on a tight rope. If he succeeds he will do equally silly things until he breaks his neck.

TERRIBLE TRAGEDY.—The wife of Dr. Alvah Hobbs, formerly of North Hampton, was murdered in the presence of her husband at her residence in Boston, Tuesday evening, by Major Thos. L. White, who is about 30 years of age. White was an intimate friend of the family and has boarded with Dr. Hobbs for some time, being under treatment for his lungs. He had been an inmate of the Insane Asylum at South Boston eight years ago, and attempted to kill Mrs. Hobbs then. At the time of the murder Dr. and Mrs. Hobbs were sitting in the parlor and White shot Mrs. H. twice with a pistol, firing through the door. It is said that White had become infatuated with Mrs. Hobbs, but no intimacy is reported between them. She was an extremely fascinating lady, and had been divorced from her first husband as had Dr. Hobbs from his first wife before he married the victim of this strange murder.

SUDDEN DEATH.—As Mr. Moses Whitehouse, for many years the draw tender of the Charles River Bridge, was returning from Vermont, Monday afternoon, where he had been spending a few weeks, he suddenly complained of illness while the cars were between Berwick and Portsmouth, and laying his head in his wife's lap, immediately expired. Mr. Whitehouse has suffered from ill-health for some time past, and it is supposed that his death was caused by heart disease, to which he had been subject. He was an esteemed citizen.

☞ At the special meeting of the stockholders of the P. S. & P.R. R. at Kittery, Wednesday afternoon, it was voted to accept the proposition of the Eastern and Boston & Maine corporations to pay the P. S. & P. R. R. $180,000, being the difference in the value of dividends of the past six years paid in currency and which should have been paid in gold,—and to pay the July and all future dividends in gold.

☞ Hampton Academy, as may be seen by the advertisement in our columns to-day, is to be opened for the Fall Term, under the care of Rev. Mr. Durgin, who taught there successfully and acceptably, the last Winter and Spring terms, and who is favorably and extensively known.

THE RAILROAD meeting of the P. S. & P. R. R., at Kittery, the Institute meeting at Congress Hall and the horse trot at Rockingham Park, made Wednesday a busy day for newspaper men, and the streets were alive with strangers.

THE EARLY ROSE POTATO.—The success of the Early Rose this season has established its superiority over all other varieties for maturing early, for productiveness, and for family use. Its quality is fully equal to that of the old Mercer. Every family should secure enough of this splendid variety for seed. The price is rapidly coming down with the increased quantity. They can now be had for $10 per barrel.—*Ditts's Farm Journal.*

—Walker Richmond of East Taunton, over eighty years of age, reaped, on one of the warm days of week before last, an acre of rye, and furnished the bands for the sheaves. A few days before that, he hoed an acre of corn.

LOCAL AFFAIRS.

THE TROTTING at Rockingham Park Wednesday afternoon, drew a fair attendance, including families, ladies, visitors at the Beaches, &c., and the sport well repaid them. The long continued dry weather since the track was graded, prevents the course from being put in best condition, and forbids fast time. The first race was a trot of mile heats, best 3 in 5, in harness,—under Fashion rules, except that a horse distancing the field shall receive only first money—for a

The judges were W. P. Kellman, Geo. H. Peirce, H. Wentworth. The Gibbs mare from Biddeford was ruled out before the start, for having trotted faster than three minutes. The other three came to the score, and Wilkes won the race in three straight heats—2:53, 3:35, 2:52, Jim second, Stranger third.

Between these heats, the second race was called,

For this the five horses named, all appeared, and a closely and exciting contested race was the result. Sallie sold high above all the rest in the pools. Kate took the first heat in 2:47, Sallie the second in 2:47, Lady Lawrence the third in 2:44 1-2, Sallie the fourth in 2:47, and Sallie the fifth and race in 2:47—so Sallie took first money, Kate second, Lady Lawrence third.

The lateness of the close of the races, obliges us to postpone any detailed account till to-morrow.

The races continue this (Thursday) afternoon, when the attraction is greater than ever before offered on this track, Two trots are up; and Nellie Locke, Empress, McClellan, Emperor and Black Walnut are to go in one of them, which will make a lively race. The other also will be well contested.

A train will run up from the Concord Depot at 2 o'clock.

☞ For our very full reports of the proceedings at the 40th session of the American Institute of Instruction, we are especially indebted to the kindness of Mr. Stephen W. Clark of the Boys' High School, who is not only a faithful and capable teacher, but is also a capital reporter, as we have heretofore had occasion to observe. The session of the Institute will continue to-day and closes this evening, and we advise all who wish to be instructed and amused to improve the present favorable opportunity and attend. On Friday the members of the Institute have an excursion to the Shoals in steamer Appledore, and we predict for them careful consideration by Capt. Edwin M. Baker, the popular commander of that staunch little craft, and the Messrs. Laighton of the Appledore House, who always do all in their power for the convenience and accommodation of visitors. Tickets for citizens and visitors may be obtained of Dr. Wm. R. Preston, at 75 cents for the trip, and 50 cents for dinner.

BUSINESS NOTICES.

WITH DYSPEPTICS everything is wrong. Food does not digest; sleep does not refresh: wine does not cheer; smiles do not gladden; music does not charm, nor can any other joy enter the breast of the miserable dyspeptic. You must get rid of it or it will become seated and confirmed, and life will be a burden and existence a curse. PLANTATION BITTERS will do away with all this. New life, strength and energy will take possession of you. The damask will again bloom upon your cheek, and the lustre in your eye will again be as bright as in your healthiest, happiest and most joyous days.

☞ There are valuables which will be received into the vaults of a bank only on sufference and many others that will not be received on any terms. Towns possessing no suitable place of deposit often lose valuable records and papers, impossible to replace, by fire or robbery. The UNION SAFE DEPOSIT VAULTS, 40 State Street, Boston, were instituted to remedy these evils, and their great success has only been commensurate with their true deserts. Individual safes are rented from $20 to $100 a year. Circulars of Henry Lee, Manager. jy14

SPECIAL NOTICES.

The World Grows Wiser.

The human stomach has been a shamefully persecuted organ. There was a time when for every direliction of duty it was punished with huge doses of the most disgusting and nauseous drugs. In vain it rejected them, and (literally) returned them upon the hands of those who administered them. They were forced upon it again and again, until its solvent power was thoroughly drenched out of it.

The world is wiser now than it was in that drastic era, when furious purgation and mercurial salivation were what Artemus Ward would have called the "main hoist" of the faculty, in cases of dyspepsia and liver complaint.

The great modern remedy for indigestion and biliousness is HOSTETTER'S STOMACH BITTERS, a preparation which has the merit of combining a palatable flavor with such tonic, aperient and antibilious properties, as were never heretofore united in any medicine.

It has been discovered, at least, that sick people are not like the fabled Titans, who found prostration so refreshing that, when knocked down, they rose from the earth twice as vigorous as before. When an invalid is prostrated by powerful depleting drugs, he is apt to stay prostrated; and the debilitated being aware of the fact, prefer the *building up* to the *knocking down* system of treatment.

HOSTETTER'S BITTERS meet the requirements of the rational medical philosophy which at present prevails. It is a perfectly pure vegetable remedy, embracing the three important properties of a preventive, a tonic, and an alterative. It fortifies the body against disease, invigorates and re-vitalizes the torpid stomach and liver, and effects a most salutary change in the entire system, when in a morbid condition.

In summer, when the enfeebling temperature renders the human organization particularly susceptible to unwholesome atmospheric influences, the Bitters should be taken as a protection against epidemic disease. jy21

Holloway's Ointment.—Dropsical swellings can only be reduced in two ways—by absorption and evaporation. HOLLOWAY'S OINTMENT acts powerfully and beneficially upon the vessels which perform this function, and by invigorating the absorbents, and promotes the expulsory action of the pores. Among all the external complaints for which the Ointment is an acknowledged specific, there is none in which it works greater wonders than in dropsical cases. Sold by all Druggists. jy28

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medical novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the medicinal properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and poisonous drugs which that dangerous excitant is the main ingredient. **More than**

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been completely hidden by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the feebler sex are subject, this preparation will be found infinitly more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopoeia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

ALLEN'S LUNG BALSAM.

The best remedy for the cure of CONSUMPTION, and ALL DISEASES OF THE LUNGS. It causes the phlegm and matter to rise without irritating those delicate organs (the Lungs,) and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless for the most delicate child. It is ever where in good demand and gives good satisfaction.

The result of its use is proof of its great value.—Its extraordinary healing properties are experienced by all who use it. Their testimony will be found in a pamphlet, which can be had of our agents where the medicine is for sale. d25

Ellis' Iron Bitters

Will enrich the blood and prevent it from becoming watery and weak, give a healthy complexion, restore the appetite, invigorate the system, and are very palatable. These Bitters are recommended to all persons requiring a safe and valuable tonic, to impart tone and strength to the system, not given by Bitters merely stimulant in their effects; which, although they may possess tonic vegetable properties, cannot give the strength to the blood which the *Iron Bitters* will give.

ASIATIC CHOLERA.

The Strongest proof of Intrinsic Merit.

DEAR SIRS,—I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The Cholera appeared here soon after we received it. We resorted at once to the PAIN KILLER, using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten, to whom it was prescribed, recovered. It has, too, seen very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of the PAIN KILLER. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be very indifferently received.

Believe me, dear sirs, gratefully and faithfully Yours, J. M. JOHNSON.

GRANT & PROSPERITY.

Business revives under the new regime. Other than general causes have, however, given a tremendous impetus to the sale of

Cristadoro's Excelsior Hair Dye.

The chemists have come out in two leading scientific journals against the least and safest of *poisons for the head* (for that is their proper designation,) with which the country is infested, while Dr. Chilton, the first analytical chemist in America, announces to the world that

CRISTADORO'S DYE IS UTTERLY POISONLESS, and that he *knows it to be so*, because he has analyzed it.

CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, acts like a charm on the Hair after Dyeing. Try it. 2jy22

BRANDRETH'S PILLS.

They remove all bad accumulations from the bowels, and purify and invigorate the system. All whose health is not perfect, owe it to themselves to take a few doses of Brandreth's Pills, because the seeds of decay are constantly eradicated by their use, and the principle of life confirmed, thus giving a vigor of body and mind to a period when we have been used to see the faltering step and the enfeebled intellect.

General Peace, the distinguished liberator of Venezuela, says he has used them as his only medicine for thirty years, with the most satisfactory results.

For Costiveness, Dyspepsia, and as a Family medicine they are unrivalled.

Daniel I. Tenney, Esq., Astor House, New York, cured by Brandreth's Pill of Dyspepsia and Costiveness, when all other means used had failed.

A gentleman, whose father died of consumption at 36 years, was also attacked, when about 21, by the disease. He had cough, night sweats, and general debility. Doctors recommended cod liver oil but he wasted away. At last he determined to use Brandreth's Pills. In two months they made him a sound man. jy22

PAIN KILLER.

WE beg leave to call the attention of the public to this long celebrated and unrivalled

FAMILY MEDICINE.

The PAIN KILLER is a purely vegetable compound, and while it is a most efficient remedy for Pain, it is a perfectly safe medicine even in the most unhealthy climates.

For Summer Complaint,

Or any other form of bowel disease in children or adults, it is an almost certain cure, and has without doubt been more successful in curing the various kinds of

CHOLERA,

Than any other known remedy, or even the most skillful physician. In India, Africa, and China, where this dreadful disease is ever more or less prevalent, the PAIN KILLER is considered by the natives, as well as European residents in those climates, A'SURE REMEDY. jel9

SCHENCK'S PULMONIC SYRUP,

Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well.—This is the only way to cure consumption.

To these three medicines Dr. J. H. SCHENCK, of Philadelphia, owes his unrivalled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, or the Seaweed Tonic, when it is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to clean the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved. Nature will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care;) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, with this preparation is made of it, assists the stomach to throw out the gastric juice to digest the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop the fever, stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcers in the throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs are diseased, or its diseased, either tubercles, abscesses, bronchial irritation, ulceration of the lungs are a mass of inflammation and fast decay. What in such cases what must be done? It is not only the lungs that are wasting, but the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands have been benefited by the Doctor's preparations with the same remarkable success.

Full directions accompany each, making it not absolutely necessary to personally see the Doctor SCHENCK, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond St., New York, every other Tuesday, and at No. 30 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half-dozen.—Mandrake Pills 25 cents a box. G. C. GOODWIN & CO., 38 Hanover Street, Boston, Wholesale agents. For sale by all druggists. dly1a4

LOCAL AFFAIRS.

AMERICAN INSTITUTE OF INSTRUCTION.—The second day opened with all the promises of an interesting occasion. Every seat was occupied, and many were obliged to stand. The meeting was opened at 9 o'clock, by President Kneeland. Mr. Elbridge Smith of Dorchester, Mass., read a very able and interesting essay on "Secondary Education." The term secondary, as employed in instruction, was generally capable of an ambiguous construction, and denoted the lowest form of education. The topic comprised the entire battle-ground of the cause.

Mr. Hammond of Monson, Mass., spoke of the uncertainty of the signification of the term used. As we go West the words change in meaning, and the greater the name the less the School; there a college is a very poor academy, of a very poor grade. In comparison to the continental universities of Europe we never have had a university on this continent. Men have no right to reason from what they do not know, and consequently no right to talk about the utility of culture unless they are men of culture. Action on the part of committees and communities is too often based on ignorance and not knowledge. Mr. Hammond's remarks were quite lengthy and exhaustive of the subject, and were frequently applauded.

Mr. Smith said that the longer he lived the higher estimate he placed upon the Latin and the Greek. The Alumni of our colleges ought to have a share in their management. Give them freedom and the languages will take care of themselves. Yet he would not have a boy study Latin after it is plain he is unable to acquire a knowledge of it.

Mr. Hammond said that on matters of education the *vox populi* was too often *vox diaboli*; they consider the colleges too cloister-like and too much devoted to the study of Latin and Greek. Grammar schools mean Latin schools, for the study of grammar came down from our colleges, and in 1800 English grammar was not studied in a single school in the country.

Some sharp firing between Mr. Hammond and Mr. Smith created much amusement. Mr. Smith said he had not intended to speak of our colleges as mere cloisters; but that colleges alone do not bring out talent, much more create it. He spoke of Professor and Hugh Miller as not indebted to colleges. Let each party respect the other.

Mr. Stone of Portland said that he had fitted 12 boys for college the past year, but had not heard a single extra recitation on their account. Mr. Hammond said that he meant that generally it was not obligatory upon smaller communities to fit boys for college, thereby taking time that should be devoted to others.

Mr. Smith said he had sent one boy to college this last year, who had given to the school more than he had cost it. Through the influence of his example a whole dozen were following in his wake.

Mr. C. O. Thompson of Worcester, contended that the boys from the country schools at large are poorly fitted, and should be sent to Andover or Exeter.

Mr. White of Williamstown, said he saw no necessary conflict between the deserving academies and high schools. He spoke of his early life and his own hard struggles to get an education, and at closing was heartily applauded.

The Secretary, Mr. Jones, gave notice of an excursion to the Shoals on Friday, to start at 7 A. M.

After recess, many persons became members of the organization by signing the Constitution and paying the admission fee of $1.00.

Prof. Morse of the Peabody Institute, Salem, Mass., was then introduced, and stated that he had changed the subject of his lecture, as the one advertised had been previously delivered several times. His subject was the "Classification of Species." In speaking of Embryology, —the study of the development of races, the lecturer said he did not claim that the individual passes through the various lower orders, which is claimed in the Darwinian theory, and according to which a man may have once been a tadpole or an oyster. The lecturer simply showed the order of the classes, beginning with the lowest.

Animals that live in the water stand lower than those that live on the land. The lecturer drew upon the board five classes of vertebrate,—the fish, salamander, reptile, bird, and land animal. The clam and oyster, the lowest of the shell-fish, are never seen on land. The lobster comes next, &c ,—all illustrated by drawings. He also showed the development of the individual from the ovum to full size and strength. The lecture was highly instructive and equally amusing.

At the afternoon session, Mr. Camp of Conn. offered four resolutions on the subject of Supervision and Inspection, which were in keeping with the opinions of the majority of the gentlemen who spoke upon the subject, Tuesday.

Resolved, That the judicious and thorough Supervision of our Public Schools conduces to their efficiency, and promotes the highest welfare of society.

Resolved, That school supervision should include the arrangement of school buildings, the appointment of teachers, the classification of pupils, the order of studies and method of teaching, examination of results and all other matters which pertain directly to the interests of public lessons.

Resolved, That in order to secure faithful supervision and inspection, it is of vital importance that there should be in every state, city or town, where practicable, a Superintendent eminently qualified by education, vocation and sympathy, to perform the duties of the office, and that his whole time, or so much as is required, should be devoted to such supervision and inspection, with full authority to execute the orders of School Boards and represent the sentiment of the people.

Resolved, That the adaptation of county supervision as related to state and town school organizations, and its success in every state where it has been efficiently administered, commend it to the consideration of all friends of public schools.

Mr. White of Williamstown said the only objection could be in regard to the buildings, but he advocated this item already included in the resolutions.

Prof. Greene of Brown University, also spoke in favor of the resolutions. Mr. Hammond of Monson, remarked that the resolutions did not give the supervisor the power of building, but merely the oversight and management of them when constructed.

Prof. L. W. Mason of Boston introduced a class of young children to illustrate his method of teaching music to children. It was a fine exhibition of skill on the part of the teacher, and of aptness on that of the young scholars who formed the class. Mr. Mason had never before seen these children, but his familiar, lively ways made them at home, and removed all thoughts of embarrassment on their part.

A teacher who will frighten and confuse scholars is a demon, but one who will place them so quickly at their ease in spite of a large audience is rarely to be met with, and Boston posesses no greater prize than this genial teacher of music. The exercise was a very great success in every particular.

After the exercises by Mr. Mason, there was a short recess; then Prof. Green of Brown University, opened the discussion on the subject assigned for the hour, viz., "Music in Public Schools —Method of Teaching." He spoke very highly on Mr. Mason's happy definition of the word degree; it was defined as a step and illustrated by a diagram seemingly composed of mere steps or stairs but really representing degrees or steps in music. He also spoke very highly of object teaching generally.

Our report of the proceedings will be continued to-morrow.

THE CAGLIOSTRA of the Passions, as the advertisement hath it, will doubtless draw a large audience to the Temple this evening. From a glance at the programme we judge that all will be amused, and, besides that, 150 presents are to be given away. The programme speaks of Julius Cæsar, John B. Gough, Delirium Tremens, chime of bells, Shamus O'Brien, the Jibbenainosay, Switzerland, drummer boy of Murfreesboro', Enoch Arden, Camille, Fourth of July "Orashun" and Auction sale of old bachelors. Isn't that a mixture.

A PACIFIC RAILWAY

GOLD LOAN $6,500,000.

We beg leave to announce that we have accepted of the agency of the

KANSAS PACIFIC RAILWAY COMPANY,

For the sale of its

NEW SEVEN PER CENT.

Thirty Year Gold Loan,

Free from Tax.

This Loan amounts to $6,500,000.

First Mortgage Land-Grant and Sinking Fund Bonds,

secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles of which 12 miles are completed, and the rest is under construction. It is also a Mortgage upon Rolling Stock and Franchises of this first-class Railway, besides now running through the State of Kansas,

And in successful operation for 437 miles

west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE ON THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the

GOVERNMENT LAND GRANT OF THREE MILLION ACRES,

extending in alternate sections on either side of the track, from the 38th parallel of Latitude, including a coal field and pinery. The company also holds as an asset another tract of

Three Millions of Acres in the State of Kansas,

and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the

Value of the Company's property, covered by this mortgage at $25,000,000 net, while the Loan is merely $6,500,000.

The Bonds have

THIRTY YEARS TO RUN,

from May 1, 1869, and will pay

SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.

The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be

PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:

On $1,000 Bond in N. Y. $35 (gold) each half year.
" " London....67 sds. 9p. "
" " Frankfort..67 fin. 30 krtzs., "

The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a

FIRST CLASS INVESTMENT,

in every respect perfectly sure, and in some essential even

Better than Government Securities.

The Bonds will be sold for the present at

96, *and accrued Interest, both in Currency,*

the Agents reserving the right to advance the rate.

The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.

Gold and Government Securities taken in payment at their market value, without commission.

DENTAL NOTICE.

69 Congress Street, Portsmouth.

DR. GOODALL takes pleasure in announcing that he is meeting with great Success in HIS INVENTION of a SPRING PLATE for PARTIAL SETS OF TEETH. The Plate does not COVER THE ROOF OF THE MOUTH, is very small and light, has no clasps, in short, it does not *taste* much or *taste*, and is altogether the most satisfactory method of inserting Partial Dentures. Scores of references in this city, and patients from Boston, New York and Philadelphia have given their unqualified approval of his *useful invention.*

He has purchased a patent right for LOADING lower sets of teeth, thereby making them far more serviceable and comfortable, and they will remain in place even when the ridge of the lower jaw is very flat.

He is using the Pack Ridge in upper sets with the most satisfactory results. He has also a new way of *repairing rubber w ks just discovered*, which will require only one hour in the majority of cases, and the work will be warranted strong and neat.

He is also administering ETHER, and preparing the mouth for artificial teeth, nearly every day, and often three times a day, extracting from 1 to 30 teeth at one visit, with entire FREEDOM FROM PAIN, and with happy results. He has made this department of dentistry more particularly a specialty, and is confident his large and continued success will warrant him in promising, (With his present facilities and improvements in mounting artificial dentures) all work at the shortest notice, and in the **Best and Most Approved Style of the Art.**

All operations in Dentistry performed at the usual rates, and payment is considered due as soon as the operation is completed, all work being warranted.

Refers with pleasure to the leading Physicians of Portsmouth and citizens generally.

EVANGELICAL CREED, *for young Men's Christian Associations.* — There may have been some playing fast and loose, among these associations: but it seems now, that all this is forbidden. At the great international meeting in Portland, in July, it was *resolved* that it is "their *duty* to have their affairs controlled by members of churches held to be evangelical:" And then, to make assurance doubly sure, it was added:—

"And we hold those churches to be evangelical, which, maintaining the Holy Scriptures to be the only infallible rule of faith and practice, believe in the Lord Jesus Christ, the only begotten son of the Father, King of Kings and Lord of Lords (in whom dwelleth the fulness of the Godhead bodily, and who was made sin for us though knowing no sin, bearing our sins in his own body on the tree), as the only name under heaven given among men whereby we must be saved from everlasting punishment.

This was received by the Convention with a burst of enthusiasm, the whole assembly rising, and, after the vote was taken, singing with wonderful power and spirit, a verse of the hymn:

"All hail the power of Jesus' name!"

Some persons, we dare say, will complain of these resolutions as unreasonably stringent; but such should be appeased if not comforted, by the reflection that while the Evangelical *Churches* maintain all the aforementioned points, a considerable portion of their *members* entertain very different views of doctrine, and so are heretics but not schismatics. Very few churches are without some such members; and in some they are numerous.

The phraseology of the above creed is peculiar; while the middle of it is in scripture language, the commencement and the close are not; for the reason, probably, that the ideas in the beginning and end cannot be expressed in that way.

☞ Brevet Capt. Charles A. Curtis, U. S. A., who is Executive officer and Professor of Military Science and Tactics at Norwich University, Vermont, (under law of Congress,) is quite an amateur printer. He has a miniature office at the School, and prints his own circulars and reports. A short time since, while Capt. Curtis was at work at the type-case, an acquaintance who draws the pay of a Brevet General, happened into the office, and set a stickful of type also. Verily, the pen is mightier than the sword, and

The stick of type hath more of might
Than warrior hosts and fortress walls,
And it shall batter towers to dust
That laugh at hosts and cannon balls.

NEW WAY OF RAISING BEANS.—The Pittsfield Eagle says a good story is told of an amateur agriculturist living not a thousand miles from Berkshire county, who was advised by one of his neighbors to plant sunflowers with his beans in order to obviate the task of poling. He followed the advice; in due course of time beans and sunflowers came up and waxed strong, the beans coiling around the sunflower stalks beautifully; and he congratulated himself on the fact that he had discovered an effectual method of raising beans without being driven to the disagreeable necessity of toting bean-poles from the forest. But alas for human expectations, his beans were *raised* out of the soil, roots and all, in a few weeks, by the rapid growth of his new-fashioned bean-poles, and there they hung withering between heaven and earth—a melancholy testimonial of the uncertain tenure of all *earth*-ly things.

—One grand result ought to come out of this "Boston Jubilee," says Dr. Cuyler, of Brooklyn, "it ought to establish congregational singing everywhere." After being carried up on the chariot of twenty thousand voices in the "National Anthem, I felt what a farce it would be to conduct the praises of God's house through the petty squeak of a quartette! Henceforth let our trained quartettes be what Gilmore's wand was—the mere guide and director of the whole combined voice of the assembly. 'Let the people praise thee, O God! Yea, let *all the people* praise thee!"

—The London Spectator, speaking of unfaithful stewards, says: "An Austrian noble, with princely possessions, lately chanced to look into the accounts of his Bohemian properties. He found that of a rent-roll of £50,000 he had received just eleven florins, and that this had been going on for six years, during which it had never occurred to him to inquire."

—A meteor recently exploded near Elkhorn, Wis., and deposited on the ground a mass resembling the cellular slag from an iron furnace. A circular space of sixty-six feet in diameter was covered with this substance, which presented the appearance of having fallen in a hot fluid mass, spattering around the scorie after it had struck.

—The Roman Catholic Church in this country has forbidden pic-nics. The ordinance against them was issued last year, and this was the first season for putting into practice. The origin of the prohibition was the great number of abuses which were found to prevail at these festive gatherings.

—Marshall P. Wilder, of Boston, after visiting Europe, says there is no better place than America for grapes.

LAWS OF NEW HAMPSHIRE.

Passed June Session, 1869.

AN ACT to provide for the Taxation of Foreign Insurance Companies.

Be it enacted by the Senate and House of Representatives in General Court convened:

SECTION 1. Every insurance company not organized under the laws of the state, but doing business therein, shall, on or before the first day of March in each year, make and deliver to the state treasurer, a true statement under oath, of its president, secretary or treasurer, of the whole amount of premiums received in money, or in the form of notes, credits, loans, or any other substitute for money, by or on account of said company, during the year ending on the thirty-first day of the preceding December for any insurance made by it on persons or property in this state; and the State Treasurer shall, on or before the, first day of April in same year, assess a tax against each said company, of one per cent. on the amount so received by it as aforesaid, and shall give notice of said assessment, and of the amount of said tax, to the president, secretary or treasurer of said company by mail or otherwise.

SEC. 2. If any such company shall neglect to make and deliver a statement, as aforesaid, or to pay the State Treasurer the full amount of the tax so assessed against it, within one month after notice thereof, as aforesaid, said company shall not thereafter do any business in this State; and no person shall thereafter, directly or indirectly, act in this state as agent, or otherwise, in receiving or procuring applications for insurance, issuing policies of insurance, or in any other business for or in behalf or for the benefit of said company, or in any way aid in transacting business with said company in this State; and for every violation of this provision the offender shall be fined the sum of five hundred dollars, one half to be for the use of the prosecutor.

SEC. 3. Any agent not an actual resident of this state, soliciting or in any way procuring insurances therein, shall first procure a license from the Insurance Commissioner, authorizing such person as agent, for which license he shall pay for the benefit of the state the annual sum of one hundred dollars; and any person soliciting or in any way procuring insurances, who has not such license, shall be liable to a fine of fifty dollars for each offence, one-half of said penalty to go to the state, and one-half to any person who sues therefor.

SEC. 4. It shall be the duty of the Insurance Commissioners, upon the application of any insurance company not organized under the laws of this state to examine into the affairs and standing of such company prior to the fifteenth day of September annually, and if, in their opinion, the business of such company is properly conducted, and such company is safe, reliable, and entitled to public confidence, and not otherwise, said commissioners shall grant to such company a license to do business in this state for the term of one year from and after said fifteenth day of September, which license shall be recorded in the office of the Secretary of State, and for the said examiners for making said examinations shall be the same as for examinations of insurance companies in this state, and be paid by the company making application.

SEC. 5. The provisions of sections 1 and 2 of chapter 159 of the General Statutes, so far as they relate to any taxes against foreign insurance companies, or any payments by them for licenses to do business in this state, are hereby repealed.

Approved, July 9, 1869.

AN ACT providing for a Board of Commissioners on Fisheries, and defining their duties.

Be it enacted by the Senate and House of Representatives in General Court convened, as follows:

SECTION 1. The Governor, with the advice and consent of the Council, shall appoint a Board of Commissioners on Fisheries not exceeding three in number, who shall hold their offices for five years (unless sooner removed,) for the purposes of re-stocking such of our waters with salmon, shad and alewives as were formerly frequented by those fish, and introducing the land-locked salmon (so called,) black bass, pike-perch, white perch, white fish, or any other desirable fish, into our inland waters.

SEC. 2. The Board of Commissioners on Fisheries are hereby authorized to co-operate with the commissioners of other states, having joint interests with this state, for the purpose of restocking the rivers, streams, and other waters, with salmon, shad and alewives.

SEC. 3. They shall examine the principal inland waters of the State and determine what new varieties of fish shall be introduced into the several waters. They may take fish of any kind at such time and in such manner as they may choose, for the purposes of science, cultivation and dissemination, and may permit other persons to take fish at any time and in any manner, for the same purposes, anything in this or any other act to the contrary notwithstanding.

SEC. 4. They shall make a full annual report to the Governor of all their doings, together with a statement of all expenses, as early as the tenth of June. They shall be entitled to receive their travelling and other expenses necessarily connected with the discharge of their duties, and such compensation for their services as may be determined by the Governor and Council, who shall audit their accounts.

SEC. 5. All acts or parts of acts inconsistent with the provisions of this act, and the resolutions of June 30, 1865, and July 7, 1866, relating to the appointment and authority of two Commissioners to consider the subject of restoring sea-fish to our waters, and the introduction of new varieties of fresh water fish, are hereby repealed.

SEC. 6. This act shall take effect from its passage. Approved July 8, 1869.

AN ACT relating to Keeping the Financial Accounts of Towns.

Be it enacted by the Senate and House of Representatives in General Court convened:

SECTION 1. Town notes shall be signed by a majority of the Selectmen and countersigned by the Treasurer.

SEC. 2. Town Treasurers shall keep a book wherein they shall enter all town notes, with the date, amount, endorsement, time of payment and name of payee.

SEC. 3. All money received by the collector of taxes shall be paid by him to the treasurer, on demand, who shall give him a receipt therefor, and make all the disbursements thereof under the written authority of the majority of the selectmen.

SEC. 4. The treasurer shall make an annual report to the town auditors of all his financial transactions during the year, and shall present his vouchers therefor, and said report shall be read at the annual town meeting, and then filed in the town clerk's office as soon as may be; and that the financial year be declared as expiring on the first day of March annually, and that accounts and reports be made up to that date.

SEC. 5. Any town officer refusing to conform to the provisions of this act shall be liable to a fine not exceeding one thousand dollars, one half to the prosecutor and one half to the town.

SEC. 6. All acts inconsistent herewith are repealed, and this act shall not apply to any of the cities in this State by whose charters it is otherwise provided.

Approved July 7, 1869.

AN ACT relating to the support of certain inmates of the Asylum for the Insane.

Be it enacted by the Senate and House of Representatives in General Court convened:

SECTION 1. When the means of support of any inmate of the New Hampshire Asylum for the Insane shall fail, or be withdrawn, the Superintendent of said Asylum shall immediately cause notice in writing of that fact to be given to one of the County Commissioners of the County from which such inmate was committed; and such county shall be liable and holden to pay to said Asylum the expense of the support of such inmate from and after the service of such notice, and for ninety days next prior thereto.

SEC. 2. The county paying the expense of the support of any inmate, as aforesaid, shall be entitled to recover the amount so paid of any town, county or individual by law liable for the support of such inmate.

SEC. 3. This act shall take effect and be in force from its passage.

Approved June 30, 1869.

ROAD DUST AND VEGETATION.—No careful observer will deny that the trees along much frequented roads, especially when exposed to the influence of prevailing winds, distinguish themselves in the rapidity of their growth and the luxuriance of their foliage as being more thriving than those of the neighboring wood. This fact is being ascribed to the dust of the roads which is carried and deposited by the wind upon their branches and foliage. Dry road dust contains from eight to ten per cent. of organic matter, arising from the excrements of animals, from straw, hay or grains which may have fallen from wagons frequenting the road.

After having been pulverized by carriage wheels to a fine dust, they form a large amount of already decomposed and ready soluble nourishment for vegetable growth. Roads kept in good condition are therefore not only important promoters of the civilization of the district wherein they are located on account of easier transpotation, but also because of the immense production, of an inexpensive but not less efficient fertilizer. It is in such, at the first, unapparant causes that an explanation of many of the declared mysteries of vegetation may be found.—*Manufacturer and Builder.*

LOSS IN STACKING HAY.—A farmer of sound judgment and large experience in cutting and storing hay estimates his own loss in stacking at twenty-five per cent. He cuts probably a hundred tons a year, and stacks a fifth part of it for want of barn-room. He has very probably made up his mind to build a new barn. We think his estimate is not wide from the mark. There is a large loss from moulding at the bottom of the stack, and old rails, boards or straw will not wholly prevent it. Then the whole external suface for three or four inches is weather beaten, and loses much of its sweetness; and it is not improbable that this loss of aroma extends through the whole stack.

The conviction is universal among intelligent men that barn-stored hay is worth much more than that which is taken from the stack. Why then follow this wasteful practice? Look at the loss to this farmer who cuts one hundred tons of hay, worth $2000. According to his own estimate he pays $100 a year for the privilege of stacking one-fifth of his crop. This is but a small part of the loss where the hay is fed out at the stack. It costs at least a third more hay to keep cattle without shelter. These are strong arguments for more barn-room.—*Exchange.*

TO PRESERVE A BOUQUET.—When a bouquet is received, at once sprinkle it lightly with fresh water, and then put in a vessel containing soap suds. This will keep the flowers as freshly as if just gathered. Then every morning take the bouquet out of the suds, and lay it sideways—the stock entering first—into clean water, keep it there a minute or two, then take it out and sprinkle the flowers lighly by the hand with water, replace it in the soap suds, and it will bloom as fresh as when first gathered. The soap suds needs changing every three or four days. By observing these rules, a bouquet may be kept bright and beautiful for at least a month, and will last still longer in a passable state.

ASIATIC CHOLERA IN CHINA.
Almost Every Case Cured with
Pain Killer.
Dear Sirs: I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send us last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. We resorted at once to the Pain Killer using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of Pain Killer. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be indifferently received. Believe me, dear sirs, gratefully and faithfully yours,
J. N. JOHNSON, Missionary in China.
From Rev. R. Telford, Missionary in China, now visiting his home in Washington, Pa.
Dear Sirs: During a residence of some ten years as a missionary in Siam and China, I found your Pain Killer a most valuable remedy for that fearful scourge, the cholera. In administering the medicine I found it most effectual to give a teaspoonful of Pain Killer in a gill of hot water sweetened with sugar; then after about 15 minutes begin to give a tablespoonful of the same mixture every half hour until relief was obtained. Apply hot applications to the extremities. Bathe the stomach with the Pain Killer clear, and rub the limbs briskly. Of those who had the cholera, and took the medicine faithfully in the way stated above, eight out of ten recovered.
Truly yours, R. TELFORD.
If attacked with diarrhœa, dysentery, or cramp colic, don't delay the use of the Pain Killer.
Beware of all Imitations.
The Pain Killer is sold by all druggists.

☞ PERRY DAVIS' VEGETABLE PAIN-KILLER.—We clip the following from the Providence General Advertiser: At this season of the year, when cholera, cholera morbus, dysentery, and other kindred complaints are sure to prevail, everybody should be liberally supplied with the PAIN-KILLER. Persons leaving home whether it be for a day's excursion or a trip to Europe, should be in a condition to place their hands on it at a moments warning. Many diseases incident to the summer months which will prove fatal if not immediately checked, can be promptly cured by one or two doses of the Pain-Killer. On more than one occasion have we been relieved of intense suffering by the timely use of the above named preparation." Sold by all Druggists, Grocers and Medicine Dealers.

DODD'S NERVINE DID IT.
NEW LONDON, CONN., April 25, 1869.
REMEMBERED FRIEND:
I thought it well to wait another week before writing, to see if I continued to improve, as I have been doing for some time, under the treatment of the new medicine, and I am happy to tell you that I am getting better—even faster than when you were here. I commenced the use of DODD'S NERVINE without anybody advising me to it. When I began with it I could only walk from my bed to the chair. My trouble has been extreme pain in the head, and has lasted over three years. All the medicine I have heretofore taken has failed to give any relief. I am now able to go up and down stairs, and daily improving. I consider the NERVINE the best medicine I ever found, and shall continue its use, for I am confident of entire recovery. I have taken only three bottles, and would not be without it on any account. [jel5 5w] Very truly, MRS. L. S. NUTE.

MASTA'S PULMONIC BALSAM
IS A SPEEDY and certain remedy for Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Catarrh, Influenza, Hooping Cough, Asthma and the various Affections of the Lungs.
☞ The attention of those afflicted with COLDS, COUGHS, and with any disease of the lungs, is directed to this valuable remedy. On account of sudden changes in the weather, colds and coughs are easily taken, and if neglected may lead to disease of the lungs. What is needed under such circumstances is a reliable remedy—speedy in affording relief, and effectual in arresting further progress of the disease.
☞ To arrest the existing irritation of the air-passages and the lungs, speedily and effectually, the seat and cause of cough is an important step gained toward relief and cure in the first stages of the disease. MASTA'S PULMONIC BALSAM possesses this important power, and while it promptly and effectually arrests all existing irritation, and rapidly relieves cough, it renders the lungs further relief by promoting a free discharge of the accumulated mucus in the air-passages, imparting a healthy action and vigor to the chest at the same time.
☞ Those suffering with cough and the first stages of lung disease, will therefore find in this valuable preparation a speedy and decided relief. Even those whose condition is beyond recovery, will derive from its use great benefit as well as comfort. For the class of diseases it is designed to relieve, the general commendation it has received has proved its efficacy beyond question. For the past ten years have been speedily and effectually cured by its timely use while suffering from severe colds, protracted coughs, and from other forms of lung disease. It is prepared from vegetable balsams and the medicinal properties of roots and herbs, with no minerals nor poisonous acids; simple and safe in the material used, it can be taken at any time.
Sold in Portsmouth by J. H. THACHER, and by Druggists and Dealers in medicines throughout the New England States.

The Daily Chronicle.

Portsmouth, N. H.

FRIDAY, AUGUST 6, 1869.

AMERICAN INSTITUTE OF INSTRUCTION.—Rev. Mr. Chase of Waterbury, Mass., continued the discussion on the subject of object teaching, Wednesday afternoon, arguing that young children often had no idea whatever of what they are studying. He closed with an amusing incident, well illustrating the point in question. Mr. Richards of Washington thought that music should be taught in all schools, whether by the regular teachers or by professional ones.

Rev. Mr. Twombly, of Charlestowa, gained the floor, but yielded to Mr. Thompson of Worcester, who spoke of a lady in Arlington who managed to teach, though naturally not musically inclined. Mr. Griffin of Beverly asked if the lady in question could distinguish the notes by ear. Mr. Thompson said that most people could distinguish the note of the robin from that of the crow.

Mr. Stetson of Maine and Mr. Richards having spoken briefly, Mr. Mason was called upon, who stated that the question under discussion could best be settled by actual trial. He however thought most teachers who cannot sing might learn to teach successfully, because it had been done.

The discussion was further continued by Prof. Greene. Mr. Avery of North Hampton said that in his town, teachers who at first supposed that they could in no way teach singing, by a little help had been very successful. Mr. Hagar of Salem stated that nearly the same thing had happened in his city, and one teacher who was at first most happy to state that there was no one in his school who could sing had been particularly successful.

Mr. Waterman of Boston thought that such teachers of music were successful because they followed the natural method. Mr. Philbrick, Supt. of Schools of Boston, spoke of Mr. Mason's success in Boston, and stated that he knew of no school in the city where the scholars could not sing as well as they ought to at their age. Mr. Cruttenden of N. Y. spoke in an amusing strain of the hand-saw voice and the fiddle voice in school, showing how much better is the latter than the former. The former may be habitual but never natural; stop that and it will be easy to have singing well taught.

Mr. Richards of Washington thanked the gentlemen who had given him so much light on the subject; the first of it all seemed to be that professional teachers must go round and set the ball in motion.

Then followed the discussion of the following "To what extent should Oral Instruction take the place of text books in schools?"

C. O. Thompson of Worcester opened the discussion, contending that there is no proper instruction which is not oral. Training is a result of the activity of the mind. The sympathies must first be stirred. The lamented Prof. Putnam used to arouse the classes of Dartmouth college to cheers by his finished and stirring translations of the choral passages of the Greek tragedies. He then spoke of the method of teaching arithmetic in the German schools, entirely oral and from books containing nothing but problems, the teacher solving one of a class and leaving the pupil to solve the rest. Knowledge is the end of instruction and training should be the result. He thought that there should be no text-books in geography and grammar in the school-room, but each teacher should have one at home and be thoroughly conversant with it. The Bible is the clergyman's text-book; the geography and grammar should be the teacher's.

We must come back to the live, enthusiastic way of teaching. Questions were asked by several persons. Then Mr. Twombly stated that he agreed for the most part with what had been said, though he had some little faith in text-books. If teachers can learn so much from Greene's grammar at home, why cannot the scholars learn something from them at school. He thought it would take twice the time to teach geography without text-books. Prof. Greene answered the question under discussion as follows; "To no extent at all. The two should go together, neither taking the place of the other." Adjourned.

On Thursday, the meeting was called to order at 9 o'clock by the President, Mr. Kneeland. Prayer was offered by Prof. Allen of Iowa. On motion of Mr. Buckley of Brooklyn, N. Y., the subject of discussion Wednesday afternoon was again brought up. He could not agree with the conclusions to which some had apparently arrived. Oral instruction did not consist of pouring out a torrent of information upon the mind of the child. An extensive reading and solitary companionship with text-books was necessary for the digestion and classification of ideas.

Mr. Hedger of New Jersey said that teacher who thought that text-books are all that is necessary makes a very great mistake, and the one who would wholly remove them also acts upon false principles. Speaking of his own experience, he said that he was taught the Latin grammar without making application of it, and when he got through knew nothing of even the first declension. He related an incident of a young lady who had recited an English grammar through 7 times, and was about beginning to parse. The text-books must remain in school, but the teacher must go beyond them, and have his work broad and deep.

Mr. Cruttenden of N. Y. agreed with the position of Prof. Greene yesterday, and thought there was a place for text-books and also an objective course. He would begin with an old person as with a younger one; for it was the true way and he could never learn it younger. He thought that scientific names were the simplest, and the confusing use of the word thing, for the name of everything, in teaching children, was a great blunder. If any object has a name, use it. Do not call a wheelbarrow a thing. It was here voted that speakers, except in making opening speeches be limited to five minutes.

Mr. Avery moved that this topic be now laid upon the table, and the next topic upon the programme be taken up. The motion passed. Mr. Philbrick of Boston opened the discussion of the subject, "The examination and certificating of teachers." He read a carefully prepared paper upon the subject, contending that the qualifications of teachers should be tested by a fair and thorough examination. Good pay should be offered, and then stringent tests of capacity should be applied. The teacher should be made to feel secure of his position, during the faithful and successful discharges of duty.

The best system of examination thus far developed is that used in the educational system of Prussia. This is a series of successive examinations at stated periods, by which the graduates of Normal schools are advanced by regular gradations, and feel secure in their well-earned situations.

The President urged teachers to join the association, stating that thus the Institution would obtain working funds. There was at this point a recess of ten minutes. The exercises were resumed by a lecture from Prof. Woodman of Dartmouth College. Those who have been fortunate enough to enjoy the daily instruction of this excellent teacher, know better than others its value. Few instructors gain a stronger hold on the regards of their students. He commenced by stating that there is within us all a sensibility to artistic skill, a capability to appreciate and a love of beauty whether found in Art or Nature. He defined Art as a representation or activity by which something internal or spiritual is revealed to the senses. He spoke of the first lines of Gray's Elegy and termed the elocutionists' rendering of them as the fine art of oratory. In this way he referred to other departments of Art, showing in what each consisted.

He described the Chartres cathedral, showing that its architecture was capable of being studied for months and of giving lessons in religion, in history, philosophy and nearly every department of study and thought. The form is the main thing, and gives the essential characteristics at the bottom. Michael Angelo has even embodied his ideas of twilight and dawn in marble. The attempt may not be wonderful, but when Michael Angelo does it, it impresses the ages. All the fine arts have their basis and commencement in drawing. He spoke of teaching this in our common schools, and urged teachers to do it themselves and not leave it to others. His lecture was intensely interesting and frequently applauded.

Your reporter in retiring from the field expresses the opinion that the solid advantages accruing from this session of the Institute will come from the suggestions of the older and more experienced teachers. Their views have been less visionary and flighty, but far more practical than those of the younger members, who would do away with text books and everything, that the surrounding darkness may show more clearly the scintillations of their own magnificent geniuses. Let us combine the counsel that comes from these men of years with the energy of the younger men, and educational interests will receive an impulse that will astonish us all. *There is work to be done; are we ready to do it?*

The afternoon session commenced at 2 o'clock and the following officers for the ensuing year were chosen.

BUSINESS NOTICES

WITH DYSPEPTICS everything is wrong. Food does not digest; sleep does not refresh: wine does not cheer; smiles do not gladden; music does not charm, nor can any other joy enter the breast of the miserable dyspeptic. You must get rid of it or it will become seated and confirmed, and life will be a burden and existence a curse. PLANTATION BITTERS will do away with all this. New life, strength and energy will take possession of you. The damask will again bloom upon your cheek, and the lustre in your eye will again be as bright as in your healthiest, happiest and most joyous days.

☞ There are valuables which will be received into the vaults of a bank only on sufference and many others that will not be received on any terms. Towns possessing a suitable place of deposit often lose valuable records and papers, impossible to replace, by fire or robbery. The UNION SAFE DEPOSIT VAULTS, 40 State Street, Boston, were instituted to remedy these evils, and their great success has only been commensurate with their merit. Individual safes are rented from $20 to $100 a year. Circulars of Henry Lee, Manager.

☞ "None name thee but to praise," should be inscribed upon every bottle of "Barrett's Vegetable Hair Restorative;" for among all its would be compeers it stands alone; unapproached and unapproachable.—*Watchman and Reflector.*

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

Dr. Ham's Aromatic Invigorator removes from the system the ill effects caused by the excessive use of alcoholic liquors, and effectually destroys the appetite for these stimulants. It gives tone to debilitated mucous surfaces. Effete matter is removed from the system, thereby restoring it to its normal healthful condition. As a medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

This elegant preparation has stood the test of years. A wine-glassful before eating will give a good appetite and prevent all suffering from indigestion. Ladies of weak and delicate constitutions should take the Invigorator three times a day. A wine-glassful before retiring will insure sweet and refreshing sleep. All the proprietor asks is a trial, and to induce this he has put up the Invigorator in pint bottles at 50 cents,—quarts $1.50. Principal Depot, 45 CENTRAL WHARF, BOSTON. Sold by all Druggists. my18eod3m

Dr. Speer, of New Jersey, makes an excellent wine, that is becoming celebrated among medical gentlemen in our large cities, and used in hospitals as a superior article. Physicians recommend it as an invaluable article for weakness and general debility. It is a rich nutritive wine, possessing the virtues that make it valuable for weakly persons and for general family use *at this Season of the year.—N. Y. Eve. Post.*

SPECIAL NOTICES.

The Conditions of Health.

It is idle to expect health if the precautions necessary to secure it are neglected. The human organization is a delicate piece of mechanism, and requires as much intelligent care and watchfulness to keep it in order, as are requisite in the management of the most complicated combination of levers, wheels and pinions.

At this season of the year the body is peculiarly sensitive, because it is greatly weakened and relaxed by the continuous heat. The skin, in summer, with its millions of pores wide open, is a very different sort of tegument from the fibrous covering which it becomes under the action of the winter's cold. The muscles, too, are comparatively flaccid, the nerves tremulous, the blood poor, and the whole frame less capable of enduring fatigue and resisting diseases, than in cool weather. These indications of a depressed condition of the vital forces are so many unmistakable hints that nature needs reinforcing.

Ordinary stimulants will not effect this object. They inflame and excite, but do not strengthen. The only preparation which can be depended upon to impart eternal vigor to the system, and enable it to endure the ordeal of the heated term without giving way under the pressure, is HOSTETTER'S STOMACH BITTERS, a tonic and corrective so pure, so harmless, so utterly free from the drawbacks which render many of the powerful astringents employed in medical practice more dangerous than the ailments they are employed to cure, that it may be administered without fear to the feebleist female invalid, or the most delicate child. The cathartic and active vegetable ingredients, which are combined with those of a tonic nature in its composition, keep the bowels moderately free, and prevent the stomach while the work of invigoration is going on. The finest blood depurents which the herbal kingdom affords are also among the components, so that it recruits, purifies and regulates the system simultaneously. au5

Holloway's Ointment.—There are multitudes of brave fellows now suffering from the effects of wounds received in the war, who might be made sound and whole in a short time by the use of HOLLOWAY'S OINTMENT. It is no superficial remedy, that merely skins over an ulcer, leaving the poison festering beneath to break out afresh at some future time. On the contrary, it eradicates the inflammatory principle itself, and works a complete and thorough cure. Sold by all Druggists.

THE LATEST DISCOVERY
In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S
LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One Thousand Experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its original components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and kindred irregularities to which feebler sex are subject, the Lozenge will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried Dr. ERASMUS WINSLOW'S **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

Batchelor's Hair Dye.

This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad dyes; invigorates and leaves the Hair soft and beautifully black or brown. Sold by all Druggists and Perfumers, and properly applied at the Wig Factory 6 Bond Street, New York.

To Remove Moth Patches, Freckles, and Tan from the face, use PERRY'S MOTH AND FRECKLE LOTION. Sold by all Druggists. Prepared only by Dr. B. C. PERRY.

FOR BLACK WORMS, AND PIMPLES ON THE FACE, use PERRY'S COMEDONE AND PIMPLE REMEDY, prepared only by Dr. B. C. PERRY, 49 Bond Street, New York. Sold everywhere.—The trade supplied by wholesale Druggists. mh14w6m

ALLEN'S LUNG BALSAM.

The best remedy for the cure of CONSUMPTION, AND ALL DISEASES OF THE LUNGS. It causes the phlegm and matter to rise without irritating those delicate organs (the Lungs), and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless for the most delicate child. It is everywhere in good demand and gives good satisfaction.

The result of its use is proof of its great value.—Its extraordinary healing properties are experienced by all who use it. Their testimony will be found in a pamphlet, which can be had of the agents where the medicine is sold.

Ellis' Iron Bitters

Will enrich the blood and prevent it from becoming watery and weak, give a healthy complexion, restore the appetite, invigorate the system, and are very palatable. These Bitters are recommended to all persons requiring a safe and valuable tonic, to impart tone and strength to the system, not given by Bitters merely stimulant in their effects; which, although they may possess tonic vegetable properties, cannot give the strength to the blood which the *Iron Bitters* will give.

ASIATIC CHOLERA.

The Strongest proof of Intrinsic Merit.

DEAR SIRS,—I ought to have acknowledged long ago the box of PAIN Killer you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The Cholera appeared here soon after we received it. We resorted at once to the PAIN KILLER, using the directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, seen very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of the PAIN KILLER. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be very indifferently received.

Believe me, dear sirs, gratefully and faithfully Yours, J. M. JOHNSON.

Missionary at Swatow, China.

BRANDRETH'S PILLS.

They remove all bad accumulations from the bowels, and purify and invigorate the system. All whose health is not perfect, owe it to themselves to take a few doses of Brandreth's Pills, because the seeds of decay are constantly engendered by their use, and the principle of life confirmed, thus giving a vigor of body and mind to a period when we have been used to the faltering step and the enfeebled intellect.

General Paez, the distinguished liberator of Venezuela, says he has used them as his only medicine for thirty years, with the most satisfactory results.

For Costiveness, Dyspepsia, and as a Family medicine they are unrivalled.

Daniel I. Tenney, Esq., Astor House, New York, cured by Brandreth's Pill of Dyspepsia and Costiveness, when all other means used had failed.

A gentleman, whose father died of consumption at 36 years, was also attacked, when about 21, by the disease. He had cough, night sweats, and general debility. Doctors recommended cod liver oil, but he wasted away. At last he determined to use Brandreth's Pills. In two months they made him a sound man. jy22

PAIN KILLER.

WE beg leave to call the attention of the public to this long celebrated and unrivalled

FAMILY MEDICINE.

The PAIN KILLER is a purely vegetable compound, and while it is a most efficient remedy for Pain, it is a perfectly safe medicine even in the most unskillful hands.

For Summer Complaint,

Or any other form of bowel disease in children or adults, it is an almost certain cure, and has without doubt been more successful in curing the various kinds of

CHOLERA,

Than any other known remedy, or even the most skillful physician. In India, Africa, and China, where this dreadful disease is ever more or less prevalent, the PAIN KILLER is considered by the natives, as well as European residents in those climates. jy19

A SURE REMEDY.

SCHENCK'S PULMONIC SYRUP,

Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well.—This is the only way to cure consumption.

To these three medicines Dr. J. H. SCHENCK, of Philadelphia, owes his unrivalled success in the treatment of Pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing is wanted but a liver to secrete healthy bile (a deadly poison which is very dangerous to use unless with great care,) that will unlock the doors of digestion and start the functions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient agents and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause and these will stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleurisy, adhesions or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, now weighs 220 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success.

Full directions accompany each, making it not absolutely necessary to personally see Doctor SCHENCK, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, he can be seen at the Tremont House, Boston, gratuitously. He is also professionally at No. 32 Bond Street, New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half-dozen.—Mandrake Pills 25 cents a box. G. C. GOODWIN & CO., 38 Hanover Street, Boston, Wholesale agents. For sale by all druggists. d1yja4

LOCAL AFFAIRS.

TROTTING.—We give the Summaries of Wednesday's races.

ROCKINGHAM PARK, Portsmouth, N. H. Aug. 4th. Purse $150 for horses that never beat 3 minutes—$75 to first, $50 to second, $25 to third.

S. Hayes, n br m Lady Wilkes	1	1	1
P. C. Yeatman, Hampton, n blk g Jim	2	2	2
J. McGlaw, bg Stranger	3	3	3
F. Yates, Biddeford, n br m Belle Gibbs	r	o	

Time, 2:53, 2:55, 2:52.

The interest of the day was mainly centered in the other race:

SAME DAY.—Purse $250, for horses that never beat 2:44—$125 to first, $75 to second, $25 third.

H. Woodruff, n g m Lady Lawrence	2	2	1	2
D. Bigley, Lawrence n b m Kate	1	3	2	4
S. G. Reid, Gt. Falls, n b m Sallie	3	1	3	1
J. McGlaw n br m Mountain Maid	5	5	4	3
W. L. Briggs n b g Little Beauty	4	5	4	5

Time, 2:47, 2:47, 2:47, 2:47.

Little Beauty was by far the biggest horse in the field, and was not so much of a beauty either, compared to Kate. The betting was greatly in favor of Sallie all through, in the pools, but she had to work pretty hard for the first money, which she won in five heats. Kate won the first, 2:47, Lady Lawrence coming in second, Sallie third.

The second heat was won by Sallie, in 2:47—Kate second, Lawrence third. The third heat actually belonged to Kate, but was given to Lady Lawrence, although complaint was made, (and justly too) that her driver cut in across Sallie and foully crowded her out of her place at the pole in the first turn, thus losing her the heat.

For the second heat there were five attempts at starting, before they got the word on the sixth; and on the third heat there were six false scorings. The judges then ordered the horses to be placed in line at the distance pole, and started from a stand-still there, to get the word as they passed the judges' stand, no matter in what order they came. But two or three came on the run, and owing to some obfuscation of the leading judge, the word "go" was not given, neither was the bell struck to call them back, until the horses had gone nearly a half mile, and then two (Lawrence and the Beauty) kept on another turn—but the heat was decided null and void. So another standing start was given, and this time they got off with the word, with result as before stated.

Up to this time Mr. Reid, a Kentucky gentleman, (as we believe Sallie is a Kentucky horse,) had driven the mare; but now young Mooney, who won some notoriety at Great Falls for reckless (or determined) driving and smashing sulkies, got up behind Sallie, and ere they cleared the first turn, rip-crash went his sulky and Woodruffe's together, but all kept on, and when they came in, it was Mooney's own wheel this time minus a spoke or two. But he got the heat, in 2:47—Lady second, Kate third. And Mooney's friends say the Boston drivers try to crowd him out, but can't come it.

The fifth heat was soon over, and Sallie, with another sulky (after a gentle and harmless collission with her next neighbor,) came in winner of the heat and race in 2:47.

On Thursday, in the trot for $400 for horses that never beat 2:30,—$250 was won by (no, say rather, was awarded to) McClellan, after four heats, in 2:45, 2:37, 2:41 1-2, 2:38 1-2. Black Walnut took second heat and got second money, $100; Nellie Locke third, $50, Empress fourth.

In the $200 trot for horses that never beat 2:50, Lady Wilkes took first money in three strait heats, 2:50, 2:52, 2:51 1-2. There were two dead heats in 2:50, 2:54. Lady Emma got second money, and ought to have had first, for foul driving and collusion of the drivers of Lady Wilkes and the Beauty, which last was given third money.

The late hour at which the races closed, comes us to defer making any extended remarks at this time, except to say that we feel sure the judges erred in not giving one race to Nellie, and the other to Lady Emma. Nellie was driven fairly, and trotted splendidly, and could and did beat all the other horses in the race; but McClellan and Black Walnut were both broken and allowed to run under the whip, and should have been distanced in either the third or fourth heats. And the same is true with regard to Lady Emma, who was beaten only by foul driving of the other horses.

The judges were Messrs. John Wiggin of Dover, A. F. Drew of Great Falls, and E. G. Morrison of Amesbury—and we do not in any manner cast any imputation on their fairness or knowledge of the rules; but nevertheless we do think that justice and honor demanded the enforcing forfeit on the drivers the only consolation the friends of the Portsmouth horses have, in their hard luck is, that the discrimination was clearly not in their favor, but rather against them, on their own grounds. Concerning which, we shall have something more to say.

☞ In the Board of Aldermen, Thursday evening, it was voted to pay Mr. Elwyn $1000 for four acres of grave hill at Lafayette Bridge.

Petition of A. W. Haven and others, to widen Congress street and sidewalk, south side, two feet, from corner of Middle St. to residence of Col. J. W. Peirce, was referred to Com on Sts.

☞ On our fourth page will be found a very readable communication from a lady, relative to Prof. Morse's lecture on the "classification of Species," at the Institute.

By invitation of Commodore Winslow the members of the Institute visited the Navy Yard, Thursday afternoon.

We shall conclude a report of the discussions of Friday to-morrow.

EXCURSION.—The members of the American Institute of Instruction go to the Shoals in steamer Appledore, this morning at 7 o'clock, and we have no doubt will enjoy the trip hugely. The steamer will make her regular trip at 10.30 and return about 4 o'clock, P. M.

SAD ACCIDENT AT NEWMARKET JUNCTION.—Eugene Carr of Holderness, a fireman on the B. & M. R. R., was run over at Newmarket Junction, Thursday morning, while attempting to get on his train, and had both legs badly crushed. The left leg must be amputated above the knee but possibly the other, which was broken at the ancle, may be saved, provided the poor fellow should have sufficient vitality to go through the operation. He was attended by Dr. Green of Newmarket, who sent for Dr. Varney of So. Newmarket. The chances are that the man will die. Carr was unmarried, and boarded in Exeter.

IMPORTANT TO CONTRACTORS.—Orders have been issued by the Navy Department directing that in all cases where stores are procured by open purchase upon requisitions from Navy Yards, Purchasing Paymasters will specify in their orders a time within which such stores must be delivered, and in all cases where parties fail to deliver them within such time, Paymasters will cancel the orders and purchase the stores elsewhere, unless the time shall be extended by the Commandants of Yards.

☞ We understand that Col. George H. Pierce and John E. Bickford, of Dover, have purchased from Mr. Nathan F. Mathes, one-half of the Brewery at Manchester, and will hereafter carry on the brewery business in that city in partnership with Capt. Geo. W. Tucker of Portsmouth.

THE BASE BALL MATCH at the Plains this (Friday) afternoon between the Eckford Club of Manchester and the Granite State Club of this city, will be well worth seeing. The Granite State nine are as follows; Salter, c; Dow, p; Sanger, 2nd, 1 b; Sanger 1st, 2 b; Gaines, 3 b; Stackpole, s s; Fry, l f; Donnell, c f; Spalding, r f. The game commences at one o'clock.

☞ Hampton Academy, as may be seen by the advertisement in our columns to-day, is to be opened for the Fall Term, under the care of Rev. Mr. Durgin, who taught there successfully and acceptably, the last Winter and Spring terms, and who is favorably and extensively known.

HOW VERY EASY a horse can get his leg, a man his stomach, or a child its neck, dislocated, by merely stepping into one of the half-protected hydrant-pits near the residence of Mrs. Hallibur-ton, on Islington Street.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Chronicle office. Price 5 cts. per copy—$2. per year. Contains *all* the Local and other reading from the Daily Chronicle.

ANOTHER CLOSING MOVEMENT.—The Provision dealers of this city have agreed to close their stores, hereafter, on Tuesday and Thursday evenings, at 6 o'clock.

SOME of the ladies in attendance on the sessions of the Institute are not handsome—but then they have brains!

☞ Gefle, Sweden, had a disastrous fire, July 10th. 700 houses were burned and 800 families rendered houseless. Loss $2,500,000.

A PACIFIC RAILWAY
GOLD LOAN $6,500,000.
We beg leave to announce that we have accepted the agency of the
KANSAS PACIFIC RAILWAY COMPANY,
For the sale of its
NEW SEVEN PER CENT.
Thirty Year Gold Loan,
Free from Tax.
This Loan amounts to $6,500,000
First Mortgage Land-Grant and Sinking Fund Bonds,
secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 227 miles of which 112 miles are completed, and the rest is under construction. It is also a Mortgage upon Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,
And in successful operation for 437 miles
west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the
GOVERNMENT LAND GRANT OF THREE MILLION ACRES,
extending in alternate sections on either side of the track, from the 394th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be used by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as A SINKING FUND FOR THE REDEMPTION OF THE BONDS.
The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including coal field and pinery. The company also holds as an asset another tract of
Three Millions of Acres in the State of Kansas,
and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the
Value of the Company's property, covered by this mortgage, at $23,000,000 net, while the Loan is merely $6,500,000.
The Bonds have
THIRTY YEARS TO RUN,
from May 1, 1869, and will pay
SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.
The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be
PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:
On $1,000 Bond in N. Y. $35 (gold) each half year.
" London....£7 85. 10.
" Frankfort..87 fl. 30 krtzs.
The Agents of the Loan, before accepting the trust, had the condition of the bond, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a
FIRST CLASS INVESTMENT,
in every respect perfectly sure, and in some essential even
Better than Government Securities.
The Bonds will be sold for the present at
96, and accrued Interest, both in Currency,
the Agents reserving the right to advance the rate.
The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.
Gold and Government Securities taken in payment at their market value, without commission.

PROF. MORSE'S LECTURE.—At the imminent risk of "darkening counsel by words without knowledge" like Job's "miserable comforters," (and here no doubt I lay myself open to an attack from Uncle Toby,) I feel inclined to offer a few remarks upon the address delivered Wednesday forenoon at Congress Hall, to an assembly composed, I regret to say, almost wholly of strangers. To such unwary individuals as may suffer from the perusal of this article, I would say, in self vindication, that having been informed that the Chronicle had no reporter attending the Sessions of the Institute, on account of the stronger attractions offered by the Trotting Park,—which, if actually the case, demands either a new Daily or a new administration of the old one, (a remark that will not, I trust, prove fatal to this my first literary oblation to that amiable publication) I feel that a paper so neglectful of its most important duties, will be justly and sufficiently punished in finding me its self-constituted Reporter; the excellent lecturer, however, deserves a better fate, — I pity him, though I cannot spare him.

After considerable delay, caused by a quest for a black-board, upon which some comical specimens of animated nature were subsequently to figure, Prof. E. S. Morse, of Salem, ascended the platform, with apparent ease, (Query, Why and how is it, that in favor of stands for public speakers, and of pulpits especially, the law of gravitation is reversed, and the man who mounts with the utmost facility, finds it difficult and sometimes almost impossible to descend, though urged by the exhaustion of his ideas, his eloquence, and the patience of his hearers? and proceeded, as he expressed it, "to teach teachers," to place clearly before their minds certain great principles of classification, by means of which, without the study of rare species, or acquaintance with scientific nomenclature, they could interest their pupils in comparative Zoology, and enable the youngest scholar to pursue systematically and in the most natural manner, this pleasing study.

For this purpose, he assured us it was needful to know but *one* specimen of a species, to understand *one cat thoroughly*,—and here, thought I, Portsmouth offers unparelleled advantages—or one bird;—my mind reverted to the sepulchral rooster in our neighborhood, with whom it would be pleasant to become intimate in the manner mentioned by Prof. Morse, by "just passing a sharp knife through the middle of the back,"&c. So I have every inducement to study Zoology. When the lecturer desired to present illustrations of his statement, that in all orders of beings, the species that inhabit water are the lowest, and that those being in salt water are inferior to the dwellers in fresh water,—forthwith, in response to a few cabalistic motions of his with the chalk, his myrmidons were before us on the black-board,—a fish of sullen aspect, doubtless due to the disrespect just cast upon his name, a frog in whose expression gravity and sweetness were beautifully blended, while his posture was grace itself, a turtle betraying strong agitation, and a bird, who owing to the hurry in which he came, had omitted his tail, and whose laughable importance of look and mien could only be explained by the supposition, that he had appeared so often before learned bodies as to have caught some of their ways.

These soon vanished, and manylegged creatures of all degrees of ugliness crawled in their stead. You had better attend these lectures—you may learn something to your advantage. Did you know snails had ten or twelve thousand teeth? Think what a field for a dentist,—a prairie rather! One or two false sets of that caliber would enable him to retire. Prof. Morse, in his animation and keen interest in these queer-looking friends of his, undertook, no doubt unconsciously, to convert his arms into the "little flippers" of the penguin, to show us the complicated wriggling of a hundred thread-like legs, and even to draw like a snail into the shell, but from this attempt he was suddenly recalled by the embarrassing absence of the shell.

This peculiarity brought to mind a vivacious friend of mine, who also possesses it in a great degree, and who in relating a story in which it was necessary to describe a dog, finished the description by saying, "he had a black spot just at the root of his tail," at the same time indicating with accuracy that region of the human body supposed to correspond to the description. The narrator retired in confusion, and the story could not be finished for laughter. An excellent old lady once fell on the ice, but to her surprise was not in the least injured. Arriving at her home, she related the incident to her family, and, in falling upon the floor to explain more graphically how the thing was done, she injured herself so much as to be lame for months,—a proof that the passion for illustration *may* be indulged too far, and a warning to Prof. Morse.

The principle of Cephalization was presented in a most interesting manner; in the ascending scale of being, members which in the lower orders serve the purpose of locomotion only, have committed to them the higher office of serving the brain also, and finally serve that only, as in man, who thus stands absolutely alone, in the possession of but *one* pair of members for locomotion.—And the most highly intelligent individuals of the genus homo, as far as possible commit the offices demanded by the head, to other means than the hands,—the brain compels machinery and cunningly-devised tools to relieve the fingers; and our lecturer assured us that the placards so often seen at Fairs and other places where delicate and valuable wares are publicly displayed, "Hands Off," are for the warning of an order of beings unmistakably lower than those who are able to discern the merits of the same articles, by the intelligent medium of the eye, without the aid of touch; a view with which a very particular gentleman, sitting near me, and whose choicest treasures have suffered much from the manipulations of children, heartily concurred.

Nothing was farther from my mind, when I began to write, than giving an intelligent or intelligible account of the lecture,—for reasons which must be evident to any reader of the foregoing. Before I left the hall, I heard that some evil-disposed person had suggested, that if the several hundred guests announced as *en route* for Portsmouth had been young *gentlemen* instead of young ladies, our doors would have been thrown wide to receive them, instead of being, as now, shut and bolted. Women of Portsmouth! Is this imputation to be borne? I pause for a reply.

S. M. F. M.

[*NOTE.—Our pleasant and very acceptable correspondent will have seen by our paper ere this, that the Chronicle did have most devoted and efficient reporters at the Institute, while not neglecting the horse-trotting either. Each is good in its place, when properly conducted and not abused—although there will very naturally be difference of opinion as to the relative value and importance of the two kinds of entertainment or amusement, which we shall not undertake to settle.

—A few weeks ago, as Rev. M. C. was teaching his little daughter, three years and a half old, the Lord's Prayer, on coming to the passage, "Give us this day our daily bread," she raised her sweet blue eyes and said, "If you please, I would rather have biscuit and butter."—*Recorder.*

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the United States Patent Office, Washington, under the Act of 1837,
NO. 78 STATE ST., OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to procure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Deeds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents or inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his practice, made *on twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending.* Such unanimatakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

VIA TAUNTON FALL RIVER AND NEWPORT.
Cabin, $5.00; Deck, $4.00.
Baggage checked through and transferred in New York free of charge.

New York trains leave the Old Colony and Newport Railway Depot, corner of South and Kneeland Streets, daily, (Sundays excepted,) as follows: at 4.30 P. M., arriving in Newport 40 minutes in advance of the regular Express Train, which leaves Boston at 5.30 P. M., connecting at **Newport** with the new and magnificent steamers PROVIDENCE, Capt. E. M. Simmons, and BRISTOL, Capt. Benj. Brayton. These steamers are the fastest and most reliable boats on the Sound, built expressly for speed, safety and comfort. This Line connects with all the Southern Boats and Railroad Lines from New York going West and South, and convenient to the California Steamers.

"**To Shippers of Freight,**" this Line, with its unequaled extensive depot accommodations in Boston, and large pier in New York, (exclusively for the business of the Line,) is supplied with facilities for freight and passenger business which cannot be surpassed. Freight will always be taken at low rates, and forwarded with despatch.

New York Express Freight Train leaves Boston at 1.30 P. M.; goods received in New York next morning about 8 A. M. Freight leaving New York reaches Boston on the following day, at 9.45 A. M.

For tickets berths and other information, apply at the Company's office at No. 3 Old State House, corner of Washington and State Streets, and at old Colony and Newport Railroad Depot, corner of South and Kneeland Streets, Boston.

ASTRONOMICAL.—In my communication of June 9th, it was mentioned that I should have some remarks to make about the Eclipse of August 7th. This eclipse commences in this city at 5 h. 25 m. afternoon. Middle, 6 h. 20 m. local time, and end at sunset. At the middle, the Sun will be about three-fourths obscured, and will present the appearance of the new moon when four days old. This is the most important eclipse that has taken place in New England since May 26, 1854, which was central and annular in Boston, Portsmouth and Portland. At the time of the eclipse it was partially cloudy, but at intervals the ring was distinctly seen and perfect.

This eclipse of to-day first begins on the earth at sunrise, in the Pacific Ocean east of Japan. It becomes total in Siberia, Lat. 52 deg. 41 min. North, Lon. 165 deg. 26 min. West of Washington. The eclipse will be total at noon in Alaska. The line of the total phase now runs southeasterly, grazing the coast near Sitka, thence running off into British America, and entering the United States in Lon. 30 deg. West. Thence through the Southwest corner of Minnesota, and diagonally through Iowa, thence through Illinois, crossing the Ohio river near Louisville, Ky. Thence through the S. W. corner of West Virginia, through North Carolina south of Raleigh and thence to Newbern, entering the Atlantic just north of Beaufort, and ending at sunset, in the Ocean, Lat. 31 deg. N., Lon. 9 deg. 36 min. E. This eclipse occurred last on July 28, 1851, and the total phase was visible in the Arctic regions of America, in Sweden, Norway, and Prussia.

If to the time of the middle of any eclipse, either of the sun or moon, there be added 6585 days, 7 hours and 42 minutes, the time of the mean return of the same eclipse will be had for a long succession of years; but at each return it will pass a little to the north or south, till in process of time it will leave the earth at one of the poles; and after that, there will be no return of the same eclipse in less than 12,500 years, for every eclipse travels in expansion, quite clear of the earth, during this interval; at the expiration of which it comes again upon the earth at one of the poles, and at each return wears a little to the north or south, for about 1000 years, when it leaves the earth at the opposite pole.

The next important eclipse of the sun will be Sept. 29, 1875, which will be central and annular in New York and the New England States,—in some part of each of these places the ring will be perfect.—July 29, 1878, there will be the fourth return of the great total eclipse of the sun, of June 16, 1806.—Oct. 20, 1892, there will be an eclipse of the sun, ot a little less magnitude than this one of to-day.—The year 1900, May 28, winds up the important eclipses of the sun for the present century. This one will not be total at Portsmouth, but about seven-eighths of the sun will be obscured. YOURS, TYRO.

P. S. It is worthy of observation, that it has so happened that there has not been a total eclipse of the sun, in the Latitude and Longitude of the City of New York, since the discovery of America; though in the mean time the shade of the moon has often passed over other parts of the United States.

The Reasons Why.—Rev. Dr. Bellows, in the Christian Examiner, undertaking to account for the decrease in the number of candidates for the ministry, speaks of the great inducements, revivals, and fascinations, of professional, scientific and commercial pursuits, which draw away far the largest part of our rising young men of ability, and leave the pulpit of all denominations comparatively stripped of men of marked powers and influence.

The Congregationalists says "he does not add—what, perhaps, may not be so much felt among our Unitarian friends, as among us—a great and sad lack of thorough consecration to God, and to Christ, of every faculty, power, and possession.—Let the power of religion be dominant in our young men, and their souls surrendered to the indwelling of the Holy Spirit, and there will be no lack of candidates for the ministry, or of able, successful, and tenacious workers in all the vineyards of the Lord."

ASIATIC CHOLERA IN CHINA.
Almost Every One Cured with Pain Killer.
Dear Sirs: I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send us last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. We resorted at once to the Pain Killer using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was presented, recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are now willing to go out on their excursions without a supply of Pain Killer. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be indifferently received. Believe me, dear sirs, gratefully and faithfully yours,
J. M. JOHNSON, Missionary in China.
From Rev. R. Telford, Missionary in China, now visiting his home in Washington, Pa.
Dear Sirs: During a residence of some ten years as a missionary in Siam and China, I found your Pain Killer a most valuable remedy for that fearful scourge, the cholera. In administering the medicine I found it most effectual to give a teaspoonful of Pain Killer in a gill of hot water sweetened with sugar; then after about 15 minutes begin to give a tablespoonful of the same mixture every half hour until relief was obtained. Apply hot applications to the extremities. Bathe the stomach with the Pain Killer clear, and rub the limbs briskly. Of those who had the cholera, and took the medicine faithfully in the way stated above, eight out of ten recovered.
Truly yours, R. TELFORD.
If attacked with diarrhœa, dysentery, or cramp colic, don't delay the use of the Pain Killer.
Beware of all Imitations.
The Pain Killer is sold by all druggists.

☞ PERRY DAVIS' VEGETABLE PAIN-KILLER.—We clip the following from the Providence General Advertiser: At this season of the year, when cholera, cholera morbus, dysentery, and other kindred complaints are sure to prevail, everybody should be liberally supplied with the PAIN-KILLER. Persons leaving home whether it be for a day's excursion or a trip to Europe, should be in a condition to place their hands on it at a moments warning. Many diseases incident to the summer months which will prove fatal if not immediately checked, can be promptly cured by one or two doses of the Pain-Killer. On more than one occasion have we been relieved of intense suffering by the timely use of the above named preparation. Sold by all Druggists, Grocers and Medicine Dealers. jy13 4w

DODD'S NERVINE DID IT.
NEW LONDON, CONN., April 26, 1869.
REMEMBERED FRIEND:
I thought it well to wait another week before writing, to see if I continued to improve, as I have been doing for some time, under the treatment of the new medicine, and I am happy to tell you that I am getting better—even faster than when you were here. I commenced the use of DODD'S NERVINE without anybody advising me to it. When I began with it I was only walk from my bed to the chair. My trouble has been extreme pain in the head, and has lasted over three years. All the medicine I have heretofore taken has failed to give any relief. I am now able to go up and down stairs, and daily improving. I consider the NERVINE the best medicine I ever found, and shall continue its use, for I am confident of entire recovery. I have taken only three bottles, and would not be without it on any account. [jel5 4w] Very truly, MRS. I. S. NUTT.

MASTA'S PULMONIC BALSAM
IS A SPEEDY and certain remedy for Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Catarrh, Influenza, Hooping Cough, Asthma and the various Affections of the Lungs.
☞ The attention of those afflicted with COLDS, COUGHS, and with any disease of the lungs, is directed to this valuable remedy. On account of sudden changes in the weather, colds and coughs are easily taken, and if neglected may lead to disease of the lungs. What is needed under such circumstances is a reliable remedy—speedy in affording relief, and effectual in arresting further progress of the disease.
☞ To arrest the existing irritation of the air-passages and the lungs, speedily and effectually, the seat and cause of cough is an important step gained toward relief and cure in the first stages of the disease. MASTA'S PULMONIC BALSAM possesses this important power, and, while it promptly and effectually arrests all existing irritation, and rapidly relieves cough, it renders the lungs further relief by promoting a free discharge of the accumulated mucus in the air-passages, imparting a healthy action and vigor to the chest at the same time.
☞ Those suffering with cough and the first stages of lung disease, will therefore find in this valuable preparation a speedy and decided relief. Even those whose condition is beyond recovery, will derive from its use great benefit as well as comfort. For the class of diseases it is designed to relieve, the general commendation it has received has proved its efficacy beyond question. For the past ten years have been speedily and effectually cured by its timely use while suffering from severe colds, protracted coughs, and from other forms of lung disease. It is prepared from vegetable balsams and the medicinal properties of roots and herbs, with no minerals nor poisonous acids; simple and safe in the material used, it can be taken at any time.

The Daily Chronicle.

Portsmouth, N. H.

SATURDAY, AUGUST 7, 1869.

AMERICAN INSTITUTE OF INSTRUCTION.—*Thursday.*—After the election of officers, Mr. Stone of the Board of Directors offered an amendment to the Constitution, that the word "August" be struck out, that the Board of Directors may name the time for meeting at their regular meeting in January. Moses B. Daniel of Boston Highlands, read a very able and instructive paper on 'The Proper Scope and Plan of Courses of Study for Public Schools.' The speaker stated that absolute perfection in any thing human is not desired. The principal object in the teacher's view, should be the laying out of requirements. The first and most important should be a course of study which should present a complete scheme of public education, which involves the entire laws of knowledge which invades the human mind. It involves a practical knowledge of the daily duties of the school room and an acquaintance with the literature of different nations; an efficient grading of the schools under his charge; aiding young and inexperienced teachers,—impressing upon them the value of work; a perfect standard of completeness; the economy of time on the part of teachers and scholars; a general plan of studies and method of transferring from one grade to another. Among the faults indicated was the demand for showy results so common among teachers. In every school there are some pupils whom no human effort can bring up to the standard, but the majority go through the narrow gate.

It is very desirable that wealthy and cultivated people should send their children to the public schools. The Grammar School Master should be entitled to be the judge for qualifications to the High School. The false notions of thoroughness which were prevalent should be eradicated.

Mr. Hammond of Munson believed that it was a necessary knowledge of the human mind to lay out a programme for improvement; a close and thorough attention to a few topics of study, rather than a multiplicity. It is not desirable that all students should be educated the same way; better diversely. Such course and such studies should be introduced as would meet the want of pupils. It is not right to be particular to train bright scholars, but to look after the general average. The plan of studies devised should produce such effect.

Mr. Richards, the Sup't of Public Instruction in Washington, a New England man, remarked that among the ideas best adapted for scholars was to learn to read, or in a more proper derivation to call words. The course of study should be in reference to qualifications rather than reference to the degree.

Pres't. Kneeland suggested that the question should be laid upon the table for the present, which was agreed to. He had invited Dr. Geo. B. Emerson of Boston to speak upon the life and character of the late Thomas Sherwin of Boston, Principal of the English High School. Dr. Emerson, who was an intimate friend of Mr. Sherwin, gave a very feeling and elaborate address. Mrs Sherwin was for eight years President of the Institute, and was at the time of his death a Vice President. He offered resolutions respectful to the memory of the deceased, which were adopted and ordered to be engrossed on the records of the Society, and a copy sent to the family.

Sup't Philbrick of Boston rose to second the resolutions and bear testimony to this character and ability. He related incidents in his connection in school matters with Mr. Sherwin. He stated that Mr. S. had been for 41 years Principal of the English High School in Boston, which must be considered the greatest testimonial to his success as a teacher. To become as eminent as he was, it was necessary to be a superior man, a manly man, a pure minded and conscientious man.

Mr. Hammond rose to speak of the death of Abraham Andrews of Charlestown, who was formerly a teacher in Groton. He stated that during his school experience of 30 years, that he was never late one minute. He was an able teacher and served the cause of education faithfully. He offered resolutions in respect to his memory, which were adopted.

Mr. Philbrick offered a resolution relative to a change in the certificating of Teachers.

The last meeting took place at Congress Hall Thursday evening. The Hall was filled and among the audience was a large number of the friends of education in this vicinity who appreciated the meeting among them, of a Society of such high standing among the educational societies of the present time. A more harmonious and enjoyable meeting we believe never took place any where.

Prof. Allen of Iowa, a Vermont man, exemplified on Classical Science, illustrated by maps on the black board. He said his method brings the pupil in contact with nature, by far the best way to study geography, and the best way to understand the geography of the country. A mere knowledge of maps often put in the heads of children, ideas which were soon forgotten, which ded was not the proper method. Maps have been drawn with different scales—it is better to use units of measure, or better one unit. Pupils in schools should learn the use of the scale. Every map maker used scales. By taking a single unit of measure, the pupil is enabled to draw all lines. Children of 10 years could construct maps of the different states, using different crayons by the proposed method. Prof. Allen was very eagerly listened to, and his method seemed to be approved by those present. The President said that Prof. Allen was entitled to 5 credits for merit.

Pres't Kneeland said there was an old saying, "listeners hear no good of themselves." — In passing down the aisle on one occasion, he heard the conversation of two young men—one remarked that at the meetings, "one saw the same old fellows, and that they said the same old things."

He assured the young men and also the young ladies, they should have a chance to speak, and the old fellows must give way.

Our Reporter acknowledges favors rendered by Mr. D. W. Jones, Sec'y, and other officers of the Institute.

SUPPOSED LOSS OF FOUR HUNDRED LIVES.—Note has been posted at Lloyd's in reference to the missing steamers United Kingdom and Chedubu, calling upon the underwriters to settle their liabilities of insurance, no doubt being now entertained that they must both have foundered with all on board. The United Kingdom was one of the line of packets trading between New York and Glasgow. She left the former port on April 19, and was never seen afterwards. The Chedubu belonged to the British Bombay Steam Navigation Company. She left Bombay for Rangoon on the 14th of May, and is supposed to have encountered a heavy cyclone two days afterwards, and must have been engulphed in it, for nothing was heard or seen of her. The notice also contained two other missing ships. The number of people lost in the four ships is nearly 400.

THE ELECTIONS. — The Democratic majority in Kentucky is 40,000,—36,000 less than at the Presidential election.

The election in Alabama on Tuesday seems favorable to the Republicans. Buck, Buckley and Hayes, Radical Republicans, are certainly cleeted to Congress. Parkinson, Democrat, is elected in the third district by a small majority.

There are two more districts to hear from. Mobile gave 1200 Democratic majority. Selma gave 1527 Republican majority.

Senter, conservative Republican, is chosen Governor of Tennessee, over Stokes, Radical. The Legistature is democratic, and will probably elect Andrew Johnson to the U. S. Senate.

A Richmond letter states that the Walker Republican party is most likely to support Franklin Stearnes and Gen. Robert Williams for United States Senators. Mr. Stearnes, a native of New York, has resided in Richmond thirty years. He was a Whig as long as the Whig party existed, and was a consistant Union man throughout the war, having shared imprisonment with John Minor Botts. General Williams is known as the husband of the widow Stephen A. Douglas.

CROWDING THE STAFF OFFICERS.—Vice-Admiral Porter, not satisfied with reducing the engineers of the navy one grade, now proposes to employ on each vessel several machinists at a salary of fifty-five dollars per month, who shall live forward and do the duty of first and second engineers, with a regular engineer in charge of the machinery, who will be the responsible officer. This arrangement will at first be put in operation on third and fourth class vessels, and if satisfactory it will then be extended to the larger vessels of the Navy. This action of the Vice Admiral, and corresponding attempts in other directions, will be very liable to precipitate matters, and when Congress meets Vice Admiral Porter will find himself in hot water, we opine.

☞ On Tuesday night, a great fire took place in the bonded warehouse on Lombard street wharf, Philadelphia. The estimated loss is ten or eleven million dollars.

The News.

President Lopez may share the fate of Theodore of Abyssinia, as the English House of Commons have seriously taken up the question of the Englishmen who are held prisoners by him.

The amended freights over the Union Pacific road are much lower than the former ones. Large shipments of fruit from California are coming over the road.

A letter from Salt Lake, says Brigham Young and the Mormon leaders are greatly worked up over reports about Mormondom sent out by persons who have visited them this summer.

The Prussian press in discussing the question of the taxation of coupons on United States bonds, is of opinion that the republican party will remain faithful to their pledges, and that the rumors of an imposition of such tax are merely manœuvres of the Stock Exchange.

The late John A. Roebling of Brooklyn, N. Y., the famous bridge builder, left $1,500,000. He gave $100,000 to his widow and each of his children, $30,000 to his business manager, and $15,000 each to the Widows' Home and Children's House at New York.

A letter from St. Petersburg states that Komisarow, the peasant who saved the life of the Czar, did not commit suicide, but was murdered by being hanged in his own house, and that several persons have been arrested as accomplices in the crime.

Cattle Market at Brighton.

FOR THE WEEK ENDING THURSDAY, AUG. 5.
[Reported for the Boston Journal.]

At market for the current week—Cattle 2538; Sheep and Lambs 10,525; Swine 2465; number of Western Cattle 2237; Eastern Cattle 13; Northern Cattle and Working Oxen 130. Cattle left over, 68.

Prices Beef Cattle—Extra $12 75 @ $13 00; first quality $12 00 @ $12 50; second quality $11 25 @ $11 75; third quality $10 25 @$11 00; poorest grade of coarse Oxen, Bulls, &c., $9 00 @ $10 00 ℔ cwt, (the total weight of hides, tallow and dressed beef.)

Brighton Hides 9½ @ 10c ℔ lb; Country Hides 9 @ 9½c ℔ lb.

Brighton Tallow 8 @ 8½c per lb; Country Tallow 7 @ 7½c ℔ lb.

Lamb Skins 75c; sheared Sheep Skins 37c each, Calf Skins 20 @ 22c ℔ lb.

The supply of Cattle from the West was larger than that of last week. The quality was better and prices were from ½ to ¼ a cent per pound lower. There were a good many of the best Cattle taken at a Commission which it was estimated would cost 12½ to 13c ℔ lb, dressed net. There were a few cattle from Maine, most of which were sold for beef. There is not much doing in the Working Oxen and Store trade, most of the small Cattle being bought up to slaughter.

Store Cattle—Yearlings $18 @ $28; two year olds $30 @ $45: three year olds $45 @ $65 ℔ head. There has been but few in market of late, most of the small Cattle that are in a fair condition being sold to slaughter.

Working Oxen—There are but a few pairs in market and not much call for them. Prices range $175 @ $300 ℔ pair.

Milch Cows—Prices, extra $85 @ $115; ordinary $30 @ $75; Store Cows $35 @ $55 ℔ head. Most of the Cows in market are of an ordinary grade.

Sheep and Lambs—There was a larger supply in market than there has been in before this season in any one week. Most of the Western Sheep were commissioned. The Trade for Sheep and Lambs was very fair, but on account of the large number prices were not so high at the close. We quote prices at $2.50, $3, $3.50, $4, $4.50 ℔ head; or from 4 to 8½c ℔ lb.

Geese—Wholesale 12 @ 13 ℔ lb; retail 15 @ 18c ℔ lb. Spring Pigs, wholesale 15 ℔ lb; retail 15 @ 16c ℔ lb. Fat Hogs—3800 at market: price 10½ @ 10c ℔ lb.

The Conditions of Health.

It is idle to expect health if the precautions necessary to secure it are neglected. The human organization is a delicate piece of mechanism, and requires as much intelligent care and watchfulness to keep it in order, as are requsite in the management of the most complicated combination of levers, wheels and pinions.

At this season of the year the body is peculiarly sensitive, because it is greatly weakened and relaxed by the continuous heat. The skin, in summer, with its millions of pores wide open, is a very different sort of tegument from the fibrous covering which it becomes under the action of the winter's cold. The muscles, too, are comparatively flaccid, the nerves tremulous, the blood poor, and the whole frame less capable of enduring fatigue and resisting diseases, than in cool weather. These indications of a depressed condition of the vital forces are so many unmistakable hints that nature needs reinforcing.

Ordinary stimulants will not effect this object. They inflame and excite, but do not strengthen. The only preparation which can be depended upon to impart staminal vigor to the system, and enable it to endure the ordeal of the heated term without giving way under the pressure, is HOSTETTER'S STOMACH BITTERS, a tonic and corrective so pure, so harmless, so utterly free from the drawbacks which render many of the powerful astringents employed in medical practice more dangerous than the ailments they are employed to remove, that it may be administered without fear to the feeblest female invalid, or the most delicate child. The cathartic and alterative vegetable ingredients, which are combined with those of a tonic nature in its composition, keep the bowels moderately free and perfectly regular, while the work of invigoration is going on. The great blood depurative, for which the liver kingbitty affords are also among the components, so that it recruits, purifies and regulates the system simultaneously. au5

Holloway's Ointment.—There are multitudes of brave fellows now suffering from the effects of wounds received in the war, who might be made sound and whole in a short time by the use of HOLLOWAY'S OINTMENT. It is no superficial remedy, that merely skins over an ulcer, leaving the poison festering beneath to break out afresh at some future time. On the contrary, it eradicates the inflammatory principle itself, and works a complete and thorough cure. Sold by all Druggists.

THE LATEST DISCOVERY
In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S
LIVER AND STOMACH LOZENGE

is the most important and novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been so completely overcome by art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitly more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenges,** will ever again take a cathartic powder, or draught or pill.

ALLEN'S LUNG BALSAM.

The best remedy for the cure of CONSUMPTION, AND ALL DISEASES OF THE LUNGS. It causes the phlegm and matter to rise without irritating these delicate organs (the Lungs,) and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless for the most delicate child. It is everywhere in good demand and gives good satisfaction.

The result of its use is proof of its great value.—Its extraordinary healing properties are experienced by all who use it. Their testimony will be found in a pamphlet, which can be had of the agents where the medicine is for sale. d25

ASIATIC CHOLERA.

The Strongest proof of Intrinsic Merit.

DEAR SIRS,—I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The Cholera appeared here soon after we received it. We resorted at once to the PAIN KILLER, using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, seen very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of the PAIN KILLER. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be very indifferently received.

Believe me, dear sirs, gratefully and faithfully Yours,

J. M. JOHNSON.
Missionary at Swatow, China.

GRANT & PROSPERITY.

Business revives under the new regime. Other than general causes have, however, given a tremendous impetus to the sale of

Cristadoro's Excelsior Hair Dye.

The chemists have come out in two leading scientific journals against the lead and sulphur *poisons for the head* (for that is their proper designation,) with which the country is flooded. Dr. Chilton, the first analytical chemist in America, announces to the world that

CRISTADORO'S DYE IS UTTERLY POISONLESS, and that he *knows it to be so*, because he has analyzed it.

CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, acts like a charm on the Hair after Dyeing. Try it. 2yr22

BRANDRETH'S PILLS.

They remove all bad accumulations from the bowels, and purify and invigorate the system. All whose health is not perfect, owe it to themselves to take a few doses of Brandreth's Pills, because the seeds of decay are constantly eradicated by Brandreth's Pills, and the principle of life confirmed, thus giving a vigor of body and mind to a period when we have been used to see the faltering step and the enfeebled intellect.

General Paez, the distinguished liberator of Venezuela, says he has used them as his only medicine for thirty years, with the most satisfactory results.

For Costiveness, Dyspepsia, and as a Family medicine they are unrivalled.

Daniel I. Chenney, Esq., Astor House, New York, cured by Brandreth's Pill of Dyspepsia and Costiveness, when all other means used had failed.

A gentleman, whose father died of consumption at 36 years, was also attacked, when about 21, by the disease. He had cough, night sweats, and general debility. Doctors recommended cod liver oil, but he wasted away. At last he determined to use Brandreth's Pills. In two months they made him a sound man. jy22

PAIN KILLER.

WE beg leave to call the attention of the public to this long celebrated and unrivalled

FAMILY MEDICINE.

The PAIN KILLER is a purely vegetable compound, and while it is a most efficient remedy in Pain, it is a perfectly safe medicine even in the most unskilful hands.

For Summer Complaint,

Or any other form of bowel disease in children or adults, it can almost certain be relied on, without doubt been more successful in curing the various kinds of

CHOLERA,

A SURE REMEDY.

SCHENCK'S PULMONIC SYRUP,

Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well.—This is the only way to cure consumption.

To these three medicines Dr. J. H. SCHENCK, of Philadelphia, owes his unrivalled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has not said the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (equally potent pills which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Ulcers, if not concerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, ulcerations, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what can be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the following medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success.

Full directions accompany each, making it not absolutely necessary to personally see Doctor SCHENCK, unless patients wish their lungs examined, and for this purpose he is professionally at his principal office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond St., New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every other Wednesday. His gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half-dozen.—Mandrake Pills 25 cents a box. G. C. GOODWIN & CO., 38 Hanover Street, Boston, Wholesale agents. For sale by all druggists. d1yja4

DENTAL NOTICE.

69 Congress Street, Portsmouth.

DR. GOODALL takes pleasure in announcing that he is meeting with great Success in HIS INVENTION of a SPRING PLATE for PARTIAL SETS OF TEETH. The Plate does not COVER THE ROOF OF THE MOUTH, is very small and light, has no clasps, in short, it does not *impede speech or taste* and is altogether the most satisfactory method of inserting Partial Dentures. Scores of references in this city, and patients from Boston, New York and Philadelphia have given their unqualified approval of this *useful invention.*

He has purchased a patent right for LOADING lower sets of teeth, thereby making them much more serviceable and comfortable, and they will remain in place, even when the ridge of the lower jaw is very much wasted.

He is using the Pack Ridge in upper sets with the most satisfactory results. He has also a new way of repairing *rubber work, just discovered,* which will require only one hour in the majority of cases, and the work will be warranted strong and neat.

He is also administering ETHER, and preparing the mouth for artificial teeth, nearly every day, and often three times a day; extracting from 1 to 30 teeth at one visit, with entire FREEDOM FROM PAIN, and with happy results. He has made this department of dentistry more particularly a specialty, and is confident his large and continued success will warrant him in promising, (With his present facilities and improvements in mounting artificial dentures,) all work at the shortest notice, and in the **Best and Most Approved Style of the Art.**

All operations in Dentistry performed at the usual rates, and payment is considered due as soon as the operation is completed, all work being warranted.

Refers with pleasure to the leading Physicians of Portsmouth and citizens generally.

LOCAL AFFAIRS.

CITY AFFAIRS.—In the Board of Aldermen, Thursday evening, the Committee on Streets with Mayor added, reported that Mr. Elwyn would sell four acres of his land on Sagamore Creek, just across Lafayette Bridge, for $1000, for gravel for City use. The recommendation of the Committee, to close the bargain, was adopted, and power given them to complete the purchase. There is a large quantity of gravel for streets and roads, and thought to be of good quality.

A. W. Haven, Esq., appeared before the Board, to urge or recommend the widening of Congress Street two feet, on the Southerly side, between the residence of Col. J. W. Peirce and Middle Street. This, which would involve but a very small expense, he thought it was evident would be a good investment; that thereby the difficult and dangerous curve at Middle St. would be much bettered, and he had the authority of those in charge of the Leavitt estate for saying that when the street is widened, a pavement will be laid at their premises. The matter had been talked about before, and was approved years ago by the town, but never acted on. The subject was referred to Com. on Sts., to report at next meeting.

The Com. on Streets with Mayor added, to whom was referred the subject of laying a 10 inch water main into the city, with stops for use of fire engines, reported that they had conferred with the officers of the Aqueduct Company, and they complained of their taxes as exorbitant and unjust, and while desiring a reduction, would prefer some proposition from the City, as to the terms on which they should furnish them water, rather than make one themselves. Messrs. Peirce, Goodwin and Simes, stated that stock which cost $325 per share twenty years ago, and was taxed for that amount, had yielded but $20 yearly, or only six per cent or less.

The Mayor and Aldermen Spinney both stated that they had always supposed the Aqueduct had paid enormous dividends, and they were greatly surprised at the exhibit made from the books. The Directors complained that while the Company had recently expended $20,000 in improvements, to increase the supply of water, (every dollar of which they were obliged to hire at the Banks, and now owed,) they should be largely increased in their taxes.

Ald. Pender stated that Bank and Railroad Shares were taxed on their par value, and he saw no justice in departing from this rule in the case of the Aqueduct, the par of which was $100.

In reply to inquiries, the City Clerk stated that heretofore the Shares had been taxed, but this year the Corporation was assessed direct, on the valuation of $40,000, making about $900 tax; their improvements being taxed on $10,000.

Ald. Nowell moved that the same Com. be authorized to make arrangements with the Aqueduct Co. for putting in the proposed pipes, and securing the water. The Mayor suggested the discussion of the matter by the Board.

Ald. Cotton inquired whether the Co. were not by common law and usage obliged to allow the City free use of the water for fires, &c. The City Clerk, who produced and read the charter of the Co., thought not; Ald. Spinney thought the city might as well claim free Gas — and the Mayor responded that even if the Co. were bound to furnish water as now, they could hardly be supposed to have no control in such a novel matter as this proposed.

Ald. Cotton inquired whether there were not special dividends, or further profits somewhere, above that before stated. He said there is never any of this stock in the market,—$400 would not buy a share to-day; and why is this, if it only pays 6 per cent. He was sure the $900 assessed for taxes, would not make good the damaged streets from the Company's digging. Jefferson St. had just been left in a wretched condition by them. The Co. had the City by the nose now, and he did not believe in giving them any stronger hold. Ald. Clark seemed to be of like opinion.

Ald. Nowell thought when such men as those named for the Aqueduct Co., made statements as to profits, &c., they should be accepted by this Board. He moved that $200 per year be offered as a perpetual price for the City supply of water.

Ald. Cotton did not consider it business-like to take everybody's statements unqualifiedly. The Mayor stated that nobody was asked to accept mere statements—the Co.'s books and records were freely exhibited. He wished to protect and advance the interests of the city, but he had no desire, and of course the Board had not, to crowd the Co. at all. Ald. Cotton should remember that the Aqueduct was a great public benefit, for which some damage to streets, &c. might well be expected and excused.

Ald. Spinney, said he gained a rather indefinite idea from the conference, that an abatment or decrease of the tax about one-half, would satisfy the Co. Ald. Nowell thought this large. The Mayor deemed the tax exorbitant, but of course this Board had no control in the matter. His idea was that some permanent negotiation should be made, by which the City should be supplied with water, and not left at the option of the Co. after a few years—but the Co. did not accede to his idea.

Finally, the matter was recommitted to the same Committee, for further consideration and consultation,—to report next week.

The Com. on Claims were given another week to report on the Barrett fine case.

Ald. Cotton inquired what had become of the Dog Ordinance proposed long ago? The Clerk replied for the Mayor, that the matter was referred in this Board to a special Joint Committee, but the Com. Council had not reported concurrence. Ald. Cotton moved that a Com. be appointed to draft an Ordinance requiring Dogs to be licensed; but when the motion was carried, and the Mayor, as is natural and customary, appointed him chairman, (with Ald. Nowell,) he positively and repeatedly declined and refused to serve.

Ald. Nowell was surprised that any gentleman on the Board should refuse to serve in a matter introduced by himself,—but Mr. Cotton justified himself on the ground that he was not placed on any committees of importance, and therefore of course he would not serve to look after female pups!

The Mayor regarded the matter as of some importance; as did also Ald. Miller, who thought such an Ordinance would yield considerable revenue, and abate a good deal of nuisance. The Mayor finally appointed Ald. Miller and Nowell as the Com. to report said Ordinance.

Ald. Slater called up the petition for Road from Cabot St. across North Pond to Mystic St.; and it appearing that the owners of the Pond were not notified of the hearing several weeks since before the Board,—it was decided that Ald. Slater should confer with them; and on motion of Ald. Nowell, a Committee (Ald. Nowell and Slater) was appointed to confer with the Railroads, and ascertain what arrangements can be made for a bridge high over the tracks at Dover St., rather than lay out a highway level with the rails at Cabot St. To report at next meeting.

Ald. Slater, from Com. on Sts., reported that Bow St., near Daniel, needed repairs—and Com. on Sts. were authorized to make them. He also reported Chestnut St. had been put in fine condition by Commissioner Haines,—and Ald. Miller thanked him personally and officially. Ald. Pender reported that Prospect St. needed repairs, and it was voted to recommend it to the attention of the Surveyor of the First Road District.

The petition of various residents on Christian Shore, for repairs of Woodbury Street, was referred to Com. on Sts., to report. Ald. Spinney said it would cost a thousand dollars to fix it as it should be; but the Mayor thought $50 would improve it much.

Voted that the Street Commissioner adhere to Harris' grade, in repairing Langdon and McDonough streets.

The Mayor stated the repairs ordered on Middle Street, were to be commenced very soon by the Commissioner. Adj. for one week.

A PACIFIC RAILWAY

GOLD LOAN $6,500,000.

We beg leave to announce that we have accepted the agency of the

KANSAS PACIFIC RAILWAY COMPANY,

For the sale of its

NEW SEVEN PER CENT.

Thirty Year Gold Loan,
Free from Tax.

This Loan amounts to $6,500,000.

First Mortgage Land-Grant and Sinking Fund Bonds,

secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles of which 12 miles are completed and the rest in course of construction. It is also a Mortgage upon Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,

And in successful operation for 437 miles

west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides YIELDING MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the

GOVERNMENT LAND GRANT OF THREE MILLION ACRES,

extending in alternate sections on either side of the track, from the 394th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as A SINKING FUND FOR THE REDEMPTION OF THE BONDS.

The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and mines. The company also holds as an asset another tract of

Three Millions of Acres in the State of Kansas,

and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the

Value of the Company's property, covered by this mortgage at $23,000,000, not while the Loan is merely $6,500,000.

The Bonds have

THIRTY YEARS TO RUN,

from May 1, 1869, and will pay

SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.

The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be

PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:

On $1,000 Bond in N. Y. $35 (gold) each half year.
" " Frankfort..$7 fl. 10. "
" " Frankfort..$7 fr. 30 krtzs., "

The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a

FIRST CLASS INVESTMENT,

in every respect perfectly sure, and in some essential even

Better than Government Securities.

The Bonds will be sold for the present at

96, *and accrued Interest, both in Currency,*

the Agents reserving the right to advance the rate.

The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.

Gold and Government Securities taken in payment at their market value, without commission.

RUNNING THE RAPIDS.

Our boats were poised as on the ridge-board of a house, while below, for some twenty rods, the water went tearing down; now gliding over a smooth shelving ledge, with the quick, tremulous motion of a serpent, and torn to shreds by jagged rocks at the bottom, and again beat back by huge boulders which lifted themselves in mid-current, presenting to the eye one continuous stretch of mad turmoil and riot. At the foot of the reach, the eye could just discern the smooth, glassy rim of a fall we knew not how high, while far down the river, shut from view by a sharp curve, the rush and roar of other falls rose sullenly up, through the heavy pines and overhanging hemlocks, which almost arched the current from side to side. At a word from John, who, leading the van, sat as a warrior might sit on his steed, bareheaded and erect, the oars were lifted, and the freed boats, as though eager for flight, started downward. Away, away they flew.

If before they went like birds, they went like eagles now. No keeping in line here; each man for himself in this wild race; and woe to boatman and to boat, if an oar should break or an oar-bolt snap. Close after John, darting at every rush, my light boat sped. No thought for others, all eye and nerve for self, with a royal up-leaping of blood, as my face, wet with spray, clove through the air, until the fall was reached, and side by side with trailing oars, we took the leap together. Down, down, we sank into the feathery foam; the froth flung high over us as we splashed into it. Down, down, as if the pool had no bottom, we went, our boats half full of spume and foam, till the reacting water underneath caught the light shells up and flung them out of the yeast and mist, dripping inside and out, from stem to stern, as seabirds rising from a plunge.

No stop nor stay for breathing here. Around the curve, by no effort of mine leading the race, I went, swept down another reach and over another fall, and, without power to pause a moment entered the third before I had time to think. Steeper than all behind, it lay before me, but straight, and for a distance smooth, for aught I could see as I shook the spray from my eyes, until it narrowed, and the converging torrent met between two overhanging rocks in one huge ridge of tossing, swelling water. What lay below I knew not; how steep the fall, or on what bottom I should land. In rapids, John had told me, the wildest water was the safest, and so I steered straight for the highest swell of water and the whitest foam.

Fancy a current, rods in width, converging as it glides, until the mass of rushing water is brought as into an eaves-trough five feet across, with sharp jutting rocks for sides, where the compressed water flings itself wildly, indignant at the restraint put upon it; and then fancy yourself in a boat weighing but seventy pounds, gliding down with a swiftness almost painful, into the narrow tunnel through which, bursting, you must shoot a fall you cannot see, but whose roar rises heavily over the dash of the torrent, and you can realize what it is to shoot the rapids of the Racquette River, and my position at the time.

Balancing myself nicely on the seat, dipping the oar-blades until their lower edges brushed along the tide, I kept my eyes steadily upon the narrow aperture, and let the boat glide. Nothing but the pressure of the air upon the cheek, as the face clove it, and the sharp whistling of the seething current, bespeaks the swiftness with which you move. When near the narrow gorge—which you must take square in the centre, and in direct line, or smash your boat to flinders,—while the width would yet allow, wishing some steerage way befor I entered the chasm, I threw my whole strength upon the oars. The blade ash bent to the strain and the boat quivered from stem to stern under the quick stroke. Then, bending forward upon the seat, with oars at a trail, I shot into the opening between the rock.

For an instant the oar-blades grated along their sides, and then, riding upon the crest of a wave, I passed out of the damp passage, and lo! the fall whose roar I had heard yawned just beneath me. Quick as thought I swung the oars ahead, and as the billow lifted me high upon the very brine gave way with all my might. Whatever spare strength I had left lying anywhere about me, at that particular point of time, I am under the impression was thrown into those oar-blades. The boat was lifted off the wave, and shot into the air. For an instant it touched neither water nor foam, then dropped into the boiling caulron. Another stroke and it darted out of the seething mass, with less than a gallon of water along the bottom.

The rapids were run! Wiping the sweat from my face, and emptying the water from the barrels of my rifle, I rested on my oars, to see them come, one after another,—John leading the van,—over the verge! As boats in air they seemed, with airy boatmen, as they came dashing along. O, royal sport, to see them glide like arrows down the steep, at an angle so sharp that I could see the bottom board in each boat from stem to stern! O, noble sight to see them enter in between the mighty rocks,—the chasm shutting them from view for an instant,—from which, emerging in quick succession, with mighty leaps, quivering like sporting fish, they shot the falls triumphantly.

What sports have we in house and city like those which the children of wood and stream enjoy?—heroic sports which make heroic men. Sure I am, that never until we four have done with boats and boating, and, under other pilotage, have entered into and passed through the waters of a colder stream, shall we forget the running of the Racquette Rapids, on that bright summer day. And often, as we pause a moment from work, above the harsh rumble of car and cart, the sound of file and hammer, rises the roar of the rapids. And often, through the hot, smoky air of town and city, to cool and refresh us, will drift from the far north, the breeze that blows forever on the Racquette, rich with the odors of the balsam and the pine.—*Adventures in the Wilderness, by Rev. W. H. H. Murray.*

NOT ACCEPTED.—The statement that the President had accepted a present of a farm at Bricksburg, N. J., is entirely incorrect. The present was made to him, but he declined to accept.—*Ex.*

All well enough, perhaps:—but we don't see (says Uncle Toby) why a president, or any other man, should object to receiving a good farm, or other present, from persons able and willing to bestow such a favor. There are plenty of precedents for such presents. Gen. McClellan had some very valuable presents for being a candidate, though he did not reach the White House nor Richmond. Pres. Buchanan accepted the present of a cask of Old Rye, his favorite beverage. Gen. Jackson, at the White House, received the present of a Great Cheese, from a Mr. Leland, who had also given a similar cheese to President Jefferson. And Gen. Jackson also received the present of a pair of Boots, which he acknowledged with thanks, in a characteristic letter, in which he says, 'I shall hang them up, as a Mirror, to stimulate me in the performance of my duty,' &c. The ideas, of a pair of boots being a mirror, and of a mirror's being a stimulant, were worth full as much as the boots. Some people seemed to think the old man rather put his foot in it.

BLUEBERRIES.—The Amherst Cabinet of August 5 says:—The blueberry season is nearly over, as the price is so low (7 cents per quart) that the pickers feel it does not pay for gathering. In Portsmouth, on the same day, such berries were sold (from the shops) for 17 cts. Berries are very abundant, but labor is high-priced, and some profits intervene between pickers and eaters.

—The Minneapolis Tribune gives as the best estimate it can make of the wheat crop of Minnesota for the present year—twenty million bushels.

—A Spanish loan is authorized in Havana by the captain-general. The confiscated estates are pledged for repayment.

—Small-pox virus kept itself active seventeen years in some Indiana bedclothing and has made a whole family sick.

—In some parts of Indiana the farmers give half their wheat crop to whoever will harvest and thresh the whole.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the United States Patent Office, Washington, under the act of 1836.
No. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents or inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all of which ONE of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend to my friends to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

SPEER'S SAMBUCI WINE.

CATAWBA, PORT, GRAPE and P. J. SHERRY.

The above Wines are made by Mr. Speer, whose reputation as a wine grower stands pre-eminent. They are well established, and long known by the Medical Profession as the most reliable and valuable wines to be had.

Every family at this season should use

SPEER'S SAMBUCI WINE,

celebrated in Spain and Portugal for its beneficial qualities, highly esteemed by eminent physicians, used in European and American Hospitals and by the first families in Europe and America.

Excellent for weak and debilitated persons, the aged and infirm, improving the appetite and benefitting the ladies and children.

AS A DIURETIC

it imparts a healthy action to the Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic affections. Also,

SPEER'S PORT GRAPE WINE

is pure juice of the Oporto Grape, recommended by Physicians as possessing medical properties superior to California or Imported Wines.

SPEER'S STANDARD WINE BITTERS

The Best and Most Reliable Tonic and Bitters in the market, which is always the CHEAPEST.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

A SEA DIRGE.

There are certain things—as a spider, a ghost,
The income tax, gout, an umbrella for three—
That I hate; but the thing that I hate the most
Is the thing they call the sea.

If you like coffee with sand for dregs,
A decided hint of salt in your tea,
And a fishy taste in the very eggs,
By all means choose the sea.

And if, with these dainties to drink and eat,
You prefer not a vestige of grass or tree,
And a chronic state of wet in your feet,
Then I recommend the sea.

Once I met a friend in the street,
With wife, and nurse, and children three—
Never again such a sight may I meet
As that party from the sea!

Their looks were sullen, their steps were slow;
Convicted felons they seemed to be.
"Are you going to prison, dear friend?" "Oh, no!
We're returning—from the sea!"

INDIAN AFFAIRS.—A report received at the Indian Bureau from General McCook, at Denver, discloses the fact that under the new administration the Indians are receiving four times as many goods as ever before, though the amount of money appropriated remains the same. The Indians showed some reluctance to go upon their reservations, because they had been tampered with by traders who wished goods delivered near the settlements to facilitate their own swindling operations.

COAL.—We see it stated that the Picton dealers and miners say that if the United States will abolish the duty on coal, they will land a plenty of it in Boston and other seaport towns at $4.00 a ton. The present duty on Coal imported into the United States, is $1.25 per ton. If Congress should reduce the duty to 25 cts., as they will be petitioned to do, in consequence of the great coal swindle in Pennsylvania,—the swindlers may find that they have overplayed their part.

NEW PHILANTHROPIC PROJECT.—A member of the Philadelphia Society for the Prevention of Cruelty to Animals is said to have written a letter to a prominent officer of the government, suggesting the organization of a National Society for the Prevention of Cruelty to Soldiers and Sailors. He has kept a record of the cases of cruelty in the army and navy reported in the newspapers for the last two years, and intends to present the same to Congress at the next session, and ask for its interference. He might well include the Merchant Marine Service.

LATELY, at a horse show in London, a novelty was exhibited in the form of a vehicle capable of being changed at pleasure into a four-wheeled or a two-wheeled carriage. In the former condition it is capable of carrying six persons. By a simple contrivance, the whole front carriage, wheels, wings and dasher can be removed, and the back part then forms a pretty car for one horse or pony. The change is effected merely by loosening four screws, and can be managed in a few minutes.

—A physician says: "Hell is full of dyspeptics, and dyspeptics are full of hell. When good Christians learn that there is an intimate relation and sympathy existing between the mucous surface of a man's stomach and his soul, they will take more care of their stomachs, and by so doing they may improve men rapidly in many of the Christian graces—virtue and patience, for instance."

—A little negro passing a drug store was accosted with, "I say, Bub, what makes your feet so long behind?" The little negro answered, "Why, massa, you see when de Lord made us niggahs he thought he wouldn't give us any feet; but when he made up his mind to gub 'em, we was so glad dat we jumped right into de middle of 'em—dat's *so!*"

—Miss Edmonia Lewis, the colored sculptress, has arrived in Cleveland from Rome. She found some difficulty in getting hotel accommodations, the proprietors saying that they had no objections to receiving her as a guest, but that the other lodgers might find fault. She conducted herself with great propriety under the circumstances.

—The paper styled the People, discover that the rebellion was nearly subdued when Grant assumed command of the army, and hence that he is entitled to no great credit. But the Chicago platform of 1864 spoke of the war as "four years of failure" on the part of the North. How is that? — *Free Press.*

—The Democratic candidate for Lieutenant Governor of Vermont is a tinsmith at Burlington, and a seizure of $200 worth of his manufactured ware was made the other day, on the charge that the rivets used in making it were smuggled from Canada.

—Green apples and ice-water are said to be the doctors' "drummers."

A STATIC CHOLERA IN CHINA.
Almost Every Case Cured with Pain Killer.
Dear Sirs: I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send us last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. We introduced at once to the Pain Killer using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of Pain Killer. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be indifferently received. Believe me, dear sirs, gratefully and faithfully yours.
J. M. JOHNSON, Missionary in China.
From Rev. R. Telford, Missionary in China, now visiting his home in Washington, Pa.
Dear Sirs: During a residence of some ten years as a missionary in Siam and China, I found your Pain Killer a most valuable remedy for that fearful scourage, the cholera. In administering the medicine I found it most effectual to give a teaspoonful of Pain Killer in a gill of hot water sweetened with sugar; then after about 15 minutes begin to give a tablespoonful of the same mixture every half hour until relief was obtained. Apply hot applications to the extremities. Bathe the stomach with the Pain Killer clear, and rub the limbs briskly. Of those who had the cholera, and took the medicine faithfully in the way stated above, eight out of ten recovered.
Truly yours, R. TELFORD.
If attacked with diarrhœa, dysentery or cramp colic, don't delay the use of the Pain Killer.
Beware of all Imitations.
The Pain Killer is sold by all druggists.

☞ PERRY DAVIS' VEGETABLE PAIN-KILLER.—We clip the following from the Providence General Advertiser: At this season of the year, when cholera, cholera morbus, dysentery, and other kindred complaints are sure to prevail, everybody should be liberally supplied with the PAIN-KILLER. Persons leaving home whether it be for a day's excursion or a trip to Europe, should be in a condition to place their hands on it at a moments warning. Many diseases incident to the summer months which will prove fatal if not immediately checked, can be promptly cured by one or two doses of the Pain-Killer. On more than one occasion have we been relieved of intense suffering by the timely use of the above named preparation." Sold by all Druggists, Grocers and Medicine Dealers.

DODD'S NERVINE DID IT.
NEW LONDON, CONN., April 26, 1869.
REMEMBERED FRIEND:
I thought it well to wait another week before writing, to see if I continued to improve, as I have been doing for some time, under the treatment of the new medicine, and I am happy to tell you that I am getting better—even faster than when you were here. I commenced the use of DODD'S NERVINE without anybody advising me to it. When I began with it I could only walk from my bed to the chair. My trouble has been extreme pain in the head, and has lasted over three years. All the medicine I have heretofore taken has failed to give any relief. I am now able to go up and down stairs, and daily improving. I consider the NERVINE the best medicine I ever found, and shall continue its use, for I am confident of entire recovery. I have taken only three bottles, and would not be without it on any account. [jel5 3w] Very truly, MRS. I. S. NUTE.

MASTA'S PULMONIC BALSAM
IS A SPEEDY and certain remedy for Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Catarrh, Influenza, Hooping Cough, Asthma and the various Affections of the Lungs.
☞ The attention of those afflicted with COLDS, COUGHS, and with any disease of the lungs, is directed to this valuable remedy. On account of sudden changes in the weather, colds and coughs are easily taken, and if neglected may lead to disease of the lungs. What is needed under such circumstances is a reliable remedy—speedy in affording relief, and effectual in arresting further progress of the disease.
☞ To arrest the existing irritation of the air-passages and the lungs, speedily and effectually, the seat and cause of cough is an important step gained toward relief and cure in the first stages of the disease. MASTA'S PULMONIC BALSAM possesses this important power, and while it promptly and effectually arrests all existing irritation, and rapidly relieves cough, it renders the lungs further relief by promoting a free discharge of the accumulated mucus in the air-passages, imparting a healthy action and vigor to the chest at the same time.
☞ Those suffering with cough and the first stages of lung disease, will therefore find in this valuable preparation a speedy and decided relief. Even those whose condition is beyond recovery, will derive from its use great benefit as well as comfort. For the class of diseases it is designed to relieve, the general commendation it has received has proved its efficacy beyond question. For the past ten years have been speedily and effectually cured by its timely use while suffering from severe colds, protracted coughs, and from other forms of lung disease. It is prepared from vegetable balsams and the medicinal properties of roots and herbs, with no minerals nor poisonous acids; simple and safe in the material used, it can be taken at any time.
Sold in Portsmouth by J. H. THACHER, and by Druggists and Dealers in medicines throughout the New England States.

MONDAY, AUGUST 9, 1869.

The News.

The London Star (radical) in commenting on the seizure of the Spanish gunboats, gives favorable notice to our enforcement of the neutrality laws; that having favored Spain by preventing the volunteers for the Cuban service from leaving our shores, we have proceeded against her by the gunboat seizures. The rumors of Cuban annexation are more prevalent and forcible than ever, and in view of the abolition of slavery all parties should be satisfied with the arrangement which will give another State to free America.

Over a bushel of brook trout, weighing altogether 76 lbs., were caught by John S. Ingerson and Horace G. Fabyan of Lancaster, in two days last week, from Phillips Brook in Stark and Dummer. These speckled beauties varied in length from three to five inches.

AMERICAN INSTITUTE OF INSTRUCTION. — *Thursday, continued.* — Mr. Rechards, a New England man, Sup't of Public Schools in Washington, gave a very lucid account of school affairs there. He spoke of the prevalent idea of the dimensions of the District of Columbia, it being 10 miles square, north side of the Potomac. There have been several new school-houses built within five years. The new High School cost $200,000. A new Board of Education, and the white and colored pupils are under different Boards. The speaker remarked that the northern people don't always send the best kind of men down there. For two years he had sat by the side of a colored man in the Aldermen's chamber, of which fact he felt proud.

The Pres't spoke of Mr. Crosby of Nashua, who had been in the habit of questioning speakers. He now stumped him to speak himself. Among the numerous questions put to him were, How large is Washington, and where situated? Is it in Kentucky or Maine? Which way does it lie from the North Pole? Which questions were answered in the same jovial manner in which they were put. To the question whether in your long experience as an educator, has there been any improvement made? Mr. Crosby thought that in some respects there had been improvement, and in some, not. In respect to getting facts and particulars we have. As regards drawing-out, we are behind. The right impression, in his estimation, was to tell scholars to take the shortest way to get at results. It was worth far more for the pupils to use his own language, than that of the book.

Question, are good manners taught? I do not think so. He expressed his mind on the value of studying the Latin language. [On one occasion by-standers supposed they could puzzle him in the manner to draw a nail; but the laugh was turned on them, as he performed the operation with a pair of tweezers.] In the progress of time, language changes, books change, and consequently new books are necessary.

Mr. Dunbar of West Bridgewater, Mass., had an opinion that the teachers and friends of education generally should come forward and purchase the volumes of the proceedings of former meetings of the Institute. These books are designed to promote educational reform throughout the country. He desired that every copy should at once be secured at a fair price, and not to have such a valuable work on the hands of the Society. Better by far, instead of paying fifty cents for a fish chowder, at Smith's Isles, (which will not have any potatoes or pepper in it,) to purchase a valuable book like the Proceedings of the Am. Institute.

Mr. Bulkley, Supt. of Schools in Brooklyn, gave a most thrilling and patriotic address, which seemed to go down into the hearts of his hearers. The exigencies of our country have brought the people into juxtaposition, the south have clasped hands, we must educate the Teachers, the school master must go out, it must be done by Christian men, we are going faster and faster every day, everything is telling upon our country and upon Asia, you, young men, you, young women have a mission to perform. The question to be solved is that we should understand our government and our institutions.

Pres't Kneeland remarked that it had been said that "New Hampshire was a good State to emigrate from." New Hampshire had produced a Webster who was formerly a resident of this beautiful city. He would call upon Mr. Webster of Boston. Mr. Webster said he was proud to hail from N. H., from which he thought that all the cream had been taken. He had been well treated in Boston, also in New Hampshire. It had been said that Concord at one time had been called the hub and banner town of New England. My native state had never such flourishing educational prospects as now.

There was the Agricultural College, and that ancient institution Dartmouth College. The teachers are alive.—The old State produced some of the best brains of the Country. Some of the best names among us have been changed to Webster (Question by a member, "Were they women?") The schools of the State were the best in the world. The Educators of a vast number of places in the country, received their rudiments of education in the glorious old Granite State.

Mr. Smart, Sup't. of Schools of Indiana, also a New Hampshire man, expressed great pleasure in meeting the Teachers of New England on this occasion.—New England was pre-eminent in public instruction — she need not fear to be left out in the cold, while she continues to send her educators to the 'Great West.' In many things we excel in the West; in matter of supervision we are quite equal to New England—don't look through Boston eye glasses. — In every well regulated wheel, some spokes are higher than the hub—in the West it is necessary to eat sour crout to be a good Teacher. The City of Boston had excelled every other city in the Union, in raising the salaries of Teachers.

We must thank her for that. Indiana had a school fund of $8,000,000, nearly all productive. Her schools were second to none in the Union. Mr. Hammond would beg leave to call on Mr. Lancaster of Savannah, a native of New Hampshire. Mr. Lancaster responded to the call, and gave some very interesting facts relative to the cause of education in Georgia. Several Academies have been established for a long time—incorporated under Boards of Trustees. Before the war the most of the Educators were from the North—at the present time there was no call for Teachers from the North—It had not originated from political opinions.—There was a home supply, because the people in his section had turned their attention that way. There were 130 names at present on the roll ready to become Teachers. Schools are readily springing up, the old academies are being filled up; but yet there are great and almost insurmountable difficulties in the way. The people did not like to be taxed for public education. The first public school was established in 1854; at the present time, there were 1400 scholars in the public schools.

New Hampshire Items.

John Barnard, who resides in the edge of Bedford, near the Amherst line, and has for several years been insane at times, was on Tuesday taken to the asylum at Concord. Several years ago, in a fit of delirum, he attempted self-destruction, and shot away his nose and a part of the upper lip. Since then he has many times sharpened his knives with the expressed purpose of taking the lives of members of his own family, or others. His thirst for blood is great when laboring under this mental aberration, and he at one time killed a horse and horribly mutilated its body. He made no resistance to taking the trip to Concord, except to shout lustily till he reached Goffstown, when he remarked that it was no use for him to shout more, as no one knew him there. *Cabinet.*

The Concord Monitor reports that a brutal and cowardly assault was committed upon Mr. N. K. Sterling, at Monroe Plain, on the 30th ult., by Alexander Harden. Harden had frequently threatened to take the life of Mr. Sterling, and on the occasion referred to he was met at the door by Mrs. Sterling who asked him to go away and not make any trouble, but instead of complying he pushed her violently from the door, and entering the house commenced an attack upon Mr. Sterling, striking and kicking him in such a manner that he now lies in a very critical condition. Mr. Sterling is a man 60 years of age, and has been in feeble health for a number of years. Harden has been arrested.

The Derry Mills, at Goff's Falls, have stopped running, and nearly all the help has been discharged. Hard times for manufactures is the cause.

BRUTAL MURDER.—John Lockwood, who was murdered at Calais, Me., recently, was a Portuguese, and resided for a while in Dover, during which time he was married, and leaves a wife and one child.

Lockwood belonged to Schooner Alexander Milliken, and when passing along the street encountered a crowd of roughs, some of whom spoke to him. He answer them pleasantly, and stepped up to shake hands with one of them, when they assaulted him in a brutal manner, and the man ran to his vessel, pursued by the crowd. Afterwards he was decoyed from the vessel by two of the party, and when they had got some distance the ruffians, who had been secreted, rushed upon him.

Lockwood finding himself surrounded, drew his knife and acted on the defensive. He was knocked down by a stone, and then the cowardly rascals fell upon the prostrate men and pounded and kicked him in the most shameful manner, cutting and brusing his face and head. Lockwood succeeded in getting on board the vessel again, and a physician was called to dress his wounds; but he died of his injuries.

David Rutherford and Patrick and Jerry Hickey were arrested. Witnesses prove that a crowd of twenty or thirty attacked Lockwood. Some saw a dozen men kicking and beating him at once, yet no one interfered to save him. The parties concerned are a very bad set of roughs, and the determination is that justice will be done in their case.

SPECIAL NOTICES.

The Conditions of Health.

It is idle to expect health if the precautions necessary to secure it are neglected. The human organization is a delicate piece of mechanism, and requires as much intelligent care and watchfulness to keep it in order, as are requsite in the management of the most complicated combination of levers, wheels and pinions.

At this season of the year the body is peculiarly sensitive, because it is greatly weakened and relaxed by the continuous heat. The skin, in summer, with its millions of pores wide open, is a very different sort of tegument from the fibrous covering which it becomes under the action of the winter's cold. The muscles, too, are comparatively flaccid, the nerves tremulous, the blood poor, and the whole frame less capable of enduring fatigue and resisting diseases, than in cool weather. These indications of a depressed condition of the vital forces are so many unmistakable hints that nature needs reinforcing.

Ordinary stimulants will not effect this object. They inflame and excite, but do not strengthen. The only preparation which can be depended upon to impart luminal vigor to the system, and enable it to endure the ordeal of the hottest term without giving way under the pressure, is HOSTETTER'S STOMACH BITTERS, a tonic and corrective so pure, so harmless, so utterly free from the drawbacks which render many of the powerful astringents employed in medical practice more dangerous than the ailments they are employed to cure, that it may be administered without fear to the feebleat female invalid, or the most delicate child. The cathartic and alterative vegetable ingredients, which are combined with those of a tonic nature in its composition, keep the bowels moderately free and perfectly regular, while the work of invigoration is going on. The finest blood depurents which the herbal kingdom affords are also among the components, so that it recruits, purifies and regulates the system simultaneously. au5

Holloway's Ointment.—There are multitudes of brave fellows now suffering from the effects of wounds received in the war, who might be made sound and whole in a short time by the use of HOLLOWAY'S OINTMENT. It is no superficial remedy, that merely skins over an ulcer, leaving the poisonous matter beneath to break out afresh at some future time. On the contrary, it eradicates the inflammatory principle itself, and works a complete and thorough cure. Sold by all Druggists.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two chemical extracts, which have been tried by themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Fillies, Dropsy,** and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitly more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopoeia.

☞ It is guaranteed that no one who has once tried Dr. ERASMUS WINSLOW'S **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

ALLEN'S LUNG BALSAM.

The best remedy for the cure of CONSUMPTION, and ALL DISEASES OF THE LUNGS. It loosens the phlegm and matter to rise without irritating those delicate organs (the Lungs,) and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless for the most delicate child. It is everywhere in good demand and gives good satisfaction.

The result of its use is proof of its great value.

Its extraordinary healing properties are experienced by all who use it. Their testimony will be found in a pamphlet which has been had of the agents where the medicine is for sale. d25

SPECIAL NOTICES.

ASIATIC CHOLERA.

The Strongest proof of Intrinsic Merit.

DEAR SIRS,—I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The Cholera appeared here soon after we received it. We resorted at once to the PAIN KILLER, using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of the PAIN KILLER. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be very indifferently received.

Believe me, dear sirs, gratefully and faithfully Yours,

J. M. JOHNSON.

Missionary at Seatoor, China.

GRANT & PROSPERITY.

Business revives under the new regime. Other than general causes have, however, given a tremendous impetus to the sale of

Cristadoro's Excelsior Hair Dye.

The chemists have come out in two leading scientific journals against the lead and sulphur *poisons for the head* (for that is their designation,) with which the country is infested, while Dr. Chilton, the first analytical chemist in America, announces to the world that

CRISTADORO'S DYE IS UTTERLY POISONLESS, and that he *knows it to be so*, because he has analyzed it.

CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, acts like a charm on the Hair after Dyeing. Try it. 3y22

BRANDRETH'S PILLS.

They remove all bad accumulations from the bowels, and purify and invigorate the system. All whose health is not perfect, owe it to themselves to take a few doses of Brandreth's Pills, because the seeds of decay are constantly generated by their use, and the principle of life confirmed, thus giving a vigor of body and mind to a period when we have been used to see the faltering step and the enfeebled intellect.

General Paez, the distinguished liberator of Venezuela, says he has used them as his only medicine for thirty years, with the most satisfactory results.

For Costiveness, Dyspepsia, and as a Family medicine they are unrivalled.

Daniel I. Tenney, Esq., Astor House, New York, says by Brandreth's Pill of Dyspepsia and Costiveness, when all other means used had failed.

A gentleman, whose father died of consumption at 84 years, was also attacked, when about 21, by the disease. He had cough, night sweats, and general debility. Doctors recommended cod liver oil, but he wasted away. At last he determined to use Brandreth's Pills. In two months they made him a sound man. jy22

PAIN KILLER.

WE beg leave to call the attention of the public to this long celebrated and unrivalled

FAMILY MEDICINE.

The PAIN KILLER is a purely vegetable compound, and while it is a most efficient remedy for Pain, it is a perfectly safe medicine even in the most unskillful hands.

For Summer Complaint,

Or any other form of bowel disease in children or adults, it is an almost certain cure, and has without doubt been more successful in curing the various kinds of

CHOLERA,

Than any other known remedy, or even the most skillful physician. In India, Africa, and China, where this dreadful disease is ever more or less prevalent, the PAIN KILLER is considered by the natives, as well as European residents in those climates, a SURE REMEDY. je19

SCHENCK'S PULMONIC SYRUP,

Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well.—This is the only way to cure consumption.

To these three medicines Dr. J. H. SCHENCK, of Philadelphia, owes his unrivalled success in the treatment of Pulmonary Consumption. His Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obructions, relax the duct of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will stop of themselves of course. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not to the lungs that we are waiting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, nourishment will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success.

Full directions accompany each, making it not absolutely necessary to personally see Doctor SCHENCK, unless patients wish such an examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond St., New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every Wednesday.

He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half-dozen.—Mandrake Pills 25 cents a box. G. G. GOODWIN & Co., 38 Hanover Street, Boston, Wholesale agents. For sale by all druggists. d1yja4

DENTAL NOTICE.

69 Congress Street, Portsmouth.

DR. GOODALL takes pleasure in announcing that he is meeting with great Success in HIS INVENTION of a SPRING PLATE for PARTIAL SETS OF TEETH. The Plate does not COVER THE ROOF OF THE MOUTH, is very small and light, has no clasps, in short, it does not *impede speech* or taste, and is altogether the most satisfactory method of inserting Partial Dentures. Scores of references in this city, and patients from Boston, New York and Philadelphia have given their unqualified approval of this *useful invention.*

He has purchased a patent right for LOADING lower sets of teeth, thereby making them much more serviceable and comfortable, and they will remain in place, even when the ridge of the lower jaw is very flat.

He is using the Pack Ridge in upper sets with the most satisfactory results. He has also a new way of *repairing rubber work, just discovered,* which will require only one hour in the majority of cases, and the work will be warranted strong and neat.

He is also administering ETHER, and preparing the mouth for artificial teeth, nearly every day, and often three times a day, extracting from 1 to 30 teeth at one visit, with entire FREEDOM FROM PAIN, and with happy results. He has made this department of dentistry most particularly a speciality, and is confident his large and continued success will warrant him in promising, (With his present facilities and improvements in mounting artificial dentures,) all work at the shortest notice, and in the **Best and Most Approved Style of the Art.**

All operations in Dentistry performed at the usual rates, and payment is considered due as soon as the operation is completed, all work being warranted.

Refers with pleasure to the leading Physicians of Portsmouth and citizens generally.

LOCAL AFFAIRS.

☞ An alarm of fire was raised about 10 o'clock Saturday morning, which proved to be from a barn in a field near Holmes' Lane, off New Castle St., near the Bridge. The alarm was not given in a prompt and proper manner, it being nearly a half hour before the bell struck, and then it rang as for church. Gov. Langdon, 3, had the first stream on the fire. No. 2, Steamer Sagamore, was under charge of Secretary Cate.—Chas. Manent, Engineer of Dearborn, running the Engine till Engineer McIntire arrived.

The barn and contents were entirely consumed or spoilt. The building was owned by J. J. Pickering, Esq., and insured for $300, which will not much more than half replace it. It was rented by John Stokell & Co., who lose 22 tons of good hay, and other property, on which they have $200 insured. Mr. Cyrus L. Brown had a shell boat, valued $50, Mr. Horace S. Spinney a chest of tools, $35, burnt. Mrs. Spinney and Freeman Peverly gave the alarm. The premises have been greatly infested with boys, and for the last week, and now, the barn we are told was kept locked; and the cause of the fire it is thought must be intentional, or accidentally occasioned by boys playing with matches.

A second alarm brought out the Fire Department at 5 o'clock in the afternoon. It was caused by the burning of the hay at the same place.

☞ J. Prescott Eldredge, the "Cagliostro" artist, didn't have a large audience at the Temple, Thursday evening, and in consequence couldn't pay his bills. The performance was exceedingly good, the renderings from "King Lear," "Shamus O'Brien" and the "Maniac Wife" being very fine. At the close, "presents" in the shape of pictures stained and dilapidated, were distributed among the audience. Our advertising bill remains unpaid, tho' we were the recipient of a 2-cent picture of Jerusalem. Considering the small amount taken at the door we do not feel excessively indignant at not receiving our pay, but think it would have been more creditable on the part of Mr. Eldredge had he informed us that he could not pay, instead of saying that he would "call around in the morning and settle" and then neglect to do so. We advise our brethren of the press elsewhere, that in case the "Cagliostro" man appears among them, to be sure and collect their advertising bills in advance.

THE ECLIPSE came off according to the advertised programme, Saturday evening. On Thursday and Friday evenings there was frost on the lowlands, and during the three days previous to the eclipse the weather was cold. On Saturday at noon the thermometer was at 62, with the wind easterly. The day was a cloudy one and there were very light showers in the afternoon.

The eclipse was plainlyvisible, as the clouds kindly passed away when it came on. It wasn't any great shakes after all,—nothing more than a double sunset.

☞ Mr. Woodbury Locke's beautiful mare Nellie never showed to better advantage than during her late two appearances on Rockingham Park. On both occasions she trotted right over Empress; and on the last day she was fit to go for a kingdom, and without doubt could have turned the Mystic track inside '30.

Mr. Jones' little Lady Emma, too, shew herself as game as ever, and still improving; and barring Nellie, we don't know where the horse is in the city that can beat her.

THE VALUE OF A NEWSPAPER.—Selma, Alabama, has a live Republican Weekly paper, published by Messrs. James and Peter Shaw, formerly of this city. The Press is a vigorous publication and has dealt heavy blows against the rebels during the political campaign just closed. Its influence is shown by the result of the voting in Selma last Tuesday. Back, Republican, received 2037 votes for Congress, to 511 for Mann, Democrat. Come home and enjoy that long-promised vacation, Br. Shaw!

NAVAL.—Mr. William H. Varney, of East Boston, Mass., has been appointed Assistant Constructor in the Navy, and ordered to duty at this Station, in place of Samuel M. Pook, relieved. Mr. Varney reported Aug. 2nd.

BASE BALL.—We learn that a match is contemplated between players boarding at Rye and Hampton beaches—to be played at the Plains, shortly.

☞ There was a lively hop at the Sagamore House, Saturday evening, and a delegation of beaux and belles from this city were present.

From the Journal.

NAMES OF NAVAL VESSELS.—A writer in the Navy Journal of a recent date, attempts to cast some ridicule on the New Hampshire Legislature for respectfully repuesting our Naval authorities to restore to our ships of war some of the honored names of which they have recently been dispoiled. He calls it a "most senseless uproar," talks about Billy Bowlegs and the Rootdigger, Indians, and that Amphitrite, Stromboli, &c., are much more appropriate designations for ships of war than Agamenticus, Sassacus, Contoocook, &c., which the sailors cannot pronounce and which are generally known in their vocabulary as Agyment-to-cuss, or Sassy-cuss, or County-cook, &c., &c. This may be an inconvenience, but if the Naval authorities can find any name which Jack will not mispronounce, they will be more fortunate than most of their predecessors. From time immemorial our gallant tars have had pet names of their own, for the ships in which they fought, few of which bore as much resemblance to their baptismal names on the Navy Register as the above quoted. In the present case, if Amphitrite, which has now been substituted for the name of some of the Billy Bowleg's tribe, is not degraded to Am-I-tight, Jack will have to be soberer than he usually is when rejoining his ship after a day or two's leave on shore.

THE UNIVERSALIST CHURCH.—This Society with their usual and commendable zeal are having the interior of their beautiful house of worship somewhat renovated. New carpets will probably be laid — the frescoeing partially retouched by Schumaker of Portland, who has already made himself famous for his skill in this artistic yet difficult art, as evidenced by his success upon the walls of this church. Other improvements, if found requisite, will be made, the entire work being under the supervision of the efficient Wardens. Mr. T. F. Burtt of our city has been engaged as Tenor, at this church. A liberal fund contributed by the late Brackett Hutchings, being in reserve for all necessary improvements, it is a generally expressed hope that the Society will, ere long, purchase a new Organ. The Society are as yet without a pastor. It is expected that the Rev. J. C. White of East Boston, a talented minister, will occupy the pulpit as a candidate every soon.

THE METHODIST CHURCH. — The improvements upon this church are progressing rapidly, under the skillful direction of Mr. John H. Folsom. An examination of the contemplated plans, shows that perfect and pleasing combination which looks to convenience and comfort as well as beauty. When completed this church will be an ornament to our city, and second to none. The untiring exertion of the genial pastor has accomplished much since his sojourn amongst us.

LAND SLIDE.—A land slide at Stockport, Columbia county, N. Y., carried away, on Monday evening, about three acres of land a hundred feet deep, at a point not far from the Empire House. Much excitement among the townspeople was caused, some thinking an earthquake had visited the place.

☞ A vast amount of whiskey was burnt in the bonded warehouse at Philadelphia, last week; one life was known to be lost; possibly more. The Free Press remarks: It is not probable the loss of life is as great as it would have been had the whiskey taken its customary channel.

NOT TO BE LAUGHED AT.—In New York, Aug. 3, at the Women's Suffrage Association, a resolution denouncing Horace Greeley for poking dastardly fun at the movement, was discussed with some warmth, and finally laid on the table.

For the sale of its
NEW SEVEN PER CENT.
Thirty Year Gold Loan,
Free from Tax.

This Loan amounts to $6,500,000.

First Mortgage Land-Grant and Sinking Fund Bonds,

secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles of which 12 miles are completed, and the rest is under construction. It is also a Mortgage upon Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,

And in successful operation for 437 miles

west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the

GOVERNMENT LAND GRANT OF THREE MILLION ACRES,

extending in alternate sections on either side of the track, from the 394th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be invested in the Company's Bonds, themselves up to 120 in U. S. Bonds, as A SINKING FUND FOR THE REDEMPTION OF THE BONDS.

The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and pinery. The company also holds as an asset another tract of

Three Millions of Acres in the State of Kansas,

and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the

Value of the Company's property, covered by this mortgage at $24,000,000 net, while the Loan is merely $6,500,000.

The Bonds have
THIRTY YEARS TO RUN,
from May 1, 1869, and will pay
SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.

The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be
PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:
On $1,000 Bond in N. Y. $25 (gold) each half year.
" London....£7 85. 10. "
" Frankfort. 87 fr. 30 krtzs. "

The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a
FIRST CLASS INVESTMENT,
in every respect perfectly sure, and in some essential even
Better than Government Securities.

The Bonds will be sold for the present at
96, *and accrued Interest, both in Currency,*
the Agents reserving the right to advance the rate.

The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.

Gold and Government Securities taken in payment at their market value, without commission.

TROTTING—*Fair and Foul.*—As before stated, we desire to have a little somewhat to say respecting the races of Thursday last, at Rockingham Park, and trotting generally as now being conducted on the Northern turf. We declare without hesitation, that the money was not awarded by the judges to the horses that fairly and squarely won it, and we will prove it to any unbiased reader, as every unbiased spectator of the day must have seen for himself. And the very argument, and the only one that can be urged, which is held to justify or excuse the judges,—namely, that it is customary to be a little lenient in allowing drivers to infringe the rules—is exactly what we condemn. Let us see how it works.

Take the first race—a trot for $200, for horses that never had beaten 2:50—in which were entered Jim of Hampton, Belle Gibbs of Biddeford, Lady Emma and Belle of Portsmouth, Lady Wilkes and Little Beauty of Boston, and Stranger of Lynn. All the seven came to the stand, but Belle Gibbs was protested and drawn from the race; Belle of Portsmouth and Lady Wilkes were also protested—all as being too fast on the record; but the two latter kept on in the race, the Belle driven by Harry Bradley. Three false starts, and they were off. Lady Emma had the pole, and kept it all round, the race being between her and Wilkes; but as Emma, (driven by Hiram Woodruffe,) after trotting the mile squarely and handsomely, with but one skip, broke again at the score, and lost a little thereby, the heat was declared dead in 2:51. We think Emma ought to have had it, for besides the probably just protest of Wilkes, the latter broke and ran considerably on the back stretch, and evidently *gained* by it, (which is the main question) ; while Emma, who was leading when she broke at the score, did *not* gain, but immediately fell behind the Wilkes mare.

However, at it they went again, and after four false starts, they made the second heat, which counted only as the first. The race for most of the mile this time was between Emma and the big horse called Little Beauty; but on the second round, Wilkes, who got a bad send-off and was behind, turned out on them on the back stretch and soon took the pole, and came in a clear winner in 2:50, Emma second, Beauty third.

The third heat was mainly a brush between Wilkes and Beauty, and was declared dead between them in 2:54, Emma third, Belle fourth. Emma got the pole at the first turn, but soon lost it again to Wilkes. And just here was where both Wilkes and Beauty ought to have lost the heat to Emma, at least, if not to be distanced in the race—for both their drivers plainly held them back as they came to the score, either to make the dead heat as declared, (and so by multiplying heats, to shut out the others who did not win a heat in five,) or else to prevent going faster than 2:50, so that their horses should not be barred from such races in future. And if they had a right to pull their horses, they certainly had none to thus interfere with other horses and delay the race. Emma deserved this heat also, then, if not the race.

Tom McLaughlin drove Jim, Bradley the Belle of Portsmouth, and McGlew Stranger for three heats, and afterwards her owner.

For the third (actually the fifth) heat—and it was nearly seven o'clock when it was called—all six horses came; and got a send off, after numerous attempts. This being well understood as the last heat, and the positions of the horses at its close probably settling who should win the money—it was lively work all through. The Stranger finding he couldn't trot much, ran almost all the mile, and thus kept the pole nearly all the way; but Wilkes beat him home, and so did Emma and Beauty,—and Beauty breaking and running over the score, although coming in ahead of Emma, the little mare was given 2nd place and second money, Beauty third. The black horse Jim, of Hampton, did some good trotting in this heat, and by good rights, we decided for ourselves, Emma should have had first, and Jim second. But this was the Summary as given by the judges, below.

As the horses turned in to the home-stretch on the last heat, the declining sun threw his slant beams behind them, illuminating the clouds of dust till it seemed golden; and as the six eager horses, with their riders shouting and their own feet clattering, rushed into view from behind the little bluff at the last turn, the scene was beautiful and exciting.

Time (2:51 d.h.) 2:50, (2:53 d.h.) 2:52, 2:54½

The second and grand race of the day, was for a purse of $400, in first, second and third money. The entries were five, Emperor, Empress, McClellan and Black Walnut of Boston, and Nellie Locke of Portsmouth. Four came up for the word, Emperor being withdrawn. McClellan, the homely old brute, who sold high favorite in the pools, drew the pole in the lot for position: Black Walnut, a beautiful horse, second, Nelly third, Empress outside.

Two false starts ere they did really start; and then old Mac, scraggy, but game and tough, kept the pole all the way round, winning the heat in the slow time of 2:45, Black Walnut second, Empress third, Nellie last. All broke during the heat, but McClellan kept square after the first turn, while Walnut was rank enough, and Nelly not so steady yet as when she beat Empress last week. Empress broke badly on the second round, and her driver, new to her, Geo. Bailey of Portland, pulled her almost to a standstill; but she came well afterwards, and was a good third. Jock Bowen drove McClellan, Hiram Woodruffe Nellie, and Harry Bradley (the Old Harry) Black Walnut.

For the second heat, six false starts, then a send-off from a line, with Bradley in a good lead, as he was after, and he instantly took the pole and kept it all through, and the heat in 2:38 1-2, which was quick for the track, wind and weather—thought to be as good as 2:30 on the Mystic track; Mac second, Empress third. All the horses behaved much better in this heat, and the struggle was very earnest and exciting from start to finish.

People often regard racing as cruel to horses, (as no doubt it sometimes is,) but in this case, as several of the drivers were in both races, their labor, not to mention risk, was excessive, and a great deal more severe than any of the horses did.

Although all the horses broke and ran frequently in this heat, yet it was so apparent that both Mac and Walnut were *allowed* to do so by their drivers, and gained by it, while Empress and Nellie were checked in every case, and brought to a trot as soon as possible—that the race or certainly the heat should have been given to Nellie, and second place or money to Empress, and the other horses distanced. Empress came in before Nellie, to be sure, but she gained by running.

The third heat began with the usual vexatious delay of numerous false starts; and when the horses finally did go, the one that did all the trotting was not rewarded for it. Nellie got down to her work this time, and made not more than a skip or two for the mile, but Mac, and the Black (Harry) ran and skived when they chose, and yet were given the first and second places, because they made out, solely by these foul means, to keep ahead of Nellie, who was third, and trotting squarely.

The fourth heat was called after 7 o'clock—when wagons, cars, and many of the people had left. Still many interested ones stayed — and stayed to witness an outrage too. The two big horses were both broken and made to run under the whip, while beautiful little Nellie trotted one of the finest heats we ever saw, without a break from end to end—and with the skillful tooling of Hiram Woodruffe, showed herself a better horse that day than ever before. None of the others could have got home with her, but by foul running, and Empress was altogether out of the race. Below is the judges' summary, not ours.

SAME DAY.—Purse $400. $250 to 1st, 100 to 2nd, 50 to 3rd. Open to all horses that never beat 2:30.

Time 2:45, 2:37, 2:41½, 2:33½.

One thing is pretty evident to us—that the standard rules of trotting must be enforced more strictly, or the Course cannot flourish on its merits, as a legitimate and high-toned amusement; and another deduction seems equally plain, which is that no track driver, (no matter how fair minded and well informed he may be) should ever be allowed to serve as judge, for his sympathies will naturally be with the tricks of the trade.

We know the difficulties of the position of a judge in the trotting stand—which are scarcely less than those of any other court; but we feel that in all we have said, we have the incontestable facts on our side, and we are sure that we are not influenced by any favoritism or prejudice in the matter.

The attendance was much larger than on Wednesday, and was highly respectable; entire decorum was observed; and the weather was as cold now as it was hot the day before. And one thing certainly must be granted by all present at this Meeting—that they got a plenty of sport for their money, and that the drivers generally tried hard enough to win. P.

HAVING OBTAINED an extensive and wide spread sale for our "CENTURY" brand of *Fine-Cut Chewing Tobacco*, we desire to announce that we *shall not* pack daily $100 in the small tin foil papers after this date, July 1st, 1869, its merits being so favorably recognized that this inducement is no longer necessary. To avoid misapprehension, however we would add that we shall continue to pack orders for elegant *Meerschaum Pipes* in our "YACHT CLUB" and "EUREKA" brands of *Smoking Tobacco*.

The "YACHT CLUB" is devoid of Nicotine, and cannot injure the health, and is especially recommended to people of sedentary occupations or nervous constitutions.

The trade are invited to send for circulars.

THE OLD STORY.

"The sails are set and the breeze is up,
And the prow is turned for a northern sea;
Kiss my cheek and vow me a vow
That you will ever be true to me!"

"I kiss your cheek, and I kiss your lips!
Never a change this heart shall know,
Whatever betide—come life, come death—
Darling, darling, I love you so!"

Oh, but the northern nights are keen!
The sailor clings to the frozen shrouds:
A kiss burns hot through his dreams of home,
And his heart goes south through the flying clouds.

The maiden laughs by the garden gate—
Dreams of love are the soonest o'er!
Kisses fall on her lips and hair,
And the world goes on as it went before.
—Lippincott's, for August.

BOVINE CURIOSITIES.—Two singular specimens of natural history are on exhibition in Manchester, on the circus ground by the depot. One is a bull of the common Canadian stock, well proportioned, though not large; is the father of offspring, and now gives milk to nearly the quantity of five quarts daily. When about five years old, some suggested that he had an udder like a cow, and on trial found that milk exuded from the teats. From that time, the process of milking has developed more and more the functions of the cow.

The other curiosity is a monstrosity in the shape of a fair proportioned Short Horn cow, with the addition of a fifth leg and hip attached to the back and hanging down over the side of the cow. Connected with this is a diminutive tail, and a small udder development. The cow has had, as the story is told, three calves, first a pair of twins, grown together at the back and living but a week, and secondly one with a perfect form, except its head, which is represented as having a single central eye, no nostrils, a deformed mouth, and a small protuberance like a tail projecting from the forehead. This lived but three days and is now represented in taxidermic art.—*Mirror.*

TRUE RELIGION.—This is literally true of all false religious teachings; the first, and last and fatalest sign of it is that "puffing up." Your converted children, who teach their parents; your converted convicts who, having lived in cretinous stupefaction half their lives, suddenly awaking to the fact of there being a God, fancy themselves therefore his peculiar people and messengers; your sectarian of every species, small and great, Catholic or Protestant, of high church or low, in so far as they think themselves exclusively in the right and others wrong; and pre-eminently in every sect those who hold that man can be saved by thinking rightly instead of doing rightly, by word instead of act, and wish instead of work; these are the true fog children, clouds, these, without water, bodies, these of putrescent vapor and skin without blood or flesh; blown bagpipes for the fiends to pipe with, corrupt and corruption—"swollen with wind and the rank mist they draw."—*Ruskin.*

MACHINE-MADE AXES IN AMERICA.—It is alleged that the axe-making trade of the United States is so considerable, as to nearly, if not fully, equal the entire production of edge tools in Sheffield. The axe manufacturers of the States pay a very heavy duty on their steel, then pay heavily for labor, and can put us out of the Canadian market, and all but monopolise the markets of some of our other colonies. The American axe does not secure this performance under tremendous disadvantages without a reason. It is a perfect instrument for its work. It is formed with mathematical accuracy, and is so formed by machinery. Sheffield, the old home of the axe manufacture, once saw an effort to introduce machinery here. The workmen foolishly resisted that effort, and in so doing drove a most important business into the hands of our American rivals. Is it too late to repair the mischief?—*Sheffield Telegraph.*

COAL.—There is much feeling in the country about the price of coal, and an extensive and co-operative effort is to be made to break down the monopoly. Congress will be asked to remove the duty on coal, and the whole West is said to favor the measure. The monopoly enjoyed by Pennsylvania is too much abused, and is costing the country too much to be allowed to continue. Nova Scotia promises to set coal down at our wharves at $5 per ton if we will let it in duty free. Pennsylvania has let her mines lie idle of late for the purpose of reducing the supply and thus enhancing the cost; it will be a fair turn-about to let them be idle as much longer because they cannot profitably compete with the foreign trade. Perhaps King Coal would not then be such a "merry old soul" as now.—*Free Press.*

—A gentleman riding, came to the edge of a morass which he considered not safe. Seeing a peasant lad he asked whether the bog was hard at the bottom. "O, yes, quite hard," replied the youth. The gentleman rode on, and the horse began to sink. "You rascal," shouted he, "did you not say it was hard at the bottom?" "So it is," rejoined the rogue, "but you're not half way to it yet."

READ THIS.
ASIATIC CHOLERA IN CHINA.
Almost Every Case Cured with Pain Killer.
Dear Sirs: I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send us last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. We resorted at once to the Pain Killer using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, been used in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of Pain Killer. It gives them favor in the eyes of the people, and access to families and localities to whom otherwise they would be indifferently received. Believe me, dear sirs, gratefully and faithfully yours,
J. M. JOHNSON, Missionary in China.
From Rev. R. Telford, Missionary in China, now visiting his home in Washington, Pa.
Dear Sirs: During a residence of some ten years as a missionary in Siam and China, I found your Pain Killer a most valuable remedy for that fearful scourge, the cholera. In administering the medicine I found it most effectual to give a teaspoonful of Pain Killer in a gill of hot water sweetened with sugar; then after waiting 15 minutes begin to give a tablespoonful of the same mixture every half hour until relief was obtained. Apply hot applications to the extremities. Bathe the stomach with the Pain Killer clear, and rub the limbs briskly. Of those who had the cholera, and took the medicine faithfully in the way stated above, eight out of ten recovered.
Truly yours, R. TELFORD.
If attacked with diarrhoea, dysentery, or cramp colic, don't delay the use of the Pain Killer.
Beware of all Imitations.
The Pain Killer is sold by all druggists.

☞ PERRY DAVIS' VEGETABLE PAIN-KILLER.—We clip the following from the Providence General Advertiser: At this season of the year, when cholera, cholera morbus, dysentery, and other kindred complaints are sure to prevail, everybody should be liberally supplied with the PAIN-KILLER. Persons leaving home whether it be for a day's excursion or a trip to Europe, should be in a condition to place their hands on it at a moments warning. Many diseases incident to the summer months which will prove fatal if not immediately checked, can be promptly cured by one or two doses of the Pain-Killer. On more than one occasion have we been relieved of intense suffering by the timely use of the above named preparation." Sold by all Druggists, Grocers and Medicine Dealers. jy13 4w

DODD'S NERVINE DID IT.
NEW LONDON, CONN., April 28, 1869.
REMEMBERED FRIEND:
I thought it well to wait a few days after week before writing, to see if I continued to improve, as I have been doing for some time, under the treatment of the new medicine, and I am happy to tell you that I am getting better—even faster than when you were here. I commenced the use of DODD'S NERVINE without anybody advising me to it. When I began with it I could only walk from my bed to the chair. My trouble has been extreme pain in the head, and has lasted over three years. All the medicine I have heretofore taken has failed to give any relief. I am now able to go up and down stairs, and daily improving. I consider the NERVINE the best medicine I ever found, and shall continue its use, for I am confident of entire recovery. I have taken only three bottles, and would not be without it for any account. [jel5 8w] Very truly, MRS. I. S. NUTE.

MASTA'S PULMONIC BALSAM
IS A SPEEDY and certain remedy for Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Catarrh, Influenza, Hooping Cough, Asthma and the various Affections of the Lungs.
☞ The attention of those afflicted with COLDS, COUGHS, and with any disease of the lungs, is directed to this valuable remedy. On account of sudden changes in the weather, colds and coughs are easily taken, and if neglected may lead to disease of the lungs. What is needed under such circumstances is a reliable remedy—speedy in affording relief, and effectual in arresting further progress of the disease.
☞ To arrest the existing irritation of the air-passages and the lungs, speedily and effectually, the seat and cause of cough is an important step gained toward relief and cure in the first stages of the disease. MASTA'S PULMONIC BALSAM possesses this important power, and will act promptly and effectually arrests all existing irritation, and rapidly relieves cough, it renders the lungs further relief by promoting a free discharge of the accumulated mucus in the air-passages, imparting a healthy action and vigor to the chest at the same time.
☞ Those suffering with cough and the first stages of lung disease, will therefore find in this valuable preparation a speedy and decided relief. Even those whose condition is beyond recovery, will derive from its use great benefit as well as comfort. For the class of diseases it is designed to relieve, the general commendation it has received has proved its efficacy beyond question. For the past ten years have been speedily and effectually cured by its timely use while suffering from severe colds, protracted coughs, and from other forms of lung disease. It is prepared from vegetable balsams and the medicinal properties of roots and herbs, with no minerals nor poisonous acids; simple and safe in the material used, it can be taken at any time.
Sold in Portsmouth by J. H. THACHER, and by Druggists and Dealers in medicines throughout the New England States.

The News.

Ecuador is in a state of war.

The rainy season has commenced in Cuba, which interferes with military movements. The Cuban army is being recruited by Americans.

The suspension bridge at Niagara Falls is pronounced unsafe by eminent engineers, and many travellers avoid crossing it.

[Gen. Rosecrans had declined the Democratic nomination for Governor of Ohio.

In South America shocks of earthquake have been recent and severe. All the northern volcanoes are in active operation. Showers of scoria fell at Guayaquil, supposed to be from the volcano of Pichincha, eleven miles northwest of Quito, Ecuador.

New Orleans has had no yellow fever this year. Only one case has occurred, and that of a young man who arrived from an infected port. The city has been very healthy this year. There was a race between two trains, one on the Chicago and Alton and the other on the Terre Haute Railroad last week. The locomotives ran eighteen miles side by side, neither gaining, running a part of the distance at the rate of seventy-five miles an hour. One of of the trains reached East St. Louis first.

The eclipse at Springfield, Illinois, was a startling and sublime phenomenon. When the total obscuration took place the heavens and earth presented a scene of awful sublimity. A brilliant amber colored corona appeared around the sun and moon, shooting rays of light outwards in all directions, when the whole horizon was illuminated with light of the same color. The planets Mercury and Venus and a number of fixed stars were distinctly visible, but no planet orbs between Mercury and the sun were discovered. A brilliant rose-colored flame or protuberance was noticed on the western limb of the sun during the period of total obscuration. The phenomenon known as "Bailey's Beads" was also distinctly witnessed. This phenomenon Professor Peirce thinks is occasioned by the refraction of light. He is also satisfied that the corora or halo at the time of total obscuration was occasioned by the sun's atmosphere.

Correspondence of Chronicle and Gazette.

RYE, Aug. 9.

A very pleasant hop came off at the Farragut House, Saturday evening, The ladies never looked more charming, and displayed great taste in their dresses. A large company participated in the festivities, and all seemed to enjoy the occasion very much. They have hops at the Farragut and Atlantic every Wednesday and Saturday evening. Everything was full Saturday night, but a considerable number left Monday morning, for the Mountains, and elsewhere. Barnabee invites his friends and the public to spend an evening with him at the Farragut House, Thursday, Aug. 12th, on which occasion he proposes to give his Patch-work of Song and Story, and no doubt will be greeted by a large audience. Saratoga fashions get here sometimes. The latest thing is the appropriation by young gentlemen of young ladies veils, and the wearing of said articles of feminine adornment round their straw hats.

The Ocean House Band went round Friday morning, and gave the guests at the other houses fine serenades. The fare on the coaches was raised this season to 75 cts., which caused some talk and finally resulted in putting on an opposition line, which has been running about a week, at 50 cts. The camp meeting, which has drawn large crowds for three weeks past, closed Sunday night.

The drought is beginning to be severely felt, and some wells are giving out. There was a very slight sprinkling, Saturday afternoon during the eclipse, but hardly enough to lay the dust. R.

☞ Besides the various annual Fairs now approaching they are having special Horse, Trotting Meeting's at the different Tracks in this section of the State. Aug. 10th 11th and 12th inst., there are to be seven races at Manchester, for $1800, in which there are thirty-five entries; including Lady Emma and Nellie Locke of Portsmouth. Emma goes on Tuesday, and Nellie on Wednesday, with McClellan, Empress, Black Walnut and Belle Morrill.

Aug. 18th 19th and 20th, at Dover, $1400 is offered in purses for six races, for 3 minute horses, 2:50, 2:45, 2:38, and 2:30. Entries close 13th inst.

Ezekiel Richardson, a citizen of Pelham, aged 77, and said to be respected, committed suicide by hanging on the 5th, just after he had taken his dinner.

(Reported for the Chronicle and Gazette.)

AMERICAN INSTITUTE OF INSTRUCTION.—The Press spoke of the welcome which the Institute received from one Minister of the city, Rev. Mr. Kelsey. He would now call upon another, Rev. Mr. Harmon, a member of the local committee. Mr. Harmon expressed great pleasure at meeting with such an influential body in the cause of education as this Institute; had been very happy to hear the speaking right out. He referred to the language of welcome by Mr. Kelsey, that we should have the best of the bargain. He had been pleased to witness the perfection which has been reached in demonstrating propositions upon the black board.

The following resolution introduced by Sup't Philbrick was unanimously adopted.

Resolved, That the systems of examing Teachers of the New England states ought to be radically reformed, by making provision for examining and certificating of teachers by State and County Boards of Examiners.

Treas. Walton, not a native of N. H., said it always a pleasure for him to show his figure head; it was not fair to call upon him, as he had been doing duty; his position was at the laboring oar. In his opinion the general tone of discussion points upwards. He could recollect the discussions for 15 years. His theory was to teach ideas, not words; he forced home upon the teachers to have everybody master of their own subject and able to teach in their own way.

Hon. E. A. Stevens of Portsmouth was next called upon, to speak for the ladies, as one of the local committee, having said that he had the best wife in the country. The gentleman was inclined to think they had spoken for themselves, our only fault being that we could not entertain you better. Though some people might not have Turkish carpets on their floors, still they had warm hearts and willing hands, and had done the very best they could under existing circumstances. Old Strawberry Bank is not behindhand in hospitality. Some of our families are away from the city. We all are greatly indebted to you for your presence among us. Every parent in this city should have been here.

New Hampshire was famous for many things once. He answered a question by a southerner — she raises three noted productions: school marms, rocks and ice. Our school marms the south take readily, our granite they use in building and our ice keeps them cool in warm weather. A southern teacher had said that they would not have any more Yankee teachers because they would only stop one year. He hoped the first visit of this body would not be the last. He remarked that there was one other married gentleman besides himself upon the local committee and two single gentlemen, who certainly were highly favored by being placed in such a pleasant position.

The President called upon Dr. Wm. R. Preston, who he was confident could give them a good dose. The Dr. was not in the hall and consequently failed to respond, but where there is work to be done pro bono publico, the gentleman is never found wanting, as his labors for the good of the Institute show. And this applies to another gentleman, a respected teacher of this city. Mr. S. M. DeMeritt's remarks were of the tenor that the small fruit should be cultivated also. He named several words commonly used in local pronunciation which were pronounced wrong. It seemed to him that over so large a field as this body represents, there could be means taken to correct pronunciation. He had been exceedingly gratified in listening to the discourses.

The Committee on Resolutions, on which there were two lady members of the Institute, reported through Mr. Hagar of the Salem Normal Institute, the following resolutions, which were adopted.

Resolved, That we gratefully acknowledge our obligations to Mr. Lyman D. Spalding, Dr. Wm. R. Preston, Hon. E. A. Stevens, Mr. Chas. C. Buzzell, Mr. A. M. Payson and other gentlemen of Portsmouth for their kind and efficient labors in making the local arrangements for the accommodations of the Institute during its present sessions; to the citizens of Portsmouth who have opened their hospitable doors for the entertainment of the ladies in attendance; to the Wardens of the North church for the free use of their church edifice; to the gentlemen who afforded so much pleasure to the Institute by their excellent singing; and to all other persons in Portsmouth who have in any way promoted the success of this meeting.

Resolved, That our gratitude is due the several gentlemen who by their lectures, addresses and essays have largely contributed to our interest and instruction.

Resolved, That to the numerous Railroad Co.'s that have favored the members of the Institute with passage tickets at reduced rates, we give assurance that their liberality is thankfully recognized.

Resolved, That we cannot permit our esteemed President, Mr. John Kneeland to retire from office, without cordially expressing to him our high appreciation of the fidelity, efficiency and felicity which have distinguished the performance of his difficult duties, and that we tender him our earnest wishes that he may be blessed with a long continuance of health, happiness and usefulness.

Resolved, That, rejoicing in the educational success and the social enjoyment of this, our fortieth annual gathering, we now bid one another a hearty "God speed you," and pledge ourselves anew to faithful efforts in behalf of universal education.

Mr. Hagar said a word respecting New Hampshire young ladies. In his school the past year, there had been seventy-four young women from this State. They have distinguished themselves by their lady like deportment. The leading poetess in the graduating class on the 5th of July last, was a native of New Hampshire, and one year ago, the poetess was a sister of the lady who graduated recently. So you perceive that New Hampshire not only raises rocks, but poetesses. He would strongly impress upon the people of this State, that it is due to the young women and young men, that New Hampshire have a Normal School. Mr. Hagar considered it an honor to serve on a committee with two highly accomplished young ladies, and hoped that in the future it would not be an unusual thing.

The meeting concluded by the audience singing Auld Lang Syne. Thus concluded the meeting of a body of Educators of whom Portsmouth may feel higly honored to have had their presence among us. There is no exclusiveness in the Institute. Any person interested in the cause of education is eligible for membership, and the advantages to be derived from such a connection are obvious. The number of the Associates has been considerably augmented during the present convention, and there is a prospect of still wider extension in the future.

The financial condition of the Institute is in improved condition. Its entire indebtedness is now $339.21, and this will probably be decreased some $200 the coming year.

Corrections.—In our notice, Monday, of the proceedings of the Institute, there were the following typographical errors. Mr. Richards of Washington said the dimensions of the District of Columbia were but five-eighths of ten miles square. The question put to Mr. Crosby of Nashua was, how large is Nashua.

BUSINESS NOTICES.

WITH DYSPEPTICS everything is wrong. Food does not digest; sleep does not refresh; wine does not cheer; smiles do not gladden; music does not charm, nor can any other joy enter the breast of the miserable dyspeptic. You must get rid of it or it will become seated and confirmed, and life will be a burden and existence a curse. PLANTATION BITTERS will do away with all this. New life, strength and energy will take possession of you. The damask will again bloom upon your cheek, and the lustre in your eye will again be as bright as in your healthiest, happiest and most joyous days.

☞ There are valuables which will be received into the vaults of a bank only on sufference and many others that will not be received on any terms. Towns possessing no suitable place of deposit often lose valuable records and papers, impossible to replace, by fire or robbery. The UNION SAFE DEPOSIT VAULTS, 40 State Street, Boston, were instituted to remedy these evils, and their great success has only been commensurate with their true deserts. Individual safes are rented from $20 to $100 a year. Circulars of Henry Lee, Manager.

The Conditions of Health.

It is idle to expect health if the precautions necessary to secure it are neglected. The human organization is a delicate piece of mechanism, and requires as much intelligent care and watchfulness to keep it in order, as the nicely adjusted movement of the most complicated combination of levers, wheels and pinions.

At the season of the year the body is peculiarly sensitive, because it is greatly weakened and relaxed by the continuous heat. The skin, in consequence, with its millions of pores wide open, is a very different sort of tegument from the fibrous covering which it becomes under the action of the winter's cold. The muscles, too, are comparatively flaccid, the nerves tremulous, the blood poor, and the whole frame less capable of enduring fatigue and resisting diseases, than in cool weather. These indications of a depressed condition of the vital forces are so many unmistakable hints that nature needs reinforcing.

Ordinary stimulants will not effect this object. They inflame and excite, but do not strengthen. The only preparation which can be depended upon to impart staminal vigor to the system, and enable it to endure the ordeal of the heated term without giving way under the pressure, is HOSTETTER'S STOMACH BITTERS, a tonic and corrective so pure, so harmless, so utterly free from the drawbacks which render many of the powerful astringents employed in medical practice more dangerous than the diseases they are employed to cure, that it may be administered without fear to the feeblest female invalid, or the most delicate child. The cathartic and alterative vegetable ingredients, which are combined with those of a tonic nature in its composition, keep the bowels moderately free and perfectly regular, while the work of invigoration is going on. The efficient blood depurents which the herbal kingdom affords are also among the components, so that it recruits, purifies and regulates the system simultaneously. au5

Holloway's Ointment.—There are multitudes of brave fellows now suffering from the effects of wounds received in the war, who might be made sound and well in a short time by the use of HOLLOWAY'S OINTMENT. It is no superficial remedy, that merely skins over an ulcer, leaving the poison festering beneath to break out afresh at some future time. But the ointment eradicates the inflammatory principle itself, and works a complete and thorough cure. Sold by all Druggists.

THE LATEST DISCOVERY
In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative combine efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S
LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two medical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand years

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the most agreeable taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles,** costiveness, and the languidness to which the feebler sex are subject, the Lozenge will be found infinitly more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried Dr. ERASMUS WINSLOW'S **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

ALLEN'S LUNG BALSAM.

The best remedy for the cure of CONSUMPTION, and ALL DISEASES OF THE LUNGS. It causes the phlegm and matter to rise without irritating those delicate organs (the Lungs,) and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless for the most delicate child. It is everywhere in good demand and gives good satisfaction.

The result of its use is proof of its great value.—Its extraordinary healing properties are experienced by all who use it. Their testimony will be found in a pamphlet, which can be had of the agents where the medicine is for sale. d25

Ellis' Iron Bitters

Will enrich the blood and prevent it from becoming watery and weak, give a healthy complexion, restore the appetite, invigorate the system, and are very palatable. These Bitters are recommended to all persons requiring a safe and valuable tonic, to impart tone and strength to the system, not given by Bitters merely stimulant in their effects; which, although they may possess tonic vegetable properties, cannot give the strength to the blood which the *Iron Bitters* will give.

ASIATIC CHOLERA.
The Strongest proof of Intrinsic Merit.

DEAR SIRS,—I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The Cholera appeared here soon after we received it. We resorted at once to the PAIN KILLER, using as directed for Cholera. A fast *we* kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, seemed very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of the PAIN KILLER. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be very indifferently received.

Believe me, dear sirs, gratefully and faithfully Yours,

J. M. JOHNSON.
Missionary at Swatow, China.

All whose health is not perfect, owe it to themselves to take a few doses of Brandreth's Pills, and stop the seeds of decay are constantly eradicated by their use, and the principle of life confirmed, thus giving a vigor of body and mind to a period when we have been used to see the faltering step and the enfeebled intellect.

General Paez, the distinguished liberator of Venezuela, says he has used them as his only medicine for thirty years, with the most satisfactory results.

For Costiveness, Dyspepsia, and as a Family medicine they are unrivalled.

Daniel I. Tenney, Esq., Astor House, New York, cured by Brandreth's Pill of Dyspepsia and Costiveness, when all other means had failed.

A gentleman, whose father died of consumption at 36 years, was also attacked, when about 21, by the same complaint. He had cough, night sweats, and general debility. Doctors recommended cod liver oil, but he wasted away. At last he determined to use Brandreth's Pills. In two months they made him a sound man. jy22

PAIN KILLER.

WE beg leave to call the attention of the public to this long celebrated and unrivalled

FAMILY MEDICINE.

The PAIN KILLER is a purely vegetable compound, and while it is a most valuable remedy for Pain, it is a perfectly safe medicine even in the most unskilful hands.

For Summer Complaint,

Or any other form of bowel disease in children or adults, it is an almost certain cure, and has without doubt been more successful in curing the various kinds of

CHOLERA,

Than any other known remedy, or even the most skillful physician. In India, Africa, and China, where this dreadful disease is ever more or less prevalent, the PAIN KILLER is considered by the natives, as well as European residents in those climates, jel9

A SURE REMEDY.

SCHENCK'S PULMONIC SYRUP,

Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well.—This is the only way to cure consumption.

To these three medicines Dr. J. H. SCHENCK, of Philadelphia, owes his unrivalled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, or when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills are the best ever used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, remove all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented, except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the liver so quick and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to digest the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring on the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop the night sweats, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will cure themselves of course. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, or ulceration. The lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not to impart tone and strength to the system, not given by Bitters merely stimulant in their effects; which, although they may possess tonic vegetable properties, cannot give the strength to the blood which the *Iron Bitters* will give.

A SENSATION.—Christian Shore, if it knows itself, never allows the South End to get ahead of it in bonfires. The Mayor has a 25 acre lot near Freeman's Point which had produced nothing but juniper bushes and weeds. As he wanted to plant it, hereafter, he set the brush on fire, Monday afternoon, and it burned gloriously. The bells rang, the boys did shout and the Fire Department all turned out. The smoke arose in dense clouds and sailed easterly before a strong west breeze. People down town thought it was a destructive fire—people at the Shore and the Mayor enjoyed beating fire as well as the boys did. It didn't spread beyond the limits intended, and young Portsmouth returned to quietude.

☞ An article copied into our columns on Monday from the Journal, respecting the Universalist Church, contains some erroneous statements, which need correcting. The needful repairs of the frescoing, are to be made by Mr. E. D. Coffin of this city; the fund is for a different purpose; and the statement of Mr. White's supply of the pulpit was quite premature and not correct.

Rev. John G. Adams is to preach in that house on the 22d of August; and other preachers as hereafter to be announced, from week to week.

☞ Messrs. John Stokell & Co., and other city and suburban residents who suffer from the depredations of unruly boys,—are of opinion that the school vacations are given too long at a time, and become literally vexatious alike to the boys, their parents and the public.

Prior to the fire last week, we are told there had been no occasion for an alarm before on this Pleasant Point, the ridge extending from the South School House to Newcastle Bridge, for forty years or more.

☞ Time, with his relentless scythe, cuts down all, both great and small; but he don't seem to cut down our friend and good fellow, Aaron Young, much yet—although Aaron was mowing the grass in the Custom House yard pretty lively Monday morning. The close shaven lawn looks better for Aaron's exertions; and it was pleasant to see Mail-agent Adams peeping at him through the fence, and Craigie's Bridge setting on a rail, overseeing the job.

THE DROUGHT is getting quite severe in this vicinity. The ground, on the surface and below to the depth of several feet, is very dry: grass, for pasturage and second mowing, and potatoes, are suffering much for lack of rain, as is also corn—which last likewise don't flourish under the late cold weather. The hay crop in this region is from a fourth to a third less than last year, but housed in better condition, generally.

☞ The Churches in Portsmouth—the meeting houses, we mean, are not excelled by those of any city of similar size within our knowledge; and take them together, are equalled by but few. Nearly all have been remodelled or refitted within a few years or months; and all are now in comfortable or even elegant condition. Among other improvements, it is reported that St. John's Church is to put in a new organ ere Christmas.

☞ The third annual Cattle Show, Horse Fair, Agricultural and Mechanic Exhibition, and Sale Day, of the Piscataqua Agricultural Society, will be held at their Fair Grounds in Portsmouth, Sept. 21st, 22d, 23d. The large and liberal list of Premiums will be announced in a few days; and there will be some novel and attractive features at the Fair.

☞ The ladies of St. John's Episcopal Church announce a "Sale" at Congress Hall this evening. While it is pretty sure that under such auspices there will be opportunity for a pleasant social hour, it is also safe to say that the attending public will not get badly sold themselves.

☞ There was a hop and levee at the Ocean House, Rye Beach, Monday night—and a nice time, of course. Thanks for the invite of Messrs. Job Jenness & Son.

Abial D. Knapp, engineer on the G. F. R. R., while fishing in a brook near Union, caught a trout which weighed a pound and nine ounces.

BASE BALL AT THE SOUTH.—The Savannah Club, of Georgia, of which Mr. Geo. G. Kimball, a Portsmouth boy, is captain, lately visited Charlestown, South Carolina, and won a game with the Carolinas of that city, by a score of 35 to 17. After the match was over they were assaulted by a mob of negroes and only escaped injury by the aid of a company of regulars. There was no cause for the assault, except that the rioters chose to take exception because the band of the Savannah chose to play "Dixie" among their musical selections. Several members of the band were severely injured and their instruments badly battered, and a collection on the steamer on which they took passage for home resulted in raising a handsome sum towards paying damages.

☞ Mr. C. H. Mendum having bought the store on Market Square lately occupied by Mr. Bailey, is fitting it for occupancy by Mr. S. B. Plummer as a shoe store. We do not learn whether the dry goods business is to be resumed at the famous old stand now Mr. Plummer's.

☞ Those nice Peaches, such as we are eating now, are sold at Gilbert's for 20 cts. a quart.

LE CRICLE.—This new field game has just been brought out by a Portsmouth gentleman who is the author of a number of inventions, to which he has devoted much time. It is to take the place of Croquet, which the simplicity of its rules and the variety of its movements suggest will speedily be done. The implements are somewhat similar to that game, the wickets consisting of an upright post, on which is a crossbar having two balls suspended by strings on either side. It will be seen at Mr. Shores'.

AN AGED TRAVELLER.—Mr. Nathaniel Robbins, a soldier of the Revolution, aged 91, left Bangor on Monday, in company with his grandaughter, Mrs. Pillsbury, (daughter-in-law of Mrs. E. D. Pillsbury of this city,) for Muskegan, Michigan, 1400 miles, to spend the remainder of his days.

MARRIAGES.

In this city, July 22, by Rev. Geo. M. Adams, Mr. JOHN P. TIBBETS and Miss ADRIANA S. CHASE, all of this city.

In Salmon Falls, July 31, Mr. JOSEPH AUSTIN, of Rollinsford, and Mrs. ANNA PERKINS, of York.

In Rochester, July 31, Mr. DAVID J. FOLSOM, of Rochester, and Miss MARY E. CHAMBERLAIN, of Lebanon, Me.

DEATHS.

In Kittery Foreside, Aug. 6th, Mr. JOHN C. PRYOR, aged 39 years, son of Mr. Cushman Pryor, formerly of Kittery.

In Berwick, Aug. 2, LAURA A. WENTWORTH, wife of Henry Wentworth, aged 26 yrs. and 4 mos.

—FRED. D. MOLAN, son of A. B. and Sarah M. Molan, aged 2 yrs. 1 mo.

In Wells, Aug. 1, JOHN HYDE, aged 43 years, 4 months.

In Greenland, N. H. Aug. 2, George Weeks, Esq., aged 50 years.

The sudden departure of the above highly respected man of the neighboring town of Greenland, took place on Monday morning, Aug. 2. A fall, some three weeks since, resulted in a broken leg, which, although cared for by Portsmouth's skillful physicians, and nursed with unwearied attention, was the ultimate cause of his death. Mr. Weeks, for two years, represented the town at the state legislature, and has long proved himself to be a patriotic and loyal citizen of the Union. A great and sad loss has fallen upon the town. His residence, at the Bayside was one whose hospitality resembled that of the old English families, and the quiet simplicity of its surroundings harmonized with the character of its worthy owner. He was a true husband and brother, and, we may add that his was a marriage which for unity of affection and happiness has been rarely equalled. He was liberal to the poor, and many who have experienced the kindly charity of a dear friend will feel the want of his unobtrusive kindness.

There is a void in the parish where he has so diligently labored; there is a pleasant face missing at the social gathering; there is a ready sympathizer absent from the hours of mourning, and there is a warm, loving heart svcefroat rest. E.

A PACIFIC RAILWAY

GOLD LOAN $6,500,000.

We beg leave to announce that we have accepted the agency of the

KANSAS PACIFIC RAILWAY COMPANY,

For the sale of its

NEW SEVEN PER CENT.

Thirty Year Gold Loan, Free from Tax.

This Loan amounts to $6,500,000.

First Mortgage Land-Grant and Sinking Fund Bonds,

secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles of which 12 miles are completed, and the rest in course of construction. It is also a Mortgage upon Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,

And in successful operation for 437 miles

west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides the interest on the Bonds UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the

GOVERNMENT LAND GRANT OF THREE MILLION ACRES,

extending in alternate sections on either side of the track, from the 394th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as

A SINKING FUND FOR THE REDEMPTION OF THE BONDS.

The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and pinery. The company also holds as an asset another tract of

Three Millions of Acres in the State of Kansas,

and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the

Value of the Company's property, covered by this mortgage at $21,000,000 net, while the Loan is merely $6,500,000.

The Bonds have

THIRTY YEARS TO RUN,

from May 1, 1869, and will pay

SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.

The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be

PAYABLE IN FRANKFORT, LONDON OR N. YORK

at option of the holder, with notice, at the following rates:

On $1,000 Bond in N. Y. $35 (gold) each half year.
" " London....£7 8s. 10. "
" " Frankfort....30 krtzs. "

The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a

FIRST CLASS INVESTMENT,

in every respect perfectly sure, and in some essential even

Better than Government Securities.

The Bonds will be sold for the present at

96, *and accrued Interest, both in Currency,*

the Agents reserving the right to advance the rate.

The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.

Gold and Government Securities taken in payment at their market value, without commission.

Pamphlets, with maps giving full information, sent on application.

A TOBACCO BANQUET.—One night last week, at Cincinnati, the Tobacco Fair concluded with a banquet, at which speeches were made condemnatory of the unfavorable taxation of tobacco. A banquet was also given to the exhibitors of textile fabrics. The room was ornamented with escutcheons representing all the Southern States and only Iowa of the Northern States. British flags were at the head of the table, and United States flags at the foot,—It is to be presumed there was more smoke than patriotism in the entertainment.

Vice-President Colfax was presented with a pitcher made of Colorado gold and silver, in Denver.

The Land Office receipts in Denver for the month of July were $529.798.

The anti-coal-monopoly movement inaugurated at Buffalo is being pressed vigorously. At a meeting held there, August 5th, Resolutions were passed recommending the abolition of the tariff on coal, and instructing the representative of the district to use his utmost endeavors to procure such abolishment in Congress, and denouncing coal monopolies. A committee was appointed to draft a memorial to Congress for the abolition of the duty on foreign coal. The most earnest and determined spirit was manifested to break up coal monopolies.

A SUIT at present going on in a New York Court has developed the fact that street car conductors there are compelled to deposit $100 in order to secure a situation, in which they labor 14 hours a day for the sum of $2; are subject to surveillance as suspected thieves while at work, and, if discharged, are left without characters, and their reported peculations are deducted from the deposits. The New York Times comments on this that "it is difficult to say which is the most contemptible—the directors who employ, or the conductors who labor under such degrading conditions. With the $100 thus deposited, a conductor of energy and spirit could go to the West, buy and stock and work him a farm, and be independent."

—The Liberal Christian reports Rev. W. H. H. Murray, the brilliant pastor of Park-street church, Boston, as saying to his people on a recent occasion, that he had never yet seen a creed which satisfied his head or his heart; and he failed to see why Mr. Emerson might not plunge in with himself to save a drowning man, or why Park Street might not unite with Horticultural Hall in making North Street clean.

—The Christian Recorder (African Methodist) says that the work on the Suez Canal was done by slaves called Fellahs—"a class of men belonging to that race of whom it was said in the dark days just passed that you could not make slaves of them." It then quotes with pardonable relish from an American journal, which describes them as a sort of slaves of that country, but of the Caucasian race—hardy, athletic, and extremely docile.

—The present mayor of Green Bay, Wisconsin, began life as a wood chopper. He left in the very elegant residence which he has now built for himself, a niche for a statuette. His children have placed in it a common saw horse and wood saw, with the inscription: "Papa's first saw mill."

A $200 Abdallah colt, owned by Thomas Pearson, Esq., of Nashua, was killed by lightning, last week, in a pasture in Greenfield.

NAVY REGISTER.—The official Register of the officers of the United States Navy, to July 1, has been issued by the Navy Department. Of the higher grades of officers on the active list there are—1 Admiral, 1 Vice Admiral, 10 Rear Admirals, 25 Commodores, 50 Captains, 90 Commanders, 189 Lieutenant Commanders and 69 Lieutenants. Of this number, New Hampshire is credited with 1 Captain, 3 Commanders, 3 Lieut. Commanders, and 1 Lieutenant. On the retired list there are 18 Rear Admirals, 52 Commodores, 27 Captains, 16 Commanders, 5 Lieut. Commanders, and 3 Lieutenants, of which number 3 Captains belong to New Hampshire. There are 168 Midshipmen at the Naval Academy and a class of 74 has just graduated, of whom 7 belong to this State. The names of 59 vessels have been changed by the recent order of the Secretary of the Navy, and 10 vessels have been sold since the 1st of January last.

The N. H. Legislature passed an act last session which provides that for the small sum of one dollar any person may deposit his will for safe keeping with the Register of probate in the county where he resides, where it will be safe, and can be examined or taken only by the testator or some person designated by him.

A beautiful mirage occurred at the Isles of Shoals, Sunday afternoon, which was witnessed by hundreds of delighted people. The buildings were duplicated, a *fac-simile* of each appearing directly above it, the upper one being inverted. It continued upward of an hour.

A MASSACHUSETTS STATE TEMPERANCE CONVENTION, to consider the political duties of the friends of Prohibition, is to be held at Tremont Temple Boston, Aug. 17.

It is reported that some of the Lynn shoe "bosses" are considering a proposition to run their factories by Chinese labor.

HAMPTON BEACH.—At a town meeting at Hampton last Saturday evening the subject of the occupancy of the sea-side property was acted upon.

The report of the committee chosen at the previous meeting was accepted, and is substantially as follows:

Since it is indisputable that the town has lawful possession of the lands lying along the sea-shore, known as Beach Hill, it is advisable that they be protected against the depredations of wrong doers.

The occupation of these lands, as at present, by booths and shanties, is detrimental to the interests of the town and to the morals of the people.

For the present season it was recommended that the land on which buildings now stand, except such as are nuisances—be let to the owners or occupants at fair rents, with the understanding that before the first of May, 1870, any plans or conditions adopted by the town shall be conformed to by the lessees, under penalty of ejectment. Any condition or regulation broken shall subject the property of the offender to forfeiture.

Also that all money received from rents be expended in improving the highway along the beach, or in building a sea-wall for the protection of the beach, or in any necessary improvements.

A resolution was then offered providing for a committee of three, to be vested with full power over the seashore property of the town, and whose duty it shall be to provide a plan of the same for its protection, development and improvement, and to make such agreements with interested parties as they may deem to be for the best interests of the town, all of these, however, to be submitted to the action of the town before they shall have any binding force.

The resolution was passed without a dissenting voice.

"RAMBLES ABOUT PORTSMOUTH."

The Second Series of "Rambles about Portsmouth" has been in press several months, is making good progress, and we hope to give it to the public about the first of October. It will contain about 375 pages, of quite as much interest as the First Series, from which it is entirely disconnected. The subscription list is still open at the Journal Office.

Having had a great call for the *First* Series, which is entirely out of print, we have concluded to open a subscription list for that also on the same terms as we offer the Second Series. Those who wish copies of either or both volumes will please hand in their names.

The subscription price will be $2 25—to non-subscribers $2 75. Five copies for $10 00. The printing will be commenced as soon as 500 copies are subscribed for.

Subscriptions received at the Journal office; by CHARLES G. BARWISE, 16 Tremont St. *Boston*; by Messrs. COLE & LAMBERT, at the office of the American Steam Fire Proof Safe Co., 200 Broadway, *New York*; by Charles W. Coxe, Esq., Insurance Agent and Broker, Southeast corner of Fifth and Walnut Streets, (up stairs,) *Philadelphia*.

EXCITEMENT AT THE NAVY YARD. — The Fire-alarm bell was struck Monday afternoon, causing much excitement as well as sport amongst the nearly fifteen hundred men employed on the yard. The various Departments were "prompt to duty's call," but sought in vain, Micawber-like, for "something to turn up," it finally appearing that the alarm was given officially, to discipline the men in case of sudden emergency, an object greatly to be desired. Secretary of the Navy Robeson and Admiral Porter, with other officials are expected in a few days on a tour of inspection—their object, it is rumored, to make this a first-class yard.

ANTHRACITE COAL

FOR THE NAVY.

NAVY DEPARTMENT,
BUREAU OF EQUIPMENT AND RECRUITING,

SEALED PROPOSALS for furnishing Anthracite Coal for the Navy, to be delivered during the fiscal year ending 30th June, 1870, Gwil be received at this Bureau until 10 A. M. 13th August, 1869.

These proposals must be endorsed, "Proposals for Anthracite Coal for Steamers," that they may be distinguished from other business letters.

The offer must be for the delivery of 10,000 tons, of 2,240 pounds.

The Coal must be of the best Buck Mountain or Black Heath, or of a kind equal to them in all respects, for the purpose intended, which equality will be determined by a Board appointed by the Secretary of the Navy after the reception of the bids.

The name of the coal proposed to be furnished must be stated in the offer.

The price must be for the Coal delivered at the Philadelphia Navy Yard, or on board of vessels at such points within six miles thereof as may be designated by the Bureau, at the Contractor's risk and expense, and without extra charge of any kind. The coal must in all respects be satisfactory to the inspector or inspectors to be appointed by the Navy Yards, who will have the right of peremptory rejection.

SEPARATE SEALED PROPOSALS will also be received until the same date for furnishing the following quantities and qualities of Coal at the Navy Yards during the fiscal year ending June 30, 1870, viz:

PORTSMOUTH, N. H.
150 tons Lehigh, Steamer.
100 " " Lump, (Hand picked.)
100 " " Egg.
200 " Cumberland, run of mines.
10 " Cannel.

BOSTON.
1,100 tons Lehigh, Steamer.
500 " " Lump.
75 " " Egg.
400 " Cumberland, run of mines.
10 " Cannel.

NEW YORK.
150 tons Lehigh, Lump, hand picked.
75 " " Egg.
500 " Semi-Bituminous, Lump.
25 " Cumberland, run of mines.
10 " Cannel.

PHILADELPHIA.
250 tons Lehigh, Lump.
20 " " Egg.
25 " " Stove.
260 " Semi-Bituminous, Lump.

WASHINGTON.
200 tons Lehigh, Egg.
2,050 " Cumberland, run of mines.

NORFOLK.
1,500 tons Cumberland run of mines.

Proposals must be for all the coal required at any one navy-yard, which will constitute a separate class, and the contract will be awarded to the highest bidder for each class.

The Coal to be of the best quality of the kinds named; to be free from dust and foreign substances, and subject to inspection.

The price must be per ton of 2,240 pounds for the coal delivered on the navy-yard wharf at the respective places named, without additional expense or extra charge to the Government; the quantity delivered to be paid for at weight of navy-yard scales.

Blank forms of offer, guarantee, &c., will be furnished on application to the Bureau. jy26td

Baggage checked through and transferred in New York free of charge.

New York trains leave the Old Colony and Newport Railway Depot, corner of South and Kneeland Streets, daily, (Sundays excepted,) as follows: at 4.30 P. M., arriving in Newport 40 minutes in advance of the regular Steamboat Train, which leaves Boston at 5.30 P. M., connecting at Newport with the new and magnificent steamers PROVIDENCE, Capt. B. Willis Sisson, and BRISTOL, Capt. Benj. Brayton. These steamers are the fastest and most reliable boats on the Sound, built expressly for passenger safety and comfort. This Line connects with all the Southern Boats and Railroad Lines from New York going West and South, and conveniently to the California Steamers.

"To Shippers of Freight," this Line, with its new and extensive depot accommodations in Boston, and large pier in New York, (exclusively for the business of the Line,) is supplied with facilities for freight and passenger business which cannot be surpassed. Freight always taken at low rates, and forwarded with despatch.

New York Express Freight Train leaves Boston at 1.30 P. M.; goods arrive in New York next morning about 8 A. M. Freight leaving New York reaches Boston on the following day, at 9.45 A. M.

For tickets, berths and staterooms, apply at the Company's office at No. 3 Old State House, corner of Washington and State Streets, and at old Colony and Newport Railroad Depot, corner of South and Kneeland Streets, Boston.

☞ Sunday Night Line. ☜ Gate leaves Boston Sunday evening, at 6.30 P. M., connecting as above.

The Office, 3 Old State House, Boston, will be open every Sunday afternoon from 2 to 6 o'clock, and at the Depot from 7 to 10 A. M., and from 5 to 6.30 P. M., for sale of tickets and staterooms.

Steamers leave New York daily, (Sundays included,) from Pier 28 North River, foot of Murray Street, at 5 P. M.

HEAVY SEIZURE OF ALE AND WHISKEY. On Saturday last Deputy State Constable Boynton visited the brewery of Joseph Shaw, on Union street, Salem, Mass., and seized 128 barrels of ale and six barrels of whiskey. The teamsters of Salem refused to take it away, as did also four teams who came over from Marblehead; but finally teams were obtained from Lynn, and the contraband articles were removed. The Traveller states that Mr. Shaw attempted to bribe the Constable to exclude all other ales from the market, and on Tuesday last he handed Capt. Boynton an envelope with one hundred dollars enclosed, just as he was leaving the railroad station in the cars. Deputy Boynton immediately sent the money and a full statement of the affair to Major Jones, who at once issued orders for prompt action in the matter, which resulted as stated above. Capt. Boynton requested that the money might be appropriated to the fund in aid of the widows and children of our fallen dead in charge of Surgeon General Dale.

MEN WITH TAILS.—Mr. A. Cameron, a Calcutta *savant*, believes that there is in the Northern part of Borneo a race of men with tails. The ethnologists of the development school will derive much comfort from this theory if it can be established. But if the learned gentleman will come to this country, failing to raise funds for his contemplated Borneo expedition, he may find a race with ears. He will find this singular people in the State of Kentucky, where they are sufficiently numerous to control the politics of the State and elect their candidates for office. They go on year after year, electing genuine Copperheads, just as if there had been no war, and slavery still existed.—*Portland Press.*

That's it, exactly. It would hardly seem that a tail would be any addition to a *man*—although the women just now seem extra fond of them, in the shape of dangling curls ridiculous panniers and cumbersome trains; but it would be a good thing for the copperheads, both North and South, to get new heads, or some sense instilled into their old ones.

CONVENT ATTACKED BY A MOB.—At Cracow in Austria, on the night of the 23d of July, the Carmelite Convent was attacked by a mob, the doors and windows broken open, and a strong body of military had to be called out to disperse the rioters. The cause of the demonstration was that a nun had been kept in close confinement in the convent for twenty years, and was only liberated a few days previously by interference of a judicial commission. The attempt to enter the convent was renewed the next evening, but frustrated by the military.

—It is said the Grecian Bend at Saratoga this season is carried to a most ridiculous extent, the wearers resembling that patient animal, the dromedary, more than anything in human shape. READ THIS.
ASIATIC CHOLERA IN CHINA.
Almost Every Case Cured with Pain Killer.
Dear Sirs: I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send us last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. We resorted at once to the Pain Killer using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was given, recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of Pain Killer. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be indifferently received. Believe me, dear sirs, gratefully and faithfully yours,
J. M. JOHNSON, Missionary in China.
From Rev. R. Telford, Missionary in China, now visiting his home in Washington, Pa.
Dear Sirs: During a residence of some ten years as a missionary in Siam and China, I found your Pain Killer a most valuable remedy for that fearful scourge, the cholera. In administering the medicine I found it most effectual to give a teaspoonful of Pain Killer in a gill of hot water sweetened with sugar; then after about 15 minutes begin to give a tablespoonful of the same mixture every half hour until relief was obtained. Apply hot applications to the extremities. Bathe the stomach with the Pain Killer clear, and rub the limbs briskly. Of those who had the cholera, and took the medicine faithfully in the way stated above, eight out of ten recovered.
Truly yours, R. TELFORD.
If attacked with diarrhœa, dysentery, or cramp colic, don't delay the use of the Pain Killer.
Beware of all Imitations.
The Pain Killer is sold by all druggists.

☞ PERRY DAVIS' VEGETABLE PAIN-KILLER.—We clip the following from the Providence General Advertiser: At this season of the year, when cholera, cholera morbus, dysentery, and other kindred complaints are sure to prevail, every body should be liberally supplied with the PAIN-KILLER. Persons leaving home whether it be for a day's excursion or a trip to Europe, should be in a condition to place their hands on it at a moment's warning. Many diseases incident to the summer months, which if prove fatal if not immediately checked, can be promptly cured by one or two doses of the Pain-Killer. On more than one occasion have we been relieved of intense suffering by the timely use of the above named preparation." Sold by all Druggists, Grocers and Medicine Dealers. jy13 4w

DODD'S NERVINE DID IT.
NEW LONDON, CONN., April 26, 1869.
REMEMBERED FRIEND:
I thought it well to wait another week before writing, to see if I continued to improve, as I have been doing for some time, under the treatment of the new medicine, and I am happy to tell you that I am getting better—even faster than when you were here. I commenced the use of DODD'S NERVINE without anybody advising me to it. When I began with it I could only walk from my bed to the chair. My trouble has been extreme pain in the head, and has lasted over three years. All the medicine I have heretofore taken has failed to give any relief. I am now able to go up and down stairs, and daily improving. I consider the NERVINE the best medicine I ever found, and shall continue its use, for I am confident of entire recovery. I have taken only three bottles, and would not be without it on any account. [je13 6w] Very truly, MRS. I. S. NUTE.

MASTA'S PULMONIC BALSAM
IS A SPEEDY and certain remedy for Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Catarrh, Influenza, Hooping Cough, Asthma and the various Affections of the Lungs.
☞ The attention of those afflicted with COLDS, COUGHS, and with any disease of the lungs, is directed to this valuable remedy. On account of sudden changes in the weather, colds and coughs are easily taken, and if neglected may lead to disease of the lungs. What is needed under such circumstances is a reliable remedy—speedy in affording relief, and effectual in arresting further progress of the disease.
☞ To arrest the existing irritation of the air-passages and the lungs, speedily and effectually, the seat and cause of cough is an important step gained toward relief and cure in the first stages of the disease. MASTA'S PULMONIC BALSAM possesses this important power, and while it promptly and effectually arrests all existing irritation, and rapidly relieves cough, it renders the lungs further relief by promoting a free discharge of the accumulated mucus in the air-passages, imparting a healthy action and vigor to the chest at the same time.
☞ Those suffering with cough and the first stages of lung disease, will therefore find in this valuable preparation a speedy and decided relief. Even those whose condition is beyond recovery, will derive from its use great benefit as well as comfort. For the class of disease it is designed to relieve, the general commendation it has received has proved its efficacy beyond question. For the past ten years have been speedily and effectually cured by its timely use while suffering from severe colds, protracted coughs, and from other forms of lung disease. It is prepared from vegetable balsams and the medicinal properties of roots and herbs, with no minerals nor poisonous acids; simple and safe in the material used, it can be taken at any time.
Sold in Portsmouth by J. H. THACHER, and by Druggists and Dealers in medicines throughout the New England States.

The News.

Steamship Germania, from New York for Hamburg, has been lost off Cape Race. The passengers and crew were saved. The mails, cargo and $75,000 in specie are lost.

Admiral Hoff telegraphs from Cuba that the execution of two American citizens by the Spanish authorities under color of military orders was under the circumstances little less than cold blooded murder, the Governor being unable to restrain the volunteer troops.

On Friday night two boys named Michael Mahoney and John Caffrey, both aged 12 years, were roasted to death while sleeping in an ash pit on the Central road, near Elizabethport, N. J. They belonged to Elizabethport and being away from home, went into the pit to sleep, and during the night the fires of a locomotive were hauled into the pit, literally roasting them to death.

The joint committee of the Atlantic and Anglo-American Telegraph Companies and the directors of the New York and Newfoundland Company have decided on a reduction of transoceanic telegraph rates to $7.50 per message of ten words, and 75 cents extra for each extra word. The press rates are one-half the regular tariff.

The internal revenue receipts average $600,000 daily, and reached nearly a million on Monday.

Mr. Yalta, a relative of one of the United States consuls in Cuba, who was recently arrested and sentenced to four months' imprisonment, has been released at the intercession of Consul-General Plumb.

The Carlist bands in Spain are meeting with defeat. Balanzetequa, a leader in the interest of Don Carlos, has been condemned and shot. Nine Carlist prisoners taken at Mortialegro last week were shot on the spot by order of the Spanish commander.

Some young ladies in Manchester, looking at the eclipse on Saturday, asked a colored servant girl to look through a smoked glass. "I sees nofin" said Dinah, "but the sun with a piece cut out of it."

THE ENGLISH FORGERS SENT HOME.—On Saturday, Police Superintendent Kennedy of New York learned that certain legal gentlemen were preparing an application for a writ of habeas corpus to secure the discharge of Clement Harwood and John Hatcher, who were arrested a few days ago on landing from a European steamer, on the charge of having committed forgeries amounting to $60,000 in England, and in whose possession this sum was found. The object, it was suspected, was to handle he $60,000 Mr. Kennedy at once held a conference with the prisoners, who were ignorant of the movement in their behalf, and obtained their consent in writing to be sent back to England without waiting for the arrival of extradition papers, and they were hurried on board the steamer Washington, which sailed Saturday noon, before the legal gentlemen could bring their writ to bear, and the alleged forgers will soon have to face in court the parties they defrauded, instead of being set at liberty to enjoy the fruits of their roguery.

ANNEXATION IN NOVA SCOTIA.—There has been an interesting discussion among the party in the province favorable to annexation to the United as to the best policy to be adopted to obtain the desired end. The party consists of two divisions, one of which advocates immediate annexation, and the other approves of an anterior movement for independence as certain to lead to the desired end. No decisive polic has yet been adopted. The out and out original annexationists complain bitterly of the policy of independence as certain to lead to no desirable result. They are determined to stick to the policy of complete severance from Great Britain.

MAINE PRINTERS.—The Editors and Publisher's Association of Maine, held their sixth annual Convention at Portland last week. The Address was delivered by Hon. Nelson Dingley, Jr., of the Lewiston Journal, and the Poem by W. E. S. Whitman of Gardner, the "Toby Candor" of the Boston Journal.

There were a large number of guests, prominent officials and distinguished citizens of Maine, and members of the Editorial fraternity from New Hampshire, Massachusetts, New York, and other States. A promenade concert and dance at the splendid new City Hall, and a clam-bake on one of the beautiful islands in Portland harbor, were highly enjoyed by the party, who all report a grand time.—as of course they con ldn't fail of in hospitable Portland.

At the dinner, one of the toasts was *Our Sister Associations of New Hampshire and Vermont.*—We are happy today in having present representatives of the former, and hope soon to open fraternal relations with the latter.

Responded to by President John M. Hil, of the New Hampshire Association.

After the clam-bake, the meeting

Resolved, that we tend our thanks to the City Government of Portland for use of rooms for our needs, the railways of the State for generous courtesies, the hotels and steamboat proprietors; likewise for the same contributions to our comfort, and especially do we appreciate the unusual generosity of our old friend Capt. Mitchell (of the harbor steamer) for the *priceless* offerings to us.

Resolved, That the sixth anniversary of our organization has given us evidence of our growth in all the ways of our profession and business, and we freely renew our allegiance to the cause we have raised from an occupation to a profession.

Presented by the Massachusetts delegation:

Resolved, That we hereby tender our thanks to the members of the craft of the Pine Tree State for the pleasures of this occasion and for the many courtesies which have been extended, and we hope soon to form a similar Association and thereby be enabled to reciprocate.

Presented by the New Hampshire delegation:

Resolved, That like the Judean shepherds of old, we have been drawn by the Star of the East, and are all here with our hearts in our hands for your acceptance.

Resolved, That so long as pine trees grow and granite endures, we will cherish the memory of the courtesies we have here received from our fellow craftsmen of Maine.

Resolved, That as members of the New Hampshire Editors' and Publishers' Association, we tender our hearty thanks to our Maine brethren for their kind invitation to attend their annual meeting, and for their very generous hospitalities and attentions, with the assurance that it will ever be a pleasure to us to welcome them individually to our homes or collectively to our State, cordially and heartily as they have us on this occasion — more we could not do.

The Committee on choosing an Essayist and Poet for the next anniversary, in view of a vote passed by the Convention to hold a joint meeting of the Maine and New Hampshire Associations at Rye Beach, or some other point, a year hence, recommended the acceptance of the proposition of the latter Association, that Hon. James G. Blaine of Maine be invited to deliver the Address, and B. P. Shillaber, Esq., of New Hampshire the Poem; and the Association voted to extend said invitations to the distinguished gentlemen named, and that the President and Executive Committee of the Maine Association make all necessary arrangements on their part.

A TROJAN DUEL.—The Troy Times gives an account of a funny duel which took place near that city a few days since. Two high-spirited citizens who had quarreled over their ale, met on the field of honor to settle their dispute. The weapons were pistols. At the word both fired almost simultaneously. Happily the deadly part of each pistol charge had been drawn by the owner, hence there was no bloody death to report. But at the instant of firing, a man who acted as second for one of the parties threw a small pebble against the breast of his principal's opponent, who supposing he was fatally wounded, fainted and fell. The other, seeing the effect of his shot, dropped his weapon and fled to the woods, and has not since been seen. The man who fell, recovered soon afterwards, and upon inquiry was told that his antagonist had been killed by his shot, and his mortal remains were then reposing beneath the clods. This in turn alarmed the last "survivor," and he also fled to parts unknown.

BUSINESS NOTICES.

WITH DYSPEPTICS everything is wrong. Food does not digest; sleep does not refresh; wine does not cheer; smiles do not gladden; music does not charm, nor can any other joy enter the breast of the miserable dyspeptic. You must get rid of it or it will become seated and confirmed, and life will be a burden and existence a curse. PLANTATION BITTERS will do away with all this. New life, strength and energy will take possession of you. The damask will again bloom upon your cheek, and the lustre in your eye will again be as bright as in your healthiest, happiest and most joyous days.

A Life-Saving Reformation.

A radical change has been introduced in the practice of medicine. Physicians have ceased to torture and prostrate their patients. Instead of pulling down, they build up; instead of assaulting nature, they assist her. Cupping, leeching, blistering, mercurial salivation, and nauseating, stupifying narcotics, and rasping purgatives, once the favorite resources of the faculty, are now rarely resorted to even by the most dogmatic members of the profession. The old creed was that disease was something which must be expelled by violent artificial means, irrespective of the wear and tear of the vital organization in the process. The new creed recognizes the improvement of the general health as essential to the cure of all local ailments. Hence it is that HOSTETTER'S STOMACH BITTERS, the most potent vegetable tonic that pharmacy has ever brought to the assistance of nature in her struggle with disease, has been cordially approved by practitioners of the modern school. It is pleasant to reflect that reason and philosophy have at last been victorious over the errors of the past, and that thousands, and tens of thousands, of human beings are alive and well to-day, who would indubitably be mouldering in their graves had they been subjected to the pains and penalties which were deemed orthodox and indispensable thirty or forty years ago.

Preventive medication was scarcely thought of then; but now it is considered of paramount importance, and the celebrity of the STANDARD INVIGORANT, ALTERATIVE AND RESTORATIVE of the age, to this end, is rapidly increasing. The BITTERS have fairly earned by their long career of success), is mainly due to its efficiency as a PROTECTIVE PREPARATION.

A course of the BITTERS is urgently recommended at this season of the year, as a safe and certain antidote to the malaria which produces intermittent and remittent fevers, diarrhœa, dysentery and other maladies.

Holloway's Pills.—A WORD TO LADIES IN DELICATE HEALTH.—The combination of aperient, tonic and alterative properties in HOLLOWAY'S PILLS, renders them particularly desirable medicine for ladies of delicate habit. Their operation is mild and gentle, and in all functional difficulties or irregularities these pills may safely be used. Perseverance in their use will be found in the highest degree beneficial. When nature deviates in any way from her healthful course they act as a swift corrective. Sold by all druggists.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obtained. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitly more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge**, will ever again take a purgative powder, or draught or pill.

ALLEN'S LUNG BALSAM.

The best remedy for the cure of CONSUMPTION, and ALL DISEASES OF THE LUNGS. It causes the phlegm and matter to rise without irritating those delicate organs (the Lungs,) and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless for the most delicate child. It is everywhere in good demand and gives good satisfaction.

The result of its use is proof of its great value.—Its extraordinary healing properties are experienced by all who use it. Their testimony will be found in a pamphlet, which can be had of the agent who supplies the medicine is for sale.

ASIATIC CHOLERA.

The Strongest proof of Intrinsic Merit.

DEAR SIRS,—I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The Cholera appeared here soon after we received it. We resorted at once to the PAIN KILLER, with decided effect in Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, seen very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of the PAIN KILLER. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be very indifferently received.

Believe me, dear sirs, gratefully and faithfully Yours, J. M. JOHNSON.

They remove all bad accumulations from the bowels, and purify and invigorate the system. As the whole health is not perfect, unless it be themselves to take a few doses of Brandreth's Pills, because the seeds of decay are constantly eradicated by their use, and the principle of life confirmed, thus giving a vigor of body and mind to a period when we have been used to see the faltering step and the enfeebled intellect.

General Pass, the distinguished liberator of Venezuela, says he has used them as his only medicine for thirty years, with the most satisfactory results.

For Costiveness, Dyspepsia, and as a Family medicine they are unrivalled.

For Summer Complaint,

Or any other form of bowel disease in children or adults, it is an almost certain cure, and has without doubt been more successful in curing the various kinds of

A SURE REMEDY.

SCHENCK'S PULMONIC SYRUP,

Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well.—This is the only way to cure consumption.

To these three medicines Dr. J. H. SCHENCK, of Philadelphia, owes his world-wide fame in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has no pain, and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver soon relieved; the stools will show what the Pills are do; nothing has ever been invented except calomel to deadly purge the system (very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the chief in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure consumption is, they try to do too much—they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. These move the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Cancer, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs are diseased, and the question is, how shall we, as nature, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decay—in such cases what is to be done? Dr. Schenck is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success.

Full directions accompany each, making it not absolutely necessary to personally see Doctor SCHENCK, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond St., New York, every other Tuesday, and at No. 52 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half-dozen.—Mandrake Pills 25 cents a box. G. G. GOODWIN & CO., 38 Hanover Street, Boston, Wholesale agents. For sale by all druggists. d1ly1m4

DENTAL NOTICE.

69 Congress Street, Portsmouth.

DR. GOODALL takes pleasure in announcing that he is meeting with great Success in HIS INVENTION of a SPRING PLATE for PARTIAL SETS OF TEETH. The Plate does NOT COVER THE ROOF OF THE MOUTH, is very small and light, has no clasps, in short, it does not *impede speech* or taste, and is altogether the most satisfactory method of insidering Partial Dentures. Scores of references in this city, and patients from Boston, New York and Philadelphia have given their unqualified approval of this *useful invention.*

He has purchased a patent right for LOADING lower sets of teeth, thereby making them much more serviceable and comfortable, and they will remain in place, even when the ridge of the lower jaw is very flat.

He is taking the Pack Ridge in upper sets with the most satisfactory results. He has also a new way of *repairing rubber work, just discovered*, which will require only one hour in the majority of cases, and the work will be warranted strong and neat.

He is also administering ETHER, and preparing the mouth for artificial teeth, nearly every day, and often three times a day, extracting from 1 to 30 teeth at one visit, with entire FREEDOM FROM PAIN; and with happy results. He has made this department of dentistry more particularly a speciality, and is confident his large and continued success will warrant him in promising, (With his present facilities and improvements in mounting artificial dentures,) all work at the shortest notice, and in the **Neat and Most Approved Style of the Art.**

All operations in Dentistry performed at the usual rates, and prices to suit the times. As soon as the operation is completed, all work being warranted.

Refers with pleasure to the leading Physicians of Portsmouth and citizens generally.

SALEM.—Clarissa Hovey & als. to Deacons of 1st Baptist Church. Land for $1.

Jesse W. Bradford to Wm. L. Bradford 2nd, 20 acres land for $600.

SMASH UP.—As the double team of Wm. P. Jones, Esq., was being driven leisurely up Islington near the head of Cass street, Monday afternoon, the pole of the carriage,—which contained two ladies and three children with the driver—suddenly became detached, and dropped on the horse's heels. The animals became unmanageable and started off at full speed, and in their flight brought up against the awning posts at the Messrs. Alton's store, making a complete wreck of the body of the carriage, and strange to say, injuring no one. The horses entirely cleared from the vehicle with the crash, but were caught before they had gone a half dozen yards. Mrs. Jones was temporarily stunned, and a daughter somewhat bruised, but no such severe or fatal injury as might be expected.

THE COURT OF INQUIRY at the Navy Yard, on the Pawnee cruelty case, is about concluded. Surgeon Henry C. Eckstein, who is on leave prior to discharge, and was wanted as a witness, failed to appear. It was his duty as Surgeon of the Pawnee to insist on having the men who were triced up taken down if the punishment was too severe.

☞ We are desired to call the attention of the public to the new lithographs of the pen-and-ink drafts of the Declaration of Independence and the Proclamation of Emancipation, including portraits of Washington and Lincoln. They can be had of Mr. Chas. C. Cushman, Agent for this city.

☞ In our reporter's notes of Mr. Stevens' remark at the Am. Inst. of Instruction, it should have read that it was the regret (not fault) of the ladies, that they could not entertain the visiting multitude better.

A WELCOME CALLER. — Rev. I. F. Waterhouse of Clinton, Mass., formerly of this city, is on a short visit to his friends in this city, and made us a hasty call on Tuesday.

☞ The Rockingham Association of Universalists will hold their annual meeting next week, at Dover, Wednesday and Thursday, Aug. 18 and 19.

CRICKET.—The Alpha Club of Salem, Mass., are to play a game with the United Club of this city, at the Plains, on Saturday, August 21.

BASE BALL. — It is possible that a game between the Hampton and Rye Beach nines will be played at the Plains, this afternoon.

☞ There will be a hop at the Sea View Hotel (Lougee's), Rye Beach, on Friday evening.

☞ The New York Times has a chapter on architecture in the metropolis. The expense of erecting an average first class house it estimates at seventy-five thousand dollars, thirty-five thousand being for the lot. Turning to the other side of the picture, it shows that there are 18,347 tenement houses with a population proper of 379,281 and a cellar population of 22,095.

BALL PLAYING.—The Olympics of New York are on a visit to Boston and were beaten by the Tri-Mountains on Saturday by a score of 80 to 14. The Lowells followed them up on Monday by scoring 90 to 15.

A man in a Pennsylvania stone-quarry had several tons of rock pitched "on to" him, and was taken out "considerably exhausted."

A Musical Exhibition—the Sol—La Eclipse.

Not long ago two nuns had a duel near Genoa. They popped at each other with pistols, but neither was hurt. It was their intention to have a funeral—but there was none.

The Iowa boys are doing an extensive gopher business. The more they go for, the less gophers. They managed to abolish 4640 recently.

A Pesth man had a wife who had grown stout and uncomely. For fear that he might be tempted at some time to be an unfaithful liege, he procured a pistol and departed this life a suicide. Such examples are rare.

☞ Frank W. Bickford, who made a forcible escape from the county jail at Alfred in July last, and for whose apprehension a reward had been offered, was on Friday last arrested in a mowing field in the town of Lebanon, by the sheriff of York County, assisted by Mr. Abijah Nason of Alfred, after a desperate struggle. Young Bickford was engaged with others in mowing for his father at the time of his arrest. The sheriff approached him under cover of a piece of woods, but was discovered in season to give Bickford the advantage of a start, which he quickly improved by dropping his scythe and running at the top of his speed. Soon finding his pursuers too swift for him, he halted and proposed to surrender; but on going up to him, he snatched a revolver which the sheriff had with him and before it could be taken from him managed to to discharge it within a few inches of Mr. Nason's head, at the same time making a desperate effort to get away. During the struggle the father of Bickford—now under bonds for his appearance at court to answer to the charge of an assault with a dangerous weapon—attempted to interfere, and persisting after being admonished, was effectually checked by a shot from the revolver of the sheriff, the ball taking effect in one of his legs. The prisoner was then soon secured and returned to his old quarters at the jail to await the action of the court on the charge of burglary.

THE QUESTION OF ANTIQUITY.—A Saco correspondent of the Portland Press writes that "the oldest inhabitants are not agreed as to whether Saco or York is the site of the first white settlement, and traditions are still conflicting, but if the friends of the latter would take an evening stroll through Saco's broad streets, shaded by trees of more than a century's growth, and see the numerous fine old mansions, so evidently the abode of plenty, they would not wish to contest the question further."

A PACIFIC RAILWAY
GOLD LOAN $6,500,000.

We beg leave to announce that we have accepted the agency of the

KANSAS PACIFIC RAILWAY COMPANY,

For the sale of its

NEW SEVEN PER CENT.

Thirty Year Gold Loan,
Free from Tax.

This Loan amounts to $6,500,000.

First Mortgage Land-Grant and Sinking Fund Bonds,

secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles of which 12 miles are completed, and the rest is under construction. It is Also a Mortgage upon Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,

And in successful operation for 437 miles

west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the

GOVERNMENT LAND GRANT OF THREE MILLION ACRES,

extending in alternate sections on either side of the track, from the 394th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be invested by the Trustees in Six per cent Bonds, themselves up to 120 in U. S. Bonds, as A SINKING FUND FOR THE REDEMPTION OF THE BONDS.

The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and pinery. The company also holds as an asset another tract of

Three Millions of Acres in the State of Kansas,

and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the

Value of the Company's property, covered by this mortgage at $23,000,000 net. while the Loan is merely $6,500,000.

The Bonds have

THIRTY YEARS TO RUN,

from May 1, 1869, and will pay

SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.

The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be

PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:

On $1,000 Bond in N. Y. $35 (gold) each half year.
" London....£7 8s. 10. "
" Frankfort..87 fir. 30 krtrs., "

The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a

FIRST CLASS INVESTMENT,

in every respect perfectly sure, and in some essential even

Better than Government Securities.

The Bonds will be sold for the present at

96, *and accrued Interest, both in Currency,*

the Agents reserving the right to advance the rate.

The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.

Gold and Government Securities taken in payment at their market value, without commission.

Pamphlets, with maps giving full information, sent on application.

New Hampshire Items.

The Fair Grounds in Portsmouth contain twenty acres; in Great Falls thirty, in Manchester forty; in Dover, less than any, we think.

John M. Bickford, Esq., of Dover, has resigned the Vice Presidency of the B. & M. railroad, which the Exeter News Letter considers a misfortune to the Road, and hopes he will be elected President.

The race of pigeons has been nearly exterminated in Dover by boys who snare them for Boston parties. They are used in shooting matches.

Capt. J. G. Wallace of the Strafford Guards, Dover, has been presented with a fine gold watch chain by the spinners in his room at the Cocheco Company's works. The Superintendent of the Washington Street Sabbath School has been presented with a photograph album by his pupils.

The Active Base Ball Club of Great Falls, played their first match game of the season on Saturday, with the Junior Club of Rochester, which resulted in a draw game, the score standing 37 to 37. There was some fine playing on both sides.

John Jackman, a notorious old thief, aged 50 years, was caught in Concord, last Monday morning, with an armful of shoes, which he had stolen from a freight car which he broke open. Officer Jones caught him; and he will go to the State Prison.

There was snow on the White Mountains on Saturday morning, and hoar frost on the low lands in several places in New England the same morning.

Another "flume" or waterfall, said to be twice as high as the Franconia flume, has been discovered on Sawyer's river, near the Notch at the White Mountains.

On Wednesday night last the new covered bridge across Beebe's river in Campton Hollow, together with the shingle saw mill and tannery owned by William Leverett, Esq., of Plymouth, were entirely destroyed by an incendiary fire. It is supposed that the same person or persons who set fire to the Blair bridge, two weeks since, caused the burning of the above property, and vigilant efforts are being made to detect the offenders. The bridge was built only two years since and was thoroughly made of the very best lumber. Loss about $800. Mr. Leverett's loss is about $200. No insurance on bridge or buildings.

Mr. Jesse Harriman, of Raymond, now in his 92d year, has mowed every year since he was 16. In his younger days he could build thirteen rods of stone wall in a day.

Week before last, a young man named Harper shot a large otter near Rocky Pond, in Belmont.

Two new flumes are being put in on the south side of the river at Contoocookville, which will furnish power for all the mills on that side of the river. The mills are to be enlarge and improved next spring.

At Hooksett, on the 7th, Jacob, son of Abiel Chandler, of Concord, was severely wounded in the head while shackling cars. He seems to have been "dazed" by the wound, for he lost a finger, a short time after, while engaged in the same work.

Sheppard & Colby, traders at Wilmot, recently had some hundreds of dollars in their safe, but on a certain day took it to their houses. That night their store was entered, the safe blown open and about seven dollars' worth of stamps taken. The owners were just in time, but the burglar one day too late.

Fogg & James of Manchester have had no intelligence of their lost horse, which was let to one Frank Jones the other day. The game was adroitly played.

— Mr. John Hyde, proprietor of the Sea View Cottage, Wells Beach, died very suddenly of heart disease, last week.

LAWS OF NEW HAMPSHIRE.

Passed June Session, 1869.

AN ACT for the advancement of Anatomical and Surgical Science.

Be it enacted by the Senate and House of Representatives in General Court convened:

SECTION 1. The County Commissioners of any county, the Mayor and Aldermen of any city, the Overseer of the Poor of any town, the Warden of the State Prison, and the keeper of any jail in this state, may give permission to any physician or surgeon (preference being given to instructors in medical schools established by law) upon his request in writing, to take the bodies of any such persons dying in their county, city, town, or in the state prison, or a jail, as are required to be buried at the public expense, to be by him used within the state for the advancement of anatomical and medical science.

SEC. 2. Every person before receiving any such body shall give to the officers surrendering it a sufficient bond that such body shall be used only in the state for the promotion of science, and in such manner as in no event to outrage or annoy the public; and that after the use allowed by law the remains of said bodies shall be decently buried.

SEC. 3. No such body shall be surrendered if the deceased during his last sickness requested to be buried, or if within twenty-four hours after his death any person who is a friend or of kindred of the deceased, requests the body to be buried, or if the deceased was a stranger or traveller who died suddenly. In other cases described in section 1 of this act, it shall be the duty of the officer or officers aforesaid to surrender such body upon request as in that section provided, upon receipt of the bond provided for in section 2 of this act.

Approved June 24, 1869.

AN ACT in addition to chapter 101 of the General Statutes in relation to the Removal of Nuisances.

Be it enacted by the Senate and House of Representatives in General Court convened:

SECTION 1. No person shall occupy or lease to or permit any other person to occupy any building within the compact part of any city or town as a dwelling house, unless such building shall be provided with suitable privies and vaults, constructed as required by law, and with suitable drains or sewers for conveying away the sink water from the premises so used and occupied into some public sewer, whenever there shall be one within one hundred feet of said dwelling-house; and whenever there shall be no such public sewer, then the sink water shall be conveyed away underground, or otherwise disposed of so as not to be offensive.

SEC. 2. Any person neglecting or refusing to comply with the provisions of the foregoing section, upon conviction thereof shall be deemed guilty of maintaining a common nuisance, and be punished by a fine not exceeding ten dollars for each day of such neglect or refusal after notice from the board of health or the Selectmen, in accordance with section 3 of chapter 101 of the General Statutes.

Approved July 8, 1869.

AN ACT in regard to a Temporary Loan and Contingent Expenses on Account of the State.

Be it enacted by the Senate and House of Representatives in General Court convened:

SECTION. 1. The Treasurer, by advice and direction of the Governor and Council, is authorized to borrow for the temporary use of the State, a sum not exceeding two hundred thousand dollars, at such times and in such amounts as may be necessary, at such rates of interest as may be determined, not to exceed 7 3-10 per cent per annum.

SEC. 2. The sum of one thousand five hundred dollars appropriated for the clerical expenses of the treasury, and the sum of five hundred dollars is appropriated for the contingent expenses of the state, to be disbursed upon the warrant of His Excellency the Governor.

Approved July 7, 1869.

AN ACT to provide for Counting the Votes for County Officers in the County of Carroll.

Be it enacted by the Senate and House of Representatives in General Court convened:

SECTION 1. That the Clerk of the Supreme Judicial Court for the County of Carroll is hereby authorized to examine and count the votes for county officers, cast in said county at the annual election in March, 1869, and transmit a copy of the same to the County Commissioners of said county. And the assent of said commissioners thereto having been first obtained in writing, the said clerk is hereby authorized to declare the votes for said county officers by publication of the same in each of the newspapers published in said county.

SEC. 2 This act shall take effect upon its passage.

Approved July 9, 1869.

AN ACT in relation to the preservation of certain Birds.

Be it enacted by the Senate and House of Representatives in General Court convened:

SECTION 1. If any person shall, between the first day of February and the fifteenth day of August in any year, bait, take, kill or destroy any of the birds called snipes, woodcocks, plovers, rails, yellow-legs, wild pigeons or sand-pipers, or shall within the times aforesaid sell, buy, or have in possession any of said birds, taken or killed in this State, he shall forfeit for every one of said birds, baited, taken, killed or had in possession, the sum of five dollars, to the use of the person prosecuting.

SEC. 2. All acts and parts of acts inconsistent with this act are hereby repealed.

SEC. 3. This act shall take effect from and after its passage.

Approved July 7, 1869.

AN ACT regulating the drawing of Jurors in the County of Coos.

Be it enacted by the Senate and House of Representatives in General Court convened:

SEC. 1. That Jurors for any term of the Court, in either Judicial Districts of the County of Coos, may be summoned to attend from the body of the entire County in the same manner as though said County were not divided into Judicial Districts, whenever the Court shall so direct.

SEC. 2. This act shall take effect upon its passage. Approved July 7, 1869.

AN ACT to prevent the Digging of Clams in or near Hampton River.

Be it enacted by the Senate and House of Representatives in General Court convened:

SECTION 1. That any person who shall be guilty of digging or taking clams from or near the flats in or along Hampton river or any of its tributaries, during the months of June, July and August, shall be subject to a fine of ten dollars for each offence, one-half of said sum to be paid into the town treasury and the other half to any person who shall sue and recover the same.

SEC. 2. This act shall take effect from and after its passage.

Approved July 8, 1869.

AN ACT relative to the Liability of Stockholders in Railroads.

Be it enacted by the Senate and House of Representatives in General Court convened:

SECTION 1. That when any individual shall become a subscriber for stock in any railroad in New Hampshire, they shall be individually hold in for the debts of the corporation only to the amount of the par value of the capital stock severally subscribed by them and shall be exempt from all corporate or individual liability beyond that amount.

Approved July 8, 1869.

AN ACT to establish the time of holding the trial terms of the Supreme Judicial Court in the county of Carroll.

Be it enacted by the Senate and House of Representatives in General Court convened:

SECTION 1. That the trial terms of the Supreme Judicial Court for the county of Carroll shall be held on the third Tuesday of April and the third Tuesday of October, annually.

SEC. 2. All actions now pending and hereafter brought shall be as of the November term.

SEC. 3. All acts and parts of acts inconsistent with this act are hereby repealed.

SEC. 4. This act shall take effect from its passage.

Approved July 7, 1869.

celebrated in Spain and Portugal for its beneficial qualities, highly esteemed by eminent physicians, used in European and American Hospitals and by the Medical Profession in Europe and America.

Excellent for weak and debilitated persons, the aged and infirm, improving the appetite and benefitting the ladies and children.

AS A DIURETIC

it imparts a healthy action to the Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic affections. Also,

SPEER'S PORT GRAPE WINE

is pure juice of the Oporto Grape, recommended by Physicians as possessing medical properties superior to California or Imported Wines.

SPEER'S STANDARD WINE BITTERS

The Best and Most Reliable Tonic and Bitters in the market, which is always the CHEAPEST.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

New Hampshire Items.

A furious tornado passed over the farm of Mr. Benjamin Wheeler, of Orange, a short time since, prostrating trees, fences and growing crops, demolishing his barns and sheds, and smashing things generally. His loss is estimated at from $800 to $1000.

Mr. Hazen Abbott, of East Canaan, recently heeled, toed and tempered the calks of fifty machine-turned horse shoes in five hours. The job is consided a fair day's work.

As Thos. Barrett, of South Kingston, was driving to Hampstead on the night of the 30th ult., two men seized his horse by the head, and demanded "his money or his life." Mr. B. struck his horse a smart blow, which caused the high-spirited animal to throw down the footpads and dash off at a full speed. Two pistol shots were fired after Mr. Barret, but he escaped unharmed. It is supposed that he was taken by his assailants for Mr. Wm. Webster, whose team he was driving, and who had a large amount of money paid him that day.

Miss Clarissa Healy, of Candia, died suddenly on Friday last, while engaged in work. She was more than 70 years of age, and had resided in the family of Jonathan Bugbee for half a century.

Recreation for Farmers.

"Humph!" I hear some farmers' say, "what does he mean by recreation for farmers?" I will try to tell you what I mean. At the present day it is found that all classes and conditions of men are greatly advantaged by an occasional relaxation from their daily round of duty, whatever its name or nature. None seem to be exempt from this law of our being. None can ignore it without serious loss to person and purse.

The loss to person grows out of the fact that we cannot continue one set of muscles in work, to the neglect of others, without sooner or later, overworking the one and impairing or enervating the other. Persisting in this course, tends to deteriorate the whole system. This is in all probability less true of farmers than of people in most other occupations. Their necessary labor brings about all their muscular system into use. The extent of the use in their case is just where the evil comes in. Unceasing toil tells upon them to such an extent as to bring on premature old age. We see them bowed over in what should be the prime of life. They lose their buoyancy and elasticity of mind; they become taciturn in their homes. A sombre sadness seems to pervade all around

The wife is too often *overworked*, and partakes of the same spirit. The children growing up in such an atmosphere, lose interest in home,—if they ever had any interest in it,—and look forward with longing eyes to the time when they can escape to the city, the west or the sea.

Too much of the emigration from our New England farms has its cause just here. I know of individual cases in which this is true. The homes are not pleasant to them by reason of unceasing work, and the want of cheerfulness in the family.

The remedy, I think, in a measure, is to be found in farmers finding out that they can accomplish more, year by year, if they devote a portion of their time to recuperate their powers, by relaxation. After a season of relaxation, we bring new energy into all we have to do. Work is done with a will. More of cheerfulness accompanies it. Disappointments fail to depress as formerly. Old things have passed away. The future wears a new aspect. "We have renewed our youth as the eagle."

I am aware that most farmers will say "this is all very well; but we cannot possibly bring it round." Just here is where the trouble lies. I am ready to admit. At the same time, I would urge you to seek for some way to accomplish it. Take your wife into your council, and also the children. You will find that they will enter into a solution of the difficulties with a will. Your combined wisdom will be sure to triumph in the end, because your *interest* is involved in it.

When once the matter has been put to the test, no fear of it ever being dropped. Much of seeming discontent and hardship will disappear. Try it.—*Cor. N. E. Farmer.*

READ THIS.
A SIATIC CHOLERA IN CHINA.
Almost Every Case Cured with Pain Killer.
Dear Sirs: I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send us last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. We resorted at once to the Pain Killer using as directed for Cholera. A lady was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to multitudes of people throughout all this region. Our native preachers are never willing to go on their excursions without a supply of Pain Killer. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be indifferently received. Believe me, dear sirs, gratefully and faithfully yours,
J. M. JOHNSON, Missionary in China.
From Rev. R. Telford, Missionary in China, now visiting his home in Washington, Pa.
Dear Sirs: During a residence of some ten years as a missionary in Siam and China, I found your Pain Killer a most valuable remedy for that fearful scourage, the cholera. In administering the medicine I found it most effectual to give a teaspoonful of Pain Killer in a gill of hot water sweetened with sugar; then after about 15 minutes begin to give a tablespoonful of the same mixture every half hour until relief was obtained. Apply hot applications to the extremities. Bathe the stomach with the Pain Killer clear, and rub the limbs briskly. Of those who had the cholera, and took the medicine faithfully in the way stated above, eight out of ten recovered.
Truly yours, R. TELFORD.
If attacked with diarrhœa, dysentery or cramp colic, don't delay the use of the Pain Killer.
Beware of all Imitations.
The Pain Killer is sold by all druggists.

☞ PERRY DAVIS' VEGETABLE PAIN-KILLER.—We clip the following from the Providence General Advertiser: At this season of the year, when cholera, cholera morbus, dysentery, and other kindred complaints are sure to prevail, everybody should be liberally supplied with the PAIN-KILLER. Persons leaving home whether it be for a day's excursion or a trip to Europe, should be in a condition to place their hands on it at a moment's notice, for the sudden cases incident to the summer months which will prove fatal if not immediately checked, can be promptly cured by one or two doses of the Pain-Killer. On more than one occasion have we been relieved of intense suffering by the timely use of the above named preparation." Sold by all Druggists, Grocers and Medicine Dealers. jy13 4w

DODD'S NERVINE DID IT.

NEW LONDON, CONN., April 26, 1869.
REMEMBERED FRIEND:
I thought it well to wait another week before writing, to see if I continued to improve, as I have been doing for some time, under the treatment of the new medicine, and I am happy to tell you that I am getting better—even faster than when you were here. I commenced the use of DODD'S NERVINE without anybody advising me to it. When I began with it I could only walk from my bed to the chair. My trouble has been extreme pain in the head, and has lasted over three years. All the medicine I have heretofore taken has failed to give any relief. I can now able to go up and down stairs, daily improving. I consider the NERVINE the best medicine I ever found, and shall continue its use, for I am confident of entire recovery. I have taken only three bottles, and would not be without it on any account. [jel5 8w] Very truly, MRS. I. S. NUTE.

MASTA'S PULMONIC BALSAM

IS A SPEEDY and certain remedy for Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Catarrh, Influenza, Hooping Cough, Asthma and the various Affections of the Lungs.
☞ The attention of those afflicted with COLDS, COUGHS, and with any disease of the lungs, is directed to this valuable remedy. On account of sudden changes in the weather, colds and coughs are easily taken, and if neglected may lead to disease of the lungs. What is needed under such circumstances is a reliable remedy—speedy in affording relief, and effectual in arresting further progress of the disease.
☞ To arrest the existing irritation of the air-passages and the lungs, speedily and effectually, the seat and cause of cough is an important step gained toward relief and cure in the first stages of the disease. MASTA'S PULMONIC BALSAM possesses this important power, and while it promptly and effectually arrests all existing irritation, and rapidly relieves cough, it renders the lungs further relief by promoting a free discharge of the accumulated mucus in the air-passages, imparting a healthy action and vigor to the chest at the same time.
☞ Those suffering with cough and the first stages of lung disease, will therefore find in this valuable preparation a speedy and decided relief. Even those whose condition is beyond recovery, will derive from its use great benefit as well as comfort. For the class of diseases it is designed to relieve, the general commendation it has received has proved its efficacy beyond question. For the past ten years have been speedily and effectually cured by its timely use while suffering from severe colds, protracted coughs, and from other forms of lung disease. It is prepared from vegetable balsams and the medicinal properties of roots and herbs, with no minerals nor poisonous acids; simple and safe in the material used, it can be taken at any time.
Sold in Portsmouth by J. H. THACHER, and by Druggists and Dealers in medicines throughout the New England States.

The News.

A National Labor Convention meets in Philadelphia next Monday.

There is war on the Susquehanna Railroad in New York. The disputing parties have small armies and each hold portions of the road. Two different receivers have been appointed and the one who represents the old management is in possession. Fisk is the prime mover on the other side. The supporters of Ramsey had captured a locomotive from the Fisk party and during Tuesday night drove them out of a tunnel near Bainbridge. Each party holds one end of the tunnel. Gov. Hoffman threatens to call out the entire State militia if the disturbance continue. Fisk has about 1000 men with him.

The Secretary of the Navy has made the following changes in the names of vessels, to conform more fully to the law:—The Arizona to the Nevada; the Hecla to Nebraska; the Hercules to Oregon; the Thunderer to Massachusetts; the Astoria to Omaha; the Cambridge to Congress; the Detroit to Canandaigua; Achilles to Madoc; Etna to Nausett; Argus to Kota; Atlas to Nahant; Castor to Mahopac; Spitfire to Suncook; Tartar to Yazoo; Tempest to Yuma; Nemesis to Wyandotte; Vixen to Osceola; Tornado to Winnebago.

The election returns from Alabama show that 4 Republicans and 2 Democrats are elected to Congress.

Steamship Cleopatra has been lost off Cape Race, four miles from where the Germania was wrecked. A dense fog has prevailed on the Newfoundland coast for three weeks.

Charles Orme was hanged at Stroudsburg, Pa., on Wednesday, for murder.

The Assistant Secretary purchased two million dollars worth of 2-50 bonds for government, on Wednesday, at prices ranging from 120.87 to 121.29.

Eight thieves got into an express car at Fonda, on the New York Central R. R., Tuesday night, gagged and bound the messenger and baggage master, and stole a large amount of gold and bonds. They held possess ion of the car for 45 hours and just before reaching West Albany stopped the train by pulling the bell cord, and escaped with their booty. Nothing was known of it all until after the train reached Albany, when the messenger and baggage master were found helpless and covered with blood. Gold and silver coin was scattered all over the car.

Biddeford had a $15,000 fire Tuesday night.

Correspondence of Chronicle and Gazette.

BOSTON, Aug. 10, 1869.

Those of our friends at the mountains or sea-shore who contemplate with amazement the stoicism of persons whose connection with Can't-get-away Club induces them to remain in town during the heated term, may economize their commiseration a little, for the Hub has been blessed by a week of very enjoyable weather. The pleasure of promenading the streets is also greatly enhanced, by the absence of many of the trailing dresses which usually impede progress. In fact, Boston was never before the scene of so general an exodus as at present, unless when General Howe left here on account of some unpleasantness.

The working of the new liquor law is not as satisfactory here as its friends could desire. A drunken man is no uncommon sight on the street, and liquor is to be had by the initiated at nearly as many places as ever. The real bar-rooms in most cases retain their sign of "no liquor sold over this bar," but up stairs or down is another room where the bibulously-inclined may sip his benzine. Lager beer flows in quantities to gladden the heart of Gambrinus. The real effect of the law, as at present enforced, seems to me to be that men drink the same quantity of liquor, of a poorer quality than formerly (if that be possible), at a higher cost.

Yesterday, in accordance with its rule of constant improvement, the Eastern road placed upon its line two splendid new passenger cars—Nos. 76 and 77. They contain many valuable improvements, and Master Mechanic Somerby, of the company's car works, may well be proud of these excellent witnesses of his peculiar fitness for the position he occupies. The plan of retaining faithful and efficient officers, in all its departments, is fast rendering the Eastern a model road. M.

ANDREW JOHNSON.—The Boston Advertiser concludes an article on the Tennessee election as follows.:

"But when the despatches which record the success of Senter tell us also that the same votes are likely to send Andrew Johnson to the Senate, the most thoughtless must forget his levity, and pause aghast at the dreadful prospect which is opened before the nation. The interval of free breathing and erect dignity since our national Old Man of the Sea was thrown from our shoulders on the fourth of March, only makes us tremble the more at the apprehension, that we may again be saddled with him, and this time for a six years' term. All sorts of horrid visions rise to the mind's eye, of the Senator from Tennessee incoherently handing the flag with thirty-six stars to weary listeners in the galleries, of his recapitulating to Mr. Colfax day after day the familiar history of his own political progress up the ladder and round the circle, of his joining the remnant, reduced to a faithful few, of repudiators of the public debt, even of his demanding reciprocity for such assistance in aid from experienced hands in a movement to impeach his old enemy, the President. The imagination falls to compass the results which might follow if Andrew Johnson, again puffed up by power and aggravated by neglect during his interval of obscurity, should have again such a privilege of vexing the public ear and thrusting thorns in the national pride, as would be given him by elevation to a senatorial chair.

It hardly seems that such a calamity can be in store. Some unexpected accident, some new split in the fragile mosaic of Tennessee politics, will interrene to avert it. Or if Mr. Johnson gets an election to the Senate, some miraculous interposition will lead him to resign it for the governorship of his State, and so he may pass rapidly down the catalogue of offices he mounted so laboriously. Such an event could hardly be contemplated except in the wildest of fancy; but it would be delicious to see him complete the parallel he seems to have begun to the career of General Fritz, of the army of her saucy highness of Gerolstein. That officer, having been promoted by comparatively slow steps through the military grades to the highest, by a vicissitude of fortune was brought flown by the run, from commander-in-chief to corporal, still one step at a time, but all in five minutes. As he found his level, he begged of his sovereign an appointment to teach a country school, avowing frankly that such a position might enable him to learn to read. If our late chief magistrate could by some such merry freak become again "alderman of a village," he might learn enough of the essential elements of public service to become in his sphere useful to the country, or at least neither offensive to its nerves nor dangerous to its credit."

THE UNASKED GOOD.—The prayer which Socrates taught his disciple Alcibiades deserves a place in this daily devotion of every Christian. removes from the system the ill effects caused by the excessive use of alcoholic liquors, and effectually destroys the appetite for these stimulants. It gives tone to debilitated mucous surfaces. Effete matter is removed from the system, thereby restoring to the original healthful condition. As a medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints and all disorderly arrangements of the Stomach and Bowels, in a speedy manner.

This elegant preparation has stood the test of years. A wine-glassful before eating will give a good appetite and prevent all suffering from indigestion. Ladies of weak and delicate constitutions should take the Invigorator three times a day. A wine-glassful before retiring will insure sweet and refreshing sleep. All the proprietor asks is a trial, and to induce this he has put up the Invigorator in pint bottles at 50 cents,—quarts $1.00. Principal Depot, 45 CENTRAL WHARF, BOSTON. SPECIAL NOTICES.

A Life-Saving Reformation.

A radical change has been introduced in the practice of medicine. Physicians have ceased to torture and prostrate their patients. Instead of pulling down, they build up; instead of assaulting nature, they support her. Cupping, lancing, blistering, venesection, calomel, antimony, stupifying narcotics, and rasping purgatives, once the boasted resources of the faculty, are now rarely resorted to even by the most dogmatic members of the profession. The old creed was that disease was something which must be expelled by violent artificial means, irrespective of the wear and tear of the vital organization in the process. The new creed recognizes the improvement of the general health as contributing to the cure of all local ailments. Hence it is that HOSTETTER'S STOMACH BITTERS, the most potent vegetable tonic that pharmacy has ever brought to the assistance of nature in her struggles with disease, has been cordially approved by practitioners of the modern school. It is pleasant to reflect that reason and philosophy have at last been victorious over the errors of the past, and that thousands, and tens of thousands, of human beings are alive and well to-day, who would inevitably be mouldering in their graves had they been subjected to the pains and penalties which were deemed orthodox and indispensable thirty or forty years ago.

Preventive medication was scarcely thought of then; but now it is considered of paramount importance, and the celebrity of the STANDARD INVIGORANT, AMERICAN TONIC AND RESTORATIVE with the age, (a title which HOSTETTER'S BITTERS have fairly earned by their long career of success), is mainly indebted for its efficiency as a PROTECTIVE PREPARATION.

A course of the BITTERS is urgently recommended at this season of the year, as a safe and certain antidote to the malaria which produces intermittent and remittent fevers, diarrhœa, dysentery and other maladies.

Holloway's Pills.—A WORD TO LADIES IN DELICATE HEALTH.—The combination of aperient, tonic and alterative properties in HOLLOWAY'S PILLS, renders them a particularly desirable medicine for ladies of delicate habit. Their operation is mild and certain, and in all functional difficulties their regulating and invigorating operation will be found in the highest degree beneficial. Without inconvenience to any way from her healthful course they act as a swift corrective. Sold by all Druggists.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Preparation and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two powerful extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

Ten Thousand Testimonials

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried Dr. ERASMUS WINSLOW'S **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

ALLEN'S LUNG BALSAM.

The best remedy for the cure of CONSUMPTION, and ALL DISEASES OF THE LUNGS. It causes the phlegm and matter to rise without irritating those delicate organs (the Lungs,) and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless for the most delicate child. It is everywhere in good demand and gives good satisfaction.

The result of its use is proof of its great value.—Its extraordinary healing properties are experienced by all who use it. Their testimony will be found in a pamphlet which will be had of the agents where the medicine is for sale. d25

Ellis' Iron Bitters

Will enrich the blood and prevent it from becoming watery and weak, give a healthy complexion, restore the appetite, invigorate the system, and are very palatable. These Bitters are recommended to all persons requiring a safe and valuable tonic, to impart tone and strength to the system, not given by Bitters merely stimulant in their effects; which, although they may possess tonic vegetable properties, cannot give the strength to the blood which the *Iron Bitters* will give.

Prepared by Wm. Ellis, Chemist. For sale in Portsmouth by WILLIAM R. PRESTON; by Weeks & Potter, Wholesale Agents, 170 Washington Street, Boston; and by Druggists and Grocers generally. mh29eod6m

IMPORTANT NOTICE.

FARMERS, FAMILIES, AND OTHERS CAN purchase no Remedy equal to *Dr. Tobias' Venetian Liniment* for the cure of Cholera, Diarrhœa, Dysentery, Croup, Colic, and sea sickness, taken internally—(it is perfectly harmless; see oath accompanying each bottle) and externally for Chronic Rheumatism, Headache, Toothache, Sore Throat, Cuts, Burns, Swellings, Bruises, Mosquito Bites, Old Sores, Pains in Limbs, Back and Chest.

The Venetian Liniment was introduced in 1847, and no one who has used it but continues to do so, many stating, if it was Ten Dollars a Bottle they would not be without it. Thousands of Certificates can be seen at the Depot, speaking of the wonderful curative properties. Price, 50 cents and one dollar. Sold by the Druggists and Storekeepers throughout the United States. SPECIAL NOTICES.

ASIATIC CHOLERA.

The Strongest proof of Intrinsic Merit.

DEAR SIRS,—I ought to have acknowledged long ago the benefit the Kitler you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The Cholera appeared here soon after we received it. We resorted at once to the PAIN KILLER, using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was administered recovered. It has, too, seen very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of the PAIN KILLER. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be very indifferently received.

Believe me, dear sirs, gratefully and faithfully Yours,

J. M. JOHNSON.
Missionary at Swatow, China.

GRANT & PROSPERITY.

Business revives under the new regime. Other than general causes have, however, given a tremendous impetus to the sale of

Cristadoro's Excelsior Hair Dye.

The chemists have come out in two leading scientific journals against the lead and sulphur poisons (for such they call the base of their competition,) with which the country is infested, while Dr. Chilton, the first analytical chemist in America, announces to the world that

CRISTADORO'S DYE IS UTTERLY POISONLESS,

and that he *knows it to be so,* because he has analyzed it.

CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, acts like a charm on the Hair after Dyeing. Try it. 3y22

BRANDRETH'S PILLS.

They remove all bad accumulations from the bowels, and purify and invigorate the system. All whose health is not perfect, owe it to themselves to take a few doses of Brandreth's Pills, because the seeds of decay are constantly eradicated by their use, and the principle of life confirmed, thus giving a vigor of body and mind to a period when we have been used to see the faltering step and the enfeebled intellect.

General PAEZ, the distinguished liberator of Venezuela, says he has used them as his only medicine for thirty years, with the most satisfactory results.

For Costiveness, Dyspepsia, and as a Family medicine they are invaluable.

Daniel I. Tenney, Esq., Astor House, New York, cured by Brandreth's Pill of Dyspepsia and Costiveness, when all other means had failed.

A gentleman, whose father died of consumption at 36 years, was also attacked, when about 21, by the complaint. He had cough, night sweats, and general debility. Doctors recommended cod liver oil, but he wasted away. At last he determined to use Brandreth's Pills. In two months they made him a sound man. 1y22

PAIN KILLER.

WE beg leave to call the attention of the public to this long celebrated and unrivaled

FAMILY MEDICINE.

The PAIN KILLER is a purely vegetable compound, and while it is a most efficient remedy for Pain, it is a perfectly safe medicine even in the most unskillful hands.

For Summer Complaint,

Or any other form of bowel disease in children or adults, it is an almost certain cure, and has without doubt been more successful in curing the various kinds of

CHOLERA,

Than any other known remedy, or even the most skillful physician. In India, Africa, and China, where this dreadful disease is ever more or less prevalent, the PAIN KILLER is considered by all physicians, as well as European residents in those climates,

A SURE REMEDY. je19

SCHENCK'S PULMONIC SYRUP,

Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the digestive organs become good; the blood and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and is well.—This is the only way to cure consumption.

To these three medicines Dr. J. H. SCHENCK, of Philadelphia, owes his unrivalled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to change the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstruction, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do, and you will never been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the liver and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and to stop what they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole system. The stomach and liver have lost the power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and who weighs 228 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success.

Full directions accompany each, making it not absolutely necessary to personally see Doctor SCHENCK, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed, or he can be also professionally at No. 32 Bond St., New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $3. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half-dozen.—Mandrake Pills 25 cents a box. G. G. GOODWIN & CO., 38 Hanover Street, Boston, Wholesale agents. For sale by all druggists. d1ly1ad

DENTAL NOTICE.

69 Congress Street, Portsmouth.

DR. GOODALL takes pleasure in announcing that he is meeting with great Success in HIS INVENTION of a SPRING PLATE for PARTIAL SETS OF TEETH. The Plate does not COVER THE ROOF OF THE MOUTH, is very small and light, has no clasps, in short, it does not impede speech, or taste, and is altogether the most satisfactory method of inserting Partial Dentures. Scores of references in this city, and Philadelphia from Boston, New York and Philadelphia have given their unqualified approval of this *useful invention.*

He has purchased a patent right for LOADING lower sets of teeth, thereby making them much more serviceable and comfortable, and they will remain in place, even when the ridge of the lower jaw is very flat.

He is using the Pack Ridge in upper sets with the most satisfactory results. He has also a new and improved *Gum Ridge rubber work, just discovered,* which will require only one hour in the majority of cases, and the work will be warranted strong and neat.

He is also administering ETHER, and preparing the mouth for artificial teeth, nearly every day, and often three times a day, extracting from 1 to 30 teeth at one visit, with entire FREEDOM FROM PAIN, and with happy results. He has made this department of dentistry more particularly a specialty, and is confident his large and continued success will warrant him in promising, (With his present facilities and improvements in mounting artificial dentures,) all work at the shortest notice, and in the **Best and Most Approved Style of the Art.**

All kinds of operations in Dentistry performed at the usual rates, and payment is considered due as soon as the operation is completed, all work being warranted.

Refers with pleasure to the leading Physicians of Portsmouth and citizens generally.

Demorest's Illustrated Monthly for September, is on our table, with the Fall Fashions, reminding us that Summer is running out its sands pretty rapidly. The colors of the dresses are as rich and brilliant almost as Autumn Leaves.

Love and Liberty, by Alex. Dumas, the great French author, is in press, and will be published in a few days, by T. B. Peterson & Brothers, Philadelphia. Anything that Dumas writes is entertaining, and it will command a very large sale; being a narrative of the French Revolution of 1792, the interest is intense from the first page to the last. The price is only $1,75, bound in cloth. The following new books are having immense sales, and will attract many:—Mrs. Southworth's "Bride's Fate," "Changed Brides," "How He Won Her," and "Fair Play." Mrs. Stephens' "Curse of Gold," "Mabel's Mistake," and "Doubly False." "The Woman in Red" and "The Breitmann's Ballads" in one cloth volume with a glossary.

☞ The time for the Harvard and Oxford race is finally fixed. It is to be on the 25th of August, on the river Thames. The English papers pronounce the Harvards to be a powerful crew but represent them as needing instruction. With all the praise they give the American crew there is a supercilious egotism pervading the editorials of the London press which inclines the reader on this side of the Atlantic to wish more heartily for the success of the Harvards, that John Bull's self-importance may be taken down a peg. If the Harvards win it will mortify John B. exceedingly—if they lose he will be correspondingly elevated.

A MOVING SPECTACLE.—A lady teacher in Minnesota was transported recently on the wings of the wind, from her residence to a wheat field, 37 rods distant, during a late tornado. She was considerably alarmed.

TOMATO SUPPORT AND MULCH.—Among the many contrivances to support tomato plants, the best and cheapest method I have ever adopted, is to place straw around and under foliage some six to eight inches thick, which will afford all the support required and when the tops become heavy they will fall gacefully over on the straw bed so invitingly offered them, and thus display the fruit to the sun, where it will ripen cleanly and sound. The straw cushion also is an excellent mulch, highly beneficial to the plant.—*N. E. Farmer.*

THE CONCRETE PAVEMENT appears to be a success. It has been laid in several streets and squares of our city, and seems to stand the severest usage without injury.—*New York Citizen.*

Correspondence of Chronicle and Gazette.

EXETER, Aug. 10th.

The officers of the Exeter Horticultural Society have decided to hold an exhibition on the evening of the 23rd, and day and evening of the 24th of next month. A well attended meeting was held this evening to perfect the arrangements. The premiums will be larger then those heretofore offered, and some of the departments considerably increased. As the fair commences on the evening of the 23rd, it will give an opportunity for all to attend the closing day of the Piscataqua Fair, and return in season for the opening of the Exeter Fair.

The annual meeting of the Exeter Railroad was held here to-day, and the following board of directors chosen for the ensuing year; viz;

James H. Butler, Nottingham; Stephen Kendrick, Franklin; Eben F. Stone, Newburyport; George Currier, Salisbury; Wm. A. Currier, Nathaniel G. Gilman and Nathaniel Gordon, Exeter.

A vote was passed, instructing the directors to report at an adjourned meeting (Oct. 12,) what action it is advisable to take relative to a union with the Salisbury Railroad.

The long continued dry weather is seriously affecting the crops in this section. Even on low ground the corn is drooping, and the leaves "roll" in a manner plainly evincing the great need of rain. While we read of blueberries selling at ridiculously low prices in some sections, they sell readily here for from 15 to 20 cents a quart. Blue and blackberries hereabouts are injured by the drought beyond redemption.

Smoked glass was in great demand during the eclipse on Saturday, As I went out after tea, I was importuned by two handsome young ladies to view the phenomenon through *their* pieces of glass. "Oh, Mr. H., you *don't* know how nice it looks *now!* just look through *my* glass."

As I had seen the show about a minute before, I thought it hadn't altered much; but who can resist such an appeal from the "sex?" So I took a peep through each proffered glass, and proceeded to the Post Office for my ever welcome Chronicle, blissfully ignorant of the fact that each charming creature had presented her smoked glass in such a manner as to leave a "beauty spot" on my otherwise good looking nasal organ. Like Simon Suggs' "cutting jack," when he won his fathers pony, I think it was "all fixed aforehand," for I remembered that they seemed hugely pleased at something I wot not of, as I left them.

The factory has suspended operations temporarily, for the purpose of putting in a new water-wheel; and the operatives are improving the opportunity to visit Hampton Beach; which they do in parties of 50 or 60, carrying their own provisions, and having a general good time. H.

The grantees of the Concord and Rochester Railroad held a meeting at the Eagle Hotel, in Concord, on the 7th, and unanimously elected the following Board of Directors: Nathaniel White, Jas. R. Hill, Benj. A. Kimball and John V. Barron, of Concord; John McDuffie, of Rochester; Eliphalet Foss, of Strafford; and J. M. Babcock, of Barnstead. The Board elected Nath'l White, President, Hon. Lyman D. Stevens, Treasurer, and Chas. C. Lund, of Concord, Clerk.

It is also a Mortgage upon Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,
And in successful operation for 437 miles
west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the
GOVERNMENT LAND GRANT OF THREE MILLION ACRES,
extending in alternate sections on either side of the track, from the 39th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as A SINKING FUND FOR THE REDEMPTION OF THE BONDS.
The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field, nearly exhausted. The company also holds as an asset another tract of
Three Millions of Acres in the State of Kansas,
and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the
Value of the Company's property, covered by this mortgage, at $23,000,000 net, while the Loan is merely $6,500,000.
The Bonds have
THIRTY YEARS TO RUN,
from May 1, 1869, and will pay
SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.
The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be
PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:
On $1,000 Bond in N. Y. $35 (gold) each half year.
" London....27 sh. 10.
" Frankfort. 87 flr. 30 krtzs., "
The Agents of the Loan, before accepting the trust had the conditions of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a
FIRST CLASS INVESTMENT,
in every respect perfectly sure, and in some essential even
Better than Government Securities.
The Bonds will be sold for the present at
96, *and accrued Interest, both in Currency,*
the Agents reserving the right to advance the rate.
The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.
Gold and Government Securities taken in payment at their market value, without commission.

THE PAGAN IN THE SANCTUARY.

"With us, but not of us."

There is a human being,—but away with hyperbole! I will be accurate. There is a creature, who, because he now wears the semblance and delights in the mischeds of a boy, is expected by a few sanguine individuals, (near relative of course) to develope eventually into a human being, yet who, though present, by virtue of his office, at all the religious services held in our churches, (in such of them at least, as boast the modern improvements,) is darkly left out of the plan of salvation there promulgated. No mention is made of him in Holy Writ; no preacher warns him to "flee from the wrath to come," of which he stands in imminent danger, or offers him consolation under his trials, which are many and aggravated.

The philanthropist will none of him; I do not remember that one of his order ever came under the notice of the police; he seems below the reach alike of mercy and of justice. For the great and fundamental crime of being a boy, the crime which render inevitable and indeed includes all others, he fully atones, by the sufferings incident to his condition; and were this just doom visited impartially on all, far should it be from me to lift my voice against it. No! There is a stern and virtuous satisfaction in witnessing the retribution which overtakes guilt,—provide that guilt is not our own. But for this poor vagabond, in no way worse than his fellows, singled out for vicarious sacrifice, my sympathies are warmly enlisted.

"The mild strains of devout song which on Sundays soothe to temporary peace the care-worn and (horreseo referens!) ill-natured Christian, are to his by no means angelic disposition, as an application of mustard combined with nettles; while the "shout of sacred praise" stirs in his solitary and injured bosom, exasperation bordering on frenzy, (especially if the day be warm.) Music, such music, has no charms to soothe his savage breast. Let not the church dream fondly that she shall one day gather that lost being to her fold. She may well look with a far from hopeful eye, on all the race of boys; but to him who has once served her in this important but painful capacity, she renounces her claims forever; she delivers him over, once for all, to "the world, the flesh, and the devil," for who ever heard of a blow-boy that afterwards became a Christian? I say afterwards, advisedly, because the most fiery enthusiasm cannot conceive of him as blowing the organ, and at the same time cherishing those sentiments of universal good will and resignation to the order of Providence, invariably characteristic of church-members.

Well-dressed, comfortable congregations gather, week after week, and receive, with that affable complacency so inspiriting to the preacher, rebukes that touch us all. Wordlings, debauchees, drunkards, women of fashion, the frivolous, the ambitious, the avaricious,—to all of us the error of our ways has been pointed out, "without partiality and without hypocrisy;" now, if we go to perdition, we do it at our own risk. But the Imp behind the organ,—what are prophet and apostle, warning or promise, to him?

Very nearly the entire population of the world, finds place, by especial mention, in the rightly-named "Long Prayer;" the slave is not forgotten, the sailor, the prisoner, I have even heard a Minister of extraordinary faith pray for politicians, but who ever had faith enough to pray for the Blow-boy, the young heathen whose only idea of a prayer is, that it is something of variable length, with an amen at the end; the only word in it he hears, (true of more than him I'm afraid) or cares about, since it is the signal for his recommencing torture.

His depravity is necessarily extreme, looking, as he does, upon the church and its services as a pecuniary speculation; and soon discovering that it is the least profitable in which he could engage, he of course apostatizes. To him most pertinently applies that sensible remark of somebody's, "If the devil offers a dollar for a soul, and the church only a half a dollar, the church mustn't complain if the devil gets the bargain." (Please observe that the word devil occurs only in quotations.)

His subordinate position sometimes places him in circumstances of extreme peril. Regardless of his reasonable objections, the chorister has been known to suspend him by the heels, head downward, over the front of the gallery, in order to recover a hymn-book which had fallen and lodged on a projection inaccessible by other means. By the way, the change lately observable in many churches, the removal of the organ and consequently of the choir from their old station in the gallery to the rear of the desk, must be due to the protest of bald-headed gentlemen, sitting just under the gallery, whose minds were often unpleasantly distracted from the services of religion, by the sudden descent of hymn-books on their defenceless craniums. Devotional poetry, taken in this way, fails of its usual tranquilizing effect.

The occasional opportunities for revenge offered by his profession, enables this oppressed youth to maintain on most occasions a gloomy stoicism. He is sometimes sound asleep when he should be at his post, which indicates an appalling degree of hardihood. The hour of his doom, the candidate for office, on the eve of election, but that a wretched blow-boy should slumber during the sermon, almost staggers belief.

Yet the mysterious pause occasionally observed after the reading of the last hymn, taken in connection with the hasty exit of the chorister followed immediately by the expected strain, proves beyond dispute that such is the fact. Should not a fund be raised, by Fair or other means, for the purpose of providing each blow-boy with a copy of "The Great Awakening," to be chained to the bellows-handle for his perpetual admonition?—A Great Awakening indeed it is to him, whom the chorister finds thus asleep on duty; indignation and wrath, tribulation and anguish are visited without stint upon him; yet, with the proverbial obstinacy of guilt, he repeats the offence whenever he feels drowsy.

He sometimes sportively lets the wind out of the organ during the playing, the result of which is a groan of despair from the depths of the instrument, worthy to express the emotions of one doomed to hold throughout eternity his situation as blow-boy. No sweeter revenge than this practical joke on his natural enemy, the organist, could be desired by any reasonable boy, yet I have known one so insatiably vindictive, that, not content with his legitimate means of revenge, he would indulge himself, at every convenient opportunity, in the demoniacal pleasure of peering round the corner of the organ, with a countenance contorted with most hideous and diabolical grimaces, instantly relaxed however into the blandest of smiles, on meeting the eye of his oppressor.

A vision of snapping-crackers and pistols in the future, might alleviate somewhat the sorrows of his bondage, but unhappily, the pittance for which he is sold, is usually converted by his parents into some uninspiriting article of wearing-apparel, a pair of boots or a hat. And what does he not endure for this! The brief period of public worship is by no means the limit of his labor. The mysterious and apparently useless rehearsal ceremony claims his co-operation, all the errands at the choir are committed to his agility, he is sent for the list of hymns, and sometimes, when there is an exchange, whose whereabouts is doubtful, the poor boy may be seen rushing frantically about the town, in search of the stray minister: what a chase for a creature whose natural objects of pursuit are circuses and torch-light processions.

Occasionally the books must be transferred from one place of meeting to another, and he is to do it. Whoever has never lifted one of those great square baskets closely packed with music books, knows not yet the force of gravitation. Let not the poor fellow be too severely blamed if, in the extremity of his anguish and despair, he sometimes surreptitiously removes a portion of the books, thereby disarranging the programme of the evening. The blow-boy has never been detected in this daring crime, but it is of no unfrequent occurrence. Imagine, if you can, his feelings when compelled to officiate at a funeral or wedding, (to him occasions of equal gloom,) on a Wednesday or Saturday afternoon, and thus deprived of his sacred and inalienable rights, without the comfort of extra compensation.

He views marriage and death henceforth with a jaundiced eye. Equally torturing to him are church-services on Thanksgiving Day or Christmas. O! kind preacher! on those days that should be full of joy for all, remember this! When with the autumn, come round again the dear old festivals, although you might be sternly indifferent to the sinful thoughts sent homeward to their roasting turkeys and uproarious households, by the housekeepers of your congregation; though it might be sweet to you to discipline your worldly-minded and impatient hearers by a discourse of merciless length, think of the agonized blow-boy, and do what never yet has preacher done on the like occasion,—be brief! D. W.

STOCK GAMBLING.—What are "Puts" asked a gentleman of a man in Wall Street. Well, replied the other, if I give you a certain sum, say ten dollars, on condition that you will allow me at any time I please, within a certain period, say three weeks from to-day, to give you a cow-hiding, I have bought and you have sold what in the stock exchange parlance means "a put." When you get the hiding, you would be the man put upon, and I would be the putter.

But, asked our friend the greenhorn, seriously, what is meant by selling puts of gold, or puts of stock?

Well, said the other, I will try to explain. Gold is selling to-day at $1.50; I think it will go much lower; you think quite otherwise; I say I will give you $500 if you will allow me to put $20,000 of gold upon you at any time within the next six months at $1.30. If you accept my offer I pay you the $500 cash down, and you stand to be "put on" or "shot at" during the next six months. If gold goes down to $1.20 I buy $20,000 which I can make you take from me at $1.30 within the specified time, and I do so I make $8,500 by the operation; but I may buy at $1.20 in three months; so I have plenty of time to look about me, and if the market goes up again to $1.50 before the expiration of the six months I sell at the figure, and make $5,500 net by the operation. Then of course I take no notice of you. You have got your $500, and no gold put upon you.

In that case said the greenhorn, I have the best of the bargain. I have made the $500 without any risk, while if gold had not gone below $1.20 you would have lost the $500.

But suppose, said the knowing one, that when you saw gold going down with a run, you had sold $20,000 at $1.25, to protect yourself against the right I had to put it on you at $1.30, where would you have been when the gold had risen to $1.50, and you found yourself bound to deliver $20,000 at $1.25, which you had "sold short" in consequence of having sold me that "put." Anyway you see I could only have lost $500, but you could not have told what your loss might have been.

Suppose again, said our Wall street man, that I buy from you to-day a put of Eries at 68, which I think much beyond their value, giving you $5000 for allowing me to put 1,000 shares of stock upon you at 65 within three months. I wait until it goes down to 35, and then I buy the 1,000 shares, which I can make you take from me at 65; then if the market does not rally at the expiration of three months, I put it on as per contract, and make $30,000 by the operation (less the $5,000 paid for the put) making the net gain to me, and loss to you, $25,000 as the result of such a gambling transaction.

If you want to understand the matter experimentally, go and ask a broker to sell a put for you, then you will find out all about it from actual experience. If, however, you will be guided by me, I will give you the same advice which Punch gave to the man that was about to be married—"Don't."

HOW TO DESTROY THE CURCULIO AND SAVE THE PLUMS.—Nearly every one has some method of destroying the curculio, but few of those suggested seemed to be of any practical value. The use of whale oil, soap, kerosene oil, smoke, salt, lime, sulphur, tar, cotton and wool twisted around the tree, or any of these is of no avail. Curculio will still make his half-moon incision and deposit his egg. The only process that has yet proved itself effective in my experience is to jar or shake the tree every morning from the time the fruit is as large as a pea until it is fully two-thirds grown.

By pasting newspapers together and placing them under the tree, fitting them closely around the trunk, the curculio will fall on the paper when the tree is shaken, and can be destroyed. By practicing this plan on your plum trees every morning, as directed, the fruit can be saved. It is sometimes necessary to thin out the fruit especially of young trees, which are apt to set more fruit than they can ripen, and unless relieved this way very often die after the first heavy crop is matured. It is better for the fruit itself to thin it out, also, that which is left to ripen being improved by it.—*Experimental Farm Journal.*

—A frightful series of catastrophes occurred July 28, at Enghien, near Paris. A man employed to clean the conduit pipes of one of the sulphur wells, fell into the water, and eight persons, who went down one after the other to save the first, were all stifled by the sulphuric hydrogenic gas. Four perished, and and the other five were ultimately rescued in a state of great exhaustion.

—At St. Albans, Vt., on Tuesday, prices for butter took a wide range, on account of the varied quality brought to market, there being an unusual amount of poor butter, the ruling price for good was 35 cents poor, 30 to 32; extra nice, 36 to 38.

—The Springfield Republican was not issued on Tuesday, its forms having been "pied" by an accident to the apparatus by which they are lowered to the press room. Wm. W. Westrope, one of the pressmen, fell with the forms about 20 feet, and was severely injured.

ASIATIC CHOLERA IN CHINA.
Almost Every Case Cured with
Pain Killer.
Dear Sirs: I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send us last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. We resorted at once to the Pain Killer using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all the region. Our native preachers are never willing to go out on their excursions without a supply of Pain Killer. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be indifferently received. Believe me, dear sirs, gratefully and faithfully yours,
J. M. JOHNSON, Missionary in China.
From Rev. R. Telford, Missionary in China, now visiting his home in Washington, Pa.
Dear Sirs: During a residence of some ten years as a missionary in Siam and China. I found your Pain Killer a most valuable remedy for that fearful scourge, the cholera. In administering the medicine I found it most effectual to give a teaspoonful of Pain Killer in a gill of hot water sweetened with sugar; then after about 15 minutes begin to give a tablespoonful of the same mixture every half hour until relief was obtained. Apply hot applications to the extremities. Bathe the stomach with the Pain Killer freely, and rub the limbs briskly. Of those who had the cholera, and took the medicine faithfully in the way stated above, eight out of ten recovered.
Truly yours, R. TELFORD.
If attacked with diarrhœa, dysentery, or cramp colic, don't delay the use of the Pain Killer.
Beware of all Imitations.
The Pain Killer is sold by all druggists.

PERRY DAVIS' VEGETABLE PAIN-KILLER.—We clip the following from the Providence General Adviser: At this season of the year, when cholera, cholera morbus, dysentery, and other kindred complaints are sure to prevail, everybody should be literally supplied with the PAIN-KILLER. Persons leaving home whether it be for a day's excursion or a trip to Europe, should be in a condition to place their hands on it at a moments warning. Many diseases incident to the summer months which will prove fatal if not immediately checked, can be promptly cured by one or two doses of the Pain-Killer. On more than one occasion have we been relieved of intense suffering, by the timely use of the above named preparation." Sold by all Druggists, Grocers and Medicine Dealers.

DODD'S NERVINE DID IT.
NEW LONDON, CONN., April 26, 1869.
REMEMBERED FRIEND:
I thought it well to wait another week before writing, to see if I continued to improve, as I have been doing for some time, under the treatment of the new medicine, and I am happy to tell you that I am getting better—even faster than when you were here. I commenced the use of DODD'S NERVINE without anybody advising me to it. When I began with it I could only walk from my bed to the chair. My trouble has been extreme pain in the head, and has lasted over three years. All the medicine I have heretofore taken has failed to give any relief. I am now able to go up and down stairs, and daily improving. I consider the NERVINE the best medicine I ever found, and shall continue its use, for I am confident of entire recovery. I have taken only three bottles, and would not be without it for any account. [jel5 8w] Very truly, MRS. I. S. NUTE.

MASTA'S PULMONIC BALSAM
IS A SPEEDY and certain remedy for Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Catarrh, Influenza, Hooping Cough, Asthma and the various Affections of the Lungs.
☞ The attention of those afflicted with COLDS, COUGHS, and with any disease of the lungs, is directed to this valuable remedy. On account of sudden changes in the weather, colds and coughs are easily taken, and if neglected may lead to disease of the lungs. What is needed under such circumstances is a reliable remedy—speedy in affording relief, and effectual in arresting further progress of the disease.
☞ To arrest the existing irritation of the air-passages and the lungs, speedily and effectually, the seat and cause of cough is an important step gained toward relief and cure in the first stages of the disease. MASTA'S PULMONIC BALSAM possesses this important power, and while it promptly and effectually arrests all existing irritation, and rapidly relieves cough, it renders the lungs further relief by promoting a free discharge of the accumulated mucus in the air-passages, imparting a healthy action and vigor to the chest at the same time.
☞ Those suffering with cough and the first stages of lung disease, will therefore find in this valuable preparation a speedy and decided relief. Even those whose condition is beyond recovery, will derive from its use great benefit as well as comfort. For the class of diseases it is designed to relieve, the general commendation it has received has proved its efficacy beyond question. For the past ten years have been speedily and effectually cured by its timely use while suffering from severe colds, protracted coughs, and from other forms of lung disease. It is prepared from vegetable balsams and the medicinal properties of roots and herbs, with no minerals nor poisonous acids; simple and safe in the material used, it can be taken at any time.
Sold in Portsmouth by J. H. THACHER, and by Druggists and Dealers in medicines throughout the New England States.

FRIDAY, AUGUST 13, 1869.

EDITORIAL JOTTINGS.—Wednesday morn, promenade,by starlight to office, about the time the last of the boys goes home from courting—say 3 A. M., or 3 *P. M.* the other way, next day. Stars ever so high and dry, too—will it never rain? Everybody else laying rather low at this hour. Daily and Weekly papers given (or about the same, at present low prices,) to the public; and at 8 o'clock find Conductor Maynard, with his smiling morning face—*he* has been to breakfast, you see—ready, with his accommodation line to Manchester—where, when we get there, it is hotter and dryer yet, as usual, in comparison with the seacoast.

One of the first things, after leaving the fine large depot in Manchester, is the Methodist Church block, where they have three or four rum-shops, called saloons, in the lower story—literally the old condition of things, as said or sung by the poet years ago:

"Beneath this roof two spirits dwell,
The one of heaven, the other of hell,
The spirit above is a spirit divine,
But the spirit below is the spirit of wine."

This is one of the misfortunes of a church not owning the edifice they occupy—this Society control only the second story of the building. They sold the stores in the basement or street story, a few years ago, on account of a foolish fear from a debt they had on it—since which it has quadrupled in value, and now annoys and disgraces them as stated. It is oftentimes as ruinous to shrink from proper indebtedness, as to incur debt unadvisedly.

The Concord Railroad trains do not now-a-days stop so you can pick berries, or even get breakfast along the road. So when we get to Putney's Saloon, on Elm Street, Manchester, we are prepared to break our fast and test some of their viands—and we find it as nice and neat a place as you could ask for. Oysters and meats are served finely, and we never ate better ice cream than here—and the attendants are prompt and courteous.

We find Br. Clarke, of the Mirror, just recovering from the lameness in his foot with which he was first taken severely at the Printers' Convention at Plymouth, and has been suffering for a month. He is much better, and with care we think will soon regain his usual robust health and muscle. He says he shall be all right for coons in a month or so. We think he is considerable of a coon himself, but hope it will be a long while before he will have to come down. We are greatly indebted to him and Br. Adams, also of the Mirror, for courtesies and attention which made our day or so in New Hampshire's chief city quite enjoyable.

Mr. Clarke lives in one of the nicest residences in the city; but he owns a neat little farm a mile or two out of town—to which we had a pleasant drive early Thursday morning, with one of the juniors Clarke,who is as full of horse and dog and sport as his pa,—and both the boys are gentlemanly lads.

They have had some good racing at the Manchester Park this week. On Tuesday, in trot for 3 minute horses, there were ten entries, including Lady Wilkes, Lady Emma, Bay Beauty and Sallie, all of which were on the Portsmouth track recently. At the start Lady Emma led off,but before reaching the quarter pole the tire of one of the wheels came off, but was seized by the driver, John McGlue, and throwing it over his shoulder he brought it to the stand. Notwithstanding this mishap, Lady Emma saved a distance after the accident. Sallie took the pole and retained it to the end of the heat, which she won in 2:39. Lady Emma came in second, and trotted finely all through, but Sallie was too much for her, and won in three straight heats, the others 2:41 1-2, 2:42,—Wilkes second, Beauty third.

The 2:35 purse was won by Black Harry, (driven by Harry Bradley, whom the Mirror calls one of the shrewdest and most successful drivers, but whom we regard as one of the foulest—shrewdness is often synonymous with unfairness,—on the New England turf,) in 2:34, 2:35, 2:31, Mountain Girl second, Centreville third.

On Wednesday, for 2:50 purse, seven horses came, including Lady Emma, Wilkes and Bay Beauty again. Wm. Woodruffe drove Emma this time, and she won the second money in good style, a gray mare of Hiram Woodruffe first, in 2:37, 2:40 1-2, 2:39 1-4.

In the 2:30 class were the same four horses as at the Portsmouth track last week, McClellan, Black Walnut, Empress and Nellie Locke. Belle Morrill was in, but did not appear, as there were Boston horses enough on the ground, it was thought, (and correctly, as it was managed and resulted,) to take care of all the money. Nellie had the pole, Empress next, Mac third, Walnut outside. It was the same old game over again, which we denounced the other day, only this time Empress was driven by her old driver, Wm. Woodruffe, and in his hands and on this hard smooth track, did very much better; and Nellie Locke was not so much the superior of all the others as on the former occasion and on the loose track here. But nevertheless, she was a full match for any horse in the race, if all were driven fairly.

But as usual, Bradley put in practice all the tricks of delay, and caused half a dozen false starts or so in each heat; and although by running, he made out to bring the Walnut horse in first three times, yet two of his heats and the race were given to Mac, 2:30 1-4, 2:32 1-2, 2:32 1-4, Walnut second,Empress third. Empress took the first heat in 2:33, so although Nellie, who trotted splendidly in the last heat, came in third, Empress got third money for her first heat, as had been planned by the Boston ring of drivers.

Mac was driven very fairly on this occasion, and so was Empress; but Harry Bradley violated the rules repeatedly, and should have been distanced from the race, (instead of only put back one place,) and left Nellie third money. We don't believe Bradley ever drove a race fairly and squarely, on the real merits and speed of the horses; but like tricksters in any department of life, he often profits by his overreaching. The judges were Dr. Wood, V. S., of Lowell, (a gentleman and well posted in the rules, but we could not help thinking he was a little inclined to favor or deal too leniently with Walnut,) Mr. D. A. Brown of Fisherville, owner of Lady Farnham, and Mr. Warren F. Daniel, of Franklin, a paper manufacturer, — both good horsemen and fair and square men. What slight penalty Bradley did suffer, was hardly with the concurrence of Dr. Wood, and we think that had he agreed with the other two, this hard nut of a horse and driver, would have been cracked by a distance, as they richly deserved.

The Boston Herald's reporter says the decision of the judges awarding the heat and race to McClellan, on the ground that the driver of Black Walnut took the pole from McClellan unfairly, gave much dissatisfaction to many persons, though it was approved by the majority of the most experienced horsemen on the ground. This is true, and is explained by the fact that considerable money was laid in the pools that Walnut would win—but every competent judge who saw the race, knows he was driven foully, and ought to have been distanced.

But there was some grand racing, at any rate; though rather long drawn out, owing to this old Harry solely. And it was laughable to us, here as everywhere, to note the impatience and vexation with which the uninitiated endure the numerous scorings—as if that is not as good as any part of the race, and in fact each scoring a race of itself.

The only thing to complain of is,that the usual lateness of trots, anywhere, is troublesome, and prevents strangers from abroad enjoying the finish, unless they stay away from home over night.

As to this matter of fairness in driving,—while a jockey, like a lawyer or merchant, may possibly be allowed to work all his art and artfulness to gain his race, as the others their cause or their trade, still it is clearly the place of the judge on the turf, as of him on the bench, to enforce the rules of each position, and keep all sharpers where they belong, or as near as may be. But then, after all, how difficult it is to get any case decided on its merits, isn't it? Even kissing goes by favor, so 'tis said; and those within the political or judicial rings, know how much certainty there is of the best man or the most just cause winning.

But away with horse trotting—let us to other subjects—till next time. The attendance was very good, and embraced many of the best people of Manchester.

Business, pressing, inexorable, called us home Thursday morning; but we had a few minutes for a drive to a beautiful residence called Riverside, before leaving Manchester, with a charming lady or one of her quartet of blooming daughters — and they all seem so much like sisters,we can hardly tell them apart, except that the one most of them call mother, is the gayest and seems to feel youngest. Dr. Ham's Aromatic Invigorator
removes from the system the ill effects caused by the excessive use of alcoholic liquors, and effectually destroys the appetite for these stimulants. It gives tone to debilitated mucous surfaces. Effete matter is removed from the system, thereby restoring it to its normal healthful condition. As a medicine, it is quite equal to curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.
This elegant preparation has stood the test of years. A wine-glassful before eating will give a good appetite and prevent all suffering from indigestion. Ladies of weak and delicate constitutions should take the Invigorator three times a day. A wine-glassful before retiring will insure sweet and refreshing sleep. All the proprietor asks is a trial, and to induce this he has put up the Invigorator in pint bottles at 90 cents,—quarts $1.00. Principal Depot, 45 CENTRAL WHARF, BOSTON. A Life-Saving Reformation.
A radical change has been introduced in the practice of medicine. Physicians have ceased to torture and poison their patients. Instead of pulling down, they build up; instead of assuming nature, they assist her. Cupping, leeching, blistering, venesection, calomel, antimony, stupifying narcotics, and rasping purgatives, once the idolatrous deities of the faculty, are now rarely resorted to even by the most dogmatic members of the profession. The old creed was that disease was something which had to be expelled by violent artificial means, irrespective of the wear and tear of the vital organization in the process. The new creed recognizes the improvement of the general health as essential to the cure of all local ailments. Hence it is that HOSTETTER'S STOMACH BITTERS, the most potent vegetable tonic that pharmacy has ever brought to the assistance of nature in her struggles with disease, has been cordially approved by practitioners of the modern school. It is pleasant to reflect that reason and philosophy have at last been victorious over the errors of the past, and that thousands, and tens of thousands, of human beings are alive and well to-day, who would indubitably be mouldering in their graves had they been subjected to the pains and penalties which were deemed orthodox and indispensable thirty or forty years ago.

Preventive medication was scarcely thought of then; but now it is considered of paramount importance, and the celebrity of the STANDARD REVENDORS, ALTERATIVE AND RESTORATIVE of the age, (a title which HOSTETTER'S BITTERS have fairly earned by their long career of success), is mainly due to its efficiency as a PROTECTIVE PREPARATION.

A course of the BITTERS is urgently recommended at this season of the year, as a safe and certain antidote to the malarious fevers produced intermittent and remittent fevers, diarrhœa, dysentery and other maladies.

Holloway's Pills.—A WORD TO LADIES IN DELICATE HEALTH.—The combination of aperient, tonic and alterative properties in HOLLOWAY'S PILLS, renders them a particularly desirable medicine for ladies of delicate habit. Their operation is mild and gentle, and in all functional difficulties their regulating and invigorating operation will be found in the highest degree beneficial. Hundreds have found in them the means of her healthful course they act as a swift corrective. Sold by all Druggists.

THE LATEST DISCOVERY
In Medication.
The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as confected candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S
LIVER AND STOMACH LOZENGE
is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in itself, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than **one thousand experiments**
were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.
In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitly more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised or other preparations or the prescriptions of the regular pharmacopœia.
☞ It is guaranteed that no one who has once tried Dr. ERASMUS WINSLOW'S **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

ALLEN'S LUNG BALSAM.
The best remedy for the care of CONSUMPTION, and ALL DISEASES OF THE LUNGS. It causes the phlegm and matter to rise without irritating those delicate organs (the Lungs,) and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, changes all the morbid secretions to a healthy state.
It contains no opium in any form. It is perfectly harmless for the most delicate child. It is everywhere in good demand and gives good satisfaction.
The result of its use is proof of its great value.—Its extraordinary healing properties are experienced by all who use it. Their testimony will be found in a pamphlet, which can be had of the agents where the medicine is for sale. 625

ASIATIC CHOLERA.
The Strongest proof of Intrinsic Merit.
DEAR SIRS.—I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The Cholera appeared here soon after we received it. We resorted at once to the PAIN KILLER, using as directed for cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, seen very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of the PAIN KILLER. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be very indifferently received.
Believe me, dear sirs, gratefully and faithfully
Yours, J. JOHNSON.

BRANDRETH'S PILLS.
They remove all bad accumulations from the bowels, and purify and invigorate the system. All whose health is not perfect, owe it to themselves to take a few doses of Brandreth's Pills, because the seeds of decay are constantly eradicated by their use, and the principles of life confirmed, thus giving a vigor of body and mind to a period when we have been used to see the faltering step and the enfeebled intellect.
General Paez, the distinguished liberator of Venezuela, says he has used them as his only medicine for thirty years, with the most satisfactory results.
For Costiveness, Dyspepsia, and as a Family medicine they are unrivalled.

PAIN KILLER.
WE beg leave to call the attention of the public to this long celebrated and unrivalled
FAMILY MEDICINE.
The PAIN KILLER is a purely vegetable compound, and while it is a most efficient remedy for Pain, it is a perfectly safe medicine even in the most unskilful hands.
For Summer Complaint,
Or any other form of bowel disease in children or adults, it is an almost certain cure, and has without doubt been more successful in curing the various kinds of
CHOLERA,
Than any other known remedy, or even the most skillful physician. In India, Africa, and China, where this dreadful disease is of more or less prevalent, the PAIN KILLER is considered by the natives, as well as European residents in those climates, jel9
A SURE REMEDY.

SCHENCK'S PULMONIC SYRUP,
Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs,and the patient outgrows the disease and gets well.—This is the only way to cure consumption.
To these three medicines Dr. J. H. SCHENCK, of Philadelphia, owes his unrivalled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the rotten matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.
To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.
Schenck's Mandrake Pills act upon the liver,removing all obstructions,relax the ducts of the gall bladder, the bile starts freely, and the liver is thus relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.
Liver Complaint is one of the most prominent causes of Consumption.
Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and make it into good blood without fermentation or souring in the stomach.
The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they damage the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.
Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Scrofula, if uncorrected Throat, unless the liver and stomach are made healthy.
If a person has consumption, of course the lungs in some way are diseased,either tubercles,abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what is to do? It is not only the lungs that are wasting,but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach,the patient will begin to want food, it will digest and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.
When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Pulmonic Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints,as they are perfectly harmless.
Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonic Consumption,his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success.
Full directions accompany each, making it not absolutely necessary to personally see Doctor SCHENCK, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond St., New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.
Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half-dozen.—Mandrake Pills 25 cents a box. G. C. GOODWIN & CO., 38 Hanover Street, Boston, Wholesale agents. For sale by all druggists. 6ly1s4

LOCAL AFFAIRS.

Communication.

Messrs. Editors:—Will you allow me to use your columns to call the attention of the police to a nuisance which demands instant and effectual abatement. At the vacant lot on the corner of Fleet and Hanover streets, a number of rude and vicious boys from seven to seventeen years of age, assemble every evening, and remain there till 9 or 10 o'clock, wrangling, cursing, and pouring forth torrents of filthy and obscene language. Accompanied by a gentleman, it is possible to pass them without being insulted; but an unprotected lady had better do as I do—make any circuit rather than pass these depraved boys and listen to the hideous language. I believe there are laws against the use of profane or obscene language; if there are, such laws are broken a thousand times every evening, publicly, and *loudly* enough to be heard a long distance, on the open patch of ground I have mentioned. If it can be done, I hope the dangerous ground will be made passable. Yours,

SARAH.

☞ It is a sad sight to see a man, otherwise respectable, prostrated in a public thoroughfare at noon-day, by the enemy which he "put within his mouth to steal away his brain," and only little less so, to see some of the spectators, who are gradually but surely travelling the road that leads to the same goal, but do not appear to be aware of it. "Wine is a mocker, strong drink is raging; whoso is deceived thereby is not *wise*." Men easily break through, or evade, or buy off, the penalty of human laws. But from the law which God has written on man's body and mind, there is no escape: the penalty of transgression is sure and certain.

Our Navy Yard Correspondence.

Sch. Edwin, Capt. Allen, from Newburg, N. Y., with oak timber for yard, arrived on Wednesday.

☞ Nothing is more apparent, in passing most of our streets, so dust and ashes like, than the comfortable and enjoyable condition of those localities, the inhabitants of which have public spirit and liberality enough to employ Mr. Plaisted's sprinklers to lay the evil spirit of dust among them.

SUMMER VISITORS are multiplying rapidly at the Beaches and the Shoals. On Thursday there was a large increase of visitors, driven from the large cities by the very warm weather. About 100 came in the morning train. The Shoals boat took out 100 and brought back about the same number.

EXCURSIONS. — Steamer Appledore will make an ocean trip from Pier Wharf on Sunday next, at 2 o'clock.

PERSONAL. — Rev. Dr. Dalrymple, President of Episcopal College, Baltimore, Professor Tyson and Rev. Mr. Leakin, are visitors at the Sagamore. Divine Services will be held there on Sunday morning, Rev. Dr. Dalrymple officiating.

☞ The many friends at home and abroad, of Dr. J. F. Hall of this city, will regret to learn that he has been seriously ill for a week or more; but is now, it is hoped, on the mending hand.

☞ The ship Yosemite, Mack, is at the Brooklyn Navy Yard, taking in powder and ordnance stores at the ordnance dock, intended for the Navy Yard at Mare Island, California.

☞ The drought is getting to be quite a serious matter in this vicinity. So much has it been discussed, indeed, that the subject has come to be a very dry one.

☞ The Portsmouth Cornet Band will give their 7th Concert of the season, on Market Square this (Friday) evening at 8 o'clock, weather permitting.

☞ A game of base ball at the Plains, between Hampton and Rye Beach nines, on Thursday, resulted in a victory to the latter by a score of 27 to 2.

☞ It is probable that the Philharmonic Society will give a concert at the Temple one evening in September, during the Fair. P.

☞ Schooner Light of Home arrived at Harding & Doane's, Newcastle, with 150 bbls. mackerel on Thursday.

☞ Chinamen never repudiate a debt. So it is said. Doubted. There are no more saints in China than in Mississippi.

☞ On Agamenticus Hill, in York, lies buried the Indian apostle, Saint Aspinquid. He was ninety-four years old when he died, May 1, 1662. At the age of forty-two or forty-three he was converted to Christianity, and spent fifty years of his life preaching to the sixty-six different nations or tribes of Indians in the country. His funeral was conducted with great pomp and ceremony. The Indians sacrificed the following wild animals to the departed spirit: 25 bucks, 67 does, 3 ermines, 32 buffaloes, 110 ferrets, 832 martens, 240 wolves, 82 wild cats, 482 foxes, 620 beavers, 500 fishes, 99 bears, 36 moose, 50 weasels, 400 otters, 520 raccoons, 112 rattlesnakes, 3 catamounts, 900 musquashes, 69 woodchucks, 1,500 minks, 38 porcupines. On his tombstone was placed the following inscription:

"Present, useful: absent, wanted;
Lived desired; died lamented."

POLICE MATTERS are getting more lively. Marshal Johnson commenced a raid on the houses of ill fame on Thursday, and two of the proprietors were hauled up on Thursday, and bound over in the sum of $300 each. The Marshal declares it his intention to prosecute these brothel keepers. It's about time. The bondsmen in these cases are James Downs, Jos. Grant, Jas. Brown and Sampson L. Russel.

The Marshal arrested John Cummings, a vagrant, on Thursday, having four washed but unironed shirts in his possession, which were probably borrowed from some clothes line. The loser of the property may obtain the garments at the Police Station.

FIRES are reported in the woods in various quarters. At Nottingham, Judge Butler's woods, and others, are said to have been burning since Monday morning, when the flames spread beyond control from bushes set. Since extinguished.

At York also, the woods on Mount Agamenticus were said o be largely on fire.

The bushes and limbs at Mayor Jones' farm on Monday, from which a general alarm arose, were not set by his order, but were prematurely fired by mischievous boys. So we are told.

DEATHS.

In this city, August 11, MARY MOORE MARSHALL, aged 11 months, daughter of Samuel H. and Fannie E. Marshall.

"FRESH AS A MAIDEN'S BLUSH"—Is the pure peachy Complexion which follows the use of Hagan's Magnolia Balm. It is the True Secret of Beauty. Fashionable Ladies in society understand this.

The Magnolia Balm changes the rustic Country Girl into a City Belle more rapidly than any other one thing. Redness, Sunburn, Tan, Freckles, Blotches and all effects of the Summer Sun disappear when it is used, and a genial, cultivated, fresh expression is obtained which rivals the Bloom of Youth. Beauty is possible to all who will invest 75 cents in any respectable store and insist on getting the Magnolia Balm. je31 1mw

A PACIFIC RAILWAY
GOLD LOAN $6,500,000.
We beg leave to announce that we have accepted the agency of the
KANSAS PACIFIC RAILWAY COMPANY,
For the sale of its
NEW SEVEN PER CENT.
Thirty Year Gold Loan,
Free from Tax.
This Loan amounts to $6,500,000.
First Mortgage Land-Grant and Sinking Fund Bonds,
secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles of which 12 miles are completed, and the rest is under construction. It is also a Mortgage upon Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,
And in successful operation for 437 miles
west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the
GOVERNMENT LAND GRANT OF THREE MILLION ACRES,
extending in alternate sections on either side of the track, from the 394th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as
A SINKING FUND FOR THE REDEMPTION OF THE BONDS.
The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and pinery. The company also holds as an asset another tract of
Three Millions of Acres in the State of Kansas,
and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the
Value of the Company's property, covered by this mortgage at $23,000,000 net, while the Loan is merely $6,500,000.
The Bonds have
THIRTY YEARS TO RUN,
from May 1, 1869, and will pay
SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.
The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be
PAYABLE IN FRANKFORT, LONDON OR N. YORK
at option of the holder, with notice, at the following rates:
On $1,000 Bond in N. Y. $35 (gold) each half year.
" London..£7 8s. 10. "
" Frankfort..87 fir. 30 kritzs., "
The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it passes, thoroughly examined. They are happy to give the Loan an emphatic endorsement as a
FIRST CLASS INVESTMENT,
in every respect perfectly sure, and in some essentials even
Better than Government Securities.
The Bonds will be sold for the present at
96, *and accrued Interest, both in Currency,*
the Agents reserving the right to advance the rate.
The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.
Gold and Government Securities taken in payment at their market value, without commission.

Morning Chronicle.

From Packard's Monthly for August.

An Interview with Lola Montez.

BY HANNAH MCL. SHEPPARD.

Our hostess was apparently in high spirits, and entertained us with many a story of her adventures at sea and on shore, but particularly with accounts of her late visit to California. The peculiarity which struck me most forcibly in her manner was a'want of repose. She seemed constantly on the alert, as if watching for something—getting up from her seat suddenly, walking hurriedly a few paces, then sitting down again; perhaps occupying three chairs in as many minutes. Not only in the parlor but at the table she showed the same uneasiness; she seemed to change attitude and expression almost every moment, while her ready wit, bright sallies, skilfully worded *bon mots* (sometimes even tinged with *double entendre*) allowed no flag in the conversation, and made the hours pass like moments.

When the time came for us to leave the gentlemen to their wine, she said, "Now, gentlemen, pray do not hurry, for I wish to have a good, long talk with Mrs. Shepard."

When we reached the parlor she turned round to me, and, taking both my hands, kissed me on either cheek; and, as she lowered a blind and shook up the pillows of a lounge, said, "Now we shall have a cozy time."

Sitting down by me, she looked at me earnestly a moment—the wistful look of last night creeping into her face—and asked, "Are you happy, my dear?" A little sadly (for I know *she* could not know *my* happiness) I replied, "As happy, madame, as is possible this side Heaven—the only sorrows I have are the sorrows of others." I longed to put my arms around her at that moment and say some loving word to her, she seemed to me so bankrupt of all true happiness; but I feared she might misunderstand me, or resent it, so I simply said, "Since you have asked me this question, and I have answered it, will you forgive me if I tell you that you do not seem happy to me? You appear so restless and disquieted; over and over again to-day you have made me think of your dance last night, and almost believe that you have been bitten by a tarantula."

Rising from the couch beside me, she stood up, stamping her foot upon the matting; and with a suppressed vehemence, as endeavoring to control some powerful emotion, exclaimed, "Happy! *I* happy! No, I never had a truly happy day in all my life. Restless? Bitten by the Spanish spider? Yes; yes, indeed; bitten by despair. Rest or happiness are not for me. I shall not find either till I am so." (Closing her eyes and crossing her hands upon her breast.)

"And *then*?" I asked softly. I suppose she thought it was "*cant*," or else some revulsion of feeling came over her, for she turned away hastily with an indescribable shrug, saying, in a sharp sneering tone, "Then? Bah? bagatelle!"

"Pardon me," I said, "I did not mean to hurt you. God knows I would help you if I could. There is One who can. Can you not go to Him? He has borne our griefs and carried our sorrows. He knoweth our frame. He remembers we are dust. He is mighty to save."

The glitter faded from her eye, but it did not soften, and she answered coldly and hardly, "He never carried my griefs; He doesn't remember me; He never knew me. Come, let us talk of something else. Do you not almost die of *ennui* here? No women, and the men *'muffs?'*"

I laughed, and said, "you forget that the 'muffs' are all indifferent to me, and that I rejoice in a husband who is"—Taking the words from my mouth, she said, "Oh, yes, perfect, I dare say! Well, I know men well, and I think he *is* good."

An hour of pleasant chat, concerning art generally, and *her* art in particular, followed, and at the close of it she said, "I know you are not coming to see me dance to-night; and, indeed, I am glad you are not. I shall always remember this visit with pleasure. I feel that you are *true*, and I have seen in your face the *loving* look. I shall never forget it, for I crave love more than anything under the sun."

"You have had much of it," I said.

Putting her hand out towards me in such a way that I must have been made of stone had I not taken it in *both* my own, she said, "I think I have never had any true love in all my life. I often wonder what my father would have been to me had he lived—what I should myself have been if I had known his love. My mother never loved me—she turned me from her breast to a hired nurse. I was alien from babyhood. When I was only five years old she sent me from home to a hard Scotch school. I tell you, madame, my life has been barren of much good. I never had a *real mother*, a *real home*, a *real love*. It has all been mockery!" Then she told me some of the facts of her child life and incidents of her girlhood which colored her whole future, and to which I have alluded before.

While she talked the gentlemen came in, and soon it was time to dress for the play; so Mr. Shepard and I took our leave, and I never again saw Lola Montez.

Two or three days after our meeting, at another Station where she was playing, she gave the Commissioner who dined with us that day a most liberal horse-whipping for some disrespect. The next I heard of her she was lecturing, and as popular on the platform as she had been upon the stage. Many times I asked, can it be possible that God will allow this life to go on bewildered and benighted to the end, and then out into darkness? By-and-by word came that the magdalen was released from her devils, that she was a redeemed woman, sitting lovingly, humbly, at the feet of Him against whom she had sinned, and spending all her strength and energy in endeavoring to reclaim her fallen sisters. There are many in this city to-day who can testify to the good she did, and to the beauty of her spiritual life during the latter part of her life. Time passed, and one day I stood beside the grave of Eliza Gilbert, and knew that of a surety, not only was the worn, weary body, with closed eyes and folded hands, resting peacefully in the quiet Greenwood grave, but, also, that the purified spirit had passed on into the land Beulah—even into the rest that remaineth unto the people of God.

AVERILL CHEMICAL PAINT!

THE RIGHT THING AT LAST!

BENJAMIN NORTON,

Having been appointed Selling Agent for this City and surrounding towns, of the AVERILL CHEMICAL PAINT COMPANY, is now prepared to sell any quantity, from one pound upward, of

THE BEST PAINT!

ever offered in this city.

It is Durable, Beautiful, Water Proof, Elastic and Economical.

This Paint is all Ready for Immediate Application, and requires no oil, thinning or drying.

It is prepared in pure White and one hundred Different Shades, and is unsurpassed in all respects.

It dries with a hard, rich, glossy surface; does not run from seams or nail holes; will not chalk, crack or peel off; covers more surface with the same body, and is cheaper, more lasting, and better in every respect than any other Paint.

Many testimonials from those who have used it in other places of its superiority over other Paints might be given; but I will only invite those of this city and surrounding towns who intend using Paints, to call at

GROCERY AND PROVISION STORE,

Nos. 16 & 18 Cabot Street,

which is the ONLY PLACE in the City where it has been used, and examine the Paint where it has been applied in ten or twelve different shades, and where they can choose any color they desire for use, outside or in, and buy from one pound upwards.

In using the Chemical Paint, there is no difficulty in matching any color at any time, as all the shades are numbered, and the same number will always match.

These Paints are manufactured in New York, and Newburyport. BENJ. NORTON,

Agent for Chemical Paint Company.

Also for sale, at the same place, the Best Quality of

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the United States Patent Office, Washington, under the Act of 1837,

No. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Canada, Nova Scotia, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed in the shortest time, and on the most Reasonable terms. Research made into American and Foreign works, to determine the validity and utility of Patents or inventions; also, legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twice rejected applications*. Of these, NINE WERE ALLOWED EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON,

Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man more competent and *trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,

Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which the patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

New York trains leave the Old Colony and Newport Railway Depot, corner of South and Kneeland Streets, daily, (Sundays excepted,) as follows: at 4.30 P. M., arriving in Newport 40 minutes in advance of the regular Steamboat Train, which leaves Boston at 5.30 P. M., connecting at Newport with the new and significant steamers PROVIDENCE, Capt. B. M. Simmons, and BRISTOL, Capt. Benj. Brayton. These steamers are the fastest and most reliable boats on the Sound, built expressly for speed, safety and comfort. This Line connects with all the Southern Boats and Railroads from New York going West and South, and convenient to the California Steamers.

☞ To Shippers of Freight, ☜ this Line, with its new and extensive depot accommodations in Boston, and large pier in New York, (exclusively for the business of the Line,) is supplied with facilities for freight and passenger business which cannot be surpassed. Freight always taken at low rates, and forwarded with despatch.

New York Express Freight Train leaves Boston at 1.30 P. M.; goods arrive in New York next morning about 6 A. M. Freight leaving New York reaches Boston on the following day, at 9.45 A. M.

For tickets, berths and staterooms, apply at the Company's office at No. 3 Old State House, corner of Washington and State Streets, and at Old Colony and Newport Railroad Depot, corner of South and Kneeland Streets, Boston.

☞ Sunday Night Line. ☜

Cars leave every Sunday evening, at 5.30 P. M., connecting as above.

The Office, 3 Old State House, Boston, will be open every Sunday evening, from 6 to 8 o'clock, and at the Depot from 9 to 10 A. M., and from 5 to 6.30 P. M., for sale of tickets and staterooms.

Steamers leave Pier 38 North River daily, (Sundays included,) from Pier 28 North River, foot of Murray Street, at 5 P. M.

The Chronicle.

HOW TO MAKE A HORSE'S BED.—If the ideas of a score of farmers touching the manner of making a decent bed for a horse, could be written out, doubtless the document would be a strange commentary upon stable management and grooming. The best material for making a bed for a horse confined in stall, is short straw, chaff, sawdust or dry tan-bark. If straw be long, it will pay to run it through the fodder cutter that will cut it in lengths of three inches. Then, after removing all the droppings of the animals, let the litter—whatever it is—be spread evenly over the entire stall floor, not less than three inches in depth. This will not fail to make a comfortable bed for a weary animal after he has finished his evening feeding.

When short machine straw is employed for bedding, the first thing, which will always be found of prime importance, is to remove the droppings from the stall. It may seem strange to many grooms that we insist so strenuously on the removal of the accumulations of the stall. But it is a practice with a great many farmers to clean their stalls once a week; and in many instances, the part of the stall round about the hind feet of the animal is allowed to be filled with manure, and packed down six inches in depth.

No animal can lie down with any kind of comfort while his bed is so uneven.

Let the droppings be removed back beyond the feet of the horse every evening, if nothing more. Then, with a wooden-tined stable fork, shake the straw to pieces and scatter it evenly over the stall floor, not less than one foot deep.

There is nothing lost by using a large quantity of straw for bedding. On the contrary, there will be much gained in two ways, viz., in the saving of valuable liquid manure by absorption, and in affording quiet rest for a horse after having performed hard service.

Most horses are exceedingly fastidious about their beds, and unless a comfortable and clean place has been prepared, they will not lie down for several successive days. On the contrary, if the bed be made as directed, horses will lie down for many hours, when they would otherwise have continued to stand until their limbs were so swollen and weary that they could not keep on their feet any longer. A horse is a very neat animal, and will not lie down in filth, or on a cold floor, unless he is exceedingly weary.—*Exchange.*

Any man who allows a horse to sleep or even to stand in his own filth, is not fit to own or take care of a decent animal, and deserves never to ride at all, and to sleep on a board himself. And in fact, a horse with sense enough to keep a bed under him, ought to stand on straw or hay, or sawdust, (and we do not like this last,) all the while, when not at work nor expected to be taken from the stall. We believe in keeping horses bedded down at all times, unless constantly at work; and if those men who think a horse may as well keep on his feet all day long, and lay down only at night, were obliged to do the same themselves for a while, we guess they would experience a change of mind on that subject at least.

It takes but very little more bedding to do this, and all of the litter goes to swell the manure heap; and all horses kept in stalls of proper width will lie down several times every day, and thus keep their feet and legs, and their whole bodies, in much better or at least more comfortable condition.

Of course animals that are taken out and in often, do not need beds or litter so much to stand upon in the daytime; nor do we care a rush for the stupid brutes who are continually pawing and kicking in their stalls—though doubtless many learn to do this for lack of something of the kind, but it never looks right to us, to see horses standing on a bare floor, and most farmer's horses especially would be much better off with a portion of the excess of hay they eat, kept under their feet.

AN EXACTING MISTRESS.—Lovers must not trust too implicitly to any of their five senses. A tender swain reproached a fair one with allowing a rival to kiss her hand, a fact that she indignantly denied. "But I saw it." "Nay, then," cried the offended fair, "I am now convinced you do not love me, since you believe your eyes in preference to my word."

—Rev. Joshua R. Swan was ordained pastor of the First Parish in Kennebunk in Feb., 1860. In May, 1868, his Parish gave him leave of absence on account of ill health, and last fall he went to Europe. He returned home in May with improved, but not restored health. At his own request the parish have reluctantly accepted his resignation.—*Saco Dem.*

READ THIS.
ASIATIC CHOLERA IN CHINA.
No Almost Every Case Cured with
Pain Killer.
Dear Sirs: I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send us last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. We resorted at once to the Pain Killer using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every one to whom it was prescribed, recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are now willing to go out on their excursions without a supply of Pain Killer. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be indifferently received. Believe me, dear sirs, gratefully and faithfully yours,
J. M. JOHNSON, Missionary in China.
From Rev. R. Telford, Missionary in China, now visiting his home in Washington, Pa.
Dear Sirs: During a residence of some ten years as a missionary in Siam and China, I found your Pain Killer a most valuable remedy for that fearful scourge, the cholera. In administering the medicine I found it most effectual to give a teaspoonful of Pain Killer in a gill of hot water sweetened with sugar; then after about ten minutes begin to give a tablespoonful of the same mixture every half hour until relief was obtained. Apply hot applications to the extremities. Bathe the stomach with the Pain Killer clear, and rub the limbs briskly. Of those who had the cholera, and took the medicine faithfully in the way stated above, eight out of ten recovered.
Truly yours, R. TELFORD.
If attacked with diarrhœa, dysentery, or cramp colic, don't delay the use of the Pain Killer.
Beware of all Imitations.
The Pain Killer is sold by all druggists.

☞ PERRY DAVIS' VEGETABLE PAIN KILLER, will only be following from the Providence General Advertiser: At this season of the year, when cholera, cholera morbus, dysentery, and other kindred complaints are sure to prevail, everybody should be liberally supplied with the PAIN-KILLER. Persons leaving home whether it be for a day's excursion or a trip to Europe, should be in a condition to place their hands on it at a moments warning. Many diseases incident to the summer months which will prove fatal if not immediately checked, can be promptly cured by one or two doses of the Pain-Killer. On more than one occasion have we been relieved of intense suffering by the timely use of the above named preparation." Sold by all Druggists, Grocers and Medicine Dealers. jy13 4w

DODD'S NERVINE DID IT.
NEW LONDON, CONN., April 26, 1869.
REMEMBERED FRIEND:
I thought it well to wait another week before writing, to see if I continued to improve, as I have been doing for some time, under the treatment of the new medicine, and I am happy to tell you that I am getting better—even faster than when you were here. I commenced the use of DODD'S NERVINE without anybody advising me to it. When I began with it I could only walk from my bed to the chair. My trouble has been extreme pain in the head, and has lasted over three years. All the medicine I have heretofore taken has failed to give any relief. I am now able to go up and down stairs, and daily improving. I consider the NERVINE the best medicine I ever found, and shall continue its use, for I am confident of entire recovery. I have taken only three bottles, and would not be without it on any account. [jel5 8w] Very truly, MRS. I. S. NUTE.

MASTA'S PULMONIC BALSAM
IS A SPEEDY and certain remedy for Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Catarrh, Influenza, Hooping Cough, Asthma and the various Affections of the Lungs.
☞ The attention of those afflicted with COLDS, COUGHS, and with any disease of the lungs, is directed to this valuable remedy. On account of sudden changes in the weather, colds and coughs are easily taken, and if neglected may lead to disease of the lungs. What is needed under such circumstances is a reliable remedy—speedy in affording relief, and effectual in arresting further progress of the disease.
☞ To arrest the existing irritation of the air-passages and the lungs, speedily and effectually, the seat and cause of cough is an important step gained toward relief and cure in the first stages of the disease. MASTA'S PULMONIC BALSAM possesses this important power, and while it promptly and effectually arrests all existing irritation, and rapidly relieves cough, it renders the lungs further relief by promoting a free discharge of the accumulated mucus in the air-passages, imparting a healthy action and vigor to the chest at the same time.
☞ Those suffering with cough and the first stages of lung disease, will therefore find in this valuable preparation a speedy and decided relief. Even those whose condition is beyond recovery, will derive from its use great benefit as well as comfort. For the class of diseases it is designed to relieve, the general commendation it has received has proved its efficacy beyond question. For the past ten years have been speedily and effectually cured by its timely use while suffering from severe colds, protracted coughs, and from other forms of lung disease. It is prepared from vegetable balsams and the medicinal properties of roots and herbs, with no minerals nor poisonous acids; simple and safe in the material used, it can be taken on at any time.
Sold in Portsmouth by J. H. THACHER, and by Druggists and Dealers in medicines throughout the New England States.

SATURDAY, AUGUST 14, 1869.

Interviewing a Deputy Sheriff.

To be properly posted in the varying fashions of journalism, is as necessary to a faithful chronicler of events as for a lady to thoroughly and speedily become acquainted with the latest Parisian fashions. Pursuant to the determination of following the latest style of the New York press, our reporter hied him to the residence of Deputy Sheriff Chas. H. Joy, the genial host of Islington Pavilion, whose acequaintance it is a pleasure to make—unless one calls on business. 'Twas a warm day, with the thermometer among the nineties, and rather favorable to our purpose of procuring an interview. Having but little time to spare, we plied our questions pithily and were kindly answered in a straight-forward manner, which betokened the candor and open-heartedness of the Deputy Sheriff. Our conversation was not confined to local matters wholly, and we were glad to find the D. S. nearly of the same opinion as ourself on most of the questions of the day.

To a query whether the eclipse of last week was in any way responsible for our dusty streets, he replied that "it was a natural consequence. We must ever judge of causes by results. Not only last week, but for many previous weeks had the minds of our city authorities been in an eclipse. Look at results! Here we have streets filled with flying dust. This dust is of gravel, laid on unsparingly; soon to be pulverized to minute powder. Thank Heaven, gravel is growing more scarce; and our supply of dust will grow more and more expensive, unless flour is used instead of the present gravel. Then it would be better for the poor, for flour powder digests, but people who inhale too much gravel powder just die. It is not sufficiently nutritive to support life." Our bland and communicative friend drew a long breath and we smiled.

"To return to your direct question," he continued, "it is at once evident that our city officials are in an eclipse. How long total obscuration will continue, time alone will show. Were they to see as others see, did they but consider for a moment, were they faithful to their trusts, they would purchase a quartz crusher instantly. My dear sir, taken in the light of an economical move, the investment would be a paying one. Here we have millions of rocks, big and little, which could be ground to small bits and spread over our thoroughfares, and a permanent change would result. Months of wear would only add to their solidity, and repairs would be less frequent, because less needed. Now we pay away rocks of more value for gravel pits, which are nothing more than dust makers. An easier question than you have asked, cannot be thought of. Certainly, the eclipse is solely the cause of so much dust!"

Satisfied with his argument and answer, we changed the subject, and inquired why people would persist in eating unripe fruit and "green things" when the chances were that it would demoralize their digestive apparatus. He said it was "the fault of the physicians. Happening about town a short time ago I saw one of this respected class of our citizens purchase a couple of cucumbers. I watched that man as he paid four cents to the dealer and started towards home. Having gone a short distance, I was not surprised to see him cast the cholera causers over a convenient fence. Do you know *why* he bought those things? I will tell you. Many people are fond of them and seeing physicians indulge in them are very liable to think they are not dangerous eating, after all. That physician made a good investment. 'Twas only four cents! Two of the bystanders who followed his example partially, but did not throw them over the fence, had cases of cholera morbus in their families next day, and that same physician was called to attend the six persons. I tell you, my boy, there's much in human nature!"

Our worthy host then arose and took a hasty stride across the room, as if nervously fearing that he might be seduced from his determination to eat no unhealthy food, and thereby become reduced in corporate size.

Our interview did not terminate here. The subjects discussed were varied, and some touched on personal matters, which might be interesting did we not withhold them from the public, on account of a proper regard for the feelings of others. On politics we found our friend sound. He thought Pendleton wouldn't be chosen Governor of Ohio, because the other man (Hayes) would get the most votes. Hoffman, Hendricks or Chase might be the next Democratic candidate for President. He ridiculed the idea of bringing out any Republican candidate for Mayor at the next election, unless those who bolted before could be got rid of forever. He thought it would have been a good lesson for them had the Democracy carried both branches of the city government, last year.

On the constabulary law he should vote "no." He was a temperance man, but what would be the use of voting to raise a constabulary force unless the liquor law should be amended so that it might be enforced. We disagreed with some of his conclusions, while agreeing with him in many particulars.

On the clam question he was noncommittal, not having studied the question so deeply as did Hon. John R. Reding. He thought it seemed ridiculous, however, to expect the bivalves to increase more rapidly in consequence of frequent digging. If they did, it served them right for being dug!

Having obtained much valued information from the protracted interview, we indulged in pop beer, and retired with an increased feeling of respect for our popular Deputy Sheriff.

New Hampshire Items.

Thomas Burleigh of Franklin was brought before Justice Stone, on Monday, charged with being a common seller of liquor on the 6th. Burleigh was discharged.

On the 7th, in Nashua, the house of Mrs. Towle was entered by a burglar. Mrs. T. was awakened and lit a lamp to explore the house, whereupon the would-be robber left without getting any plunder.

It appears that Jackman, the shoe thief at Concord had got one load of shoes before he was caught. He had hid these behind a saloon, just below the Sherman House, where they were found on Monday.

Hon. J. D. Lyman, Sec. of State, has bought a house in Exeter, and is to remove thither.

The Robinson Female Seminary, at Exeter, is fast approaching completion.

The Tannery of Jeremiah Mahoney, at Dover, was burnt on Tuesday night; loss $4000. Partially insured.

A gentleman now stopping in Manchester who for ten years past has see n as much of the world in all its phases as one can desire, who considers himself sharp enough to take care of himself and his wallet in the roughest society, had the misfortune recently to have his pocket picked. He don't care to have his name announced.

Capt. Samuel Yeaton, of Wakefield, lost a valuable cow on the 1st inst., in a very singular manner. By some means or other she fell into a small hole among some rocks in her pasture, doubling her neck under her body, forcing one horn into the ground and the other against her side, thus choking herself to death.

A meeting of persons interested in the construction of the Nashua and Rochester Railroad was held in Fremont, in the Town Hall, on the afternoon of the 11th inst. Hon. I. L. Robinson, of Fremont, acted as Chairman, and Daniel Sanborn as Secretary. Addresses were delivered by Judge Sawyer, Gen. Israel Hunt and O. C. Moore, of Nashua, Hon. Jacob H. Ela, Thomas Chase, Col. Josiah C. Eastman, of Hampstead, and Jonathan Cartland, of Lee. A series of resolutions approving the enterprize, was unanimously passed. A petition was drawn up and signed by the citizens of Fremont present, asking the Selectmen of that town to call a meeting of the legal voters, to decide whether they would appropriate five per cent. of the the valuation of the town in behalf of the proposed railroad.

EXTRAORDINARY TROTTING.—Goldsmith Maid won a race at the Buffalo Driving Park on Thursday in the fastest time ever made in three successive heats; 2:19 3-4 2:19 1-2, 2:19 3-4—total 6.59. The fastest time ever made before in three heats was that of Lady Thorne in 7:02. 30,000 people were in attendance, and the race was very close. Goldsmith Maid, American Girl and Geo. Palmer kept nearly even to the three quarter pole where they lapped until within 50 feet of the stand when the Maid shot ahead and won. The Girl was second and Palmer third.

LAUNCH.—The fine new ship Comet, was launched from the yard of Messrs. Peirce & McMichael, Chelsea, on Thursday afternoon. She is about 1200 tons measurement, intended for the San Francisco and China trade, and her beautiful lines and thorough workmanship remind one strongly of the excellent ships which we regret that Mr. Peirce's father constructed so few a of at Peirce's Island, on the Piscataqua. Hereditary nobility has been a curse to many a country;—hereditary capability has proved an honor to our own.

The News.

Advices from Cuba give favorable accounts of the operations of the insurgents. The Cubans are represented as being successful in all their strategic operations and victorious in every encounter lately had with the Spanish volunteers. It is urged that if belligerent rights were accorded to the Cubans by the United States, within thirty days they would have possession of the whole island outside Havana, and the capture of that city would be certain in a short time thereafter. [To be received with some grains of allowance.]

The Archbishops of Dublin and Armagh have written to the committee of the Irish Church Conference that the bishops who were present at the late assembly deem it inexpedent to re-assemble at the general conference, as that course is distasteful to a large body of the churchmen.

Some specie and nine mail bags have been recovered from the wrecked Germinia by divers.

The rebellion in Uruguay has ended.

A fire broke out in Portland, Friday morning, at 2 o'clock, on the corner of Pleasant and Centre streets, which destroyed ten buildings, turned seventeen families out of their houses, and burnt five horses to death. An aged Irishwoman, Mrs. Winnifred Welsh, perished in the flames. The engines and firemen worked well, but water was scanty.

LOCAL NEWS VIA BOSTON.—A Rye correspondent of the Boston Journal says there was a game of base ball a Portsmouth Plains on Wednesday between Rye Beach and Portsmouth nines. We don't think Rye Beach could get away with *any* Portsmouth nine with such small a score as 2.

BURIED ALIVE.—Dea. George A Dow, a stone-mason, at Concord, on Thursday afternoon, was engaged at the bottom of a well, 40 feet deep, when the quicksand and curbing gave way above him, and buried him out of sight. A large number of men instantly commenced work to reach him, and after active labor for hours, took him out, dead.

BUSINESS NOTICES.

☞ There are valuables which will be received into the vaults of a bank only on sufference and many others that will not be received on any terms. Towns possessing no suitable place of deposit often lose valuable records and papers, impossible to replace, by fire or robbery. The UNION SAFE DEPOSIT VAULTS, 40 State Street, Boston, were instituted to remedy these evils, and their great success has only been commensurate with their true deserts. Individual safes are rented there for of $100 a year. Circulars of Henry Lee, Manager.

WITH DYSPEPTICS everything is wrong. Food does not digest; sleep does not refresh; wine does not cheer; smiles do not gladden; music does not charm, nor can any other joy enter the breast of the miserable dyspeptic. You must get rid of it or it will become seated and confirmed, and life will be a burden and existence a curse. PLANTATION BITTERS will do away with all this. New life, strength and energy will take possession of you. The damask will again bloom upon your cheek, and the lustre in your eye will again be as bright as in your healthiest, happiest and most joyous days.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

Dr. Ham's Aromatic Invigorator

removes from the system the ill effects caused by the excessive use of alcoholic liquors, and effectually destroys the appetite for these stimulants. It gives tone to debilitated mucous surfaces. Effete matter is removed from the system, thereby restoring it to its normal healthful condition. As a medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

This elegant preparation has stood the test of years. A wine-glassful before each meal will give a good appetite and prevent all suffering from indigestion. Ladies of weak and delicate constitutions should take the Invigorator three times a day. A wine-glassful before retiring will insure sweet and refreshing sleep. All the proprietor asks is a trial, and to induce this he has put up the Invigorator in pint bottles at 50 cents,—quarts $1.00. Principal Depot, 45 CENTRAL WHARF, BOSTON. A Life-Saving Reformation.

A radical change has been introduced in the practice of medicine. Physicians have ceased to torture and prostrate their patients. Instead of pulling down, they build up; instead of assaulting nature, they assist her. Cupping, leeching, blistering, venesection, calomel, antimony, stupefying opiates, and rasping purgatives, once the favorite resources of the faculty, are now rarely resorted to even by the most dogmatic members of the profession. The old creed was that disease was something which must be expelled by violent artificial means, irrespective of the wear and tear of the vital organization in the process. The new creed recognizes the improvement of the general health as essential to the cure of all local ailments. Hence it is that HOSTETTER'S STOMACH BITTERS, the most potent vegetable tonic that pharmacy has ever brought to the assistance of nature in her struggles with disease, has been cordially approved by practitioners of the modern school. It is pleasant to reflect that reason and philosophy have at last been victorious over the errors of the past, and that thousands, and tens of thousands, of human beings are alive and well to-day, who would indubitably be mouldering in their graves had they been subjected to the pains and painful remedies which were deemed orthodox and indispensable thirty or forty years ago.

Preventive medication was scarcely thought of then; but now it is considered of paramount importance, and the celebrity of the STANDARD INVIGORANT, ALTERATIVE AND RESTORATIVE of the age, (a title which HOSTETTER'S BITTERS have fairly earned by their unparalleled success) is mainly due to its efficiency as a PROTECTIVE PREPARATION.

A course of the BITTERS is urgently recommended at this season of the year, as a safe and certain antidote to the malaria which produces intermittent and remittent fevers, diarrhœa, dysentery and other maladies.

Holloway's Pills.—A WORD TO LADIES IN DELICATE HEALTH.—The combination of aperient, tonic and alterative properties in HOLLOWAY'S PILLS, renders them a particularly desirable medicine for ladies of delicate habit. Their operation is mild and gentle, and in all functional difficulties their regulating and invigorating operation will be found in the highest degree beneficial. When nature deviates in any way from her healthful course they act as a swift corrective. Sold by all Druggists.

THE LATEST DISCOVERY
In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S
LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the chief ingredient. Never than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equals either among advertised preparations or the prescriptions of the regular pharmacopœia.

We feel confident that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge,** will ever again take a purgative powder, or drought or pill.

ALLEN'S LUNG BALSAM.

The best remedy for the cure of CONSUMPTION, and ALL DISEASES OF THE LUNGS. It causes the phlegm and matter to rise without irritating those delicate organs (the Lungs,) and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless for the most delicate child. It is everywhere in good demand and gives good satisfaction.

The result of its use is proof of its great value.—Its extraordinary healing properties are experienced by all who use it. Their testimony will be found in pamphlets, which can be had of the agents where the medicine is for sale. d25

Ellis' Iron Bitters

Will enrich the blood and prevent it from becoming watery and weak, give a healthy complexion, restore the appetite, invigorate the system, and are very palatable. These Bitters are recommended to all persons requiring a safe and valuable tonic, to impart tone and strength to the system, not given by bitters merely stimulant in their effect, which, although they may possess tonic vegetable properties, cannot give the strength to the blood which the *Iron Bitters* will give.

ASIATIC CHOLERA.

The Strongest proof of Intrinsic Merit.

DEAR SIRS,—I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The Cholera appeared here soon after we received it. We resorted at once to the PAIN KILLER, using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that not one of every dozen to whom it was prescribed, recovered. It has, too, seen very useful in various other diseases. It has proved an invaluable medicine to our thousands of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of the PAIN KILLER. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be very indifferently received.

Believe me, dear sirs, gratefully and faithfully Yours, J. M. JOHNSON.

Missionary at Swatow, China.

GRANT & PROSPERITY.

Business revives under the new regime. Other than general causes have, however, given a tremendous impetus to the sale of

Cristadoro's Excelsior Hair Dye.

The chemists have come out in two leading scientific journals against the use of other *poisons for the head* (for that is their proper designation,) with which the country is infested, while Dr. Cristadoro, the first analytical chemist in America, announces to the world that

CRISTADORO'S DYE IS UTTERLY POISONLESS,

and that he *knows it to be so*, because he has analyzed it.

CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, acts like a charm on the Hair after Dyeing. Try it. 2ly22

BRANDRETH'S PILLS.

They remove all bad accumulations from the bowels, and purify and invigorate the system. All whose health is not perfect, owe it to themselves to take a few doses of Brandreth's Pills, because the seeds of decay are constantly being implanted by their use, and the principle of life confirmed, thus giving a vigor of body and mind to a period when we have been used to see the faltering step and the enfeebled intellect.

General Pace, the distinguished liberator of Venezuela, says he has used them as his only medicine for thirty years, with the most satisfactory results.

For Costiveness, Dyspepsia, and as a Family medicine they are unrivalled.

Daniel I. Tenney, Esq., Astor House, New York, cured by Brandreth's Pill of Dyspepsia and Costiveness, when all other means used had failed.

A gentleman, whose father died of consumption at 36 years, was also attacked, when about 21, by the disease. He had cough, night sweats, and general debility. Doctors recommended cod liver oil, but he wasted away. At last he determined to use Brandreth's Pills. In two months they made him a sound man. jy22

PAIN KILLER.

WE beg leave to call the attention of the public to this long celebrated and unrivalled

FAMILY MEDICINE.

THE PAIN KILLER is a purely vegetable compound, and while it is a most efficient remedy for Pain, it is a perfectly safe medicine even in the most unskilful hands.

For Summer Complaint,

Or any other form of bowel disease in children or adults, it is an almost certain cure, and has without doubt been more successful in curing the various kinds of

CHOLERA,

Than any other known remedy, or even the most skillful physician. In India, Africa, and China, where this dreadful disease is ever more or less prevalent, the PAIN KILLER is considered by all nations, as well as European residents in those climates, je19

A SURE REMEDY.

SCHENCK'S PULMONIC SYRUP,

Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well.—This is the only way to cure consumption.

To these three medicines Dr. J. H. SCHENCK, of Philadelphia, owes his unrivalled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions; when the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented equal to calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juices, which make the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach; the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success.

Full directions accompany each, making it not absolutely necessary to personally see Doctor SCHENCK, unless patients wish his lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond St., New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every other Wednesday. He gives no advice free, but for a thoroughly examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half-dozen.—Mandrake Pills 25 cents a box. G. C. GOODWIN & CO., 38 Hanover Street, Boston, Wholesale agents. For sale by all druggists. d1yjas

DENTAL NOTICE.

69 Congress Street, Portsmouth.

DR. GOODALL takes pleasure in announcing that he is meeting with great Success in HIS INVENTION of a SPRING PLATE for PARTIAL SETS OF TEETH. The Plate does not COVER THE ROOF OF THE MOUTH, is very small and light, has no clasps, in short, it does not *impede speech* or taste, and is altogether the most satisfactory method of inserting Partial Dentures. Scores of references in this city, and patients from Boston, New York and Philadelphia have given their unqualified approval of this *useful invention.*

He has purchased a patent right for LOADING lower sets of teeth, thereby making them much more serviceable and comfortable, and they will remain in place, even when the ridge of the lower jaw is very flat.

He is using the Pack Ridge in upper sets with the most satisfactory results. He has also a new way of *repairing rubber work, just discovered,* which will require only one hour in the majority of cases, and the work will be warranted strong and neat.

He is also administering ETHER, and preparing the mouth for artificial teeth, nearly every day, and often three times a day, extracting from 1 to 30 teeth at one visit, with entire FREEDOM FROM PAIN, and with happy results. He has made this department of dentistry more particularly a speciality, and is confident his large and continued success will warrant him in promising, (With his present facilities and improvements in mounting artificial dentures,) all work at the shortest notice, and in the **Best and Most Approved Style of the Art.**

All operations in Dentistry performed at the usual rates, and payment is considered due as soon as the operation is completed, all work being warranted.

Refers with pleasure to the leading Physicians of Portsmouth and citizens generally.

LOCAL AFFAIRS.

CITY COUNCIL, *Thursday Evening.*—Ald. Spinney, Nowell and Slater absent.—Isaiah Wilson given permission to repair building on Congress Street, and T. S. Nowell to build on State St.

The Chief of Police asked for a furlough of ten days, for recreation. Referred to Com. on Police, with power to act.

The City Collector stated that he had appointed J. P. Morse his Deputy; and his bonds, Messrs. H. M. Clark and S. S. Frye were accepted.

Application signed by Spiritual Society, was made to hire the chamber over Second Ward Room on State Street, and was laid on table. Ald. Miller moved to refer it to Com. on City Lands and Buildings; but afterwards withdrew the motion, as there is no incorporated Society by that name. The Mayor thought the petition from Spiritualists should be dismissed in short order, and that the Board should not for a moment consider a proposition to let City property to any such people; and Ald. Cotton supposed they would have dances, &c., there in winter; but Ald. Miller said he would as soon let the building to Spiritualists as any other religious Society, only he thought the application should be made in somebody's name.

Col. J. W. Peirce, in behalf of the Aqueduct Co., in reply to the application of the Mayor and Con., sent a communication, that the Co. will agree to furnish water for the City to lay fire-pipes as proposed, for ten years, on condition that the taxes of the corporation should not exceed $450. The sum assessed this year is about $900—and as was stated, the Aldermen have no control over taxes, but the Assessors alone. The limitation of ten years also was not acceptable to the Board, and the matter was recommitted to the same Com. to confer further with the Co.

The proposed new roads at Freeman's Point and Summer Street were discussed; and Ald. Cotton, (who is here something like Harry Bradley on the track,—always trying to get the advantage of his neighbors, and to find out how not to do it) moved again to add the Mayor to the Com. on Streets to build these roads.

Ald. Miller did not see any use in dragging the Mayor over these streets again—and the Mayor stated that he did not desire to be added to the committee, and should not serve if elected; but Ald. Cotton insisted on his motion being put, and Ald. Clark seconding, it resulted in yeas 2, nays 3, Pendexter, Miller, Pender, Ald. Miller made pretence of raising a point of order on Ald. Cotton, for repeating his call on the same motion as voted down last week — which of course he had a right to do, other business having intervened — notwithstanding its entire uselessness.

The Mayor thought the grade of the Freeman's Point Road, or the change to be made in it, could be reduced several feet without inconvenience to the small travel there. Ald. Cotton said that by the new charter, the Board of Aldermen could not fix the grade of a street, but it must be done by vote of both Boards of the City Council. So the matter was laid over for a week.

The City Clerk stated that the lowest bid to build Summer Street, as proposed, was that of Mr. Joseph R. Holmes of this city, $2350. The only other bidders were two Messrs. Trefethen, of Rye, respectively $2400 and $2600, we believe.

The profile is drawn for a deep cut and high filling, but it would seem that these can be reduced without disadvantage, so as to bring the cost down to perhaps $1500 or 1600. The bids for Freeman's Point had not been opened.

Sheriff Morse asked for some small repairs on the Court House chimney. Referred to Chairman of the Com. on City Lands and Buildings, with power to act.

A small bill from Mr. Haines, for grading the yard in rear of the Ward Room on State Street, led to quite a discussion of the duties and pay of the Street Commissioner. Ald. Cotton and Clark thought he should do all such little City matters, for his salary; and that it was not right, while having a salary from the City, for him to receive extra pay for laying sidewalks, &c., and to charge a profit on his laborers and materials. The City Clerk read the Ordinance defining the duties of Street Commissioners; and the Mayor thought he could claim extra pay for all such jobs. Ald. Miller thought the same, but said that the matter could be changed next year if thought advisable. Ald. Pendexter said he employed Mr. Haines to do the job, and had to plead hard to get him—and he hoped he would get his pay. The bill was laid over for a week.

Adjourned a little before 10 o'clk, the last half hour's delay being attributable to the tactics of Ald. Bradley—no, Cotton.

PORTSMOUTH SAVINGS BANK. — At the annual meeting of this institution on Wednesday, William M. Shackford, President, and Samuel Lord, Treasurer, both declined a re-election, and the organization was postponed to an adjourned meeting three weeks hence. These gentlemen have long favored the corporation with their services in their several positions, and the affairs of the Bank have ever thrived well under their management. Their retirement is cause of much regret.

Mr. Shackford had filled the office of President for a quarter of a century with a diligence and fidelity rarely exhibited in such an office.

Mr. Lord has been Treasurer for forty-six years, and has closed in the Bank something more than twenty thousand accounts. He remarked when declining a re-election that he was the only survivor of those who originated and organized the Bank. He returned his thanks to the Trustees, Corporation, Investment Committee, and depositors for the aid and courtesy uniformly extended to him—and more than twenty-five thousand depositors return their thanks to him for the pains-taking ability and fidelity with which he has watched over, protected and promoted their interests.

BARNABEE AT RYE BEACH. — Mr. H. C. Barnabee gave a very successful entertainment at the Farragut House on Thursday evening. His trunk however did not stop at North Hampton depot with him, but passed on. As that article just then was almost as indispensable as an elephant's—"fancy his feelings." The old grey suit, however, was fully as becoming as his ghostly attire in "Too late for the train," and a few rounds of applause was as inspiring as a clean dickey.

A PACIFIC RAILWAY

GOLD LOAN $6,500,000.

We beg leave to announce that we have accepted the agency of the
KANSAS PACIFIC RAILWAY COMPANY,
For the sale of its
NEW SEVEN PER CENT.
Thirty Year Gold Loan,
Free from Tax.

This Loan amounts to $6,500,000.

First Mortgage Land-Grant and Sinking Fund Bonds,
secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles are now completed, and the rest is under construction. It is also a Mortgage upon Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,

And in successful operation for 437 miles

west of the Missouri River, and earning already enough to meet all its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the

GOVERNMENT LAND GRANT OF THREE MILLION ACRES,

extending in alternate sections on either side of the track, from the 394th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as A SINKING FUND FOR THE REDEMPTION OF THE BONDS.

The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and pinery. The company also holds as an asset another tract of

Three Millions of Acres in the State of Kansas,

and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the

Value of the Company's property, covered by this mortgage at $43,000,000 net, while the Loan is merely $6,500,000.

The Bonds have
THIRTY YEARS TO RUN,
from May 1, 1869, and will pay
SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.

The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be
PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:
On $1,000 Bond in N. Y. $35 (gold) each half year.
" London....£7 85. 10. "
" Frankfort..87 fr. 30 krtrs., "

The Agents of the Loan, before accepting the trust had the condition of the Road, and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a
FIRST CLASS INVESTMENT,
in every respect perfectly sure, and in some essential even
Better than Government Securities.

The Bonds will be sold for the present at
96, *and accrued Interest, both in Currency,*
the Agents reserving the right to advance the rate.

The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.

Gold and Government Securities taken in payment at their market value, without commission.

VAGARIES OF A NERVOUS MAN.—I enjoy a bell hugely—when it is silent. When it is rung, my jaw-y is still more intense. I love gongs equally well, but am content with bells; one can have too much of a good thing, you know. There are eight or ten bells in Portsmouth all tol(le)d. There's one on the North Church. It rings occasionally. I don't know why—but it does. It formed a beautiful morning accompaniment to the exercises of the Educational Institute. You know I delivered my famous address on Education, Thursday evening, the last session of the Institute. I rose majestically, placed my left hand in my left breast, so, and carried my right hand to the rear, (tearing cartridge, you know, and took a deep inspiration, when over went that blessed bell like a new collar door on a little boy's thumb. However, I never recovered myself, and continued something as follows, "Mr. (Bang) man. It becomes me to (bang) modestly in the presence of so much (bang) as I see before (bang.) Sir, as a citizen of New Ham (bang,) I desire to speak (bang, bang,) of the position she (bang) has taken in the course of educa (bang.)

New Hampshire, sir, has her Dartmouth, of which she (bang) proud. She (bang) has a sytem of education under which our youth are (bang)ing what is necessary to (bang) them (bang) citizens, intelli (bang) busi (bang) men, and ac (bang) plished room (bang, bang, &c.) The bell here stopped—and I had it all my own way after that, but I missed the support of the accompaniment. I forgot to say, on inquiry I found that the bell rang for nine o'clock. It didn't ring for eight, or ten. I observed that nobody went home at nine, and cannot see why the bell was rung at that hour, or why it was rung at all. I heard the same bell ring a day or two since, about the middle of the forenoon. The style of its tintinnabulations was so undetermined that I was at a loss to know what was the matter. I know it was not for nine o'clock. Suddenly the idea of church struck me, and I began preparations for Sunday, when I observed that the gait of people in the street indicated an interest not customary on religious occasions. The cry of "Fire" soon settled the matter however, and I subsided.

So much for the vesper bell. I think there is one in town that rings at motive, "just a little easy," in the neighborhood of the factory, isn't it? Why can't we have one for every hour in the day, 'tis so nice. Those gentle tones wouldn't make anybody deaf (if they were hard of hearing before!) oh, no! Let's have all the beautiful bells ringing, then we shall know when to look at our watches and see what o'clock it is, "Oh the bells, bells, bells, bells,"

Poe(try).

(I do owe them a grudge).

R. E. PORTER.

TOPPING CORN.—The former practice of topping corn is now generally disapproved by intelligent farmers. The practice was to cut the stalks as soon as the kernel of the ear was scalded over, when nature was making its efforts to mature the corn. It has been proved by fair and conclusive experiments that by the old practice the corn was less in weight, less in quantity and sweetness, and will not come to maturity so soon as it does when cutting the stalks is postponed until after the milky substance ceases to enter the kernels of the ear. That sweet substance is matured in the corn blades by a chemical process, and goes through another process before it enters the kernel. It is therefore very unwise to cut off the tops and the blades at the time when nature most needs them.

When the corn is ripe the best practice is to cut the butts at the bottom, and thus save the whole for fodder. The butts, cut in due season, contain more nutriment than the tops — and there is no difficulty, with a little practice, in husking the corn in the bare.

A PLEA FOR SIMPLE MELODIES.—Henry Ward Beecher is right upon the music question. He says: "It is no wonder that singing has died out from the congregation, when a choir is put up to recite words that nobody can understand, to music that nobody knows, and the people are left to listen to newly converted opera airs, which were brought over by a fresh troupe of foreign singers! And those sweet melodies, that stilled propriety has long ago driven from the churches, but which have gone forth among the people, and rung out gloriously in camp meetings, shaking the forest leaves with the ascending shouts of a mighty people; or which, more gently, have filled rural school houses and humble lecture rooms and village churches, not yet corrupted by the false pretence of 'classical music'—those sweet melodies that no one can hear with his ear, and not feel his heart beating within his bosom all the faster for the sound—are become the ridicule and contempt of men who think that God must be praised to the sound of Meyerbeer or Rossini, and not to the sweet and humble melodies of our own land."

TO KEEP FOWLS HEALTHY.—The way I keep my fowls in health, I clean out the house once a week; put wood ashes under the roosts; have iron basins for them to drink from; whitewash inside of henhouse with *hot* lime, put a little kerosene oil on the roost once a month. The main food is oats and cake of scraps to pick on. I never feed but once a day—at noon, or when I shut them up at four or five P. M. When they run out then give them all they will eat. In my experience, there is no way to get diseased fowls easier than to keep them stuffed; it makes them lazy, and they won't work as much as they ought to keep in a healthy condition.

I never had any gapes in chickens. When any fowl begins to droop, I give three large pills of common hard, yellow soap; 'tis the best thing to cleanse a fowl I know of. I follow it for three days, give them nothing to eat, and plenty of pure water to drink. In desperate cases give a half teaspoonful of tincture of lobelia. It will seldom, if ever, fail of curing. It is a very cleansing and powerful medicine for fowls. *H. C. Wheeler, Foxborough, Mass., in Rural New Yorker.*

HOW TO HAVE A CLEAN GARDEN.—Mr. Buren of Newark, N. J., is noted for having a clean garden. He says:

"Any man who will leave his bed at four o'clock in the morning, and go forth with his hoe, and a willingness to work, need never be disturbed with weeds. I have attended to a business that took the time usually devoted to the pursuits of life, and still found leisure to give such attention to my garden as kept it free always of all foul growth Of course I am not one of the anti-early risers. But if he is fond of his bed, and the soil is full of weed-seeds, let him give his garden a Sabbath year of clover. There will be kill the tares that the enemy hath sown, and his garden come back to onions and lima beans, lettuce, peas and beets, like a good man to his work on Monday morning."

AVERILL CHEMICAL PAINT!

THE RIGHT THING AT LAST!

BENJAMIN NORTON,

Having been appointed Selling Agent for this City and surrounding towns, of the AVERILL CHEMICAL PAINT COMPANY, is now prepared to sell any quantity, from one pound upward, of

THE BEST PAINT!

ever offered in this city.

It is Durable, Beautiful, Water Proof, Elastic and Economical.

This Paint is all Ready for Immediate Application, and retains its shining color ever.

It is prepared in pure White and one hundred Different Shades, and is unsurpassed in all respects.

It dries with a hard, rich, glossy surface; does not run from seams or nail holes; will not chalk, crack or peel off; covers more surface with the same body, and is cheaper, more lasting, and better in every respect than any other Paint.

Many persons made from those who have used it in other places of its superiority over other Paints might be given; but I will only invite those of this city and surrounding towns who intend using Paints, to call at the

GROCERY AND PROVISION STORE,

No. 16 & 18 Cabot Street,

which is the ONLY PLACE in the City where it has been used, and examine the Paint where it has been applied in ten or twelve different shades, and where they can choose any color they desire for use, outside or in, and buy from one pound upwards.

In using the Chemical Paint, there is no difficulty in matching any color at any time, as all the shades are numbered, and the same number will always match.

These Paints are manufactured in New York, and Newburgh, Ohio. BEN'J. NORTON,

Agent for Chemical Paint Company.

Also for sale, at the same place, the Best Quality of

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the United States Patent Office, Washington, under the Act of 1837,

No. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and papers of every description for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents or inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made no fewer rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful practitioners* with whom I have had official intercourse. CHARLES MASON,

Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man more competent, more *trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and fidelity on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

A SUMMER RESORT!

The Most Attractive on the Atlantic Coast.

THE SAGAMORE HOUSE.

Frost's Point, Rye Beach, Near Portsmouth.

The Subscribers take pleasure in announcing to their friends that their New and Spacious HOTEL is Now Open for the Season. It contains all the modern improvements, and we have doubled the number of Rooms which we had last season. It is finely located, commanding an unrivalled view of the Ocean, Forts, Lighthouses, Navy Yard, Sagamore River, etc. The advantages of Sea and River Bathing, and the facilities for Fishing and Boating are unsurpassed.

For its beautiful Scenery and delightful Drives and Walks, Sagamore is already favorably known as one of the most eligible and delightful Watering Places in New England, easily reached by land or water.

Connected with the house is a fine Livery Stable. Coaches at Portsmouth depot on arrival of trains.

SEASIDE HOUSE,

RYE BEACH, N. H.

By THOS. H. PHILBRICK.

The Subscriber having greatly enlarged and improved this well-known Boarding House, which is situated a few rods from the Ocean House at Rye, and nearer the Sea than *any other House* in this vicinity, and in full view of the Bathing Houses and the great Rolling Beach—will be ready for permanent or transient company about July 1st.

The terms at the Seaside House will be as reasonable as good accommodations will afford.

While acknowledging the liberal patronage bestowed upon the pioneer Boarding House of Rye, for more than half a century, the subscriber would hope a continuance and increase, with his enlarged and new excellent accommodations.

Professor E. T. Quimby of Dartmouth College is helping on the geological survey of the State by triangulating from the mountain summits.

The selectmen of Merrimac have offered a reward of $3000 for the detection of the robbers and recovery of the money lost by the safe robbery at Reed's Ferry, last week. One thousand dollars of the amount stolen belonged to the town, eight hundred to the treasurer, and two hundred to the collector.

A large two story house, shed, and a small one story house, belonging to Eben Leighton, were burned at Durham Village on Wednesday morning, Aug. 11, between three and four o'clock. Furniture mostly saved. Loss about $3,000. Partially insured. Probably the work of an incendiary, as it took in the shed where there had been no fire.

An idle man in Concord, on the 7th, slung a stone, twice as big as a hen's egg, at a cow belonging to the estate of Richard Bradley, decease, and broke her leg, so badly that she was killed to end her pain.—She was worth $100; and the man is very *sorry*. So we should think, rather a sorry specimen of a man.

A report is current about that there was a fire at Durham on Wednesday, which destroyed five dwellings, but we have no particulars.

John Jackman, the shoe thief, is a graduate of the Hillsborough county jail.

A great meeting was held at Lee Hill, on Tuesday, of people who favor the Rochester & Nashua Road. Gen. Hoitt of Durham would subscribe $10,000 towards the stock.

Barney Thornton, of Fisherville, who has been drunk three weeks, was arraigned before the Concord Police Court on the charge of threatening to kill his wife. He was bound over in the sum of $100, to keep the peace one year, but being unable to furnish the bonds he is now getting sober in jail.

Benjamin Green, of Concord, has been hauled up for attempted burglary. On the evening of the 10th, he was found in the bedroom of Mrs. Katie Speed, of West Concord, attempted to blow out the lamp to prevent being identified, and then jumped out of the window.

Two young men from Henniker, named Frank Grady and Henry Goodwin, observed Sunday, the 8th inst., by going on a "bust," in course of which they broke into the house of J. M. Russell, of Newbury, the occupants of which were absent. Various mischievous depredations were committed, but no valuables having been taken, the matter has been settled by a pecuniary transaction between the young men and Mr. Russell.

The August meeting at the Dover Trotting Park will commence Wednesday August 18th, and continue through Thursday and Friday. Two or more races each day.

A party of five young lads, "who would a rowing go" at Exeter, suddenly found themselves struggling in the middle of the river. Happily they were easily rescued, the river being calm and at about half tide.

AVERILL CHEMICAL PAINT!
THE RIGHT THING AT LAST!
BENJAMIN NORTON,
Having been appointed Selling Agent for this City and surrounding towns, of the AVERILL CHEMICAL PAINT COMPANY, is now prepared to sell any quantity, from one pound upward, of
THE BEST PAINT!
ever offered in this city.
It is Durable, Beautiful, Water Proof, Elastic and Economical.
This Paint is all Ready for Immediate Application, and requires no oil, thinning or drying.
It is prepared in pure White and one hundred Different Shades, and is unsurpassed in all respects.
It dries with a hard, rich, glossy surface; does not run from seams or nail holes; will not chalk, crack or peel off; covers more surface with the same body, and is cheaper, more lasting, and better in every respect than any other Paint.
Many testimonials from those who have used it in other places of its superiority over other Paints might be given; but I will only invite those of this city and surrounding towns who intend using Paints, to call at the
GROCERY AND PROVISION STORE,
Nos. 16 & 18 Cabot Street,
which is the ONLY PLACE in the City where it has been used, and examine the Paint where it has been applied in ten or twelve different shades, and where they can choose any color they desire for use, outside or in, and buy from one pound upwards.
In using the Chemical Paint, there is no difficulty in matching any color at any time, as all the shades are numbered, and the same number will always match.
These Paints are manufactured in New York, and Newburgh, Ohio. BENJ. NORTON,
Agent for Chemical Paint Company.
Also for sale, at the same place, the Best Quality of
MEATS AND GROCERIES!

ASIATIC CHOLERA IN CHINA.
Almost Every Case Cured with
Pain Killer.
Dear Sirs: I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send us last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. We resorted at once to the Pain Killer using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of Pain Killer. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be indifferently received. Believe me, dear sirs, gratefully and faithfully yours,
J. M. JOHNSON, Missionary in China.
From Rev. R. Telford, Missionary in China, now visiting his home in Washington, Pa.
Dear Sirs: During a residence of some ten years as a missionary in Siam and China, I found your Pain Killer a most valuable remedy for that fearful scourage, the cholera. In administering the medicine I found it most effectual to give a teaspoonful of Pain Killer in a gill of hot water, sweetened with sugar; then after about 15 minutes begin to give a tablespoonful of the same mixture every half hour until relief was obtained. Apply hot applications to the extremities. Bathe the stomach with the Pain Killer clear, and rub the limbs briskly. Of those who had the cholera, and took the medicine faithfully in the way stated above, eight out of ten recovered.
Truly yours, R. TELFORD.
If attacked with diarrhœa, dysentery, or cramp colic, don't delay the use of the Pain Killer.
Beware of all Imitations.
The Pain Killer is sold by all druggists.

DODD'S NERVINE DID IT.
NEW LONDON, CONN., April 26, 1869.
REMEMBERED FRIEND:
I thought it well to wait another week before writing, to see if I continued to improve, as I have been doing for some time, under the treatment of the new medicine, and I am happy to tell you that I am getting better—even faster than when you were here. I commenced the use of DODD'S NERVINE without anybody advising me to it. When I began with it I could only walk from my bed to the chair. My trouble has been extreme pain in the head, and has lasted over three years. All the medicine I have heretofore taken has failed to give any relief. I can now able to go up and down stairs, and daily improving. I consider the NERVINE the best medicine I ever found, and shall continue its use, for I am confident of entire recovery. I have taken only three bottles, and would not be without it on any account. [Jel5 8w] Very truly, MRS. I. S. NUTE.

MASTA'S PULMONIC BALSAM
IS A SPEEDY and certain remedy for Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Catarrh, Influenza, Hooping Cough, Asthma and the various Affections of the Lungs.
☞ The attention of those afflicted with COLDS, COUGHS, and with any disease of the lungs, is directed to this valuable remedy. On account of sudden changes in the weather, colds and coughs are easily taken, and if neglected may lead to disease of the lungs. What is needed under such circumstances is a reliable remedy—speedy in affording relief, and effectual in arresting further progress of the disease.
☞ To arrest the existing irritation of the air-passages and the lungs, speedily and effectually, the seat and cause of cough is an important step gained toward relief and cure in the first stages of the disease. MASTA'S PULMONIC BALSAM possesses this important power, and while it promptly and effectually arrests all existing irritation, and rapidly relieves cough, it renders the lungs further relief by promoting a free discharge of the accumulated mucus in the air-passages, imparting a healthy action and vigor to the chest at the same time.
☞ Those suffering with cough and the first stages of lung disease, will therefore find in this valuable preparation a speedy and decided relief. Even those whose condition is beyond recovery, will derive from its use great benefit as well as comfort. For the class of diseases it is designed to relieve, the general commendation it has received has proved its efficacy beyond question. For the past ten years have been speedily and effectually cured by its timely use while suffering from severe colds, protracted coughs, and from other forms of lung disease. It is prepared from vegetable balsams and the medicinal properties of roots and herbs, with no minerals nor poisonous acids; simple and safe in the material used, it can be taken at any time.
Sold in Portsmouth by J. H. THACHER, and by Druggists and Dealers in medicines throughout the New England States.

The News.

On Tuesday night, at Lawrence, Mass., Charles Carbury challenged Michael Looney to fight out an old difficulty of two years' standing, and as both had been drinking the challenge was accepted, and they fought. Carbury died next day; and Looney is in jail. Tom Moriarty, John McLane, Dan. Looney, and Pat. Conley are accused as accessories.

While Samuel D. Rollins, son of Col. Samuel H. Rollins of Bristol, was crossing the Newfound river with a load of stone, one length of the bridge gave way, letting his entire team and himself fall a distance of eight feet. The cattle were hurt quite badly.

The Patriot says that five cattle in Canterbury, which were turned out to pasture, were recently found dead. Their supply of water had dried up, and they actually perished of thirst.

A fatal accident occured in New Durham on the 5th. A son of George W. Whitehouse, twelve years of age, put a sharp pointed shoe knife into his pocket and started with his mother to go after berries. On the way he fell down, the knife entering his body just below the ribs on the right side: the boy bled internally and died in about four hours.

Dr. Alvah Hobbs, husband of the woman so horribly murdered in Boston, was formerly a resident of North Hampton; and also at one time achieved some notoriety in Great Falls, we believe.

Twenty acres of land near Turkey Pond, in Concord, were burned over on the 11th. The fire is supposed to have been caused by careless boys. The whole neighborhood turned out to check the flames, but they destroyed a lot of fences and some standing timber. A large fire is also burning on the Plains.

ATTEMPT AT ROBBERY.—We learn from a gentleman from Danville, that while Thomas Barrett, of South Kingston, was driving to Hampstead on the night of the 30th ult., a man seized his horse by the head, and demanded "his money or his life." Mr. B. struck his horse a smart blow, which caused the animal to throw the scoundrel and dash off at full speed. Two pistols shots were fired at Mr. Barrett, but he escaped unharmed.—*News Letter.*

—The quarrel between Exeter and Portsmouth politicians is still going on. It is not so nice a fight as ours in Concord, but still it is highly enjoyable.—*Statesman.*

The reason why the fight is "not so nice" is, that politicians this way have not quite as much money—stolen from govern ment, of course.—*News Letter.*

CORNS.—A passenger on the Portsmouth and Concord Railroad, on Friday last, stepped into the mail car for a moment, when the route agent in stepping backward trod upon the visitor's toes.

THE NAVAL COURT MARTIAL of the surgeon of the U. S. S. Nipsic, at Washington, has concluded. The charge of drunkenness against Surgeon Green was abandoned, and the trial involves nothing but the old question as to the relative rank of line and staff officers.

The facts on which the issue is raised can be told in a few words. While the Nipsic was lying at Aspinwall, one of the seamen had a difficulty with one of junior officers, during which the seaman was severely cut on the head with a cutlass. He was put into confinement for insubordination, and on sick list for medical treatment. At the end of six days he was discharged from confinement and ordered to duty. The surgeon represented to Commodore Selfridge that the man was not fit for duty, but was ordered to strike his name from the sick list. He replied that he could not conscientiously do so, and was thereupon ordered into arrest himself. The commander paid no attention to the seaman, but one of the lieutenants relieved him from duty. At the end of a week or so the surgeon was released from arrest.

The seaman, meantime, had done no duty and had received no medical treatment, and by this date was in such condition that he required and received two weeks of careful surgical attention before he was fit for work. The sugeon undertook to report, as in duty bound, to the Admiral of the fleet, but his papers were stopped by Commodore Selfridge; and as soon as the vessel reached Washington, charges were preferred by the commander against the surgeon for disobedience of orders in refusing to declare the seaman fit for duty at the expiration of six days after he had been wounded in the head. The court was ordered on representation that the charge of drunkenness could be sustained, and when this was disproved and abandoned, the line officers growled a good deal at the unpleasant aspect of the case.

We think this is a capital test case of the vexed question now in issue between the line and staff officers. One more appropriate could not be imagined.

Meanwhile, why not court martial Commander Selfridge, on the charge of being a jackass!

Pellets.

The Detroit police have turned goose-catchers and arrested 75 of the long necked bipeds, recently.

A Missouri paper said that a certain horse thief "was caught. He will not steal any more in this world."

The students in the University of Naples are jolly boys. They lately became indignant that they were compelled to translate Xenophon, and on their failure to have the course of study changed, they sacked the university, two colleges and a church.

Casual ties—divorce cases.

A Milwaukee boy, exploded a torpedo in his teachers desk. The teacher's ferule arm was amputated, afterwards.

STRAWS.—In the late Alabama election many leading men, who voted for Seymour and Blair, broke away from the Democratic organization and took part with the Republicans.

Last October Horatio Seymour prophesied that on the 1st of July, 1869, the Treasury, under Republican rule, would show a deficiency of $150,000,000. The balance on hand, according to Mr. Boutwell's statement, being over $155,000,000, it appears that Seymour is only about three hundred millions out of the way, which is doing very well for him.

It is now stated that Gen. Rosecrans' nomination in Ohio was brought about by Pendleton to head off a Hoffman movement, which had in view Judge Ranney as nominee for the Vice Presidency on the Democratic ticket. As Rosecrans withdrew, Pendleton is obliged to step into the breach himself.

DISTRESS IN NORTHEAST INDIA.—The Northwest provinces of British India recently suffered grievously from want of rain; in the Northeast province great distress has been caused by too much water. The fall of rain has surpassed all in the memory of the oldest inhabitant." The rice crop has been almost swept away, and the price of the great article of India food has become so high that the people are unable to buy a sufficient quantity, and a subscription has been got up in their behalf.

HOW HE DIED.—A Florida cur entered a butcher shop, jumped for a piece of meat hanging high, caught by his collar on a hook and was strangled to death.

—Mythology tells us that Io died because of her intense love for Jupiter; but the charm of the romantic story has lately been destroyed by a chemist discovering Iodide of potassium.

—Sweet potatoes are likely to be very plentiful this year. A great breadth of soil in New Jersey has been planted with them.

Communication.

HOW IT WORKS.—Matters seem to be coming to a square issue in Massachusetts. Enforce the law, earnestly cry Prohibitionists. Enforce the law, defiantly cry the rum men. But according to appearances these last will get sick of the game soon. When Pat and Mike and the like of them have had a taste of the law, they will not be apt to admire this advice of their friends. There is not a little grumbling because the Constabulary Devil catches the hindmost instead of the foremost, cleans out the pestilential holes where 40-rod whiskey is sold, rather than worm his way in to where gentlemen with their latch-keys get at logwood wine, and French brandy made in Cincinnati from corn. The liquor interest is making great outlays of money to fight the law, and one of the worst means to encourage as much street drunkenness as possible. This is a most effectual way, but, for all that, crime and drunkenness are disappearing, and the argument that the law can not be enforced is heard no more. There is some comfort in that. We touch bottom when it is settled that a State Police is an adequate specific from grog-shops, and the final plea becomes that the will of the people demands the permission of the liquor traffic.

For Sunstroke at Brighton.

FOR THE WEEK ENDING THURSDAY, AUG. 12.

[Reported for the Boston Journal.]

At market for the current week—Cattle 2305; Sheep and Lambs 9353; Swine 4100; number of Western Cattle 2690; Eastern Cattle 50; Northern Cattle and Working Oxen 175. Cattle left over.—.

Prices Beef Cattle—Extra $12 75 @ $13 00; first quality $12 00 @ $12 50; second quality $11 25 @ $11 75; third quality $10 25 @$11 00; poorest grade of coarse Oxen, Bulls, &c., $9 00 @ $10 00 ₱ cwt, (the total weight of hides, tallow and dressed beef.)

Brighton Hides 9½ @ 10c ₱ lb; Country Hides 9 @ 9½c ₱ lb.

Brighton Tallow 8 @ 8½c per lb; Country Tallow 7 @ 7½c ₱ lb.

Lamb Skins 75c; sheared Sheep Skins 37c each, Calf Skins 20 @ 23c ₱ lb.

Trade for Cattle has been active and prices of last week were fully sustained. Several of the best lots of Cattle were taken by butchers at a commission; others sold at 12¾ @ 13c ₱ lb. The quality of the Western Cattle was not quite so good as that of last week. Cattle cost higher at Albany, but we do not think that the prices obtained this week are any higher than those of last. There were more Cattle from Maine in market than has been in before for several weeks, mostly workers, for which there was a moderate demand.

Store Cattle—Yearlings $18 @ $28; two year olds $30 @ $45: three year olds $45 @ $65 ₱ head. There were but few Stores in market.

Working Oxen—There are but a few pairs in market and not much call for them. Prices range $150 @ $185 ₱ pair.

Milch Cows—Prices depend a great deal upon the fancy of the purchaser, ranging from $50 @ 115 ₱ head.

Sheep and Lambs—Most of the Western Sheep and Lambs are taken direct from the car at a commission. We quote prices at $2.50 $3, $3.50 @$4 ₱ head; extra $4.50 @ $5 50 ₱ head, or 5@6c ₱ lb. Lambs $3.50 @ $4.50 ₱ head; 12c Lambs at 7c ₱ lb; 64 Sheep and Lambs at $3.50 ₱ head; 104 at $4 ₱ head.

Swine—Wholesale 11 @ 12 ₱ lb; retail 14 @ 14c ₱ lb. Spring Pigs, wholesale 15 ₱ lb; retail 15 @ 16c ₱ lb. Fat Hogs—3850 at market: price 10½ @ 11c ₱ lb.

BUSINESS NOTICES.

OPORTO GRAPE CULTURE.—This country is becoming noted for the enterprise of wine growers. New Jersey particularly, where the celebrated Port Grape Wine is made purely from the grape juice. The following letter from an eminent physician who lives in sight of Speer's vineyard, will be of interest to our readers: PASSAIC, Oct. 20th, 1865.

I hereby certify that Mr. A. Speer of this village has a large vineyard of choice grape vines which are looking very fine. He also purchases a great many grapes, not as yet producing as many himself as is required to keep his stock of wine full. He makes the Port Grape, the wine of which is held in high estimation and of which he has a large quantity on hand lying in his cellars, requiring age before he disposes of it. R. A. TERHUNE, M. D.

The above wine can be procured of our Druggists. Also Speer's Sambuci Wine.

FACTS FOR THE LADIES.—I have used my Wheeler & Wilson Sewing Machine eleven years, for all sorts of family sewing, from the coarsest, even carpet-binding, to the finest worn by women, and requiring No. 300 cotton. It gives me still entire satisfaction, and I can not too highly recommend it to others as a family comfort. Solely from my appreciation of your machine above all others, I have been the means of selling more than a hundred of them.

DOVER, Del. MRS. C SLAUGHTER.

—A want has been felt and expressed by physicians, for a safe and reliable purgative; such a want is now supplied in *Parsons' Purgative Pills.*

Officers and Soldiers who served in the Army, Physicians, Surgeons, and eminent men and women everywhere, join in recommending "Johnson's Anodyne Liniment" to be the best internal and external family medicine ever invented. That's our experience.

All the year round, "Sheridan's Cavalry Condition Powders" should be given to horses that are "kept up." To horses and cattle that graze in summer, they should only be given in Winter and Spring.

SPECIAL NOTICES.

A Life-Saving Reformation.

A radical change has been introduced in the practice of medicine. Physicians have ceased to torture and prostrate their patients. Instead of pulling down, they build up; instead of assaulting nature, they assist her. Cupping, leeching, blistering, venesection, calomel, antimony, stupifying narcotics, and raging purgatives, once the favorite resources of the faculty, are now rarely resorted to even by the most dogmatic members of the profession. The old creed was that disease was something which must be expelled by violent artificial means, irrespective of the wear and tear of the vital organization in the process. The new creed recognizes the improvement of the general health as essential to the cure of all local ailments. Hence it is that HOSTETTER'S STOMACH BITTERS, the most potent vegetable tonic that pharmacy has ever brought to the assistance of nature in her struggles with disease, has been cordially approved by practitioners of the modern school. It is pleasant to reflect that reason and philosophy have at last been victorious over the errors of the past, and that thousands, and tens of thousands, of human beings are alive and well to-day, who would indubitably be mouldering in their graves had they been subjected to the pains and penalties which were deemed orthodox and indispensable thirty or forty years ago.

Preventive medication was scarcely thought of then; but now it is considered of paramount importance, and the celebrity of the STANDARD INVIGORANT, ALTERATIVE AND RESTORATIVE of the age, (a title which HOSTETTER'S BITTERS have fairly earned by their long career of success) is mainly due to its efficiency as a PROTECTIVE PREPARATION.

In course of the BITTERS is urgently recommended at this season of the year, as a safe and certain antidote to the malaria which produces intermittent and remittent fevers, diarrhœa, dysentery and other maladies.

Holloway's Pills.—A WORD TO LADIES IN DELICATE HEALTH.—The combination of aperient, tonic and alterative properties in HOLLOWAY'S PILLS, renders them a particularly desirable medicine for ladies of delicate habit. Their operation is mild and gentle, and in all functional difficulties their regulating and invigorating operation will be found in the highest degree beneficial. When nature deviates in any way from her healthful course they act as a swift corrective. Sold by all Druggists.

THE LATEST DISCOVERY
In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at last been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S
LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It combines the botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and is presented in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the feebler sex are subject, the Lozenge will be found a most powerful and effective agent. The horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

ALLEN'S LUNG BALSAM.

The best remedy for the cure of CONSUMPTION, and ALL DISEASES OF THE LUNGS. It causes the phlegm and matter to rise without irritating those delicate organs (the Lungs,) and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless for the most delicate child. It is ever growing in good demand and gives good satisfaction.

The result of its use is proof of its great value.—Its extraordinary healing properties are experienced by all who use it. Their testimony will be found in a pamphlet around the bottle had of the agents where the medicine is for sale. d25

Ellis' Iron Bitters

Will enrich the blood and prevent it from becoming watery and weak, give a healthy complexion, restore the appetite, invigorate the system, and are very palatable. These Bitters are recommended to all persons requiring a safe and valuable tonic, to impart tone and strength to the system, not given by Bitters merely stimulant in their effects; while although they may possess tonic medicinal properties, cannot give the strength to the blood which the *Iron Bitters* will give.

Prepared by Wm. Ellis, Chemist. For sale in Portsmouth by WILLIAM R. PRESTON; by Weeks & Potter, Wholesale Agents, 170 Washington Street, Boston; and by Druggists and Grocers generally. mh29m6md

IMPORTANT NOTICE.

FARMERS, FAMILIES, AND OTHERS CAN purchase no Remedy equal to Dr. Tobias' Venetian Liniment for the cure of Cholera, Diarrhœa, Dysentery, Croup, Colic, and sea sickness, taken internally—(it is perfectly harmless; see oath accompanying each bottle) and externally for Chronic Rheumatism, Headache, Toothache, Sore Throat, Cuts, Burns, Swellings, Bruises, Mosquito Bites, Old Sores, Pains in Limbs, Back and Chest.

The Venetian Liniment was introduced in 1847, and no one who has used it but continues to do so, many stating, if it was Ten Dollars a Bottle they would not be without it. Thousand of Certificates can be seen at the Depot, speaking of its wonderful curative properties. Price, 50 cents and one dollar. Sold by the Druggists and Storekeepers throughout the United States. SPECIAL NOTICES.

ASIATIC CHOLERA.

The Strongest proof of Intrinsic Merit.

DEAR SIRS,—I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The Cholera appeared here soon after we received it. We resorted at once to the PAIN KILLER, using it as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that night out of every one to whom it was prescribed, recovered. It has, too, seen very useful in various other diseases. It has proved invaluable, blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of the PAIN KILLER. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be very indifferently received.

Believe me, dear sirs, gratefully and faithfully Yours, J. M. JOHNSON.

Missionary at Swatow, China.

GRANT & PROSPERITY.

Business revives under the new regime. Other than general causes have, however, given a tremendous impetus to the sale of

Cristadoro's Excelsior Hair Dye.

The chemists have come out in two leading scientific journals against the lead and sulphur poisons *for the head* (for that is their proper designation,) with which the country is infested, while Dr. Cristadoro, the first analytical chemist in America, announces to the world that

CRISTADORO'S DYE IS UTTERLY POISONLESS,

and that he *knows it to be so,* because he has analyzed it.

CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, acts like a charm on the Hair after Dyeing. Try it. 3jy22

BRANDRETH'S PILLS.

They remove all bad accumulations from the bowels, and purify and invigorate the system. All whose health is not perfect, owe it to themselves to take a few doses of Brandreth's Pills, because the seeds of decay are constantly eradicated by their use, and the principle of life confirmed, thus giving a vigor of body and mind to a period when we have been used to see the faltering step and the enfeebled intellect.

General Paez, the distinguished liberator of Venezuela, says he has used them as his family medicine for thirty years, with the most satisfactory results.

For Costiveness, Dyspepsia, and as a Family medicine they are unrivalled.

Daniel I. Tenney, Esq., Astor House, New York, cured by Brandreth's Pill of Dyspepsia and Costiveness, when all other remedies had failed.

A gentleman, whose father died of consumption at 36 years, was also attacked, when about 21, by the same disease. He had cough, night sweats, and general debility. Doctors recommended cod liver oil, but he wasted away. At last he determined to try Brandreth's Pills. In two months they made him a sound man. jy22

PAIN KILLER.

We beg leave to call the attention of the public to this long celebrated and valuable

FAMILY MEDICINE.

The PAIN KILLER is a purely vegetable compound, and while it is a most efficient remedy for Pain, it is a perfectly safe medicine even in the most unskilful hands.

For Summer Complaint,

Or any other form of bowel disease in children or adults, it is an almost certain cure, and has without doubt been more successful in curing the various kinds of

CHOLERA,

Than any other known remedy, or even the most skillful physician. In India, Africa, and China, where this dreadful disease is ever more or less prevalent, the PAIN KILLER is considered by the natives, as well as European residents in those climates, je19

A SURE REMEDY.

SCHENCK'S PULMONIC SYRUP,

Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well.—This is the only way to cure consumption.

To these three medicines Dr. J. H. SCHENCK, of Philadelphia, owes his unrivalled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do, and the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well.—This is the only way to cure consumption.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, heectic fever, and to stop fever; they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion; or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The Seaweed Tonic and Liver Pills will enable the liver to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 326 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success.

Full directions accompany each, making it not absolutely necessary to personally see Doctor SCHENCK, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond St., New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half-dozen.—Mandrake Pills 25 cents a box. G. C. GOODWIN & CO., 38 Hanover Street, Boston, Wholesale agents. For sale by all druggists. diyjs4

DENTAL NOTICE.

69 Congress Street, Portsmouth.

DR. GOODALL takes pleasure in announcing that he is meeting with great Success in HIS INVENTION of a SPRING PLATE for PARTIAL SETS OF TEETH. The Plate does not COVER THE ROOF OF THE MOUTH, is very small and light, has no clasps, in short, it does not *impede speech* or taste, and is altogether the most satisfactory method of inserting Partial Dentures. Scores of references in this and patients from Boston, New York and Philadelphia have given their unqualified approval of this *useful invention.*

He has purchased a patent right for LOADING lower sets of teeth, thereby making them much more serviceable and comfortable, and they will remain in place, even when the ridge of the lower jaw is very flat.

He is using the Pack Ridge in upper sets with the most satisfactory results. He has also a new way of *repairing rubber work, just discovered,* which will require only one hour in the majority of cases, and the work will be warranted strong and neat.

He is also administering ETHER, and preparing the mouth for artificial teeth, nearly every day, and often three times a day, extracting from 1 to 20 teeth at one visit, with entire FREEDOM FROM PAIN, and with happy results. He has made this department of dentistry more particularly a specialty, and is confident his large and continued success will warrant him in promising, (With his present facilities and improvements in mounting artificial dentures,) all work at the shortest notice, and in the **Best and Most Approved Style of the Art.**

All operations in Dentistry performed at the usual rates, and payment is considered due as soon as the operation is completed, all work being warranted.

Refers with pleasure to the leading Physicians of Portsmouth and citizens generally.

Communication.

Messrs. Editors: Has the proclamation issued by the Mayor, and Board of Aldermen, become null and void? If I understand it right it enforced the closing on the Sabbath, of all places where intoxicating liquors were sold. Has it been of any avail? Has it been the means of closing any place as yet? One person I believe has been arrested, and that amounts to nothing. They all continue to sell, as though our demand to discontinue the traffic on the Lord's Day had been made.

Why not allow all public bars, to throw open their doors, and sell to everybody that calls for it? Is it not a distinction, without a difference, to allow Hotels, and places dignified by the names of Hotels, that have sprung into existence, ostensibly as such, but in reality, merely to have the privilege of vending intoxicating liquors on the Sabbath, to sell and get men and boys drunk, and let them out in the early part of the evening to insult respectable persons, passing the street.

From every rear door, in every Hotel, the motley crowd pours out, boasting of how much they can get of any kind of liquor. Do not the Police know it? or, knowing it, do they pretend to ignore the existence of such places? It is time that our city was relieved of places that deal out such vile compounds on the Holy Sabbath.

A LADY.

☞ We understand that it is doubtful whether the Portsmouth Horticultural Society will hold an exhibition this year. We thought as much last year: for the strange and stupid indifference of many from whom aid and encouragement might well have been expected—and the small support of the public generally, was enough to dry up and kill all such beautiful enterprises, even as the drought is now shrivelling all the green things and flowers. We never could see of what use people are, who live in this beautiful, moving world, as if not of it—as if they cared for and valued nothing but themselves.

It is to be hoped that if this Society decide not to have a show this year, they will join with the Piscataqua Society, and bring out the best Fair ever held in the vicinity—as the two certainly *can* do.

☞ You can always get good oysters, well served, and nice ice-creams, at Tibbetts' Saloon and the attendants are prompt and civil. They tell us their bedded oysters come up in better condition this year than ever before—on account of making short voyages from Virginia in the spring. Oysters are not eaten so freely in warm climates and where the water is warm, during the summer months; but in the cold open sea water here, they are good at all times. Even up the river at Dover, the brivales spawn or milt, but rarely if ever in our harbor.

THE EXCURSION next Thursday evening in steamer Appledore, will afford a fine opportunity to "sail the seas over" by moonlight, unless the clerk of the weather prevents. This is Capt. Baker's only benefit this season, and we hope his numerous friends will testify to their appreciation of his faithfulness by pecuniarily making him glad. The number of tickets is limited and can only be obtained of Capt. Baker and Mr. Edwin Laighton.

☞ The News Letter thinks that the visitors at our fashionable watering places and mountain resorts are fewer in number than formerly, and generally their visits are shorter. We don't think this is the case in this vicinity. The News Letter goes in strong for the Shoals, and Appledore.

☞ We occasionally see in the papers, an announcement of a Fair at Rye Beach, for some charitable purpose or other; but, for our part, we never went to the Beach, in the season, without seeing many of the fair there. And what about the fowls, and who plucks them?

☞ A little girl, two years of age, daughter of Mrs. Rosanna White, fell overboard from the wharf on Mechanic Street, on Saturday, but was rescued when nearly drowned. With the assistance of Dr. Folsom she was restored to consciousness.

☞ Is there any particular need of tolling the North Church bell every second for ten minutes before the commencement of each service on Sundays? Tis a barbarous custom.

☞ The yacht Ella, Capt. Seward, on a cruise from Boston, arrived in Portsmouth Lower Harbor on Saturday.

☞ The Lord rains—the earth rejoices.

KITTERY.—W. R. Brown, Esq., of Toronto, has recently disposed of the "Sparhawk mansion" at Kittery Point. This ancient and well known mansion was purchased by Mr. Brown some two or three years ago, since which time it has been greatly improved. There are but few more desirable summer residences on the sea-coast than this.

The Pepperell mansion, which has been one of the most noted in the State, is now owned and occupied by C. G. Bellamy, Esq. This house was built and occupied by Sir William Pepperell a century and a half ago, and is in a good state of preservation—still retaining much of its original appearance. We would suggest to our antiquarian friends that they call on Mr. Bellamy, who will take pleasure in showing them this ancient mansion.—*Saco Dem.*

☞ The Exeter News Letter states "that N. G. Gilman, Esq., has generously offered the Rockingham Agricultural Society the use of the large field near the site of the old depot, for the purpose of holding a Fair and horse trot in September. If the hotel keepers and others are equally generous, a Fair may be held in town during the coming month."

☞ It is reported that the Messrs. Laighton have an offer of $200, 000 for their Appledore hotel property at the Shoals; but that they hold it at $300,000. We don't propose to buy it this week; but there is no place like it under the sun, and it is more popular than ever this year.

GOVERNMENT LAND GRANT OF THREE MILLION ACRES,

extending in alternate sections on either side of the track, from the 394th mile post in Kansas to Denver. And the proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as

A SINKING FUND FOR THE REDEMPTION OF THE BONDS.

The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and quarry. The company also holds as an asset another tract of

Three Millions of Acres in the State of Kansas,

and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the

Value of the Company's property, covered by this mortgage at $23,000,000 net, while the Loan is merely $6,500,000.

The Bonds have

THIRTY YEARS TO RUN,

from May 1, 1869, and will pay

SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.

The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be

PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:

On $1,000 Bond in N. Y. $35 (gold) each half year.
" London....$7 85. 10. "
" Frankfort. .87 fir. 50 krtrs., "

The Agents of the Loan, before accepting the trust had the condition of the Road and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a

FIRST CLASS INVESTMENT,

in every respect perfectly sure, and in some essential even

Better than Government Securities.

The Bonds will be sold for the present at

96, *and accrued Interest, both in Currency,*

the Agents reserving the right to advance the rate.

The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.

Gold and Government Securities taken in payment at their market value, without commission.

Personal Habits of the Siamese Twins.

BY MARK TWAIN.

I do not wish to write of the personal *habits* of these strange creatures solely, but also of certain curious details of various kinds concerning them, which, belonging only to their private life, have never crept into print. Knowing the Twins intimately, I feel that I am peculiarly well qualified for the task I have taken upon myself.

The Siamese Twins are naturally tender and affectionate in disposition, and have clung to each other with singular fidelity throughout a long and eventful life. Even as children they were inseparable companions; and it was noticed that they always seem to prefer each other's society to that of any other persons. They nearly always played together; and, so accustomed was their mother to this peculiarity, that, whenever both of them chanced to be lost, she usually only hunted for one of them — satisfied that when she found that one she would find his brother somewhere in the immediate neighborhood. And yet these creatures were ignorant and unlettered — barbarians themselves and the offspring of barbarians, who knew not the light of philosophy and science. What a withering rebuke is this to our boasted civilization, with its quarrelings, its wranglings, and its separations of brothers!

As men, the Twins have not always lived in perfect accord; but, still, there has always been a bond between them which made them unwilling to go away from each other and dwell apart. They have even occupied the same house, as a general thing, and it is believed that they have never failed to even sleep together on any night since they were born. How surely do the habits of a lifetime become second nature to us! The Twins always go to bed at the same time; but Chang usually gets up about an hour before his brother. Byan understnding between themselves Chang does all the in-door work and Eng runs all the errands. This is because Eng likes to go out; Chang's habits are sedentary. However, Chang always goes along. Eng is a Baptist, but Chang is a Roman Catholic; still, to please his mother, Chang consented to be baptised at the same time that Eng was, on condition that it should not "count." During the War they were strong partisans, and both fought gallantly all through the great struggle—Eng on the Union side and Chang on the Confederate. They took each other prisoners at Seven Oaks, but the proofs of capture were so evenly balanced in favor of each that a general army court had to be assembled to determine which one was properly the captor and which the captive. The jury was unable to agree for a long time; but the vexed question was finally decided by agreeing to consider them both prisoners, and then exchanging them. At one time Chang was convicted of disobedience of orders, and sentenced to ten days in the guard house; but Eng, in spite of all arguments, felt obliged to share his imprisonment, notwithstanding he himself was entirely innocent; and so, to save the blameless brother from suffering, they had to discharge both from custody—the just reward of faithfulness.

Upon one occasion the brothers fell out about something, and Chang knocked Eng down, and then tripped and fell on him, whereupon both clinched and began to beat and gouge each other without mercy. The bystanders interfered and tried to separate them, but they could not do it, and so allowed them to fight it out. In the end both were disabled, and were carried to the hospital on one and the same shutter.

Their ancient habits of going always together had its drawbacks when they reached man's estate and entered upon the luxury of courting. Both fell in love with the same girl. Each tried to steal clandestine interviews with her, but at the critical moment the other would always turn up. By-and-by Eng saw, with distraction, that Chang had won the girl's affections; and, from that day forth, he had to bear with the agony of being a witness to all their dainty billing and cooing. But, with a magnanimity that did him infinite credit, he succumbed to his fate, and gave countenance and encouragement to a state of things that bade fair to sunder his generous heartstrings. He sat from seven every evening until two in the morning listening to the fond foolishness of the two lovers, and to the concussion of hundreds of squandered kisses—for the privilege of sharing only one of which he would have given his right hand. But he sat patiently, and waited, and gaped, and yawned, and stretched, and longed for two o'clock to come. And he took long walks with the lovers on moonlight evenings — sometimes traversing ten miles, notwithstanding he was usually suffering from rheumatism. He is an inveterate smoker; but he could not smoke on these occasions, because the young lady was painfully sensitive to the smell of tobacco. Eng cordially wanted them married, and done with it; but, although Chang often asked the momentous question, the young lady could not gather sufficient courage to answer it while Eng was by. However, on one occasion, after having walked some sixteen miles, and sat up till nearly daylight, Eng dropped asleep, from sheer exhaustion, and then the question was asked and answered. The lovers were married. All acquainted with the circumstances applauded the noble brother-in-law. His unwavering faithfulness was the theme of every tongue. He had staid by them all [through their long and arduous courtship; and when at last they were married, he lifted his hands above their heads, and said with impressive unction, "Bless ye, my children, I will never desert ye!" and he kept his word. Magnanimity like this is all too rare in this cold world.

By-and-bye Eng fell in love with his sister-in-law's sister, and married her, and since that day they have all lived together, night and day, in an exceeding sociability which is touching and beautiful to behold, and is a scathing rebuke to our boasted civilization.

The sympathy existing between these two brothers is so close and so refined that the feelings, the impulses, the emotions of the one are instantly experienced by the other. When one is sick, the other is sick; when one feels pain, the other feels it; when one is angered, the other's temper takes fire. We have already seen with what happy facility they both fell in love with the same girl. Now, Chang is bitterly opposed to all forms of intemperance, on principle; but Eng is the reverse—for, while these men's feelings and emotions are so closely wedded, their reasoning faculties are unfettered; their *thoughts* are free.

Chang belongs to the Good Templars, and is a hard-working and enthusiastic supporter of all temperance reforms. But, to his bitter distress, every now and then Eng gets drunk, and, of course, that makes Chang drunk too. This unfortunate thing has been a great sorrow to Chang, for it almost destroys his usefulness in his favorite field of effort. As sure as he is to head a great temperance procession Eng ranges up alongside of him, prompt to the minute and drunk as a lord; but yet no more dismally and hopelessly drunk than his brother who has not tasted a drop. And so the two begin to hoot and yell, and throw mud and bricks at the Good Templars; and, of course, they break up the procession. It would be manifestly wrong to punish Chang for what Eng does, and, therefore, the Good Templars accept the untoward situation, and suffer in silence and sorrow.

They have officially and deliberately examined into the matter, and find Chang blameless. They have taken the two brothers and filled Chang full of brown water and sugar and Eng full of whiskey, and in twenty-five minutes it was not possible to tell which was the drunkest. Both were as drunk as loons—and on hot whiskey punches, by the rmell of their breath. Yet all the while Chang's moral principles were unsullied, his conscience clear; and so all just men were forced to confess that he was not morally, but only physically drunk. By every right and by every moral evidence the man was strictly sober; and, therefore it caused his friends all the more anguish to see him shake hands with the pump and try to wind his watch with the nightkey.

There is a moral in these solemn warnings—or, at least, a warning in these solemn morals; one or the other. No matter, it is somehow. Let us heed it; let us profit by it.

I could say more of an instructive nature about these interesting beings, but let what I have written suffice.

Having forgotten to mention it sooner, I will remark, in conclusion, that the ages of the Siamese Twins are respectively fifty-one and fifty three years.
—*Packard's Monthly for August.*

—The loss by the Texas flood is estimated at twenty thousand bales of cotton.

Chicago has already forgotten the recent flood, is dusty, and prays for rain.

—A dutiful son in California has had his father arrested for profanity.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the United States Patent Office, Washington, under the Act of 1837,
No. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,
After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents or inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of patents furnished by remitting dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his extensive practice, *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in saying to inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in form to secure them the early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending*. Such unquestionable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

Your House.

Be true to yourself at the start, young man,
Be true to yourself and God;
Ere you build your house mark well the spot,
Test all the ground, and build you not
On the sand or the shaking sod.

Dig, dig the foundation deep, young man,
Plant firmly the outer wall;
Let the props be strong and the roof be high,
Like an open turret toward the sky,
Through which heaven's dews may fall.

Let this be the room of soul, young man—
When shadows shall herald care,
A chamber with never a roof or thatch
To hinder the light—or door or latch
To shut in the spirit's prayer!

Build slow and sure; 'tis for life, young man—
A life that outlives the breath;
For who shall gainsay the Holy Word?
"Their works do follow them," said the Lord,
"Therein there is no death."

Build deep and high, and broad, young man,
As the needful case demands;
Let your title-deeds be clear and bright,
Till you enter the claim to the Lord of Light.
For the "House not made with hands."

New Hampshire Items.

A. H. Rowe, from Lawrence, has received the appointment of Master of Transportation on the Dover & Winnipisaukie Railroad, in place of J. P. Coombs, resigned. The Dover Enquirer says Mr. Rowe appears to be a very energetic business man, and no doubt will perform the duties of his position in a most acceptable manner to the public.

Mr. Ezra Harthan, a well known citizen of Great Falls, received a severe paralytic shock on Monday last.

A man calling himself alternately Morgan and S. A. Andrews, was in Raymond during the latter part of July, with samples of dress goods in sealed envelopes, stating that any one who would draw an envelope should have a dress of ten yards for one dollar; 25 cts. to be paid down, the remainder when the dress pattern was delivered, within a week. Then he feigned to be a Doctor, and imposed upon the sick by prescribing for them. Many ladies were swindled. He was of medium height, thick set, with black hair and whiskers. Look out for him, and for all such suckers.

MOUNT DESERT.—The twin of this popular resort will soon necessitate the erection of a large hotel at Bar Harbor. Meantime "The Wayside Inn" by Capt. R. E. Higgens opens a new and welcome resting place for permanent or transient guests. Tourists should read "Caleb's Lark" in the Atlantic for last December and "Meg Megone" published by Fields, Osgood & Co., in their complete edition of Whittier's poems, for descriptions of the scenery.

—A clergyman in Iowa city preaches three times every Sunday, each time in a different locality, and during the week cultivates a farm of 160 acres.—*Exchange.*

His preaching in three *places* each Sunday, makes it possible to have only one sermon for all the three; and thus, his task of writing or other preparation, is much easier than if he preached twice or thrice per Sunday in one place. And the forming on a considerable scale, if he has help enough, need not damage his studies.

TRUTH.—George Francis Train renders a sound judgment as follows:

"Men say women can't keep a secret. It is just the reverse—women can, men can't. Women carry with them to their graves secrets that would kill any man. Woman never tells, man always does. Woman suffers and dies; man blabs and lives. Man cannot keep a secret; woman cannot make it known. What is sport to the man is death to the woman. Adam was a sneak. Eve would have kept the apple secret.

Be ye fruitful. Who ever heard a woman talking about her love fiascos? Everybody has heard a man gossip. Man delights in telling of his illicit conquests; woman would cut her tongue out first. Men are coarse in their club room talk; women refined in their parlor conversation. Who ever heard of a woman telling of her lovers? Who has not listened to the dissipation of the men? Men boast; women don't. Women never tell tales out of school; men are always babbling. So down with another old adage. Women can keep a secret."

—Mrs. Vaughn, wife of Mr. John Vaughn of Berwick, while making purchases at D. Lothrop & Co.'s Book Store in Great Falls met with a severe accident by falling through a trap-door, which had been carelessly left open, breaking two of her ribs and otherwise dangerously injuring her.

READ THIS.
A SIATIC CHOLERA IN CHINA.
Almost Every Case Cured with Pain Killer.
Dear Sirs: I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send us last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. We resorted at once to the Pain Killer using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of Pain Killer. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be indifferently received. Believe me, dear sirs, gratefully and faithfully yours,
J. M. JOHNSON, Missionary in China.
From Rev. R. Telford, Missionary in China, now visiting his home in Washington, Pa.
Dear Sirs: During a residence of some ten years as a missionary in Siam and China, I found your Pain Killer a most valuable remedy for that fearful scourage, the cholera. In administering the medicine I found it most effectual to give a teaspoonful of Pain Killer with a gill of hot water sweetened with sugar; then after about 15 minutes begin to give a tablespoonful of the same mixture every half hour until relief was obtained. Apply hot applications to the extremities. Bathe the stomach with the Pain Killer clear, and rub the limbs briskly. Of those who had the cholera, and took the medicine faithfully in the way stated above, eight out of ten recovered.
Truly yours, R. TELFORD.
It attacked with diarrhœa, dysentery or cramp colic, don't delay the use of the Pain Killer.
Beware of all imitations.
The Pain Killer is sold by all druggists.

☞ PERRY DAVIS' VEGETABLE PAIN-KILLER.—We clip the following from the Providence General Advertiser: At this season of the year, when cholera, cholera morbus, dysentery, and other kindred complaints are sure to prevail, everybody should be liberal'y supplied with the PAIN-KILLER. Persons leaving home whether it be for a day's excursion or a trip to Europe, should be in a condition to place their hands on it at a moments warning. Many diseases incident to the summer months which will prove fatal if not immediately checked, can be promptly cured by one or two doses of the Pain-Killer. On more than one occasion have we been relieved of intense suffering by the timely use of the above named preparation." Sold by all Druggists, Grocers and Medicine Dealers.

DODD'S NERVINE DID IT.
NEW LONDON, CONN., April 26, 1869.
REMEMBERED FRIEND:
I thought it well to wait another week before writing, to see if I continued to improve, as I have been doing for some time, under the treatment of the new medicine, and I am happy to tell you that I am getting better—even faster than when you were here. I commenced the use of DODD'S NERVINE without anybody advising me to it. When I began with it I could only walk from my bed to the chair. My trouble has been extreme pain in the head, and has lasted over three years. All the medicine I have heretofore taken has failed to give any relief. I am now able to go up and down stairs, and daily improving. I consider the NERVINE the best medicine I ever found, and shall continue its use, for I am confident of entire recovery. I have taken only three bottles, and would not be without it on any account. [jel5 8w] Very truly, MRS. I. S. NUTE.

MASTA'S PULMONIC BALSAM
IS A SPEEDY and certain remedy for Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Catarrh, Influenza, Hooping Cough, Asthma and the various Affections of the Lungs.
☞ The attention of those afflicted with COLDS, COUGHS, and with any disease of the lungs, is directed to this valuable remedy. On accounts of sudden changes in the weather, colds and coughs are easily taken, and if neglected may lead to disease of the lungs. What is needed under such circumstances is a reliable remedy—speedy in affording relief, and effectual in arresting further progress of the disease.
☞ To arrest the existing irritation of the air-passages and the lungs, speedily and effectually, the seat and cause of cough is an important step gained toward relief and cure in the first stages of the disease MASTA'S PULMONIC BALSAM possesses this important power, and while it promptly and effectually arrests all existing irritation, and rapidly relieves cough, it renders the lungs further relief by promoting a free discharge of the accumulated mucus in the air-passages, imparting a healthy action and vigor to the chest at the same time.
☞ Those suffering with cough and the first stages of lung disease, will therefore find in this valuable preparation a speedy and decided relief. Even those whose condition is beyond recovery, will derive from its use great benefit as well as comfort. For the class of diseases it is designed to relieve, the general commendation it has received has proved its efficacy beyond question. For the past ten years have been speedily and effectually cured by its timely use while suffering from severe colds, protracted coughs, and from other forms of lung disease. It is prepared from vegetable balsams and the medicinal properties of roots and herbs, with no minerals nor poisonous acids; simple and safe in the material used, it can be taken at any time.
Sold in Portsmouth by J. H. THACHER, and by Druggists and Dealers in medicines throughout the New England States.

TOWN TEAMS.—We call the attention of farmers to the very liberal premiums offered by the N. H. Agricultural Society for town teams for the 15th Annual Fair, to be held in Manchester from September 28 to October 1, amounting to over $200. The officers have increased the premiums from the published list, so that they stand:

For largest and best town team, not less than 10 yoke,	$100
Second best,	50
Third best,	25
To the person who shall get up and enter the team that receives the first premium,	10
Second, do do	5
Each town team attached to wagon trimmed with evergreens, fruits and flowers, accompanied with the farmers' boys and girls of the town, will receive a gratuity of	10

The largest and finest display of Oxen ever made in this State, or probably in New England, was at the Piscataqua Fair last year; and it will not be easy to excel it. This year this Piscataqua Society propose to invite teams of 10 yokes only.

WHAT MAKES COAL SO DEAR?—The Philadelphia Inquirer says Coal in Pennsylvania mines, is most abundant, but the scarcity is *artificial*, and is not caused by mine *owners*, but by the great combinations of the workmen; and their wages have been greatly increased, since April, as is proved by a table, of which we only take one or two specimens.

Miners' wages, when working by the day in April (per week)	14 00
Miners' wages, when working by the day in July (per week)	22 00
Advance per week	9 00

Miners, when cutting or mining coal, received in April ninety cents per car, making from $80 to $120 per month; in July they received for the same sized car $1.50 making from $130 to $200 per month.

The Inquirer then goes on to say:—

Not content with receiving the above advances, the miners have formed a lawless organization under the title of the "Workingmen's Beneficial Association." This body, through reckless committees, regulate the production of coal by restricting the owners and operators of the mines from getting out more than a certain number of cubic feet per day to a man, thus keeping down the supply in all the markets, and bringing about the scarcity, of which there is so much complaint.

This association has determined to advance the compensation to miners and laborers in proportion to the rise in coal. The operators in the Lehigh district have been notified that on every advance in price to the consumers, the miners' compensation must be raised fifteen per cent. on the advance, and that of the laborers or helpers, twelve and a half per cent. As the miners have it in their power to regulate the amount of coal sent to market, and as the less they permit to be sent the higher their pay—there is no prospect of having a well supplied market for a long time.

The question will be asked, Can the owners and operators of the mines do nothing to overcome the absolute power wielded by their employees? They cannot. The miners are in the majority, bold and reckless men, and if their requests are not complied with, will not only prevent by force others from woking in their places at cheaper rates, but will murder the superintendents or proprietors of collieries that have the temerity to conduct their business contrary to the expressed wishes of miners. Justice is easily set at defiance in the coal regions; the miners will not inform one against the other, even in cases of murder, much less minor acts of violence, and woe to an outsider who would attempt even to be their prosecutor in a court of law or a witness against them; his life would not be worth a day's purchase.

These desperadoes controls the might coal interests of our great State. Any not until their present brutal power id wrested from them, and their employers placed at least on an equal with them, will there be a change in the condition of the coal market. Under the present system coal will become just as dear as it pleases the miners to make it. They not only fix their rates of compensation at exorbitant figures, but mete out the exact amount of coal that shall be sent to this and other consuming centres. With a knowledge of these facts the question of 'What makes coal so dear?' is readily answered.

The handiest remedy against this evil, is for everybody who wishes to keep a fire next winter, to petition Congress to reduce the duties on Coal and Wood to a very low figure, or to make them free?

NOT SO?—The Mirror says this Chronicle "will take notice that the people of Manchester have not yet learned that the basement of the Methodist Church in that city is occupied by rum-shops." We did not investigate the matter personally, and possibly might be mistaken as to the kind of church, or even the character of the "saloons" beneath it; but there is a religious society situated over stores, isn't there? and a citizen, passing with us, said they were rum-shops, as their external appearance indicated.

BASE BALL.—The first of a series of games between the Lowell and Tri-Mountain Clubs will come off at the Union grounds, Boston, Wednesday afternoon. There is a great deal of interest in these games. The Tri-Mountains won the last series, two years ago.

☞ It is reported that Commissioner Delano has issued orders that a thorough investigation should be made into matters which look like frauds on the Internal Revenue. It is very probable that not one in ten knows the exact meaning of the law as recently passed.

☞ Western people are getting up quite a lively interest in the proposed removal of the National Capital from Washington to St. Louis. It is proposed to hold a national convention about it in St. Louis on the 13th of October.

—A dandy inquired at a fruit stall, "are those apples fit for a'hog to eat?" 'Try one and see,' said the woman. Served him right.

—Why are elections like tents? Because the canvass ends at the polls.—

☞ Salem, as the Register truly says, has become an important "scientific centre." The American Association for the Advancement of Science, appreciating this fact, will hold its meeting there this week, gathering together distinguished savans from all parts of the United States and Canada. The Peabody Academy, the earnest and enterprising Essex Institute, with its specialty of field-days, the State Normal School, and other institutions, give to the capital of old Essex a prominent place among noted municipalities, even in these bustling times; and would do so were it without its singularly rich history and traditions.—We expect a full report of the doings and sayings of the Institute, from an old and valued correspondent, Prof. Holton.

—It is forty-four years since Concord people commenced making summer excursions to Boar's Head, Hampton Beach, and they were the earliest interior folks to set the ball in motion. A few years later, Mr. William Low and his friend Mr. Obadiah Kimball, went thither for a brief stay; but a cold eastern storm came on, to their great discomfort. Mr. Low, finding no fire in rooms occupied by guests, went into the kitchen, and inquired if there was not an oven from which a batch had recently been removed, into which himself and his friend could flee? Receiving a negative answer, they took the stage for Newburyport.—*Statesman.*

Nobody receives a negative answer now, at Boar's Head, when they ask for anything to make them comfortable. Try Dumas, and see. Nothing like his arrangements were ever seen there before.

BUSINESS NOTICES.

OPOTO GRAPE CULTURE.—This country is becoming noted for the enterprise of wine growers. New Jersey particularly, where the celebrated Port Grape Wine is made purely from the grape juice. The following letter from an eminent physician who lives in sight of Speer's vineyard, will be of interest to our readers:—NEW ARRARO, Oct. 20th, 1865.

I hereby certify that Mr. A. Speer of this village has a large vineyard of choice grape vines which are looking very fine. He also purchases a great many grapes, not as yet producing as many hitherto as is required to keep his stock of wine full. He has the Port Grape, the wine of which is held in high estimation and of which he has a large quantity on hand lying in his cellars, requiring age before he disposes of it. R. A. TERHUNE, M. D.

The above wine can be procured of our Druggists. Also Speer's Sambuci Wine.

FACTS FOR THE LADIES.—I have used my Wheeler & Wilson Sewing Machine eleven years, for all sorts of family sewing, from the coarsest, even carpet-binding, to the finest worn by women, and requiring No. 300 cotton. It gives me still entire satisfaction, and I can not too highly recommend it to others as a family comfort. Solely from my appreciation of your machine above all others, I have been the means of selling more than a hundred of them.

—A want has been felt and expressed by physicians, for a safe and reliable purgative; such a want is now supplied in *Parsons' Purgative Pills.*

Officers and Soldiers who served in the Army, Physicians, Surgeons, and eminent men and women everywhere, join in recommending "Johnson's Anodyne Liniment" to be the best internal and external family medicine ever invented. That's our experience.

All the year round, "Sheridan's Cavalry Condition Powders" should be given to horses that are "kept up." To horses and cattle that graze in summer, they should only be given in Winter and Spring.

SPECIAL NOTICES.

A Life-Saving Reformation.

A radical change has been introduced in the practice of medicine. Physicians have ceased to torture and prostrate their patients. Instead of pulling down, they build up; instead of assaulting nature, they assist her. Cupping, leeching, blistering, venesection, calomel, antimony, stupifying narcotics, and rasping purgatives, once the favorite resources of the faculty, are now rarely resorted to even by the most dogmatic members of the profession. The old creed was that disease was something which must be expelled by violent artificial means, irrespective of the wear and tear of the vital organization in the process. The new creed recognizes the improvement of the general health as essential to the cure of all local ailments. Hence it is that HOSTETTER'S STOMACH BITTERS, the most potent vegetable tonic that pharmacy has ever brought to the assistance of nature in her struggles with disease, has been cordially approved by practitioners of the modern school. It is pleasant to reflect that reason and philosophy have at last been victorious over the errors of the past, and that thousands, and tens of thousands, of human beings are alive, and well, to-day, who would indubitably be mouldering in their graves had they been subjected to the pains and poisonous drugs which were dealed out by orthodox and indispensable thirty or forty years ago.

Preventive medication was scarcely thought of then; but now it is considered of paramount importance, and the celebrity of the STANDARD INVIGORANT, ALTERATIVE AND ANTIDOTE of the age, (a title which HOSTETTER'S BITTERS have fairly earned by their long career of success), is owing, due to its, efficiency as a PROTECTIVE PREPARATION.

A course of the BITTERS is urgently recommended at this season of the year, as a safe and certain antidote to the malaria which produces intermittent and remittent fevers, diarrhœa, dysentery and other maladies.

Holloway's Pills.—A WORD TO LADIES IN DELICATE HEALTH.—The combination of aperient, tonic and alterative properties in HOLLOWAY'S PILLS, renders them a particularly desirable medicine for ladies of delicate habit. Their operation is mild and certain, and in all functional difficulties their regulating and invigorating operation will be found in the highest degree beneficial. When nature deviates in any way from her healthful course they act as a swift corrective. Sold by all Druggists.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Diuretic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two active principles, extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand expert physicians

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy**, and the irregularities to which that feebler sex are subject, the Lozenge will be found infinitely more effective than any of the horrible medicinal compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried Dr. Erasmus Winslow's **Liver and Stomach Lozenge**, will ever again take a purgative powder, or draught or pill.

ALLEN'S LUNG BALSAM.

The best remedy for the cure of CONSUMPTION, and ALL DISEASES OF THE LUNGS. It causes the phlegm and matter to rise without irritating those delicate organs (the Lungs,) and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless for the most delicate child. It everywhere in good demand and gives good satisfaction.

The result of its use is proof of its great value.—Its extraordinary healing properties are experienced by all who use it. Their testimony will be found in a pamphlet, which can be had of the agents where the medicine is for sale. 425

Ellis' Iron Bitters

Will enrich the blood and prevent it from becoming watery and weak, give a healthy complexion, restore the appetite, invigorate the system, and are very palatable. These Bitters are recommended to all persons requiring a safe and valuable tonic, to impart tone and strength to the system, not given by Bitters merely stimulant in their effects; which, although they may possess tonic vegetable properties, cannot give the strength to the blood which the *Iron Bitters* will give.

ASIATIC CHOLERA.

The Strongest proof of Intrinsic Merit.

DEAR SIRS,—I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The Cholera appeared here soon after we received it. We resorted at once to the PAIN KILLER, using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, seen very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of the PAIN KILLER. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be very indifferently received.

Believe me, dear sirs, gratefully and faithfully Yours,

J. M. JOHNSON.

Missionary at Sealdah, China.

BRANDRETH'S PILLS.

They remove all bad accumulations from the bowels, and purify and invigorate the system. All whose health is not perfect, owe it to themselves to take a few doses of Brandreth's Pills, because the seeds of decay are constantly eradicated by their use, and the principle of life confirmed, thus giving a vigor of body and mind to a period when we have been used to see the faltering step and the enfeebled intellect.

General Paez, the distinguished liberator of Venezuela, says he has used them as his only medicine for thirty years, with the most satisfactory results.

For Costiveness, Dyspepsia, and as a Family medicine they are unrivalled.

Daniel I. Tenney, Esq., Astor House, New York, cured by Brandreth's Pill of Dyspepsia and Costiveness, when all other means used had failed.

A gentleman, whose father died of consumption at 36 years, was also attacked, when about 21, by the disease. He had cough, night sweats, and general debility. Doctors recommended cod liver oil, but he wasted away. At last he determined to use Brandreth's Pills. In two months they made him a sound man. jy22

PAIN KILLER.

WE beg leave to call the attention of the public to this long celebrated and unrivalled

FAMILY MEDICINE.

THE PAIN KILLER is a purely vegetable compound, and while it is a most efficient remedy for Pain, it is a perfectly safe medicine even in the most unskillful hands.

For Summer Complaint,

Or any other form of bowel disease in children or adults, it is an almost certain cure, and has without doubt been more successful in curing the various kinds of

CHOLERA,

Than any other known remedy, or even the most skillful physician. In India, Africa, and China, where this dreadful disease is ever more or less prevalent, the PAIN KILLER is considered by the natives, as well as European residents in those climates, A SURE REMEDY. jel9

SCHENCK'S PULMONIC SYRUP,

Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well.—This is the only way to cure consumption.

To these three medicines Dr. J. H. SCHENCK, of Philadelphia, owes his unrivalled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relaxe the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the bitter of the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food and make the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much: they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive power, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, if cerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient will begin to gain in flesh, and as soon as the body begins to grow the lungs commence to heal up, and the patient gets flesh and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success.

Full directions accompany each, making it not absolutely necessary to personally see Doctor SCHENCK, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, when all letters for advice must be addressed. He is also professionally at No. 32 Bond St., New York, every other Tuesday, and at No. 32 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 2 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half-dozen.—Mandrake Pills 25 cents a box. G. G. GOODWIN & CO., 38 Hanover Street, Boston, Wholesale agents. For sale by all druggists. d1yja4

LOCAL AFFAIRS.

A "WEDDING TOUR" INTERRUPTED.—Charles Ridge, vagabond, eloped from Portsmouth Almshouse about two months ago with young vagabondess of 19 summers. Ridge has a wife and family in this city and is about 60 years of age. The history of the elopers has been varied and their experience excels that of many others who have been repeatedly sentenced to the House of Correction. The happy couple went to Boston and summered somewhere near the "hub" several weeks, begging their living and living for nothing but each other. At last Boston and Boston's environs became stale, palled on their senses, and they started east, passed their forme ' biding places to the north and finally mounted the summits of Agamenticus in York. Here they represented themselves as on their bridal tour and were accommodated with lodgings by the basket-makers.

In the meantime Superintendent Haven L. Scott of the Portsmouth City Farm, and City Marshal Johnson, got clue of their whereabouts and on Sunday started for Agamenticus in a pouring rain and an open buggy. Drenched completely after their twelve mile ride and upward clambering, they were rewarded somewhat when at the summit of the mountain by finding the tourists sweetly reposing, unconscious of their dreaded pursuers. Though this out-of-the-way spot was an almost secure haven of rest, they soon found they were not to go scot free of justice, and were frankly informed that they were wanted at home by their anxious families;—so home they went, the captors and captured, a quartet as dissimilar as one could imagine. The captors experienced the rare enjoyment of perfect success over many obstacles, but declare that never before did they ever behold such a motley crowd as they met among the basket-makers and coal-kilners.

THE SUPREME COURT.—Judge Perley's term as Chief Justice, will expire by constitutional limitation in November, and among the names mentioned for appointment as Associate Judge we see that of John S. H. Frink, Esq., of this city. Mr. Frink is all that his best friends say of him. By close study and faithfulness in every case submitted to him, he has become one of the most reliable and influential of the attorneys of the Rockingham Bar, and has friends by the score in both parties who would be pleased to see him elevated to the position named, which he would honor by acceptance. Inasmuch as Mr. Frink is not a Republican in politics, however, we should regret to see him appointed to the Judgeship, if for no other reason than the well known fact that his retirement from active practice at the bar would deprive the Democratic party of this immediate vicinity of about its only honorable representative at law of experience who commands the respect which no other can obtain by cunning resorts to the lowest passions of men. By this we do not mean to pass judgment on the more youthful Democratic limbs of the law who have been admitted to the bar within the past three or four years. They have reputations to make, and we can but hope that Mr. Frink will remain as an example worthy to follow, a shining light to lead them from the arts of chicanery and low craft to the highest positions in their profession.

MASONIC.—DeWitt Clinton Commandery of Knights Templar of this city go to Centre Harbor this afternoon, taking a special train over the Concord Railroad to Newmarket Junction, at one o'clock. At Centre Harbor all the Commanderies of the State have an Encampment for three days. The De Witt Clintons take no band with them.

EARLY ROSE.—From the seed of two potatoes, both of which weighed less than a pound, Gen. Josiah G. Hadley raised this year forty-five pounds of Early Rose potatoes. The "eyes" of the seed made twenty hills, two of which did not come up, and one was dug and eaten, — the seventeen hills bearing the forty-five pounds.

☞ The fine brown horse Dr. Boardman has driven in his practice for several years, died on Saturday night, after several days' sickness. Messrs. Stoddard & Beacham also lost a good animal, at their Vaughan St. livery; and Mr. Balch another, at Rye Beach.

PROLIFIC. — Three sows (Chester Whites) belonging to Mr. Elihu Parsons of this city, recently augmented their families by producing twenty-three young swine.

☞ The Ladies of Christ Church, Exeter, will hold a Fair at Weld Hall, Rye Centre, Tuesday, Aug. 17th, The Fair will continue from 12, noon, to 10, P.M.—Admittance 25 cts.

JUST SO.—The Dover Enquirer, in an article on the Lake Shore Railroad, hits the nail squarely on the head, in referring to the bitter opposition of Coos County to this measure. It says:

"The whole secret of this northern opposition is this: The people of Coos, and especially of Lancaster, want their local road built, but have not the money to build it. Therefore they try to get it done at the expense of other roads, and they are willing to join with them in all their schemes of monopoly and consolidation, in return for promised assistance.

The building of the Lake Shore would in no wise injuriously affect Coos, but it would interfere somewhat with their allies in the centre of the State, from whom they are begging and expecting assistance. Hence they stand, highwayman-like, in the shadows of their own wilderness, and resist our progress and oppose the development of our business enterprise, until their own schemes are assured or we consent to share with them the profits of our industries.

Such sturdy beggars deserve some reward for their effrontry and pertinacity. If they would only be satisfied with moderate grants, such as are sometimes bestowed on the Pinkham and Notch roads and other poverty stricken portions of their wilderness, we could almost advocate liberal State legislation in their behalf, for we should be relieved somewhat from their persistency, and they would lay the whole State under contribution, instead of this section alone."

THE RAIN came at last—blessed, gentle showers, on Sunday — and the drought was broken. But so long had the fell spirit of dryness reigned, that the ministrations of water must now in many cases prove of no avail. Much of the grass had already gone to grass, so that the second crop will hardly be worth croping, and the hopes of fall feed have fallen low indeed. Early potatoes (pot-8-oes) have gone to pot actually, and late ones in many cases have followed them metaphorically. Apples, instead of fruit of gold, may prove to yield discontent, and pears in many cases are beyond repair. However, if the springs are once more filled, the hopes of many will spring within them; and should the wells be well suppleid, all may yet be well; while if the brooks run freely, what brooks it?

☞ The moonlight excursion, Thursday evening, in steamer Appledore, is rather a cheap arrangement, considering the low price of tickets—only $1 for the trip, for a lady and gentleman. The entertainment, however, is by no means "cheap" in another sense, as the party is to be a select one, and tickets can be had only of Capt. Baker and Mr. Edwin R. Laighton.

☞ Secretary Robeson and Vice Admiral Porter of the Navy Department left Philadelphia in the steamer Tallapoosa on Saturday for Newport, Boston and Portsmouth, where their inspection trip will close. Gen. Sherman joined them at Philadelphia, and will accompany the party in their northern tour.

☞ The Fall term of Eliot Academy commences Aug. 18th, under instruction of Mr. W. B. Bennett, late Principal of West Lebanon Academy, with Mrs. Carrie A. Bennett as Assistant.

☞ It is said that Portsmouth is to be the western terminus of the proposed German-American Atlantic Cable.

☞ The Salem Veteran Association will go into camp at the Sagamore, Sept. 7, for three days.

A PACIFIC RAILWAY

GOLD LOAN $6,500,000.

We beg leave to announce that we have accepted the agency of

KANSAS PACIFIC RAILWAY COMPANY,

For the sale of its

NEW SEVEN PER CENT.
Thirty Year Gold Loan,
Free from Tax.

This Loan amounts to $6,500,000.

First Mortgage Land-Grant and Sinking Fund Bonds,

secured upon the extension of the Railway from near Sheridan, in Kansas, to Denver, Colorado, a distance of 237 miles of which 12 miles are completed, and the rest is under construction. It is also a Mortgage upon Rolling Stock and Franchise of this first-class Railway, besides now running through the State of Kansas,

And in successful operation for 437 miles

west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides MORE THAN THE INTEREST UPON THIS NEW LOAN. In addition to this the Bonds are also secured by a first mortgage of the

GOVERNMENT LAND GRANT OF THREE MILLION ACRES,

extending in alternate sections on either side of the track, from the 394th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be invested by the Trustees in the 7 per cent Bonds, themselves up to 120 in U. S. Bonds, as A SINKING FUND FOR THE REDEMPTION OF THE BONDS.

The Lands embrace some of the finest portions of the magnificent Territory of Colorado, including a coal field and timber. The company also holds as an asset another tract of

Three Millions of Acres in the State of Kansas,

and although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and strength. We estimate the

Value of the Company's property, covered by this mortgage at $23,000,000 net, while the Loan is merely $6,500,000.

The Bonds have

THIRTY YEARS TO RUN,

from May 1, 1869, and will pay

SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are FREE FROM GOVERNMENT TAXATION, the Company paying the tax.

The principal of the Loan is made payable in Gold, in the City of New York, but each coupon will be

PAYABLE IN FRANKFORT, LONDON OR N. YORK at option of the holder, with notice, at the following rates:

On $1,000 Bond in N. Y. $35 (gold) each half year.
" London....£7 8s. 10. "
" Frankfort...87 fir. 30 krtzs., "

The Agents of the Loan, before accepting the trust feel the condition of the Road and the country through which it runs, carefully examined. They are happy to give the Loan an emphatic endorsement as a

FIRST CLASS INVESTMENT,

in every respect perfectly sure, and in some essential even

Better than Government Securities.

The Bonds will be sold for the present at

96, *and accrued Interest, both in Currency,*

the Agents reserving the right to advance the rate.

The attention of investors is invited to these well-secured bonds, which we recommend as one of the most profitable investments in the market.

Gold and Government Securities taken in payment at their market value, without commission.

THE POLICE OF IRELAND

"Rev. I. F. Holton, of South Malden Mass., considers Ireland as one of the best governed places in the world. Mr. Holton is an admirer of Major Jones, and of the State Police."—*Boston Courier.*

Messrs Editors:—Having been introduced so particularly, and so unexpectedly, to your readers, I feel called upon to show them the grounds of my opinion. I need not discuss the right of the United Kingdom to legislate for itself as a whole, or for Ireland as a part. It may be poorer or better than that of Congress to make laws for Utah, not represented in its halls. I say nothing of the manner in which the ancestors of the Marquis of Donegal, or of any other landholder in Ireland or Masschusetts, acquired the title to his land.

I have no call to justify church rates; we have to do with the administration of law only. The Irish are not loyal to the law. It is not unpopular to break the law. To shield a law-breaker is instinctive with them. A man who, when drunk, has murdered his mother will find shelter and an alibi. The witness who testifies against him will do it at the risk of his life. But the power that brings the law to bear on his case, does his best. That is what I mean by governing well.

The policeman of Ireland is appointed for life. He is selected on the same principle which the farmer uses in choosing a colt or a heifer; the young fellow must be "likely." This term in that case includes a sound constitution, intelligence and good habits. The appointment rewards nobody, lays no one under any obligation; the fellow is taken for what he is likely to do. He may be Protestant or Catholic, able or unable to read.

He is sent into barracks, drilled and taught. He learns to be jealous of the honor of his corps. His standing in it depends on his proficiency. He is set to service in some county where he has no acquaintances or relations. He never hunts or fishes, except for men. If he is able and faithful he rises; if incompetent or unworthy, he is cashiered and must seek some other employment.

It would be strange if there were no complaints of misconduct or oppression in men clothed with so much arbitrary power, but at this moment not an instance occurs to me. But complaints merely would not prove inefficiency, incompetence, unfaithfulness, nor undue severity. Every vigorous execution of law will produce complaint.

"Nor man e'er felt the halter draw,
With good opinion of the law."

The point I wished to make was this: All our suburban and rural districts are invaded by armed villains, who in all the year earn not a dollar, while they squander money like water at saloons and other places, which honest men know only by report. To break the law and to evade it is their life-study. They have each other's aid. Mere farmers and mechanics, annually elected as constables, are not the men to cope with these folks. We need a band of professional men to pervade the whole State, men selected for their skill and daring, proud of the efficiency of their corps, a terror to all who break the laws of the Commonwealth, and the protection to those who live by honest labor. It is only as I imagine, "Maj. Jones and the State police to resemble this body, that I "admire" them.

Gov. Claflin believes in Maj. Jones, of course; I believe in Gov. Claflin. And when I hear complaints, they always happen to come from people that I do not believe in. They are not, as I am, men whose families are the center of their live. For I share all my pleasures with my wife and children. I pay for no lemonade or lager which they do not help me drink. They have an equitable share of all my cigars and champagne.

And, as my money does not come quite as easily as that earned by eight hour men in the navy yard, I never buy of men who make three hundred per cent profit on their wares, or are incommoded by Maj. Jones and his men. So I do not feel the wind that tosses other men's barks so cruelly. I would like to have the police search my premises, just for the fun of the thing. Will not some one please inform against me? I live in "South Malden," you say. Who knows but they could finds "chips" or "props" in my desk?

But please excuse me if I have little sympathy with those who minister only to the grosser animal pleasures of men and impoverish their customers. If there were fewer of them the land would be happier as well as richer. And if the matter be brought to a fair vote next November, I think a large majority of the voters of Massachusetts will be found on my side. I. F. H.

NARROW ESCAPE.—Benjamin Kilburn, the Littleton Photographer, descended into Tuckerman's Ravine last Tuesday, and arranged his camera for a picture. At that instant he noticed signs of an avalanche, and stepped from beneath the snow arch just as a body of snow and ice, weighing not far from ten tons, fell, portions of which struck his assistant, neither of whom, however, was injured.—*Monitor.*

—An operation for strabismus on the eyes of a child born cross-eyed, was performed in Springfield the other day, and was perfectly successful. Among those who saw it was a child born blind, who now sees clearly in consequence of the efforts of the same surgeon.

—He is happy whose circumstances suit his temper; but he is more fortunate who can suit his temper to any circumstances.

LOVE IN THE WHITE HOUSE KITCHEN.—A Washington letter writer has heard the following romantic story associated with the Presidential term of the second Adams:

Mrs. Adams was a haughty woman, and her favorite nephew was one Ben Johnson Hellen, a law student or lawyer. Hellen going often to the White House, saw there as a domestic or servant of his aunt, a very beautiful Irish girl. Mrs. Adams suspected nothing of his susceptibility, till one Sunday night it was reported that her nephew was escorting the beautiful "Biddy" home from church. She upbraided the girl severely, who replied that she could not prevent Mr. Hellen from following her in the street.

The young man was debarred from seeing the girl for a good while, till one day she disapeared. Mr. Hellen had married her. She lived in retirement in this city many ears, and her children rank among the most excellent and reputable citizens. Of these there were half a dozen distinguished for their appearance and character. Clifton Hellen, one of them, was for a while law partner of General Thomas Ewing. One of the girls married Attorney Faut, of Richmond.

The father is dead. If living he would be a septuagenarian. I save this of Kitchen Cabinet history, and bequeath it to that promised Jenkins who shall swoop upon the old clothes of antiquity some day, and trace the holders thereof to their button-makers. Mrs. Hellen is still living in this city, a stone's throw from the general post office, and her children were brought up and splendid Unionists during the war, worthy to rank with the legitimate Adams family. Mrs. Adams never forgave her nephew for loving her housekeeper, and the event cast a shadow upon that aministration.

AVERILL CHEMICAL PAINT!

THE RIGHT THING AT LAST!

BENJAMIN NORTON,

Having been appointed Selling Agent for this City and surrounding towns, of the AVERILL CHEMICAL PAINT COMPANY, is now prepared to sell any quantity, from one pound upward, of

THE BEST PAINT!

ever offered in this city.

It is Durable, Beautiful, Water Proof, Elastic and Economical.

This Paint is all Ready for Immediate Application, and requires no oil, thinning or drying.

It is prepared in pure White and one hundred Different Shades, and is unsurpassed in all respects.

It dries with a hard, rich, glossy surface; does not run from seams or nail holes; will not chalk, crack or peel off; covers more surface with the same body, and is cheaper, more lasting, and better in every respect than any other Paint.

Many testimonials from those who have used it in other places of its superiority over other Paints might be given; but I will only invite those of this city and surrounding towns who intend using Paints, to call at the

GROCERY AND PROVISION STORE,

Nos. 16 & 18 Cabot Street,

which is the ONLY PLACE in the City where it has been used, and examine the Paint where it has been applied in ten or twelve different shades, and where they can choose any color they desire for use, outside or in, and buy from one pound upwards.

In using the Chemical Paint, there is no difficulty in making any color at any time, as all the shades are numbered, and the same number will always match.

These Paints are manufactured in New York, and Newburyport, BENJ. NORTON,
Agent for Chemical Paint Company.

Also for sale, at the same place, the Best Quality of

MEATS AND GROCERIES!

AS LOW AS CAN BE BOUGHT IN THE CITY.

AMERICAN & FOREIGN PATENTS.

R. EDDY,
SOLICITOR OF PATENTS,

Late Agent of the United States Patent Office, Washington, under the Act of 1837,

No. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents or inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twice rejected* app ications, SIXTEEN SUCCESSFUL EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man more competent and *trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

FALL RIVER LINE

FOR New York, Philadelphia, Baltimore, Washington, and all principal points West, South and South-west.

VIA TAUNTON FALL RIVER AND NEWPORT.

Cabin, $3.00; Deck, $4.00.

Baggage checked through and transferred in New York free of charge.

New York trains leave the Old Colony and Newport Railway Depot, corner of South and Kneeland Streets, daily, (Sundays excepted,) as follows: at 4.30 P. M., arriving in Newport 40 minutes in advance of the regular Steamboat Train, which leaves Boston at 5.30 P. M., connecting at Newport with the new and magnificent steamers PROVIDENCE, Capt. B. M. Simmons, and BRISTOL, Capt. Benj. Brayton. These steamers are the fastest and most reliable boats on the Sound, built expressly for speed, safety and comfort. This Line connects with all the Southern Boats and Railroad Lines from New York going West and South, and convenient to the California Steamers.

"To Shippers of Freight," this Line, with its new and extensive depot accommodations in Boston, and large pier in New York, (exclusively for the business of the Line,) is supplied with facilities for freight and passenger business which cannot be surpassed. Freight always taken at low rates, and forwarded without delay.

New York Express Freight Train leaves Boston at 1.30 P. M.; goods arrive in New York next morning about 10 A. M. Freight leaving New York reaches Boston on the following day, at 9.45 A. M.

For tickets, berths and staterooms, apply at the Company's office, No. 3 Old State House, corner of Washington and State Streets, and at Old Colony and Newport Railroad Depot, corner of South and Kneeland Streets, Boston.

☞ Sunday Night Line. ☜ Cars leave every Sunday evening, at 6.30 P. M., connecting as above.

The Office, in State House, Boston, will be open every Sunday afternoon from 2 to 6 o'clock; and at the Depot from 9 to 10 A. M., and from 5 to 6.30 P. M., for sale of tickets and staterooms.

Steamers leave New York daily, (Sundays included,) from **Pier 28 North River**, foot of Murray Street, at 5 P. M.

Mr. Samuel Morrison, one of the original settlers of "Gilmanton Hill," in Bethlehem, died on the 19th ult., aged 86 years. He removed from Gilmanton 63 years ago, and settled in the place where he died, when the surrounding country was a wilderness, the town of Littleton consisting of only eight or ten houses and one or two small shops.

Two men, named Varnum and Williams *alias* Rollins, were in the Manchester lock-up, on Sunday, accused of being thieves: but they pried open the iron door, so far at the bottom, as to slip out, and escape.

Mr. M. N. Young of Nashua, committed suicide last week; occasioned by ill health, causing mental depression.

The late rain has put a new face on vegetation, and revived the hope of good full crops.

An important meeting of the Trustees of Dartmouth College will be held in Concord on the 17th. Two new members will be elected.

Mr. William Hume, formerly employed in the Manchester Mills, died on Friday at Clinton, Mass.

On Saturday one of the Manchester city letter-carriers bore to his district, at one time, 91 pounds of mail matter, letters and papers. He found every party to whom a document was addressed.

Mr. Joseph Greeley, of Nashua, lost $110 from his pocket at the depot in Manchester on Thursday last. The Telegraph says this is the third time he has been thus victimized; first at Rutland, of $340, second at Lawrence, of $40, and now of $110, all at railroad stations.

Too Many Wives.—Luther T. Spofford, of Great Falls, formerly of Lewiston, Me., has been arrested at the latter place for being too much married. On the 13th, he was taken before Judge Daniel Hall, of Dover, for examination, and confronted by his two wives. The names of his claimants, previous to marriage, were Mrs. Huldah J. Hildreth, of Lewiston, and Miss Phebe Brickett, late of Salmon Falls, and formerly of Lewiston. Spofford was held in the sum of $1500 to answer before the Supreme Judical Court at Dover next September, and in default of bail was sent to Dover jail. He attempted suicide on the night of the 13th, but was discovered in time to save his life. Dr. Bell, the County Physician, visited him on the 14th, and at once advised his removal, as the jail is infected with vermin and in a most loathsome condition. It is said to be a disgrace to the country.—*Mirror.*

Good in Everything.—The Shaksperian maxim of "good in everything" has a new exemplification. A Mr. Calef, of Salisbury, has discovered a money value in hardhack. He find that this plant, which grows abundantly in almost every pasture, and would be considered very handsome if it were not so common, is a good substitute for sumac in the process of tanning leather. The Canaan Reporter says that a company has been formed in Boston called the Calef Tanning Association, and they have advertised for one hundred tons of hardhack. The consequence is that every boy and girl in Salisbury is at work cutting and bringing in hardhack, and some six or eight hands are busily employed in trimming and boiling down. The price paid by the company is from $8 to $30 per ton.—*Mirror.*

—A Hartford paper says: "Very few of our citizens understand the real magnitude and importance of the wool commission business of wool in Ohio is not an exaggeration. One house alone has received this season more than a million and a half pounds, which is consigned to them from New York, Michigan, Illinois, Indiana, Missouri, Texas and California. The wools, especially from Ohio, are in an unusually good condition."

— A sermon recently delivered in Reading, Pa., was from a text which the preacher found in Job, which runs as follows: "Though after my skin worms destroy this body, yet in my flesh I shall see God." This he divided into three parts, as follows:—"Fust, skin worms; second, What they done; third, What the man seen after he was eat up!"

—The Knoxville Whig predicts from returns received that the State Senate will consist of seven Senter republicans and eighteen democrats, and that the House will contain twenty Senter and Stokes republicans, the rest being democrats. A full House consists of seventy-five members.

—A boy who heard the quotation, "A little learning is a dangerous thing," wished to stop going to school because he was afraid he should not live long enough to get past the dangerous point.

READ THIS.
ASIATIC CHOLERA IN CHINA.
Almost Every Case Cured with
Pain Killer.
Dear Sirs: I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send us last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. We resorted at once to the Pain Killer using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native prescribers are never willing to go out on their excursions without a supply of Pain Killer. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be indifferently received. Believe me, dear sirs, gratefully and faithfully yours,
J. M. JOHNSON, Missionary in China.
From Rev. R. Telford, Missionary in China, now visiting his home in Washington, Pa.
Dear Sirs: During a residence of some ten years as a missionary in Siam and China, I found your Pain Killer a most valuable remedy for that fearful scourge, the cholera. In administering the medicine I found it most efficacious to give a teaspoonful of Pain Killer in a gill of hot water sweetened with sugar; then after about 15 minutes begin to give a tablespoonful of the same mixture every half hour until relief was obtained. Apply hot applications to the extremities. Bathe the stomach with the Pain Killer clear, and rub the limbs briskly. Of those who had the cholera, and took the medicine faithfully in the way stated above, eight out of ten recovered.
Truly yours, R. TELFORD.
If attacked with diarrhœa, dysentery, or cramp colic, don't delay the use of the Pain Killer.
Beware of all Imitations.
The Pain Killer is sold by all druggists.

☞ PERRY DAVIS' VEGETABLE PAIN-KILLER.—We clip the following from the Providence General Advertiser: At this season of the year, when cholera, cholera morbus, dysentery, and other kindred complaints are sure to prevail, everybody should be liberally supplied with the PAIN-KILLER. Persons leaving home whether it be for a day's excursion or a trip to Europe, should be in a condition to place their hands on it at a moments warning. Many diseases incident to the summer months which will prove fatal if not immediately checked, can be promptly cured by one or two doses of the Pain-Killer. On more than one occasion have we been relieved of intense suffering by the timely use of the above named preparation." Sold by all Druggists, Grocers and Medicine Dealers. Jy13 4w

DODD'S NERVINE DID IT.
New London, Conn., April 26, 1869.
REMEMBERED FRIEND:
I thought it well to wait another week before writing, to see if I continued to improve, as I have been doing for some time, under the treatment of the new medicine, and I am happy to tell you that I am getting better—even faster than when you were here. I commenced the use of DODD'S NERVINE without anybody advising me to it. When I began with it I could only walk from my bed to the chair. My trouble has been extreme pain in the head, and has lasted over three years. All the medicine I have heretofore taken has failed to give any relief. I am now able to go up and down stairs, and daily improving. I consider the NERVINE the best medicine I ever found, and shall continue its use, for I am confident of entire recovery. I have taken only three bottles, and would not be without it on any account. [jel5 8w] Very truly, Mrs. I. S. Nute.

MASTA'S PULMONIC BALSAM
IS A SPEEDY and certain remedy for Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Catarrh, Influenza, Hooping Cough, Asthma and the various Affections of the Lungs.
☞ The attention of those afflicted with Colds, Coughs, and with any disease of the lungs, is directed to this valuable remedy. On account of sudden changes in the weather, colds and coughs are easily taken, and if neglected may lead to disease of the lungs. What is needed under such circumstances is a reliable remedy—speedy in affording relief, and effectual in arresting further progress of the disease.
☞ To arrest the existing irritation of the air-passages and the lungs, speedily and effectually, the seat and cause of cough is an important step gained toward relief and cure in the first stages of the disease. Masta's Pulmonic Balsam possesses this important power, and while it promptly and effectually arrests all existing irritation, and rapidly relieves cough, it renders the lungs further relief by promoting a free discharge of the accumulated mucus in the air-passages, imparting a healthy action and vigor to the chest at the same time.
☞ Those suffering with cough and the first stages of lung disease, will therefore find in this valuable preparation a speedy and decided relief. Even those whose condition is beyond recovery, will derive from its use great benefit as well as comfort. For the class of diseases it is designed to relieve, the general commendation it has received has proved its efficacy beyond question. For the past ten years have been speedily and effectually cured by its timely use while suffering from severe colds, protracted coughs, and from other forms of lung disease. It is prepared from vegetable balsams and the medicinal properties of roots and herbs, with no minerals nor poisonous acids; simple and safe in the material used, it can be taken at any time.
Sold in Portsmouth by J. H. THACHER, and by Druggists and Dealers in medicines throughout the New England States.

The News.

Virginians give distressing accounts of the effects from the long drought in that State, and assert that unless they have rain soon the corn and tobacco crops will certainly be thoroughly destroyed. Letters from Georgia also represent that apprehensions of great danger to the cotton crop are felt in that State because of the long dry season.

George Peabody has given to the trustees of Washington College $60,000 to establish the additional professorship, recently proposed by its president, General Lee.

Three Americans, prisoners in Abyssinia for three years, have been released through the interference of the British government.

Cuban advices state that the Governor of Espiritu Santo has ordered a conscription in that department.

At a great Orange demonstration in Clones, Ireland, 30,000 people took part in the procession; at meetings in Thurles and Waterford resolutions have been adopted asking general amnesty for the Fenians.

Marshal McMahon will probably succeed Marshal Neil, deceased, as French Minister of War.

The steamer Hornet, an ex-blockade-runner, was captured by the revenue cutter Miami at Philadelphia, Monday, on suspicion of being about to violate the neutrality laws.

SETTLED—IS IT?—The Lowell Courier concludes that the Tennessee election "settles one thing that there is to be no more disfranchisement for having taken part in the *rebellion*. Indeed, all the laws of Tennessee on that point have been practically nullified in the election just held. It probably settles the same question for the entire South, and if *old party* lines are to be kept up, this gives the *Democrats* reasonable hope of success at another Presidential election."

The Concord Patriot copies the above and calls it "sensible." If it is sensible and *true*, then it settles another thing, namely, that the terms democrat and rebel mean the same thing, and are one and the same.—But then, it is not quite clear, that every thing is settled by this election,—or that all things will *stay* settled.

THE DEATH OF CORNELIUS GRINNELL.—A cable dispatch says that at the inquest held at Ryde, Isle of Wight, it was shown that Mr. Grinnell, in the dark, stepped out of a window which opened to the floor, supposing the balcony was there, and was precipitated to the pavement below and killed instantly.

☞ It is believed in the treasury that the recent seizures of whiskey and distilleries in Phildelphia have implicated the leading men in the whiskey ring in that city, and that prompt action by the government will nearly destroy the old ring there.

☞ The Portland Press says the Portsmouth Navy Yard "belongs to Kittery." We should judge so, too, by the number of Kittery people employed there. Still, we have always had an idea that the Navy Yard belonged to the United States. Is it possible that the United States belong to Kittery?

A DAY'S LIBERTY.—I went a few miles out of Portsmouth some days since, and was away twenty-four hours; during which time several incidents occurred to interest me, and a note of them may possibly interest some others. The first thing which attracted my attention, before getting clear of the city, was the place where the street is mended with dead hens; I observed that the fowls had been ironed out flat and smooth, and apparently made excellent wheeling.

The next thing I saw was an open door, within which was a plain counter, on which were several glasses (empty), and behind which was an assortment of bottles and a man. Another man was in front of the counter, setting forth in glowing and spirited language the vast mis deeds of the "carpet-baggers" and "niggers;" but the retrospection was too much for his sensitive nature, and just as I got abreast of the door, the afflicted man, overwhelmed with grief and overpowered with patriotism and a sense of wrong, threw himself upon the floor, lifted up his voice mightily, and wept aloud. The man behind the counter evidently considered such anguish too sacred to be gazed at by a cold-hearted public, and he prevented me from pouring the balm of consolation into the wounded spirit, by closing the door. Sounds of lamentation followed me as I moved sadly along the street towards my destination.

Arrived there, my first care was to secure rooms; so, leaving my companion in the parlor, I went boldly to the office, preceded by a mild-looking gentleman, who at once commenced to write in the register, and addressed the landlord with "I want two rooms, sir." The host remarked, enquiringly, "There are two of you, sir?" "Certainly," was the reply; "I don't want two rooms to sleep in myself." The house was pretty full, and the landlord wanted to keep a little space for some expected friends, so after a little hesitation he asked, "Would there be any great objection to your both occupying one room, sir?" "Well," was the answer, "so far as *I* am concerned, there would be none at all; but as the lady is not my wife, she might not consider it decorous." The landlord remarked "the devil—I beg your pardon—thought this gentleman (meaning me) was your companion;" and the applicant got his rooms, as did I also.

After supper I found myself in the parlor, and should have been moderately happy had there not been a singist present, too,—who soon went to the piano, and sang a mournful ballad about something which his mother did to him "when he was yet—when, he was yeh-heh-*het* er-r-r ch-*hild*." What his mother *did* do to him at that time I couldn't make out, he sang so much through his set teeth—very fierce; but I know what I *hoped* she did. My companion was silent for a short time after the melody ceased, and then pensively enquired "If I did not think suicide was ever justifiable, under any circumstances?" Fortunately the Tenore didn't favor us with anything more, and a night's rest dissipated the effect of the music.

Next morning we got a boat and went to the Appledore House, where the good dinner and pleasant ramble were matters of course; and when the steamer's whistle sounded, we moved down to the landing. Here quite a crowd had collected; among them a grave and portly gentleman of much solidity, whose foot unexpectedly went from beneath him, and who, in endeavoring to regain his balance, performed a series of most extraordinary gyrations on the platform, ending with a grand somersault into the stern of a skiff lying alongside, the force of his descent jerking the boatman, who was in the bow, several feet into the air. The dignified gentleman seemed a little confused, but was consoled by mine host of the Appledore with the assurance that the spectators were greatly edified by seeing him dancing jigs on Sabbath afternoon. I should have laughed more than I did, had I not suddenly found myself sitting on the wet boards, with my elbow stuck in a pile of seaweed and my new hat floating in the water. I tried to look as though I had done it on purpose, but fear the attempt was a failure.

On the trip home, a curly-pated young lady of six years, after trying various plans to amuse herself, struck up a decided and very animated flirtation with the steamboat captain; and about the last thing I heard as we neared the wharf, was the little lady informing an older one that "Capt. Baker didn't like the steamboat's wheel (screw), because it only had three wings; when she got a bigger one, with four wings, she'd go twice as fast." PAKEHA.

TEMPERANCE.—The Exeter News Letter assumes that the sentiments and feelings of the public must be essentially changed, before a prohibitory law can be anything but a dead letter,—unless, perchance, it may be a bill of expense to the State; and believes that twenty lectures from John B. Gough would do more good than a State Constabulary could do in a decade.

These sound like the words of a man who likes a tod himself; but be that as it may, and let Gough and others do all the good they can,—we don't see why the State should not have State officers to execute its laws,—the whole of them—the same as cities, counties, and the United States do, each for their own enactments. And many who do not support the liquor law, go in for the State Constable, as the late Gov. Andrews of Massachusetts did.

As to the efficacy or practicability of the law against rum-selling,—why not wait till all men are honest, before trying to enforce any law against stealing? It is such a bill of expense to the State, you know.

VERMONT MUSICAL JUBILEE.—Our Vermont friends, determined not to be outdone by Boston, have had the past week a grand Festival at Railroad Grove, Lyndonville which has drawn together upwards of five thousand people. Besides mammoth concerts with anvil and artillery accompaniments, a poem was given by Rev. P. B. Fisk, an address on Music by Rev. E. P. Thwing of Portland and elocutionary readings by Mr. C. D. Robinson, the celebrated elocutionist. The weather was very favorable and the exercises passed off with great satisfaction. Much credit is due to the untiring energy of Prof. C. M. Wyman and N. P. Lovering, jr. who managed the festival and secured to the thousands in attendance four days of healthful rational enjoyment.

—An Iowa paper relates that two Germans with their wives recently toiled up a high hill near Sioux City, the gentlemen gallantly carring their wives on their backs. After enjoying the scenery from the summit, they clasped each other round the waist, lay down upon the ground and rolled down the steep bank with astonishing speed and in delightful confusion to the bottom.

—Some sneak thief broke into the house of Wm. N. Butler, Esq., of Berwick, during the absence of the family to the Beach, and stole about $60 in money, two silver watches several gold rings, goldpin and knobs, pistol, &c. The rascal was apparently very deliberate in his operations, but left a set of jewelry worth about $75, probably thinking it to be worthless.

OPORTO GRAPE CULTURE.—This country is becoming noted for the enterprise of wine growers. New Jersey particularly, where the celebrated Port Grape Wine is made purely from the grape juice. The following letter from an eminent physician who lives in sight of Speer's vineyard, will be of interest to our readers: PASSAIC, Oct. 20th, 1865.

I hereby certify that Mr. A. Speer of this village has a large vineyard of choice grape vines which are looking very fine. He also purchases a great many grapes, not as yet producing many himself as is required to keep his stock of wine full. He has the Port Grape, the wine of which he held in high estimation and of which he has a large quantity on hand lying in his cellars, requiring age before he disposes of it. R. A. TERRUNE, M. D.

The above wine can be procured of our Druggists. Also Speer's Sambucci Wine.

WITH DYSPEPTICS everything is wrong. Food does not digest; sleep does not refresh; wine does not cheer; smiles do not gladden; music does not charm, nor can any other joy enter the breast of the miserable dyspeptic. New life, strength and energy will take possession of you. The damask will again bloom upon your cheek, and the lustre in your eye will again be as bright as in your healthiest, happiest and most joyous days.

Dr. Ham's Aromatic Invigorator

removes from the system the ill effects caused by the excessive use of alcoholic liquors, and effectually destroys the appetite for these stimulants. It gives tone to debilitated mucous surfaces. Effete matter is removed from the system, thereby restoring it to its normal healthful condition. As a medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

This chemical preparation has stood the test of years. A wine-glassful before eating will give a good appetite and prevent all suffering from indigestion. Ladies of weak and delicate constitutions should take the Invigorator three times a day. A wine-glassful before retiring will insure sweet and refreshing sleep. All the proprietor asks is a trial, and to induce this he has put up the Invigorator in pint bottles at 50 cents,—quarts $1.00. Principal Depot, 45 CENTRAL WHARF, BOSTON. SPECIAL NOTICES.

Let us Discuss the Great Question.

What is the most important of all earthly blessings, in the estimation of every intelligent human being?

Clearly, it is HEALTH; for soundness of body and mind is essential to the enjoyment of all the other good gifts of Providence.

How, then, shall those who possess this inestimable treasure endeavor to preserve it, and how shall those who have lost it seek to retrieve it?

These questions have been asked in all ages, but never have they been as satisfactorily responded to as the present day, and the answers which common sense, enlightened by science and experience, gives to them in the Nineteenth Century may be briefly stated thus:

To prepare the system against all influences that tend to generate disease, THERE IS NOTHING LIKE INVIGORATION.

To re-establish the health on a firm basis, when it has been lost by imprudence or any other cause the system must be simultaneously strengthened, REGULATED AND PURIFIED.

These ends can only be attained through the agency of a preparation which combines the attributes of a TONIC, A CORRECTIVE, a BLOOD DEPURENT, and an APERIENT.

All these essentials are effectually blended in HOSTETTER'S STOMACH BITTERS. They contain nothing drastic, irritating or inflamatory. The juices and extracts of sanative herbs, roots and barks are their sole medicinal ingredients, and these are rendered diffusible by combination with the spirituous essence of rye, the purest of all alcoholic stimulants.

The weak and feeble, and especially those suffering from biliousness, dyspepsia and nervousness, absolutely require the renovating aid of this powerful tonic and alterative during the heated term, and cannot prudently postpone its use for a single day. A word to the wise is sufficient. au18

Holloway's Ointment and Pills.—When a sore, or ulcer, or abscess, has become chronically seated in the leg it is considered very difficult to eradicate. Hospital treatment rarely accomplishes a cure in these cases; yet, there never was a case discharged as "incurable" from a public institution, which HOLLOWAY'S OINTMENT might not have healed if applied according to the directions. As chronic ulceration implies a taint in the blood, it may be as well to take a dose of Holloway's Pills now and then to purify that fluid. Sold by all Druggists. au18

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary syrup, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S
LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that the chemistry has produced. It combines two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and more than its curative virtues, to supersede and banish from general use, the nauseous pills and portions of which that dangerous article is the main ingredient. More than **One thousand experiments**

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy**, and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitely more efficacious than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopoeia.

☞ It is guaranteed that no one who has once tried Dr. ERASMUS WINSLOW'S **Liver and Stomach Lozenge**, will ever again take a purgative powder, or draught or pill.

ALLEN'S LUNG BALSAM.

The best remedy for the cure of CONSUMPTION, and ALL DISEASES OF THE LUNGS. It causes the phlegm and matter to be raised and relieves the tightness in the chest (the Lungs,) and without producing constipation of the bowels. It also gives strength to the system, stops night sweats, and changes all the morbid secretions to a healthy state.

It contains no opium in any form. It is perfectly harmless for the most delicate child. It is everywhere in good demand and gives good satisfaction.

The result of its use is proof of its great value.—Its extraordinary healing properties are experienced by all who use it. Their testimony will be found in a pamphlet, which can be had of the agent, who will supply the medicine for sale. 6m25

Ellis' Iron Bitters

Will enrich the blood and prevent it from becoming watery and weak, give a healthy complexion, restore the appetite, invigorate the system, and are very palatable. These Bitters are recommended to all persons requiring a safe and valuable tonic, to impart tone and strength to the system, not given by Bitters merely stimulant in their effects; which, although they may possess tonic vegetable properties, cannot give the strength to the blood which the *Iron Bitters* will give.

IMPORTANT NOTICE.

FARMERS, FAMILIES, AND OTHERS CAN purchase no Remedy equal to Dr. Tobias' Venetian Liniment for the cure of Cholera, Diarrhœa, Dysentery, Croup, Colic, and sea sickness, taken internally—(it is perfectly harmless; see each wrapper containing each bottle), and externally for Chronic Rheumatism, Headache, Toothache, Sore Throat, Cuts, Burns, Swellings, Bruises, Mosquito Bites, Old Sores, Pains in Limbs, Back and Chest.

The Venetian Liniment was introduced in 1847, and no one who has used it but continues to do so, many stating, if it was Ten Dollars a Bottle they would not be without it. Thousands of Certificates can be seen at the Depot, speaking of its wonderful curative properties. Price, 50 cents per large bottle. ASIATIC CHOLERA.

The Strongest proof of Intrinsic Merit.

DEAR SIRS,—I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The Cholera appeared here soon after we received it. We resorted at once to the PAIN KILLER, using as directed for Cholera. A list was kept of all to whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, seen very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of the PAIN KILLER. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be very indifferently received.

Believe me, dear sirs, gratefully and faithfully
Yours, J. M. JOHNSON.

GRANT & PROSPERITY.

Business revives under the new regime. Other than general causes have, however, given a tremendous impetus to the sale of

Cristadoro's Excelsior Hair Dye.

The chemists have come out in two leading scientific journals against the use of "injurious *poisons for the head* (for that is their proper designation,) with which the country is infested, while Dr. Ottton, the first analytical chemist in America, announces to the world that

CRISTADORO'S DYE IS UTTERLY POISONLESS,

and that he *knows it to be so*, because he has analyzed it.

CRISTADORO'S HAIR PRESERVATIVE, as a Dress'ng, acts like a charm on the Hair after Dyeing. Try it. 2jy23

BRANDRETH'S PILLS.

They remove all bad accumulations from the bowels, and purify and invigorate the system. All whose health is not perfect, owe it to themselves to take a few doses of Brandreth's Pills, because the seeds of decay are constantly eradicated by their use, and the principle of life confirmed, thus giving a vigor of body and mind to a period when we have been used to see the faltering step and the enfeebled intellect.

General Pass, the distinguished liberator of Venezuela, says he has used Brandreth as his only medicine for thirty years, with the most satisfactory results.

For Biliousness, Dyspepsia, and as a Family medicine they are unrivalled.

Daniel I. Tenney, Esq., Astor House, New York, cured by Brandreth's Pill of Dyspepsia and Costiveness, when all other means had failed.

A gentleman, whose father died of consumption at 36 years, was also attacked, at about 21, by the disease. He had cough, night sweats, and general debility. Doctors recommended cod liver oil. He did so, wasted away. At last he determined to use Brandreth's Pills. In two months they made him a sound man. 1jy22

PAIN KILLER.

WE beg leave to call the attention of the public to this highly celebrated and unrivalled

FAMILY MEDICINE.

The PAIN KILLER is a purely vegetable compound, and while it is a most efficient remedy for Pain, it is a perfectly safe medicine even in the most unskillful hands.

For Summer Complaint,

Or any other form of bowel disease in children or adults, it is an almost certain cure, and has without doubt been more successful in curing the various kinds of

CHOLERA,

Than any other known remedy, or even the most skillful physician. In India, Africa, and China, where this dreadful disease is ever more or less prevalent, the PAIN KILLER is considered by the natives, as well as European residents in those climates, jel9

A SURE REMEDY.

SCHENCK'S PULMONIC SYRUP,

Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the heart outgrows the disease and gets well,—This is the only way to cure consumption.

To these three medicines Dr. J. H. SCHENCK, of Philadelphia, owes his unrivalled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a cough will throw it out, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstruction, causing a healthy flow of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented to take calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the functions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, to heal the lungs, when they do they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and are breaking. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, they will bring a healthy action to the stomach, patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no wasting disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable results.

Full directions accompany each, making it not absolutely necessary to personally see Doctor SCHENCK, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed, or he can be seen professionally at No. 32 Bond St., New York, every other Tuesday, and at No. 26 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half-dozen.—Mandrake Pills 25 cents a box. G. O. GOODWIN & CO., 38 Hanover Street, Boston, Wholesale agents. For sale by all druggists. d1yja4

DENTAL NOTICE.

69 Congress Street, Portsmouth.

DR. GOODALL takes pleasure in announcing that he is prepared to offer Success in the INVENTION of a SPRING PLATE for PARTIAL SETS OF TEETH. The Plate does NOT COVER THE ROOF OF THE MOUTH, is very small and light, has no clasps, in short, it does not *impede speech* or taste, and is altogether the most satisfactory method of inserting Partial Dentures. Scores of references in this city, and patients from Boston, New York and Philadelphia have given their unqualified approval of this *useful invention*.

He has purchased a patent right for LOADING lower sets of teeth, thereby making them much more serviceable and comfortable, and they will remain in place, even when the ridge of the lower jaw is very flat.

He is using the Pack Ridge in upper sets with the most satisfactory results. He has also a new way of *repairing rubber work, just discovered*, which will require only one hour in the majority of cases, and the work will be warranted strong and neat.

He is also administering ETHER, and preparing the mouth for artificial teeth, nearly every day, and often three times a day, extracting from 1 to 30 teeth at one visit, with entire FREEDOM FROM PAIN, and with happy results. He has made this department of dentistry more particularly a specialty, and is confident his large and continued success will warrant him in promising, (With his present facilities and improvements in mounting artificial dentures,) all work at the shortest notice, and in the **Best and Most Approved Style of the Art.**

All operations in Dentistry performed at the LOWER RATES, and payment is expected as soon as the operation is completed, all work being warranted.

Refers with pleasure to the leading Physicians of Portsmouth and citizens generally.

U. S. COMMISSIONER'S COURT.—Roderick W. Turner of New Bedford, and Robert Shorter (both colored) had their third hearing before U. S. Commissioner Hackett, Tuesday, in answer to a charge made by U. S. Detective Kent, for stealing diamonds, jewelry and $800 in gold from the Surgeon of the U. S. S. Pawnee, while at sea. U. S. Dist. Att'y Rolfe appeared for the Government, and Chas. Cowley, Esq., of Boston, and Wm. H. Robinson, Esq., (colored) of New Bedford, for the defendants. A great many witnesses were examined, and the case was argued at length and with much force, after which Commissioner Hackett rendered his decision, which was that the defendants be held to answer at the U. S. Circuit Court to be holden at Exeter on the 8th of October next. Shorter's bail was placed at $1000, and Turner's at $500. In default of bail both parties were remanded to jail.

While the Pawnee was in New York, the detectives there were engaged to ferret out this robbery, but failed; and Detective Kent and Marshal Johnson and his Assistants are entitled to much credit for their successful investigation of the case thus far.

For the Chronicle.

THE PORTSMOUTH AQUEDUCT COMPANY.—*Messrs. Editors:* — It appears from a late report in your paper of the proceedings of the Board of Aldermen, that the above named Corporation have applied for a reduction of one-half their taxes; and given as a reason, that they have never divided more than twenty per cent. per annum upon the par value of their stock—admitting that they always do that, and thinking that this deduction should be made because this moderate dividend is not made on the market value of their stock, say $300 or $400. And this proposal appears to have been gravely discussed!

Have they not just *doubled* their rates to every household? Have they not forfeited their charter, by not furnishing *half* a supply for long periods, during the last half-dozen years? Even after the outlay they make so much talk about, is the supply adequate, or anything like it? Have not enterprising citizens gone to Manchester, to prosecute business, because water was cheaper, and *to be had?* Would not our steam fire engines exhaust the aqueduct reservoirs in a very short time? Is not the level to which the water flows very much lower than formerly?

In short, is it not time, Messrs. Editors, that the people of this city were taking means to secure what we can't have any increase of business or population without, and that is, an *abundant* supply of WATER?

☞ The financial editor of the Bennington Banner reports marriages dull; engagements depressed; courtships good and prime; scandal overstocked; belles, plenty; beaux, scarce and of poor quality. The market is about ditto here, and we must add, that while the girls are super extra, the beaux are mostly put on the market in a damaged condition, body affected with tobacco or rum—often both. Nevertheless they are quick at stiff prices in exchange, and the buyer often gets sold as well.

☞ A tender-hearted gentleman in Philadelphia is saving up the accounts of cruelty to soldiers and sailors, and intends to present them to Congress at the next session and ask its interference. So says an exchange: and it is devoutly to be wished that the laws regulating merit and service, should be so amended, as to benefit the sailor and the ship owner.

☞ A New York paper says that a general Court Martial has been ordered in the case of Capt. John M. B. Clitz and Lieut. Commander Henry B. Seely, late of the U. S. S. Pawnee. The Court of Inquiry lately convened at this Yard probably recommended such a course.

THAT MOONLIGHT EXCURSION to-morrow (Thursday) evening, in steamer Appledore, will be successful, we should judge, by the applications already made for tickets. Capt. Baker should have a rousing benefit.

☞ We hear that the U. S. S. Gettysburg is ordered to this Naval Station, where her crew will be transferred to other vessels or discharged, and the vessel repaired.

☞ The Masonic Knights Templar started off for their three days' camp at Centre Harbor, Tuesday afternoon, by special train to Newmarket Junction.

☞ A cold easterly storm set in on Sunday—but almost anything is better than the late parching and pinching drought—except for the Beach people.

PUBLICATION OF THE LAWS.—At a meeting of the Pennsylvania Editorial Convention, at Harrisburg, a resolution recommending the passage of an act authorizing the publication of general laws in the newspapers of the State, and the publication of local laws in the counties or districts to which they specially apply, was reported by the business committee. They estimated that if but two papers in each county were selected, the cost would be $500 for each newspaper, or $70,000; while if each of four hundred and fifty newspapers charged the sum of $300, the aggregate would be $135,000. And even if the money thus expended reached the largest sum named, the Commonwealth would be the gainer. It is important that the people should be well informed in regard to the nature of the new laws passed, so that if they are good and useful, they may be promptly and cheerfully obeyed; and if they are bad or unnecessary, that they may be repealed. * * * *

While we believe that a full equivalent would be rendered, directly or indirectly, by the newspaper publishers, if they made the proposed publication; the incidental encouragement which an average sum of one thousand dollars per annum to each county, would give to the struggling country editors, would in many instances, be usefully and worthily bestowed. The promotion of education is properly considered a legitimate object of State expenditure; and if it is right to devote five or six millions per annum to the enlightenment of the minors, there could be no great harm in spending seventy or one hundred thousand dollars to instruct adults in regard to the laws passed, or, if you will, to help encourage and sustain the newspapers of the State. Years ago, Thomas Jefferson saw the importance of extending to them the incidental assistance granted by the Post Office Department, in carrying exchange papers free of postage; and instead of this principle being ever questioned since, it has been enlarged and extended in more recent times, by the free carriage in the mails, of all newspapers within the limits of the counties where they are printed.—*Phila. Printers' Circular.*

And yet—and yet—we hesitate to say it—there was found in the New Hampshire Legislature, several years ago, a member, (whose name we are glad not to know) so small and so mean, as to take away from the very few Daily papers in the State, the very small pittance allowed them for publishing the Laws annually, with the weekly papers. No paper asks or expects aid from this State, however. And when it was proposed at the late session, to cease this injustice—which affects far more the readers than the publishers of the daily papers—shades of Daniel Fowle! shall it be told, that of all the House, the member alone from lower Clamshell Corner, and who lives under the shadow of Fowle's first office, should be found to raise his voice against the trifling appropriation? Out upon him, for a short-sighted, narrow-minded old granny—unfit to misrepresent any decent district in any live body. F.
